atomic structure, matter, atoms, atomic theory, introduction to atomic structure

Explore the fundamental principles of atomic structure and its significance in understanding matter. This introduction delves into the basic concepts of atoms, their components, and how they form the building blocks of everything around us, providing a foundational understanding for further studies in chemistry and physics.

The Prophecy of Isaiah

Recipient of a Christianity Today 1994 Critics Choice Award Among Old Testament prophetic books no other equals Isaiah's brilliance of style and metaphor, its arresting vision of the Holy One of Israel and its kaleidoscopic vision of God's future restoration of Israel and the world. Now, after over three decades of studying and teaching Isaiah, Alec Motyer presents a wealth of commentary and perspective on this book. His emphasis is on the grammatical, historical, structural, literary and theological dimensions of the text. Though based on the Hebrew text, his exposition easily accomodates readers without a working knowledge of biblical Hebrew. And he writes with an interest in Isaiah's meaning for Christians today. Along the historical timeline on which the Isaianic prophecies are strung, Motyer finds three central and recurring themes: the messianic hope, the motif of the city and the theology of the Holy One of Israel. Moreover, he argues, the Isaianic literature is organized around three messianic portraits: the King (Isaiah 1-37), the Servant (Isaiah 38-55) and the Anointed Conqueror (Isaiah 56-66). Preachers, teachers and serious Bible students of all types will find this commentary a wise, winsome and welcome guide to the prophecy of Isaiah. It may easily be the best one-volume evangelical commentary on Isaiah available today.

Introduction to Instrumentation and Measurements

Knowledge of instrumentation is critical in light of the highly sensitive and precise requirements of modern processes and systems. Rapid development in instrumentation technology coupled with the adoption of new standards makes a firm, up-to-date foundation of knowledge more important than ever in most science and engineering fields. Understanding this, Robert B. Northrop produced the best-selling Introduction to Instrumentation and Measurements in 1997. The second edition continues to provide in-depth coverage of a wide array of modern instrumentation and measurement topics, updated to reflect advances in the field. See What's New in the Second Edition: Anderson Current Loop technology Design of optical polarimeters and their applications Photonic measurements with

photomultipliers and channel-plate photon sensors Sensing of gas-phase analytes (electronic "noses") Using the Sagnac effect to measure vehicle angular velocity Micromachined, vibrating mass, and vibrating disk rate gyros Analysis of the Humphrey air jet gyro Micromachined IC accelerometers GPS and modifications made to improve accuracy Substance detection using photons Sections on dithering, delta-sigma ADCs, data acquisition cards, the USB, and virtual instruments and PXI systems Based on Northrop's 40 years of experience, Introduction to Instrumentation and Measurements, Second Edition is unequalled in its depth and breadth of coverage.

If you're passionate about eating well, you couldn't ask for a better travel companion than Alexander Lobrano's charming, friendly, and authoritative *Hungry for Paris*, the fully revised and updated guide to this renowned culinary scene. Having written about Paris for almost every major food and travel magazine since moving there in 1986, Lobrano shares his personal selection of the city's best restaurants, from bistros featuring the hottest young chefs to the secret spots Parisians love. In lively prose that is not only informative but a pleasure to read, Lobrano reveals the ambience, clientele, history, and most delicious dishes of each establishment—alongside helpful maps and beautiful photographs that will surely whet your appetite for Paris. Praise for *Hungry for Paris* “*Hungry for Paris* is required reading and features [Alexander Lobrano's] favorite 109 restaurants reviewed in a fun and witty way. . . . A native of Boston, Lobrano moved to Paris in 1986 and never looked back. He served as the European correspondent for *Gourmet* from 1999 until it closed in 2009 (also known as the greatest job ever that will never be a job again). . . . He also updates his website frequently with restaurant reviews, all letter graded.”—*Food Republic* “Written with . . . flair and . . . acerbity is the new, second edition of Alexander Lobrano's *Hungry for Paris*, which includes rigorous reviews of what the author considers to be the city's 109 best restaurants [and] a helpful list of famous Parisian restaurants to be avoided.”—*The Wall Street Journal* “A wonderful guide to eating in Paris.”—Alice Waters “Nobody else has such an intimate knowledge of what is going on in the Paris food world right this minute. Happily, Alexander Lobrano has written it all down in this wonderful book.”—Ruth Reichl “Delightful . . . the sort of guide you read before you go to Paris—to get in the mood and pick up a few tips, a little style.”—*Los Angeles Times* “No one is ‘on the ground’ in Paris more than Alec Lobrano. . . . This book will certainly make you hungry for Paris. But even if you aren't in Paris, his tales of French dining will seduce you into feeling like you are here, sitting in your favorite bistro or sharing a carafe of wine with a witty friend at a neighborhood hotspot.”—David Lebovitz, author of *The Sweet Life in Paris* “*Hungry for Paris* is like a cozy bistro on a chilly day: It makes you feel welcome.”—*The Washington Post* “This book will make readers more than merely hungry for the culinary riches of Paris; it will make them ravenous for a dining companion with Monsieur Lobrano's particular warmth, wry charm, and refreshingly pure joie de vivre.”—Julia Glass “[Lobrano is] a wonderful man and writer who might know more about Paris restaurants than any other person I've ever met.”—Elissa Altman, author of *Poor Man's Feast*

Hungry for Paris (second edition)

THE SUNDAY TIMES NUMBER ONE BESTSELLING MEMOIR OF SPY-WRITING LEGEND JOHN LE CARRÉ 'As recognizable a writer as Dickens or Austen' Financial Times From his years serving in British Intelligence during the Cold War to a career as a writer, John le Carré has lived a unique life. In this, his first memoir, le Carré is as funny as he is incisive - reading into the events he witnesses the same moral ambiguity with which he imbues his novels. Whether he's interviewing a German terrorist in her desert prison or watching Alec Guinness preparing for his role as George Smiley, this book invites us to think anew about events and people we believed we understood. Best of all, le Carré gives us a glimpse of a writer's journey over more than six decades, and his own hunt for the human spark that has given so much life and heart to his fictional characters. 'No other writer has charted - pitilessly for politicians but thrillingly for readers - the public and secret histories of his times' Guardian 'When I was under house arrest I was helped by the books of John le Carré . . . These were the journeys that made me feel that I was not really cut off from the rest of humankind' Aung San Suu Kyi

Alec Forbes of Howglen

“We're here as a terrorist cell looking to bring down the Board of Officials that essentially controls the entire Human Race. Those on Earth may have their own figures of authority in the Spheres but whether they ultimately live or die depends on decisions that the Board make. If we take them down then Humanity after they're gone can only be better” At the dawn of the 22nd Century, the Earth is dead. A lethal alien organism has rendered the planet uninhabitable and a small fraction of humanity has retreated to Space and the Moon. Those that remain on Earth are trapped in huge Spheres that

encompass entire cities, tinted to defend against the deadly UV radiation that the atmosphere no longer protects Humanity from. 17-year-old Alec Corbett lives aboard the adapted International Space Station. One ordinary day in his mundane life he transforms his potential when he discovers information that could expose the corruption of the Board of Officials that now controls humanity. Armed with nothing but knowledge and his friend Jonah Jones by his side, Alec's righteous judgement leads them on a merciless and unforgiving path. For there is one key problem – the information comes from his father Landon Corbett; a member of the Board. Pitted against his own flesh and blood, Alec finds himself in a unique position to end the Board of Officials' dictatorship over Humanity. However, all is not as it seems and as the stakes grow increasingly higher, Humanity reaches the brink of all-out-war. Only Alec and his group of friends can peacefully negate the situation, but it all depends on whether or not anyone will listen to a 17-year-old boy.

The Pigeon Tunnel

Natsu Brat. Imp. Runt. Punk. Threatening to whoop my ass. Spanking me on the butt. Manhandling me. These are some of the things Alec calls me and does to me. He's my trauma, and there is no way I will be enduring more of these silly torments from him. Now that we are under the same roof, can't we just get along and live in harmony? The only thing is, when I offer a peace treaty, he does a one-eighty and tells me he likes me. Ha-ha! Yeah, right. Like I'm going to believe that shit. I just know it's another of his games, one I want no part in. But why is it that whenever he kisses me, my world bursts into bright neon color? Why can't I stop thinking about him? Or, heaven forbid, want him to do me? Am I really falling for Alec like his master plan? Fuck! I'm scared, and I don't know what to do. Alec Alec has never liked Natsu, the middle triplet everyone seems to adore. He thinks the brat is an airhead and a crybaby, and everything he does irritates him. Now that they are living together, that irritation becomes more prominent since the boy keeps climbing into his bed, butt naked no less. Yes, he's fucking cute with a pretty face and a body any girl or gay man would want to chow down on, but Alec is not into boys like Natsu. Or is he? Because the mere sight of Natsu shirtless is turning him on, and when he realizes every one of his past girlfriends has a trace of Natsu, he knows he's been lying to himself all along. He likes Natsu and proving that to the minx is harder than he thought. Natsu and Alec is a contemporary mm romance and contains bickering, light bullying, and steamy scenes. Natsu and Alec is a standalone novel and is part of the Love at Sunshine Café Series. Books in the Love @ Sunshine Café Series 1: Natsu and Alec 2: Aki and Edwin (coming soon) 3: Yuki and Landon (coming soon)

When the World Ends...

When tragedy unites Daniel Clayton with his estranged granddaughter, Elizabeth, he struggles to make up for lost time . . . and pass on his legacy.

Natsu and Alec

Can the magic of the Christmas season lead to a fairy tale happy ending? When Cara Roberts' family plans an extra special Christmas to support her after her broken engagement, she wants nothing to do with the holiday. After learning her brother and his wife can't use the cottage vacation they purchased, she impulsively escapes to an English cottage in the bucolic village of Bakewell, despite having no idea where Bakewell is. Lord Alec Sherbourne of Langley Park is no fan of Christmas, but following in his parents' footsteps, he annually donates his impressive 19th century country home to be decorated and opened on December weekends as a community fundraiser. This year, Christmas is complicated by the arrival of a pretty American woman who booked a cottage on his estate—only the cottage is occupied. Forced to take her under his vast roof, he's dismayed when a storm and frozen pipes keep her with him longer than he'd anticipated. Even more worrisome, her presence is making it feel like Christmas for the first time in forever. As these two holiday housemates become friends, is there something more in the Christmas air?

The Farrier's Legacy

The power of love and the strength of women working together are proved once again. When Rose Macklin is asked to help Alec Thurston, the one man she's ever truly loved, by coming to Palm Desert, California, she doesn't hesitate. He's dying of cancer and needs her help overseeing the sale of his hotel, the Desert Sage Inn, to another hotel group. With her marketing skill and as the owner of a very successful blog, she's his perfect choice to make the sale a smooth transition while ensuring the new owners will maintain the reputation and image of the upscale property after the sale. She arrives to find

Alec has summoned two other women to help with the project. Lily Weaver was once Alec's assistant, and Willow Sanchez was like a daughter to him. They join forces to help him, lovingly accepting his nickname for them—the Desert Flowers, similar to the well-known Charlie's Angels of TV fame. When Rose is assigned to work alongside Hank Bowers, an independent consultant to the hotel company's team, she shudders at his reputation as an outgoing guy who always uses sports analogies and is certain they won't get along. But Alec counsels her to give Hank a chance and, later, as they work together as a team, Rose is left to wonder if falling for one another is part of Alec's secret plan even if one of Hank's grown daughters fights the idea. A series for those who love stories about strong women facing challenges and finding love and happiness along the way. Be sure to read the other upcoming books in the Desert Sage Inn series: Lily, Willow, and Mistletoe and Holly Other series written by Judith Keim are receiving a lot of love: the Hartwell Women Series, The Beach House Hotel Series, the Fat Fridays series, the Salty Key Inn Series, the Chandler Hill Inn series, and the books in the Seashell Cottage Collection.

Once Upon a Christmas

Rural Hampshire in England is the setting for several murders in the week prior to the public auction of a seventeenth century cottage. Chief Inspector Alec Wood of the Hampshire CID is convinced that the deaths and the auction are linked. A former colleague, now a private investigator, plus London's Metropolitan CID, team up with him.

Le débat sur l'éthique dans les organisations et les dilemmes soulevés prennent de plus en plus d'importance dans le domaine du travail. Comment, au quotidien, les acteurs syndicaux et patronaux jonglent-ils avec les problèmes éthiques qu'ils rencontrent ? Quels types de comportements sont attendus des travailleurs qui s'investissent dans une démarche éthique ? Quelles sont les conséquences des décisions non éthiques prises dans les organisations ? Sanctionner les conduites non éthiques suffit-il ? Doit-on chercher à aller au-delà de la sanction et du droit ? Comment engager son organisation dans une démarche éthique positive et responsable ? Telles sont quelques-unes des questions qui ont été abordées à ce 60e congrès annuel des relations industrielles.

The Early Years of Alec Waugh

A torrid summer romance between a Parisian debutant and a Boulder, Colorado grad ends in heart-break until they meet twenty-two years later for a final chance to reignite an unforgettable love.

In the Thick of It: The Private Diaries of a Minister

Janie Nolan's future had never been more uncertain, she was just learning to live with the loss of her mother from cancer, she suddenly finds herself jobless after an unexpected diagnosis with autism at the age of fifty-five. The thought of moving back to her childhood home in the idyllic town of Cape May, New Jersey to assess her future is a daunting proposal. It is in that sleepy shore town that she must reconnect with her abusive father.... Now ailing, he has handed over control of the family business, a failing small theater, as a possible means for a fresh start. However, Janie is uncertain as to what his true motives might be. Alec Ryan, a handsome, former intern of her father's and now a successful Broadway producer and director arrives from New York carrying his own tumultuous past with plans to assist Janie in restoring the theater to its former glory. Along the way, Alec discovers qualities in Janie that prove she is more than just her diagnosis and resolves to help restore Janie as well, simultaneously putting his own demons to rest and learning to love again. But when the small town gossip mill begins to buzz about Alec and a piece of jewelry left by her mother is revealed, Janie learns of a secret that may take things in another direction could change the course of her life forever.

Fantastical Realities

The exciting adventures of a boy and his pet...werewolf! When his big, hairy hound turns into a boy, Nat discovers he's caught up in a weird government conspiracy to train wolverines as weapons! With his big snaggle teeth, patchy black fur, and glowing golden eyes, Woody is far from the cutest of dogs, yet Nat is strangely drawn to the rough mutt that howls at the moon. And before long Nat discovers that Woody's not a dog at all—he's a wolverine: a shape-shifter who changes from wolf to boy without much warning. A secret government agency knows about Woody's mutant status, too, and wants to trap him and turn him into a hairy new breed of bioweapon. To escape capture, and to make sense of Woody's strange identity, the two friends—boy and werewolf—set off on a great adventure.

Rules of Engagement

An amusing contemporary saga set in South East London. Settlers Court, once an up market London mansion, has become a crumbling block and its eclectic group of residents are at odds with each other. But everything changes when a new couple moves in. As friendships flourish, Settlers Court is restored to its former glory and its residents' lives are transformed – but not necessarily for the better when the wheeling and dealings of certain people create havoc for all.

Wolverine:

"An excellent read, fun, confounding, and even appetizing, thanks to the heroic culinary artistry of Nora Berry, proprietor of the campus café/bookshop 'Leaves of Grass,' and amateur sleuth."—Joni Pacie, author of *Murder by the Mob* Nora Berry's sleepy little college town woke up with a start when Santa was found belly up with a hypodermic needle spiked in his arm. Nora's young nephew, Chief Detective Michael Valenti, is new to the job but not to the town and he already had his hands full with a student's death that possessed curious implications. Were these fatalities actually murders? Meanwhile, this pristine town is suddenly overwhelmed by a synthetic drug problem that is also wreaking havoc in the university community. But it isn't until a beautiful co-ed winds up strangled in a room over the music store that things start falling into place.

Round the Back

He's hunting an assassin—and his sweetheart is the top suspect in this "exciting spy caper and a beautifully nuanced romance" from the USA Today–bestselling author (Fresh Fiction). Whether as spies or lovers, the Renegade Royals—illegitimate sons of England's Royal Princes—are bold, skillful, and a force to be reckoned with . . . A war hero returned from Waterloo should be able to indulge in a bit of bad behavior. Instead, Captain William Endicott is summoned by his father, the Duke of York, to investigate an assassination plot. The unlikely suspect: William's former sweetheart. Will can't believe that innocent Evie Whitney could be mixed up in anything so nefarious. Then again, almost everything about Evie has changed—except for his body's instinctive response to hers . . . Just as Evie's life is finally coming together, Will saunters back into it. Should she slap him—or seduce him? Even as she tries to decide, scandal pushes her toward marriage with a man she can neither trust nor resist—and into the heart of a deadly conspiracy . . . Praise for Vanessa Kelly's Renegade Royals series "Will definitely resonate with fans of Mary Jo Putney and Joanna Bourne." —Booklist "Kelly combines diverting dialogue, delightful surprises and finely tuned pacing to make this a winner." —Publishers Weekly, starred review

The Quiver

Cancer Genomics addresses how recent technological advances in genomics are shaping how we diagnose and treat cancer. Built on the historical context of cancer genetics over the past 30 years, the book provides a snapshot of the current issues and state-of-the-art technologies used in cancer genomics. Subsequent chapters highlight how these approaches have informed our understanding of hereditary cancer syndromes and the diagnosis, treatment and outcome in a variety of adult and pediatric solid tumors and hematologic malignancies. The dramatic increase in cancer genomics research and ever-increasing availability of genomic testing are not without significant ethical issues, which are addressed in the context of the return of research results and the legal considerations

underlying the commercialization of genomic discoveries. Finally, the book concludes with "Future Directions"

Now in a significantly revised sixth edition with 70% new material, this comprehensive handbook has introduced tens of thousands of practitioners and students to the leading forms of couple therapy practiced today. Prominent experts present effective ways to reduce couple distress, improve overall relationship satisfaction, and address specific relational or individual problems. Chapters on major approaches follow a consistent format to help readers easily grasp each model's history, theoretical underpinnings, evidence base, and clinical techniques. Chapters on applications provide practical guidance for working with particular populations (such as stepfamily couples and LGBT couples) and clinical problems (such as intimate partner violence, infidelity, and various psychological disorders). Instructive case examples are woven throughout. New to This Edition *Chapters on additional clinical approaches: acceptance and commitment therapy, mentalization-based therapy, intergenerational therapy, socioculturally attuned therapy, and the therapeutic palette approach. *Chapters on sexuality, older adult couples, and parents of youth with disruptive behavior problems. *Chapters on assessment and common factors in couple therapy. *Chapters on cutting-edge special topics: relationship enhancement, telehealth interventions, and ethical issues in couple therapy.

How to Plan a Wedding for a Royal Spy

For his twenty-fifth birthday, Alec Savage gets the gift of a lifetime -- the chance to meet his father for the very first time. What he finds upon his arrival in Washington, DC, however, is not what he expects. A smashed window. An empty house. A scrawled note with his name and a phone number on it. Panicked, he dials the number and talks to an uncle he never knew he had, one who insists Alec is in danger if he stays in the house. That's when everything starts to get weird. Within minutes, he's teleported all the way to nowhere Montana, in the company of the most gorgeous guy he's ever seen, hearing about how he's the latest mage in the Savage line. Alec doesn't want to believe Rowan Bouchard, but it's hard to argue with the reality of his new snowbound location or the confirmation from the uncle who greets him. He even thinks staying on the estate while they hunt for his dad won't be so bad if he's got Rowan as eye candy. Except Rowan is more than that. He's a shifter, the most beautiful black panther Alec could imagine. And according to his Uncle Martin, he's now Alec's familiar too ...

Cancer Genomics

An amusing contemporary saga set in South East London and Edinburgh. Settlers Court is thriving and so are its residents, both old and new. New blood brings fun, joy, intrigue and romance until Albert shows up. The boy genius has a great brain but a mouth with a life of its own. He is soon adopted by the residents as one of their own and then the serious fun begins.

Clinical Handbook of Couple Therapy

A master of seduction... seduced by an innocent... Vowing never to fall prey to something as foolish and impractical as love, the sinfully handsome Duke of Worthe has long been regarded as one of London's most profligate rakes. However, entering into a scandalous liaison with the sister of his closest friend is not something even he would consider, despite her breathtaking allure and his fierce, overwhelming desire to possess her. Or so he thought... Raised by four doting older brothers and possessing a reckless streak as bold as her fiery red curls, Scarlett McPhearson has long been accustomed to getting what she wants. After becoming acquainted with Alec Weston, the most sought-after bachelor in England, she discovers something she wants more than anything she has ever wanted before, to capture the heart of the man she has come to adore. Willingly surrendering her innocence to a man who offers her passion beyond her wildest dreams, but no false promises of happily ever after, Scarlett will risk pain, sorrow and devastating heartache to win his everlasting love...

Savage Estate

A historical novel based on a true story of the Jacobite rebellion, from "a writer who has a special feeling for the dramatic" (Chicago Tribune). This fiercely beautiful novel tells the true story of Charles Radcliffe, a Catholic nobleman who joined the short-lived Jacobite rebellion of 1715, and of Jenny, his daughter by a secret marriage. Set in the Northumbrian wilds, teeming London, and colonial Virginia—where

Jenny eventually settled on the estate of the famous William Byrd of Westover—Jenny’s story reveals one young woman’s loyalty, passion, and courage as she struggles in a life divided between the Old World and the New. “Miss Seton’s narrative is richly buttressed with the results of scrupulous research on the personages and the period. Her sole purpose is to tell a rousing good tale plainly and simply and this she does admirably.” —New York Herald Tribune

Round of Change

A “fascinatingly readable” novel that ponders “where the personal becomes the political or if it is possible to maintain a distinction at all” (Miami Herald). In his fifty-four years in the US Senate, Kim Malone made a difference. Emulating FDR, he advocated and agitated, fighting for the ideals in which he believed. His son, Alec, however, was a different story—one Kim thinks on as he lies on his deathbed, with only the prodigal Alec for company. Eschewing his congressional heritage for a career as a newspaper photographer and distancing himself even further from politics by refusing to cover the Vietnam War, Alec has seemed to live a never-ending series of misadventures, complete with a failed marriage and a floundering vocation. So when his long-absent father-in-law, an antifascist commando from Czechoslovakia, appears on his doorstep, Alec finds himself confronting uncomfortable truths about his life, his choices, and the pasts of those surrounding him. Ward Just has been praised as “one of the most astute writers of American fiction,” and *Exiles in the Garden* stands as one of his most challenging, insightful, and compulsively readable works—an examination of personal morality, American politics, and the universal desires that bind us all (The New York Times Book Review).

The Hellion and The Heartbreaker

Alec Mason is a humble baker's apprentice from a simple farming village on the outskirts of Tyridan. But when he discovers an ancient artifact of immense mystical power, he becomes the target of Salin Urdrokk, the dark sorcerer who desires it. With his friends Sarah and Kraig, Alec is forced to leave the life he knows and enter a world of danger and intrigue. Joined by a mysterious hermit and a warrior they cannot entirely trust, Alec and his companions flee Salin's agents, braving the uncharted wilderness north of Tyridan. Beyond deadly forests, plains, and mountains lies the realm of Faerie, the one place Alec might find sanctuary. For in this magical realm live the Fair Folk, a long-lived, pure-hearted race of great power and wisdom. Yet even the pure of heart can be corrupted, and a dark betrayal awaits Alec in Faerie. Weakened and divided by treachery, can the Fair Folk protect Alec from Salin's terrifying wrath?

Tess of the D'Urbervilles

Two Scottish chieftains help Gillian fight for her home, her family, and her father's reputation.

Emerging Iconographies of Medieval Rome

Emerging Iconographies of Medieval Rome examines the development of Christian iconographies that had not yet established themselves as canonical images, but which were being tried out in various ways in early Christian Rome. This book focuses on four different iconographical forms that appeared in Rome during the eighth and ninth centuries: the Anastasis, the Transfiguration, the Maria Regina, and the Sickness of Hezekiah—all of which were labeled “Byzantine” by major mid-twentieth century

scholars. The trend has been to readily accede to the pronouncements of those prominent authors, subjugating these rich images to a grand narrative that privileges the East and turns Rome into an artistic backwater. In this study, Annie Montgomery Labatt reacts against traditional scholarship which presents Rome as merely an adjunct of the East. It studies medieval images with formal and stylistic analyses in combination with use of the writings of the patristics and early medieval thinkers. The experimentation and innovation in the Christian iconographies of Rome in the eighth and ninth centuries provides an affirmation of the artistic vibrancy of Rome in the period before a divided East and West. Labatt revisits and revives a lost and forgotten Rome—not as a peripheral adjunct of the East, but as a center of creativity and artistic innovation.

Pondera Antiqua Et Mediaevalia I

The Pondera Online project aims to collect and study ancient and medieval weights. It is intended to fill a gap in the collection, standardization, and processing of the archaeological data, thanks to an open access database (<https://pondera.uclouvain.be/>).

The History of Ancient Art

This comprehensive, fully illustrated Companion answers the need for an in-depth archaeology reference that provides authoritative coverage of this complex and interdisciplinary field. The work brings together the myriad strands and the great temporal and spatial breadth of the field into two thematically organized volumes. In twenty-six authoritative and clearly-written essays, this Companion explores the origins, aims, methods and problems of archaeology. Each essay is written by a scholar of international standing and illustrations complement the text.

Catalogue of the Library of the Society of Writers to the Signet. In Four Parts, with a General Index. (Rules and Regulations for the Library, Etc.)

The re-creation of classically inspired armor is invariably associated with Filippo Negroli, the most innovative and celebrated of the renowned armorers of Milan.

Catalogue of the Library of the Society of Writers to the Signet

Serves as both visual and textual record of the exhibition of the same name, surveying the art of the Middle Byzantine period from the restoration of the use of icons by the Orthodox Church in 843 to the occupation of Constantinople by the Crusader forces from the West from 1204 to 1261. Conceived as a sequel to the 1976 exhibition "Age of Spirituality," which focused on the first centuries of Byzantium. Preceding the catalogue, 17 essays treat the historical context, religious sphere, and secular courtly realm of the empire, and the interactions between Byzantium and other medieval cultures. Abundantly illustrated. Annotation copyrighted by Book News, Inc., Portland, OR

The History of Ancient Art Among the Greeks

The archaeological finds at Herculaneum and Pompeii have rendered Naples an especially rich field for the study of the history of restorations, particularly of ancient bronzes. Bringing together the research of an international group of curators, conservators, archivists, and scientists, this extensively illustrated online volume examines the evolving practice of bronze restoration in Naples and other European centers from the eighteenth century to today. Presenting the results of new investigations, this collection of essays and case studies addresses the contexts in which the restorations took place, the techniques and materials used, the role of specialists, and changing attitudes to the display of these statues. Along with a rich selection of images, these texts offer a significant contribution to the history of restoration and conservation, providing valuable information regarding the evolution of taste and museum practices at a formative stage of modern archaeology. The essays collected here were written following a series of presentations at a one-day conference, "Restoring Ancient Bronzes in the Nineteenth Century," held at the J. Paul Getty Museum on May 6, 2011. Each illustrated essay is accompanied by a separate gallery of large-format images to facilitate study and analysis. Edited by Erik Risser, associate conservator in the Department of Antiquities at the J. Paul Getty Museum, and David Saunders, assistant curator in

the Department of Antiquities at the J. Paul Getty Museum, this collection is part of the Getty's ongoing commitment to the online publication of scholarly conferences and symposia.

The History of Ancient Art

This edited collection focuses on how the ancient past of the city of Naples has been invented, shaped, transmitted, and received in literature, art, and material culture since the time of the city's foundation. Adopting a chronological approach, chapters examine important moments in Naples' reception history from the Roman period (when the city was already several centuries old) to the present day. Among the topics covered are representations of the city's early history and mythology in texts and temples of the Roman period; later uses of Roman spolia (marble sculptures and architectural elements) in Christian churches; the importance of antiquity to the rulers of the Angevin and Swabian periods; the appropriation of the city's classical heritage by Renaissance humanists; the image of the 'local' poets Virgil and Statius in later eras; humanist images of the ancient aqueducts and catacombs that ran beneath the city; representations of classical monuments in early modern city guides; images of ancient ruins in contemporary Catholic nativity scenes; and the archaeology and philosophy of the city's Metro system. Featuring contributions from an interdisciplinary range of scholars, this comprehensive volume provides a highly accessible point of entry into the vast bibliography on ancient Naples.

Universal Catalogue of Books on Art: L to Z

The refreshed insights into early-imperial Roman historiography this book offers are linked to a recent discovery. In the spring of 2014, the binders of the archive of Robert Marichal were dusted off by the ERC funded project PLATINUM (ERC-StG 2014 n°636983) in response to Tiziano Dorandi's recollections of a series of unpublished notes on Latin texts on papyrus. Among these was an in-progress edition of the Latin rolls from Herculaneum, together with Marichal's intuition that one of them had to be ascribed to a certain 'Annaeus Seneca'. PLATINUM followed the unpublished intuition by Robert Marichal as one path of investigation in its own research and work. Working on the Latin P.Herc. 1067 led to confirm Marichal's intuitions and to go beyond it: P.Herc. 1067 is the only extant direct witness to Seneca the Elder's *Historiae*. Bringing a new and important chapter of Latin literature arise out of a charred papyrus is significant. The present volume is made up of two complementary sections, each of which contains seven contributions. They are in close dialogue with each other, as looking at the same literary matter from several points of view yields undeniable advantages and represents an innovative and fruitful step in Latin literary criticism. These two sections express the two different but interlinked axes along which the contributions were developed. On one side, the focus is on the starting point of the debate, namely the discovery of the papyrus roll transmitting the *Historiae* of Seneca the Elder and how such a discovery can be integrated with prior knowledge about this historiographical work. On the other side, there is a broader view on early-imperial Roman historiography, to which the new perspectives opened by the rediscovery of Seneca the Elder's *Historiae* greatly contribute.

First Proofs of the Universal Catalogue of Books on Art

From the archaic period onwards, ancient literary authors working within a range of genres discussed and quoted a variety of inscriptions. This volume offers a wide-ranging set of perspectives on the diversity of epigraphic material present in ancient literary texts, and the variety of responses, both ancient and modern, which they can provoke.

Catalogue Or Alphabetical Index of the Astor Library

Published in conjunction with a 1995 exhibit at The Metropolitan Museum of Art in New York, this catalog features extensive explication of a relatively unknown art, focusing on problems of style, workshop techniques, the dissemination of designs, iconographic variety, the functions of the diversity of drawings, details of specific patrons and commissions, and the leading centers of Lowlands stained-glass production--Ghent, Bruges, and Leiden. Includes 455 bandw and 22 color illustrations. Annotation copyright by Book News, Inc., Portland, OR
