The All-Consuming Nation

"In some ways, The All Consuming Nation is an autobiography of the babyboom generation since it highlights the consumer culture and rising environmental consciousness that has been central to that generation's lived experience. That should appeal to a wide audience of regular readers. Those who are sensitive to such current issues as wealth inequality, climate change, and the environmental consequences of mass consumerism will also find the book as a way to see how we reached our contemporary crisis points and possible ways to curb current excesses. The book alternates chapters on the evolving consumer economy with chapters on environmental critiques of mass consumerism. It considers the technologies that have fuelled consumption, strategies such as planned obsolescence that sustain consumption, and the shift in retailing from brick and mortar to on-line shopping. Environmental critics have viewed every shift in patterns of increasing consumption as ultimately unsustainable. Finally, the book should serve as text for post World War II surveys in American History, Environmental History, as well as business and marketing courses"--

Ask a Manager

"I'm a HUGE fan of Alison Green's "Ask a Manager" column. This book is even better' Robert Sutton, author of The No Asshole Rule and The Asshole Survival Guide 'Ask A Manager is the book I wish I'd had in my desk drawer when I was starting out (or even, let's be honest, fifteen years in)' - Sarah Knight, New York Times bestselling author of The Life-Changing Magic of Not Giving a F*ck A witty, practical guide to navigating 200 difficult professional conversations Ten years as a workplace advice columnist has taught Alison Green that people avoid awkward conversations in the office because they don't know what to say. Thankfully, Alison does. In this incredibly helpful book, she takes on the tough discussions you may need to have during your career. You'll learn what to say when: · colleagues push their work on you - then take credit for it · you accidentally trash-talk someone in an email and hit 'reply all' · you're being micromanaged - or not being managed at all · your boss seems unhappy with your work · you got too drunk at the Christmas party With sharp, sage advice and candid letters from real-life readers, Ask a Manager will help you successfully navigate the stormy seas of office life.

Bait and Switch

The bestselling author of "Nickel and Dimed" goes back undercover to enter the world of the white-collar unemployed. As Ehrenreich discovers, there are few social supports for these newly disposable workers--and little security even for those who have jobs.

The Downsizing of America

The Downsizing of America is a fact filled investigative report telling the story of why millions of Americans are losing good jobs and why they are right to worry about the future

Working Mother

The founder and executive chairman of the World Economic Forum on how the impending technological revolution will change our lives We are on the brink of the Fourth Industrial Revolution. And this one will be unlike any other in human history. Characterized by new technologies fusing the physical, digital and biological worlds, the Fourth Industrial Revolution will impact all disciplines, economies and industries - and it will do so at an unprecedented rate. World Economic Forum data predicts that by 2025 we will see: commercial use of nanomaterials 200 times stronger than steel and a million times thinner than human hair; the first transplant of a 3D-printed liver; 10% of all cars on US roads being driverless; and much more besides. In The Fourth Industrial Revolution, Schwab outlines the key technologies driving this revolution, discusses the major impacts on governments, businesses, civil society and individuals, and offers bold ideas for what can be done to shape a better future for all.

New York Magazine

The most significant domestic issue of the 2004 elections is unemployment. The United States has lost nearly three million jobs in the last ten years, and real employment hovers around 9.1 percent. Only one political analyst foresaw the dark side of the technological revolution and understood its implications for global employment: Jeremy Rifkin. The End of Work is Jeremy Rifkin's most influential and important book. Now nearly ten years old, it has been updated for a new, post-New Economy era. Statistics and figures have been revised to take new trends into account. Rifkin offers a tough, compelling critique of the flaws in the techniques the government uses to compile employment statistics. The End of Work is the book our candidates and our country need to understand the employment challenges-and the hopes-facing us in the century ahead.

Billboard

Los Angeles magazine is a regional magazine of national stature. Our combination of award-winning feature writing, investigative reporting, service journalism, and design covers the people, lifestyle, culture, entertainment, fashion, art and architecture, and news that define Southern California. Started in the spring of 1961, Los Angeles magazine has been addressing the needs and interests of our region for 48 years. The magazine continues to be the definitive resource for an affluent population that is intensely interested in a lifestyle that is uniquely Southern Californian.

New York Magazine

An award-winning sociologist reveals the unexpected link between overwork and inequality. Most Americans work too long and too hard, while others lack consistency in their hours and schedules. Work hours declined for a century through hard-fought labor-movement victories, but they've increased significantly since the seventies. *Worked Over* traces the varied reasons why our lives became tethered to a new rhythm of work, and describes how we might gain a greater say over our labor time -- and build a more just society in the process. Popular discussions typically focus on overworked professionals. But as Jamie K. McCallum demonstrates, from Amazon warehouses to Rust Belt factories to California's gig economy, it's the hours of low-wage workers that are the most volatile and precarious -- and the most subject to crises. What's needed is not individual solutions but collective struggle, and throughout *Worked Over* McCallum recounts the inspiring stories of those battling today's capitalism to win back control of their time.

LIFE

Go beyond your fear of rejection to develop confidence, compassionate self-awareness, and resilience! Do you have a fear of rejection? If so, you aren't alone. But if you have difficulty bouncing back after rejection, experience intense pain as a result, or if the fear of rejection is so crippling that it interferes with your everyday life, it's time to make a change. This groundbreaking guide can help. With this book, you'll learn why you fear rejection by gaining an understanding of your unique attachment style. Secure attachment is defined as a feeling of being protected and well-cared for. People who experience secure attachment as young children are more likely to be happy, healthy, and resilient adults. On the other hand, insecurely attached people are less likely to cope well with rejection, and may have trouble "bouncing back" after difficult experiences. Once you understand how your attachment style has informed your fears, you can begin the work needed to overcome them! Using the theory of attachment, and the five domains of awareness: Sensations, Thoughts, Emotions, Actions, and Mentalizing (STEAM), you'll learn to relate to yourself and to others in more positive ways, even when difficult situations arise. So, whether you experience rejection in a romantic relationship, at work, or with friends, you'll have the resilience needed to recover quickly and focus on what makes you special and unique. This isn't a book that promises to protect you from future rejection. Unfortunately, rejection happens to everyone and is a normal part of life. But you will learn skills to handle this rejection and come to see it as less scary. With this view, you'll gain confidence, self-awareness, and the resilience needed to bounce back, even when life throws you a curveball.

Time

The New York Times bestseller from CNN Political Commentator and 2020 former Democratic presidential candidate Andrew Yang, this thought-provoking and prescient call-to-action outlines the urgent

steps America must take, including Universal Basic Income (UBI), to stabilize our economy amid rapid technological change and automation. The shift toward automation is about to create a tsunami of unemployment. Not in the distant future--now. One recent estimate predicts 45 million American workers will lose their jobs within the next twelve years--jobs that won't be replaced. In a future marked by restlessness and chronic unemployment, what will happen to American society? In *The War on Normal People*, Andrew Yang paints a dire portrait of the American economy. Rapidly advancing technologies like artificial intelligence, robotics and automation software are making millions of Americans' livelihoods irrelevant. The consequences of these trends are already being felt across our communities in the form of political unrest, drug use, and other social ills. The future looks dire-but is it unavoidable? In *The War on Normal People*, Yang imagines a different future--one in which having a job is distinct from the capacity to prosper and seek fulfillment. At this vision's core is Universal Basic Income, the concept of providing all citizens with a guaranteed income--and one that is rapidly gaining popularity among forward-thinking politicians and economists. Yang proposes that UBI is an essential step toward a new, more durable kind of economy, one he calls "human capitalism."

Los Angeles Magazine

Backpacker brings the outdoors straight to the reader's doorstep, inspiring and enabling them to go more places and enjoy nature more often. The authority on active adventure, Backpacker is the world's first GPS-enabled magazine, and the only magazine whose editors personally test the hiking trails, camping gear, and survival tips they publish. Backpacker's Editors' Choice Awards, an industry honor recognizing design, feature and product innovation, has become the gold standard against which all other outdoor-industry awards are measured.

Worked Over

What happens when Americans lose their jobs? In *American Made*, an illuminating story of ruin and reinvention, Pulitzer Prize-winning journalist Farah Stockman gives an up-close look at the profound role work plays in our sense of identity and belonging, as she follows three workers whose lives unravel when the factory they have dedicated so much to closes down. "With humor, breathtaking honesty, and a historian's satellite view, *American Made* illuminates the fault lines ripping America apart."—Beth Macy, author of *Factory Man* and *Dopesick* Shannon, Wally, and John built their lives around their place of work. Shannon, a white single mother, became the first woman to run the dangerous furnaces at the Rexnord manufacturing plant in Indianapolis, Indiana, and was proud of producing one of the world's top brands of steel bearings. Wally, a black man known for his initiative and kindness, was promoted to chairman of efficiency, one of the most coveted posts on the factory floor, and dreamed of starting his own barbecue business one day. John, a white machine operator, came from a multigenerational union family and clashed with a work environment that was increasingly hostile to organized labor. The Rexnord factory had served as one of the economic engines for the surrounding community. When it closed, hundreds of people lost their jobs. What had life been like for Shannon, Wally, and John, before the plant shut down? And what became of them after the jobs moved to Mexico and Texas? *American Made* is the story of a community struggling to reinvent itself. It is also a story about race, class, and American values, and how jobs serve as a bedrock of people's lives and drive powerful social justice movements. This revealing book shines a light on a crucial political moment, when joblessness and anxiety about the future of work have made themselves heard at a national level. Most of all, *American Made* is a story about people: who we consider to be one of us and how the dignity of work lies at the heart of who we are.

Bouncing Back from Rejection

"This book documents the decline of white-working class lives over the last half-century and examines the social and economic forces that have slowly made these lives more difficult. Case and Deaton argue that market and political power in the United States have moved away from labor towards capital--as unions have weakened and politics have become more favorable to business, corporations have become more powerful. Consolidation in some American industries, healthcare especially, has brought an increase in monopoly power in some product markets so that it is possible for firms to raise prices above what they would be in a freely competitive market. This, the authors argue, is a major cause of wage stagnation among working-class Americans and has played a substantial role in the increase in deaths of despair. [The authors] offer a way forward, including ideas that, even in our current political situation, may be feasible and improve lives"--

The War on Normal People

From bestselling writer David Graeber—"a master of opening up thought and stimulating debate" (Slate)—a powerful argument against the rise of meaningless, unfulfilling jobs...and their consequences. Does your job make a meaningful contribution to the world? In the spring of 2013, David Graeber asked this question in a playful, provocative essay titled "On the Phenomenon of Bullshit Jobs." It went viral. After one million online views in seventeen different languages, people all over the world are still debating the answer. There are hordes of people—HR consultants, communication coordinators, telemarketing researchers, corporate lawyers—whose jobs are useless, and, tragically, they know it. These people are caught in bullshit jobs. Graeber explores one of society's most vexing and deeply felt concerns, indicting among other villains a particular strain of finance capitalism that betrays ideals shared by thinkers ranging from Keynes to Lincoln. "Clever and charismatic" (The New Yorker), Bullshit Jobs gives individuals, corporations, and societies permission to undergo a shift in values, placing creative and caring work at the center of our culture. This book is for everyone who wants to turn their vocation back into an avocation and "a thought-provoking examination of our working lives" (Financial Times).

Backpacker

A compassionate, shame-free guide for your darkest days "A one-of-a-kind book . . . to read for yourself or give to a struggling friend or loved one without the fear that depression and suicidal thoughts will be minimized, medicalized or over-spiritualized."—Kay Warren, cofounder of Saddleback Church What happens when loving Jesus doesn't cure you of depression, anxiety, or suicidal thoughts? You might be crushed by shame over your mental illness, only to be told by well-meaning Christians to "choose joy" and "pray more." So you beg God to take away the pain, but nothing eases the ache inside. As darkness lingers and color drains from your world, you're left wondering if God has abandoned you. You just want a way out. But there's hope. In *I Love Jesus, But I Want to Die*, Sarah J. Robinson offers a healthy, practical, and shame-free guide for Christians struggling with mental illness. With unflinching honesty, Sarah shares her story of battling depression and fighting to stay alive despite toxic theology that made her afraid to seek help outside the church. Pairing her own story with scriptural insights, mental health research, and simple practices, Sarah helps you reconnect with the God who is present in our deepest anguish and discover that you are worth everything it takes to get better. Beautifully written and full of hard-won wisdom, *I Love Jesus, But I Want to Die* offers a path toward a rich, hope-filled life in Christ, even when healing doesn't look like what you expect.

American Made

The inspiration for Chloé Zhao's 2020 Golden Lion award-winning film starring Frances McDormand. "People who thought the 2008 financial collapse was over a long time ago need to meet the people Jessica Bruder got to know in this scorching, beautifully written, vivid, disturbing (and occasionally wryly funny) book." —Rebecca Solnit From the beet fields of North Dakota to the campgrounds of California to Amazon's CamperForce program in Texas, employers have discovered a new, low-cost labor pool, made up largely of transient older adults. These invisible casualties of the Great Recession have taken to the road by the tens of thousands in RVs and modified vans, forming a growing community of nomads. *Nomadland* tells a revelatory tale of the dark underbelly of the American economy—one which foreshadows the precarious future that may await many more of us. At the same time, it celebrates the exceptional resilience and creativity of these Americans who have given up ordinary rootedness to survive, but have not given up hope.

Portland Transcript

The Financial Crisis Inquiry Report, published by the U.S. Government and the Financial Crisis Inquiry Commission in early 2011, is the official government report on the United States financial collapse and the review of major financial institutions that bankrupted and failed, or would have without help from the government. The commission and the report were implemented after Congress passed an act in 2009 to review and prevent fraudulent activity. The report details, among other things, the periods before, during, and after the crisis, what led up to it, and analyses of subprime mortgage lending, credit expansion and banking policies, the collapse of companies like Fannie Mae and Freddie Mac, and the federal bailouts of Lehman and AIG. It also discusses the aftermath of the fallout and our current state. This report should be of interest to anyone concerned about the financial situation in the U.S. and around the world. THE FINANCIAL CRISIS INQUIRY COMMISSION is an independent, bi-partisan, government-appointed panel of 10 people that was created to "examine the causes, domestic and global, of the current financial and economic crisis in the United States." It was established as part of the Fraud Enforcement and Recovery Act of 2009. The commission consisted of private citizens with expertise in economics and finance, banking, housing, market regulation, and consumer protection. They examined and reported on "the collapse of major financial institutions that failed or would have failed if not for exceptional assistance from the government." News Dissector DANNY SCHECHTER is a journalist, blogger and filmmaker. He has been reporting on economic crises since the 1980's when he was with ABC News. His film *In Debt We Trust* warned of the economic meltdown in 2006. He has since written three books on the subject including *Plunder: Investigating Our Economic Calamity* (Cosimo Books, 2008), and *The Crime Of Our Time: Why Wall Street Is Not Too Big to Jail* (Disinfo Books, 2011), a companion to his latest film *Plunder The Crime Of Our Time*.
