Healing the Present from the Past

"It is important to document the validity of past life regression therapy. Heather Rivera's research has made an important contribution to this field, and I applaud her work."-Brian L. Edith Fiore, Ph.D. (Retired Psychologist) Author of You Have Been Here Before "Dr. Heather Friedman Rivera is one of the most remarkable torch-bearers of our times, bringing light into the dark recesses of our over-soul to which we are all connected into the universal oneness, through her scholarly quantifying research on reincarnation and past-life regression. Adrian Finkelstein, MD, Former UCLA Psychiatry Professor Researcher/ Author Dr. Heather Friedman Rivera's abrupt healing following a past life regression began a quest of personal discovery and scientific investigation into past lives. When the Past Is Present

In this book, psychotherapist David Richo explores how we replay the past in our present-day relationships—and how we can free ourselves from this destructive pattern. We all have a tendency to transfer potent feelings, needs, expectations, and beliefs from childhood or from former relationships onto the people in our daily lives, whether they are our intimate partners, friends, or acquaintances. When the *Past Is Present* helps us to become more aware of the ways we slip into the past so that we can identify our emotional baggage and take steps to unpack it and put it where it belongs. Drawing on decades of experience as a psychotherapist, Richo helps readers to:

- Understand how the wounds of childhood become exposed in adult relationships—and why this is a gift
- Identify and heal the emotional wounds we carry over from the past so that they won't sabotage present-day relationships
- Recognize how strong attractions and aversions to people in the present can be signals of own own unfinished business
- Use mindfulness to stay in the present moment and cultivate authentic intimacy

Healing Your Family Patterns

International healer David Furlong explains the relevance of our ancestors to the healing process. He shows how the character and experiences of our parents, grandparents and great grandparents shape our lives in all sorts of subtle ways and stresses the importance of healing the patterns from past generations which continue to affect us today. By learning to connect with these energies from the past we can free up and balance their impact on our lives and on future generations. You will discover: *scientific findings in the studies of genetics which show that a far greater range of psychological traits are passed down through the generations than was previously acknowledged*how to set up a family tree, research your family history and draw up a genogram*a variety of exercises and healing techniques to clear and heal family patterns*rituals of forgiveness and letting go.

Past Lives - a Present Healing

A fascinating collection of actual Past Life experiences, each one dramatically illustrating how physical and emotional healing can be achieved through recollecting those past traumas. "A most riveting read!"

Past Lives Present Stories

Discover how flashes from past lives can appear as signs and synchronicities, childhood impressions, dreams and memories, even spontaneous shifts in consciousness or time. Providing time-tested exercises, *Past Lives, Present Stories* shows how to explore your past lives and use the lessons you've

learned to flourish in your present incarnation. Join author Judith Marshall as she takes you through the full range of techniques for exploring your past lives and piecing together information to help you on your path. Providing examples of her own glimpses into her past lives, Judith illustrates how illuminating and healing past-life discovery can be.

Past Lives, Present Stories

This book is to let people know that you can have happiness after a traumatic experience. You can live a healthy life. God is the answer and self motivation . These easy steps can have you on the path to a better you. Anxiety and Depression are real ,but so is healing and happiness

Don't Lose Your Present to Your Past

What do a high tech, workaholic man addicted to pornography and alcohol, a talented woman who loses her voice and struggles with intimacy in marriage, a man who is unable to be sexually faithful to his wife, and, a ten year old depressed boy have in common? Each of them is in desperate need of healing from wounds of the past. But, just what is the nature of the wound? Author Saundra Taulbee explains through actual case examples and vignettes from her own life that we are all in need of healing from wounds that begin in childhood, but, if undealt with, manifest in dysfunctions in family relationships, in marriage, in friendship, in work/career, in the way we see ourselves, and, in the way we relate to God. A quick self-assessment quiz: How many of us know how to find real peace within? Are you at peace with family, and actually love them and like to be around them especially during the holidays? How many of us experience real relationship with friends where you can be yourself and be accepted? How many of us harbor bitterness and hold grudges against a loved one for past hurts? Are you married but still alone, unable to break through walls of silence or anger? Do you know what are your life-passions; yet, you allow them to go unfulfilled? Why is that? How many of us are really using our God-given gifts and talents to reach out to other people in need, to help them be different? An honest response of that's me, to any of the above questions suggests you have a wound in need of healing that goes deep within your soul, blocking you from the life that awaits you. So, why read, *You Can't Heal a Wound by Saying It's Not There*? Because it walks us through common issues of life that show us repeating negative patterns revealing how we fail to live authentically, how we live double-lives, how we focus on self-satisfaction instead of serving others, how we rely on achievement and success to feel value, how we get caught up with excesses that take our minds off things that matter, how we struggle with addictions of all kinds that we keep secret. Told through the stories of nine real people, *You Can't Heal a Wound* helps you think through vicissitudes of your life, determine what really matters in the long run, and, begin to figure out how to use your life wounds and all to help turn others lives around. This book is for you, whether man or woman, married or single, gay or straight, skeptic or far away from God, or a follower of Jesus. Come, wherever you are on your journey, walk along with me through the pages of this book, and, dare to be different by the end of your reading! *You Can't Heal a Wound.....* is about overcoming the wounds of your past. It is a book about hope and healing and living the life you always wanted, but did not know how to find. Chapters outline common issues we struggle with, and practical solutions for recovery. The book concludes with addendum endnotes for further study and a study guide for individual or small group study.

The Healing Gift of Gratitude

What happens when psychological problems and physical symptoms stubbornly persist even with the most advanced methods of cure? This problem confounded many of psychotherapist Dr. Barbara Stone's clients, who could not shake phobias, addictions, depression, anger, pain, chronic fatigue, and

other physical conditions, no matter what they tried. Then, searching deeper realms uncovered links to traumatic past lives and to spirits of the deceased who had not been able to move into the Light because of emotional turmoil. After treating the wounds of these past lives and earthbound spirits, the presenting problems disappeared. This groundbreaking book describes these remarkable stories and the methods used to help people heal. A resource for therapists confronted with these phenomena, this book is also for anyone struggling to understand the origins of persistent patterns of blockage or disease. Best of all, it brings the remarkable breakthrough therapies of Energy Psychology to bear on this difficult area, providing an abundance of tools and techniques for resolving issues whose roots lie in realms other than the present lifetime.

Invisible Roots

Whether it's a challenging childhood, a problematic boss, or a failed relationship, we all have our baggage. Unresolved issues can manifest as pain or illness as well as blocks to personal fulfillment and accomplishment. Often, these issues are karmic carryovers from other lifetimes. It is part of our soul's mission to heal them in order to grow. In *KARMIC HEALING*, hypnotherapist Djuna Wojton outlines a four-step plan for recognizing karmic patterns to heal the body, mind, and spirit and truly live in the present. Drawing on more than twenty years of experience in past-life therapy, she provides detailed strategies for fine-tuning your psychic senses, retrieving past-life baggage, clearing karmic clutter, healing family and romantic relationships, and undertaking a spiritual makeover. Going beyond standard regression therapy, she explains how to resolve past-life issues using a variety of holistic treatments, including visualization, meditation, flower essences, yoga postures, tarot cards, collages, drawing, and more. Djuna also shares inspiring stories from her clients who have overcome addiction, physical pain, nightmares, anxiety, marital problems, and other karmic blocks. Using the techniques of karmic healing, you'll learn to recognize and overcome destructive emotional patterns and self-defeating attitudes to gain clarity, achieve goals, improve relationships, and align with your greater purpose.

Healing the Hurt

Healing imbalances in our family patterns is crucial to health and wellbeing. In this book international healer David Furlong explains the relevance of our ancestors to the healing process. He shows how the character and experiences of our parents, grandparents and great-grandparents shape our lives in all sorts of subtle ways and stress the importance of healing the patterns from past generations which continue to affect us today. By learning to connect with these energies from the past we can free up and balance their impact on our lives and of future generations.

Karmic Healing

Have you ever wondered why you instantly dislike someone upon meeting them? Have you experienced déjà vu when visiting somewhere for the first time? Have you 'always had' issues with food, or have suddenly been struck with an unexplained, un-diagnosable physical problem? These are all past life indicators; hints of connections to previous lives; the people you encountered and the accumulation of your experiences. What if by exploring those previous lives you could discover the reason you dislike that person you just met, or heal the unexplained pain, or learn just how you know your way around that town you only just arrived in? This book does just that: Eleven people shared their healing journeys of discovery; they explain the method of accessing their memories, how the emotional and sometimes physical healing occurred at a deep, spiritual level, and thus improved their lives. The author Deborah J Monshin; a professional Clinical Hypnotherapist, discusses an analysis of each experience. There is a detailed past life questionnaire and also a chapter to teach you how to discover your own past lives using traditional and more unusual methods such as self-hypnosis, dowsing and dream-programming, to safely guide you through a positive journey of self-discovery and spiritual enlightenment. It is not necessary to believe in reincarnation, but to have an open mind.

Rule Your Life

This book explains a unique way to quickly and easily alleviate your deepest worries and fears. The key to letting go of pain and suffering is to identify where the source of it lies, whether this is in your present life or a previous life. When you do this and forgive everything and everybody for whatever you have experienced, you can move on and let go. Using regression hypnosis together with a combination of other healing methods in a technique the author has termed finding the light this book will help you to understand and release negative behaviour patterns. After reading this book you will: - realise that you create your own reality and the patterns within your life - recognise that only you are able to take full responsibility for your own healing - understand that you do not need to continue to feel stuck in your present life - let go of your past by understanding that only you judge yourself, so only you can set yourself free Using the techniques described in this book, Liz Vincent has successfully cured depression, phobias, abuse, relationship problems and addictions. She can now show you how regression hypnosis can do the same for you.

A Practical Guide to Healing by Remembering Your Past and Future Lives

Talking about a problem in counseling does not always solve it. THE HEALING TIMELINE, unlike any method before it, proves to the brain that trauma and emotional distress are over. It is an accelerated path to emotional healing. With warmth and clarity, Catherine Thorpe, MA, describes THE HEALING TIMELINE through case examples and specific directions for pastors, counselors and anyone involved in the emotional healing of others. By using systematic repetitions of a timeline, comprised of real memories from a client's life, the distress associated with a memory can be resolved. The lasting outcomes from this method enable clients to think, feel and live differently in significantly less time than talk therapy alone. It is highly effective with children and adults for trauma, sexual abuse and relationship issues. THE HEALING TIMELINE is a simple, yet profound, new contribution to counseling.

Past Lives Diploma - Exploring The Past To Heal The Present

Cure a nosebleed by holding a silver quarter on the back of the neck. Treat an earache with sweet oil drops. Wear plant roots to keep from catching colds. Within many African American families, these kinds of practices continue today, woven into the fabric of black culture, often communicated through women. Such folk practices shape the concepts about healing that are diffused throughout African American communities and are expressed in myriad ways, from faith healing to making a mojo. Stephanie Y. Mitchem presents a fascinating study of African American healing. She sheds light on a variety of folk practices and traces their development from the time of slavery through the Great Migrations. She explores how they have continued into the present and their relationship with alternative medicines. Through conversations with black Americans, she demonstrates how herbs, charms, and rituals continue folk healing performances. Mitchem shows that these practices are not simply about healing; they are linked to expressions of faith, delineating aspects of a holistic epistemology and pointing to disjunctures between African American views of wellness and illness and those of the culture of institutional medicine.

Providing evidence to the validity of past lives, this self-help guide delves deeply into past life regression and offers a thorough understanding of each step of the process. Beyond Past Lives

We are all interested in knowing who we are and the purpose of our lives. Our healing gives us the opportunity to understand ourselves better and therefore achieve better health. When we take more responsibility for our healing, we can expand more our levels of knowledge and welfare. During the journey you will take upon reading my book, you will find the opportunity to share with me my sincere wishes to find a better welfare for ourselves, as human beings, and the universe in general. I was born in Surata, Colombia. I finished my medical studies at the medical school of the Universidad del Valle and University Hospital in Cali, Colombia; the Lutheran Medical Center in Cleveland; and the Charity Hospital of New Orleans, Tulane Division, where I did my specialization in obstetrics and gynecology. Through my human experience, I have been in different places and at different times, but in the deepest core of my being, there has always been a need for a better relationship with myself and with my outer world. I have always wanted to vividly live more consciously, my knowledge and my experience of holistic medicine as integral as a hologram. My relationship with nature, my sports, among others, and the need to live in a family that is increasingly healthier physically, mentally, emotionally, and spiritually as well have been the key drivers of my enigmas and dilemmas in finding my self healing. Let us create more hope.

The power of self healing

This is a book about an American woman's investigation into a past life in Egypt as Iput, daughter of the last 5th Dynasty pharaoh Unas of the Old Kingdom, and her role as an initiate of Hathor at the temple of Dendera. Sara's original fascination with Saqarra and the Pyramid Texts found in the pyramids there lead her into a fascinating discovery of a past life that also includes Sara's guide Amir and her husband Thomas. Sara finally returns to Egypt to get to the bottom of her reoccurring visions as Iput. Actual experiences in real time, as well as dreams, meditations, and visions lead Sara through this spiritual sojourn. This is a story about the healing power of forgiveness when unresolved issues from past lives bleed into the present and even the future. This is also a story of how a woman rediscovers her own lost meaning and joy through her resolve to face what is happening to her, as unusual as it is, and takes it seriously. The healing power of the ancient sites and monuments of ancient Egypt also play a role as many travelers to Egypt have similar experiences when they visit these places built on thousands of years of spiritual activity. This is also a story that points to the future and the work we are asked to take on to keep our planet safe and whole. The surprising ending and a scroll called the Book of Light that Sara dreams of hold a warning for the future about the second return of Sekhmet. This changes everything and moves Sara, Amir, and Thomas towards healing as they heal the past, and work together towards the future.

Forgive and be Free

This fascinating book by best-selling author, psychologist, and medical anthropologist Alberto Villoldo explains the practices for healing outside of ordinary time and space. It shows you how to enter the timeless now to heal events that occurred in the past, and to correct the course of destiny. Dr. Villoldo discusses ways in which you can heal yourself and your loved ones by employing intention through practices used by shamans of the Americas—which, until now, have been inaccessible to most of the world. The shamans of old called this journeying. In this book, you'll discover that you have a four-chambered heart in the same way you have a four-chambered soul. In the first chamber, you store away the memory of a wound that derailed your destiny. In the second, you keep the limiting beliefs and soul contracts that you entered into at the time of your loss. In the third, you recover the grace and trust that will make you whole again; and in the fourth, you remember the calling and mission that you choose to unfold in this lifetime. "While everyone has a future," Villoldo says, "only certain people have a destiny." This book shows you how to find and manifest yours.

BRIDGING THE GAP IN HEALTH CARE 2 – MULTIDIMENSIONAL ASSESSMENT. This book helps to integrate assessment on all levels of being multi-dimensionally from an energetic/spiritual perspective rather than focusing on integrating assessment from a more mechanical, structural perspective. A multidimensional model of assessment is discussed which can be scientifically explored and tested using the instruments of self consciousness (i.e. the mind and our inner senses). When successfully implemented these ideas should help to consciously bridge the gap between the intellect and intuition. It is a useful resource for any practitioner/healer who works with energies or anyone simply wishing to develop a deeper understanding of self. Testimonials: This book brilliantly synthesizes current understandings of what takes place during a healing session. It explains lucidly what unconsciously occurs at an energy level during healing, and provides a methodology for diagnosis and treatment using the power of the mind. Anyone who reads this book and puts into practice Paul's techniques will find their treatments will improve significantly...Geoff Charles (Remedial Massage Therapist). This book gives lots of ideas for treatment, as well as linking both the physical with the energetic, leading to a more holistic way of treatment. Very Informative...Bronwyn Butterworth (Naturopath/Massage Therapist)

Soul Journeying

Are you Living Your Life or Surviving Your Past? How a message from the other side taught me to live my life instead of just surviving it. Having experienced tragedy and pain as a young child, I knew I felt different. But I always knew I was being protected by angels. I could hear them, feel them, speak to them, and see them at an early age. As I reached my late teens, the betrayal of trust deepened. I shut out my angels, their love, my inner voices and guidance system, and made decisions based solely on pain and fear. My angels never left me, and they continued to send me love and guidance. I chose not to listen, hear, or see what they wanted me to know. After many years, I made the decision to lift the veil of pain and fear. It was a painful process I had to endure. As a result, I began experiencing increased psychic awareness beyond what I could comprehend. The journey has been amazing. Today I am clairvoyant, clairaudient, claircognizant, and clairsentient. I am a medium and a Reiki practitioner. I believe these gifts of intuition are accessible to everyone. Through love and healing, you can be assured a life of joy and complete happiness. Its time to be the person you were meant to be the person you know you can be. Its time to start making your dreams come true and living those dreams. Its time to stop surviving your past and start living your life.
