bring tension into that muscle group on the inhale

using either pillows or other types of props to support

add a little bit of length to the inhale

drawing the breath into the muscles between the knees

focusing on the muscles from the knees to the hips

creating tension or just awareness in the muscles around the hips

shrug the shoulders all the way up to the ears

lifted your shoulders drawing your shoulders away from the ears

visualize the breath going from the shoulders into the heart ribcage

inhale drawing tension into the muscles between the shoulders

exhale release uncurling your fingers opening your palms

move into the muscles in the face

inhale into the muscles behind the ears

filling the torso to the bottom of the lungs

The **guided**, part of the ...

roll or hunch your shoulders a few times

slow down your breathing

relax and swell with the in-breath

creating a long thread of air with your breath

fill your lungs

relax with the long smooth out breath

breathe into all the muscles in your face

breathe all the way into the bones in your skull
imagine layers of tension drifting out from the top of your head
imagine breathing into the base of your head
breathe all the way through the back of your lungs
feel the muscles between your shoulder blades gently releasing and relaxing
rest in the stillness at the bottom of your breath
notice the stillness at the ends of the breath
bring your awareness to the movement of your ribcage
imagine all the muscles between your ribs expanding
imagine your thigh bones resting in your hip sockets
feel a wave of relaxation running from your hips
bring your awareness into your body
