Cost Accounting Quiz PDF: Questions and Answers Download | BBA MBA Accounting Quizzes Book

Pauline Weetman's innovative new text expertly guides students over the stepping stones of management accounting and provides a solid foundation across first and second levels as a basis for further specialist study. The text is clear and well structured and brings an imaginative approach to student learning with its emphasis throughout on allowing students to practice the application of theory. Key features include: comprehensive coverage of management accounting topics; provides a number of unique case studies complete with innovative ideas for interactive teaching sessions, as well as engaging real-life commentaries; excellent business focus shows students how management accounting techniques can be applied in real business situations; relevant research is explained in outline to link teaching to current developments; extensive coverage of service and not for profit sectors as well as manufacturing. Practical and imaginative pedagogy includes group discussions and activities; a management accounting consultant, which helps bring topics alive; as well as a wealth of examples, questions and problems throughout.; This work is fully supported by a comprehensive suite of student and lecturer resources, including cases with teaching notes, questions and multiple choice questions, PowerPoint slides, lecture notes, graded questions, and solutions to questions in the book. Innovative full colour design brings key issues and essential topics to life. It fully reflects CIMA terminology. "Management Accounting" aims to provide continuity of study over first and second levels in specialist accounting programmes while preserving the generality of coverage that is suitable for business studies degrees. The text is also suitable for professional courses where management accounting is introduced for the first time. Pauline Weetman BA, BSc (Econ), PhD, CA, FRSE, is Professor of Accounting at the University of Strathclyde, and has extensive experience of teaching at undergraduate and postgraduate level, with previous chairs held at Stirling and Heriot-Watt Universities. She received the Distinguished Academic Award of the British Accounting Association in 2005. She has convened the examining board of the Institute of Chartered Accountants of Scotland and was formerly Director of Research at ICAS

Management Accounting

A Textbook of Cost and Management Accounting provides the students with thorough grounding in cost concepts, cost behaviour and methods, and techniques of cost and management accounting with an understanding of the uses and limitations of cost and financial data for managerial operations. The text of the subject matter has been presented in a student-friendly, simple and intelligible manner. Every discussion involving conceptual complexity is immediately illustrated by a numerical example. In addition, the book contains a liberal sprinkling of charts and diagrams so as to make the subject easily understandable and highlight its finer points. The subject matter has been organized on 'first things first' basis for its logical presentation that sustains interest. The approach of the book is examination oriented. Thus, a good number of problems and solutions have been included in its chapters. Theoretical and numerical questions have been mostly selected from various examinations. Objective type questions have been given to serve as self-test by students. This is an ideal book for self-study. An all-inclusive, ideal book for self-study, both for the students of Cost and Management Accounting as well as working professionals.
