The 5th and final volume in a masterwork for students of herbalism and practicing herbalists Herbal Formularies for Health Professionals is a five-volume set that serves as a comprehensive, practical reference manual for herbalists, physicians, nurses, and allied health professionals. Dr. Jill Stansbury draws on her decades of clinical experience and her extensive research to provide an unparalleled range of herbal formulas. Organized by body system, each volume includes hundreds of formulas to treat common health conditions, as well as formulas that address specific energetic or symptomatic presentations. For each formula, Dr. Stansbury briefly explains how the selected herbs address the specific condition. Sidebars and user-friendly lists help readers quickly choose which herbs are best for specific presentations and detail traditional uses of both Western and traditional Asian formulas and herbs that are readily available in the United States. Volume 5 focuses on autoimmune and allergic conditions including allergic rhinitis (hay fever), asthma, hives, and food sensitivities. A chapter on ears, eyes, nose, mouth, and throat includes herbal therapies for eye infections, glaucoma, and other eye conditions; sinus infections, colds, and sore throats; and tooth decay and oral infections. A chapter on the musculoskeletal system covers common conditions such as sore muscles and bruising as well as chronic conditions such as fibromyalgia, arthritis, and osteoporosis. Each chapter includes a materia medica section that describes individual herbs with tips on their properties, modes of action, and the specific symptoms each plant best addresses. These formularies are also a tutorial for budding herbalists on the sophisticated art of fine-tuning an herbal formula for the constitution and overall health condition of an individual patient, rather than prescribing a one-size-fits-all treatment for a basic diagnosis. The text aims to teach by example, helping clinicians develop their own intuition and ability to create effective herbal formulas. Previous volumes include Digestion and Elimination (Volume 1), Circulation and Respiration (Volume 2), Endocrinology (Volume 3), and Neurology, Psychiatry, and Pain Management (Volume 4).

Egan's Fundamentals of Respiratory Care E-Book

In a compelling and comprehensive treatment of the nineteenth-century voluntary association movement, Darren Ferry situates these organizations within the much larger framework of the construction of collective liberal identities. He shows that by attempting to transcend the political, religious, class, and ethnic divisions of their constituencies, voluntary societies acted as cultural mediators in the reproduction, transmission, and contestation of liberal values throughout central Canadian society. Ferry examines a wide selection of voluntary societies - mechanics' institutes, mutual benefit organizations, agricultural associations, temperance societies, and literary and scientific associations. He reinterprets the history of these organizations in terms of their own internal tensions over liberal doctrines and the effect of social, cultural, and economic change and compares the effects of liberalism on rural and urban associations and on societies in both English and French Canada. Anchored with an array of archival documentation - minute books, lectures, associational periodicals, personal papers, pamphlets, and tracts - *Uniting in Measures of Common Good* illuminates the experience of ordinary Canadians with the voluntary association movement and as well as the relations of the movement with the larger liberal society.

A year has passed since Elliott and his wife Allison began their journey into female domination as described in Ariane Arborene's earlier novella "The Well-Disciplined Husband." But while they both love female erotic domination, Elliott's ego is becoming a problem for his pretty wife. When they go on a Lake Tahoe ski vacation with the more experienced dominant, Krystyna, and her "subbie hubbie" Glen, Allison realizes that a loving course correction is in order. It takes a lot for a loving dome such as Allison to humiliate her handsome husband. But Elliott has been resisting her loving dominance. When Elliott goes too far, Allison has no choice. It is time to make him suffer as he has never suffered before. Cuckolding a disobedient husband will bring a change in attitude. Elliott learns to respect Allison all the more for her harsh, unyielding discipline. He is humiliated. He is changed by seeing her have sex with other men. And when he is forced to clean up his wife's intimate parts after watching her sexual pleasure, his training is complete. Scenes of explicit BDSM female domination include: cuckolding; anal strap-on sex; one woman having sex with two men; cbt; caning; foot worship; pussy worship; creampie; extended bondage abandonment; spanking; female-dominant blow-job; nipple torture, and more. This is a 39,000-word novella or short novel; 145 pages long. Sexually explicit. For Adults Only. Must be 18. Downhill skiing becomes a crucial part of the story when we see Elliott try to overcome his fears and reach a new personal best on the slopes of the Lake Tahoe ski resort. Come along for a fast-paced ride down the slippery slope of a husband who has gotten too big for his britches, and the sexy, dominant wife who, as advised by the more experienced dominant, Krystyna, reduces her man to a shamed and respectful hubbie. Ariane Arborene has been publishing high-quality femdom erotica since 2010, from hard-edged explicit stories to relationship-oriented novellas. www.arianearborene.com

Femdom University

In her third book, notable FemDom author Elise Sutton strays away from the more common lifestyles of FemDom practitioners who pursue relationships based on the principals of loving female authority, and instead she takes an honest look at men who claim to be seeking "unloving female authority" at the hands of a sadistic woman. This book also takes notice of real life experiences of female sadists and the wives and significant others of masochists. Nevertheless, the primary focus of this book is the life of the man from whom the term "masochist" was coined. Many have heard of Leopold von Sacher-Masoch but few have heard his life story. With the narrative of Leopold's sexual journey as its foundation, this book examines contemporary self-described masochists who are in search of a cruel, sadistic woman. In other words, just like Leopold, these men are "Searching for Wanda".
