[#Deleuze philosophy](#) [#World Cage concept](#) [#Event theory](#) [#Performance studies](#) [#Process philosophy](#)

This explores the Deleuzian concept of the 'World Cage', viewing the world not as a static entity, but as a dynamic process shaped by continuous events and performances. It delves into the philosophical implications of this process-oriented perspective, particularly how events and artistic performances challenge or redefine the perceived boundaries of this 'cage', offering insights into performance theory and event philosophy and their impact on our understanding of reality.
