automate the review and approval of your processes

organize your spaces

show the nested subspaces

document your goals

create and delete sub spaces within that space

lay out all the components of your process

start again laying out the pieces of our process

convert them into activities underneath the appropriate milestone

create a standardized artifact

embedded this url as part of the documentation

notify the applicant

add a lot more detail about the process

insert additional information

redraw the sequence

add a couple of sub decisions

add three sub decisions

create a decision table within blueworks
create a decision table
create the table using the inputs and outputs
add another row
add additional rows
determine eligibility activity
create a new process
defined levels of approval
add launch instructions
launch this over and over again in a standardized process
add attachments
assign this to a particular user in blueworks
add another sequential task
fill in the specific information for this particular artifact
standardize across your processes
work on process improvement without interrupting your current users
define up to six different paths within a given process
creating a bottleneck
start at this decision point
start at the orientation location
move into the administrative portion of our demonstration
reset their password
remove admin rights
remove their access by clicking the archive button
export that list to a csv file
remove an attachment
add those custom fields
determine the preferences here for your entire account
turn on and off the work page
display the public bpm streams
add new spaces
set up as a new space in your existing account
create a customized help page
add your own logo
come down to the custom email notifications
export the documentation view to a word format
log in from any workstation
specify an ip range

IBM Interview Questions and TOP-SCORING ANSWERS! (IBM Job Interview TIPS!) - IBM Interview Questions and TOP-SCORING ANSWERS! (IBM Job Interview TIPS!) by CareerVidz 89,952 views 3 years ago 11 minutes, 21 seconds - IBM, INTERVIEW QUESTIONS AND ANSWERS Q1. Tell me about yourself and why you think you'll be a good fit for **IBM**,? Q2.

Intro

THIS IS WHAT I WILL COVER

Welcome to this IBM INTERVIEW training tutorial!

Q. Tell me about yourself and why you think you'll be a good fit for IBM? I have studied both the job description and the IBM work culture in detail prior to applying and I feel strongly I have the necessary qualities, skills and experience to excel here.

Q. Why IBM? I want to work at IBM because you have a strong set of values, you clearly have total commitment to not just your employees, but to your customers too.

Q. In your opinion, what are the most important qualities and traits needed to work for IBM? In my opinion, you need to be a good team worker and somebody who is able to COLLABORATE with others to achieve the commercial objectives of the organization.

Q. What's your biggest weakness? My biggest weakness is the fact I find it quite hard letting go of projects.
