Coach Your Kids for Life

Whether your family needs a complete overhaul, complex repairs, or a routine tune-up, the ground-breaking book *Coach Your Kids For Life* gives you exactly the right tools for the job.

Pro-Active Parent Coaching: Capturing the Heart of Your Child a Parent's Guide to Coaching

Do you wish your child had more confidence? Would you like to help them handle problems better at school or at home? Would you like to give your child the life skills to thrive in the face of change and challenge? Naomi Richards, the UK's leading kids coach, has been working with children and their parents for 8 years. Just as adults benefit from a life coach or a mentor at work, so too can children. By being your child's life coach you can help your child handle challenges such as making and keeping friends, dealing with bullying or peer pressure, sibling rivalry, getting homework done or dealing with a major change, such as moving schools or parents separating. In *The Parents' Toolkit* Naomi shares the key life tools she uses and teaches so that you can help your child successfully navigate childhood challenges and grow up into a happy, confident and resilient young adult. Her coaching tools include teaching your child positive self-talk, simple problem-solving techniques to encourage your child to arrive at the right solution to an issue, and specific advice for you as a parent to hone your own listening and coaching skills. Aimed at parents with children aged 5+, *The Parents' Toolkit* includes real-life examples and suggestions as to what to actually say when coaching your child. Essential advice for all parents wanting to give their children the best start in life.

The Parent's Toolkit

Coach Ricky Byrdsong was often told, "Your coaching looks like parenting," and he agreed that observation was absolutely correct. He saw his responsibilities as a coach to equip and inspire his players to achieve their dreams. The game of basketball was only a means for preparing them for a bigger and more important game -- the game of life. And the game of life, according to Byrdsong, is one that no one can afford to lose. Using basketball as his metaphor, Byrdsong presents a parenting strategy built around themes such as "Home Court Advantage," "The Dream Team -- Your Kids," "Halftime Adjustments," "Scouting the Enemy's Court," and "Rules of the Game -- Team Discipline." The message was one that he had lived with his own family, and will appeal to a broad audience of book buyers. Byrdsong had worked on the ideas for the book for three years before he was murdered by a white supremacist in a horrible twostate killing rampage. He and the Jacksons had all but three chapters finalized before his death and material to complete it remained. "This book," Dave Jackson says, "is his legacy."

Life Coaching for Kids

Parenting a teenager may be the toughest job you'll ever have, says Roger Cross. But it is also one of the most important. Research confirms that parents are still the biggest influence on their children. And the way you parent your teenager in turn influences how your teen handles issues like goals, balance, anger and failure. Drawing on more than twenty-five years of experience working with Youth For Christ and raising two teens of his own, Cross unpacks the essential characteristics of a good coach and introduces five principles that will transform your relationship with your teen. Cross shows you how to help your teenager develop goals, find balance in life, fail "forward" and cope with anger. Most importantly, he shows you how to come alongside your teenager to offer challenge, support and guidance in preparation for adult life.

Revolutionize Your Child's Life

"Go Ahead and Break Your Child's Heart" is a hard-to-love quote, much less the title of a Coach's book. Simply said, this book is designed to provide parents and leaders of student athletes with a considerable advantage as they manage their child's life in the Middle School and High School eras. The book also goes right at parents and their "new age inclination" to manage every aspect of their child's life during these developmental years. "Back Home at Last," the initial fiction story, is written in "coach talk" and it sets up the need for parents to complete, study and dive into the Learning Considerations portion of the book...where you are asked to make important decisions about your style of leadership. In "Lessons Learned," the closing fiction section, you will learn that "raising a child can be rewarding and successful." Yes, inside every good child is a great child! Coach Bob Springer has recently retired from Coaching High School football in Ohio and West Virginia school systems, just before his 69th birthday. Fresh out of Marietta College in 1964, he coached for five years before joining the Corporate World with Allstate Financial. Following his retirement in 1996 from Allstate, a return to coaching was "an automatic career decision" per Coach Springer. It was his "second time around" in the coaching ranks and for Bob it was another great learning experience. From '96 until 2011, Coach Springer was involved with State Championship teams, Coach of the Year Honors and a very haunting losing season. Coach strongly states, "he learned so much more about parents and students" his second time around as a high school coach. In Bob's view, successful parental leadership is the key to winning lives or losing lives. Coach Springer demands "parents not be managed by their children" and he alleges that far too many parents miss the target with disciplinary processes. Remainder of Biographical Information Please read the section of the book "Words from Bob Springer." This section was written before I wrote the book...to me it is the core section, and I chose it to be used as the expanded Biographical Information.

The Coaching Parent

Kids Life Coach, Zelna Zeal, sheds light on the painful issue of what it means to have a fundamental choice taken away. The choice of being a biological parent. In this eye opening snapshot of her views on life, parenting and childhood she whispers out loud the secrets which previously held her back from finding and living her purpose fully. This gripping and poignant book reveals the previously hidden story behind her lonely and challenging healing journey through being childless, depressed and labelled as mentally ill. As she travels this road, she shares the interwoven stories of other peoples' children that she had the privilege of coaching. All of them have two things in common. They rebranded their childhood by learning how to make better choices relating to the parts of their lives they were able to control. These children were also the inspiration behind Zelna finding the strength to do the same. Full of uncomfortable truths, "The Secret Parent" shows you that your real worth is derived from who you choose to be even when life has different ideas for you.

He shares memories from own childhood and how they have shaped his parenting philosophy. The book is very useful for parents, stepparents, grandparents and nannies that care for children three month old to ten-years-old. Reader's Review: The Forward Inside book Parenting: A Parent's, Grandparent's, and Coach's View offers practical advice to help parents/grandparents succeed-in helping their child develop emotionally, physically, and intellectually in relationships in life. It is a how-to book for those parents/grandparents committed to assisting their children to realize their full potential, or a reference guide for parents/grandparents who realize that raising children properly is "a work in progress." Coach Edwin has learned the lessons offered through lifelong involvement in the world of sports, academics, and recreation. Coach Edwin realized that parenting in our changing world could be hectic, like being on a treadmill that just won't stop. Parenting can increase stress levels. There's a growing need for parents to be well rounded in making parental choices in order to avoid becoming burned out, confused, and having little time for friends and other pursuits in life. Coach

Edwin realizes that many parents may also carry a tremendous burden of guilt raising their children that adds even more stress. That's no way to live! If you read and gradually implement the advice Coach Edwin is about to share, which he spells out chapter by chapter in his book, you'll not only enhance your decision making skills on parenting, you'll far exceed the results you are currently experiencing. Specifically, Coach Edwin will focus on how you can maximize your strengths in parenting, and at the same time enjoy a healthier, happier, and well-balanced lifestyle while raising your child. He also addresses selecting recreational activities for your child and who will guide your child through these recreational/ sports activities. The book will work for you because the ideas in it have worked for parents and children that Coach Edwin has interacted with and coached over the years. His wisdom has been earned by making a few mistakes, as well as by focusing on doing the things that work. Coach Edwin wants you to know that there is no magic panacea in parenting in our ever-changing world. It takes real effort and commitment to create a positive environment for raising and parenting children. It takes time to implement what you learn about positive parenting. It can be difficult to rid oneself of old habits, beliefs, and rituals. It is a goal of this book to make the information so compelling, it will galvanize the reader to make and take positive action. It is further hoped that the book marks the beginning of a new mission-one with dedication and good parenting at the core. This is an outreach opportunity designed to solidify good parenting and inspire one to positive action. Thank you, Coach Edwin. Brian C. Payne, MD

52 Parenting Principles

Courage is not a word that we normally associate with parenting.... . yet the transformation from youth to responsible adulthood and successful living would not be possible without consistent and continuous acts of bravery occurring on a regular basis. Heroic deeds do not make their appearances as shining knights on white horses. They are not "fairy tales" like decisions made for the purpose of satisfying the egos of self proclaimed dragon slayers. In fact, they are just the opposite. Real bravery is an endeavor motivated by the desire to help someone else to succeed, avoid disaster, or survive a catastrophe. Very

often it is simply doing what you know is right because it's right. The fear of something going wrong in the life of someone for whom we are responsible for can be one of the greatest burdens parents harbor. Yet without the existence of fear, courage is meaningless. It is our fears that we must own up to and ultimately defeat. Having The Courage To Love your Child, The Old School Smart Parent's Handbook is "Coach Steve Powell's gameplan for parents who want to raise"Champion Children". As a parent, this book will help you to identify your fears while coaching you to have the courage to make decisions that get positive results. In today's world, parenting can be scary. That is why "Having The Courage To Love Your Child" is a must. And you do have the courage to love your child, don't you?

Parenting is filled with lots of wonderful experiences and also with challenges, doubts and uncertainties about the approaches to take with your kids. If you are like I was decades ago when my kids were young, you wonder what your kids will turn out to be. You have dreams of the perfect little angels they will be, not only as they grow up, but also as they become adults. You want the absolute best for them. Perhaps also, there are days of anxiety as you encounter new situations and wonder what the best approaches are to handling them. Should you insist on some things being a certain way, or is there a time to let up and allow your kids some slack? If so, when is the best time? How can you ensure that they grow up to be responsible, contributing members of their communities? Is there a better approach to parenting? And if so, what does it look like? The questions can really go on and on. This book will help you answer many of these questions. It provides a framework from which to practice your parenting based on research and decades of vicarious experiences with tens of thousands of parents and their kids using approaches to parenting that are most effective. It is a compilation of years of observation, research and vicarious data gathered into 101 tips. It also presents a few tips incorporated into lessons learned in my own parenting experiences that will help you incorporate and avoid having to learn those lessons in your own experiences. Parents from Striving to Thriving

On the football field NFL great Jim Kelly was a strong-armed passer, leading his team to victory after victory. In The Playbook for Dads he passes principles instead of footballs, still using his talent to lead men, but now he leads them to greatness as fathers, in his view the world's most important job. With an emphasis on preparation, hard work and perseverance, Kelly tackles such essential issues as respect, character, accountability and spiritual discipline. From commitment and courage to honesty and humility, Kelly's lessons-learned on and off the field- guide men striving to be the fathers God designed them to be shy so their children can grow to be everything they are meant to be. Conversational and refreshingly honest, Jim challenges fathers to work hard, pray for their children often, love their wives and implement these principles. Both practical and inspirational this is Jim Kelly coaching every dad how to be the star quarterback for the home team-his family.

Motivating Kids

Working with so many children, Peggy Caruso has discovered the underlying factor for the causes of depression, cutting, defiance and many other behavioral issues. In today's society, the rapid growth of technology has created dangerous situations for our children. Peggy educates parents on understanding every stage of their child from birth to adulthood, identify the signs of negativity and then

assist them with a plan of action to modify their behavior in a positive manner. She will provide them with principles, tools and techniques to assist at every level.

The Playbook for Dads

Winner of the Gold Medal for Best Christian Family and Parenting Book of 2020 by the Illumination Book Awards The creator of the viral parenting concept the “X-Plan” illuminates the importance of awakening your child’s unique strength—while also taking an introspective look at your own life story to become a better parent. Last year, father and former teacher Bert Fulks’s simple parenting idea went viral: if your teenagers find themselves in a situation where they feel uncomfortable or trapped, they can text a family member an “X.” That family member will then call, giving the teen a way out, while still maintaining their freedom—and no questions will be asked. Now in X-Plan Parenting, Fulks expands on the how and the why behind his plan, emphasizing the importance of developing trusting relationships with our kids. Drawing on biblical principles, Fulks’s approach illuminates how even though we want the very best for our children, we sometimes parent from a place of brokenness and a desire for control rather than support and encouragement. We focus on our mistakes and painful growing up moments and the things we wish we’d had when we were kids instead of what’s best for our own children right now. This dynamic can pit kids against their parents and create rifts in the relationship. Fulks advocates for an alliance between children and parents instead of an “us vs. them” mentality. Rather than spending so much time coaxing or battling our kids, Fulks inspires us to work with our kids instead of against them. And rather than trying to right our own past wrongs vicariously through our children, he urges us to recognize where we need healing so we can provide authentic strength to support our kids’ unique journeys. There is a tender art to disciplining our kids, and X-Plan Parenting serves up laughter and tears, hard questions, and plenty of grace to moms and dads who want their kids to love God and lead passionate, joyful lives in an unpredictable world.
