Presidential Leadership and African Americans

Presidential Leadership and African Americans examines the leadership styles of eight American presidents and shows how the decisions made by each of these leaders impacted the lives and life chances of the country's African American citizens.

Presidential Leadership and African Americans

Presidential Leadership and African Americans examines the leadership styles of eight American presidents and shows how the decisions made by each affected the lives and opportunities of the nation's black citizens. Beginning with George Washington and concluding with the landmark election of Barack Obama, Goethals traces the evolving attitudes and morality that influenced the actions of each president on matters of race, and shows how their personal backgrounds as well as their individual historical, economic, and cultural contexts combined to shape their values, judgments, and decisions, and.

Realignment, Region, and Race

Goethals explores the place of racial dynamics in American politics from President Lincoln to Donald Trump to explain the way the politics of racial justice and needs for positive social identity have led to different regions in the United States changing party affiliation.

An American Dilemma, Volume 1

This landmark effort to understand African-American people in the New World provides deep insight into the contradictions of American democracy as well as a study of a people within a people. The touchstone of this classic is the jarring discrepancy between the American creed of respect for the

inalienable rights to freedom, justice, and opportunity for all and the pervasive violations of the dignity of blacks.

Leadership, Populism, and Resistance

Leadership, Populism, and Resistance draws upon the study of history, politics, policy, media, virtue, and heroism to examine the ways in which populism and popular movements have evolved, what we have learned (and failed to learn) from them, how we depict and discuss them through popular media and the press, and, finally, how we can understand virtue and heroism as a consequence—or reaction—to populism and popularity.

Handbook of Heroism and Heroic Leadership

Over the past decade, research and theory on heroism and heroic leadership has greatly expanded, providing new insights on heroic behavior. The Handbook of Heroism and Heroic Leadership brings together new scholarship in this burgeoning field to build an important foundation for further multidisciplinary developments. In its three parts, "Origins of Heroism," "Types of Heroism," and "Processes of Heroism," distinguished social scientists and researchers explore topics such as morality, resilience, courage, empathy, meaning, altruism, spirituality, and transformation. This handbook provides a much-needed consolidation and synthesis for heroism and heroic leadership scholars and graduate students.

Politics, Ethics and Change

The impact of James MacGregor Burns' writings on our understanding of moral and lasting change is explored through essays focussing on transforming leadership in contexts such as the founding of the American nation and presidential leadership throughout US history. Burns's most influential concepts are explained, critiqued and expanded and then applied in political, business and institutional domains. The volume demonstrates how Burns's analyses illuminate the nature of social change and transformation, the subtleties of the relationship between leaders and followers, and how together both can realize enduring human values using power resources that arouse and satisfy deep human motives.

The Global Hillary

Is there a linkage between "smart power" and Hillary Clinton's leadership style? Can she advance American leadership and women's development worldwide? The Global Hillary addresses these questions and many others. Bringing together two key aspects of Clinton's ongoing career—her advocacy for international women's rights and the mission to foster democratic development around the world—The Global Hillary critically analyzes Clinton's role as a transformative leader of global influence. Essays in this collection provide insight into Clinton's leadership style, particularly her use of American "smart power" in foreign policy, while examining her impact on the continuing worldwide struggle for women's rights. Using international perspectives on the historical and cultural contexts of Clinton's leadership, this book also looks toward the future of women's political leadership in the 21st century with special attention to the prospect of electing a woman to the United States presidency.

The Presidential Dilemma

This brief, thematic text evaluates the performance of recent presidents from Johnson to Clinton, finding that overall each has failed to live up to public expectations.

The Future of Leadership

The Future of Leadership considers how the rapid changes of today will affect the leaders of tomorrow. Renowned Leadership scholar Michael A. Genovese argues that one of the key challenges for future leaders will be to effectively and constructively manage the 'hyper-change' taking place both within organizations and in the broader social and political spheres. Taking a Futures Studies approach to envision the state of leadership in the coming decades, Genovese also provides case studies of leaders who have already demonstrated the mind- and skill-sets necessary to successfully manage rapid change.

The Heroic Leadership Imperative

In *The Heroic Leadership Imperative*, Scott T. Allison and George R. Goethals identify leaders who have succeeded in meeting all three categories of needs and they discuss such leaders' appeal by way of a unique integration classic and contemporary psychology relevant to understanding all facets of heroism and heroic leadership.

Teaching Leadership

Teaching Leadership provides guidance for leadership educators in a variety of organizational and community contexts and across academic disciplines. An experienced leadership educator, Crosby promotes an inclusive vision of leadership that recognizes the inherent leadership potential in everyone. Featuring interviews with 25 respected leadership educators, *Teaching Leadership* complicates and enriches the leader-follower dichotomy to advance a holistic and practice-oriented model of leadership education. Using the metaphor of 'heart, head, and hands,' Crosby shows how authentic leadership is an embodied practice based equally in emotional, intellectual, and experiential learning.

Snapshots of Great Leadership

Snapshots of Great Leadership describes leaders who have either accomplished amazing feats or brought destruction. Although the goals of these individuals were often quite different, the leadership processes they used were frequently similar. The opening chapter explains the latest theories of leadership. Each leader snapshot adds an important "reality check" to the theories and models described in most introductory leadership textbooks, making this a key text for students taking leadership courses. This new edition features additional women and international leaders, a new "You Decide" section, and a Conclusion that clarifies the differences between good and bad leaders.

African Americans and the Presidents

The president is arguably the most recognized and powerful individual in the United States. This reference work explores the American presidency in relation to issues of race concerning the African American community. This work provides a contemporary and refreshing examination of the American presidency through the prism of race and race relations in America, revealing a long and complicated relationship between the U.S. presidency and the African American community. The book evaluates each of the forty-five American presidents' policies, cabinet appointments, and handling of race matters in the United States. Following an extensive timeline, chronological chapters take an incisive look at each American president's life and career as well as the policies enacted during his presidency that affected the African American community. The presidents' personal writings, memoirs, autobiographies, and biographies frame their views on the issue of race and how they dealt with it before, during, and after their presidency.

Black Leadership in America

A critical examination of these important figures, combined with a useful general survey of modern black American history.

An American Dilemma

NEW YORK TIMES BESTSELLER • "Comprehensive, enlightening, and terrifyingly timely."—The New York Times Book Review (Editors' Choice) WINNER OF THE GOLDSMITH BOOK PRIZE • SHORT-LISTED FOR THE LIONEL GELBER PRIZE • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • Time • Foreign Affairs • WBUR • Paste Donald Trump's presidency has raised a question that many of us never thought we'd be asking: Is our democracy in danger? Harvard professors Steven Levitsky and Daniel Ziblatt have spent more than twenty years studying the breakdown of democracies in Europe and Latin America, and they believe the answer is yes. Democracy no longer ends with a bang—in a revolution or military coup—but with a whimper: the slow, steady weakening of critical institutions, such as the judiciary and the press, and the gradual erosion of long-standing political norms. The good news is that there are several exit ramps on the road to authoritarianism. The bad news is that, by electing Trump, we have already passed the first one. Drawing on decades of research and a wide range of historical and global examples, from 1930s Europe to contemporary Hungary, Turkey, and Venezuela, to the American South during Jim Crow, Levitsky and Ziblatt show how democracies die—and how ours can be saved. Praise for *How Democracies Die* "What we desperately need is a sober, dispassionate look at the current state of affairs. Steven Levitsky and Daniel Ziblatt,

two of the most respected scholars in the field of democracy studies, offer just that.”—The Washington Post “Where Levitsky and Ziblatt make their mark is in weaving together political science and historical analysis of both domestic and international democratic crises; in doing so, they expand the conversation beyond Trump and before him, to other countries and to the deep structure of American democracy and politics.”—Ezra Klein, Vox “If you only read one book for the rest of the year, read *How Democracies Die*. . . . This is not a book for just Democrats or Republicans. It is a book for all Americans. It is nonpartisan. It is fact based. It is deeply rooted in history. . . . The best commentary on our politics, no contest.”—Michael Morrell, former Acting Director of the Central Intelligence Agency (via Twitter) “A smart and deeply informed book about the ways in which democracy is being undermined in dozens of countries around the world, and in ways that are perfectly legal.”—Fareed Zakaria, CNN

How Democracies Die

Explores the restrictive myth of the strong black woman through interviews, revealing the emotional and physical toll this "performance" can have.

Behind the Mask of the Strong Black Woman

In 1800 Thomas Jefferson won the presidential election with Electoral College votes derived from the three-fifths representation of slaves -- slaves who could not vote but were still partially counted as citizens. Moving beyond the recent revisionist debate over Jefferson's own slaves and his relationship with Sally Hemings, Garry Wills instead probes the heart of Jefferson's presidency and political life, revealing how the might of the slave states remained a concern behind his most important policies and decisions. Jefferson's foil was Thomas Pickering, who along with the Federalists fought the president and the institutions that supported him. In an eye-opening, ingeniously argued expose, Wills restores Pickering and his allies' dramatic struggle to our understanding of Jefferson, the creation of the new nation, and the evolution of our representative democracy.

America, History and Life

This pioneering work brings together for the first time in a single reference work all of the extant, fugitive, and recently discovered registration data on African American voters from Colonial America to the present. It features election returns for African American presidential, senatorial, congressional, and gubernatorial candidates over time. Rich, insightful narrative explains the data and traces the history of the laws dealing with the enfranchisement and disenfranchisement of African Americans. Topics covered include: - The contributions of statistical pioneers including Monroe Work, W.E.B. DuBois and Ralph Bunche - African American organizations, like the NAACP and National Equal Rights League (NERL) - Pioneering African American officeholders, including the few before the Civil War - Four influxes of African American voters: Reconstruction (Southern African American men), the Fifteenth Amendment (African American men across the country), the Nineteenth Amendment (African American female voters in 1920 election), and the Voting Rights Act of 1965 - The historical development of disenfranchisement in the South and the statistical impact of the tools of disenfranchisement: literacy clauses, poll taxes, and grandfather clauses. The African-American Electorate features more than 300 tables, 150 figures, and 50 maps, many of which have been created exclusively for this work using demographic, voter registration, election return, and racial precinct data that have never been

collected and assembled for the public. An appendix includes popular and electoral voting data for African-American presidential, congressional, and gubernatorial candidates, and a comprehensive bibliography indicates major topic areas and eras concerning the African-American electorate. The African American Electorate offers students and researchers the opportunity, for the first time, to explore the relationship between voters and political candidates, identify critical variables, and situate African Americans' voting behavior and political phenomena in the context of America's political history.

The African American Electorate

With the exceptions of Abraham Lincoln and Lyndon Johnson, argues O'Reilly, every president has sacrificed black rights for white votes.

Nixon's Piano

This first thoroughly researched appraisal of Hoover's tenure as first lady (1929-1933) argues that she was the first modern presidential wife because of her use of radio, adoption of social causes, and public activism outside White House traditions.

Lou Henry Hoover

'The Encyclopedia of Leadership' brings together everything that is known and truly matters about leadership as part of the human experience.

Collier's Encyclopedia, Volume 17

An exceptional resource, this comprehensive reader brings together primary and secondary documents related to efforts to redress historical wrongs against African Americans. These varied efforts are often grouped together under the rubric "reparations movement," and they are united in their goal of "repairing" the injustices that have followed from the long history of slavery and Jim Crow. Yet, as this collection reveals, there is a broad range of opinions as to the form that repair might take. Some advocates of redress call for apologies; others for official acknowledgment of wrongdoing; and still others for more tangible reparations: monetary compensation, government investment in disenfranchised communities, the restitution of lost property and rights, and repatriation. Written by activists and scholars of law, political science, African American studies, philosophy, economics, and history, the twenty-six essays include both previously published articles and pieces written specifically for this volume. Essays theorize the historical and legal bases of claims for redress; examine the history, strengths, and limitations of the reparations movement; and explore its relation to human rights and social justice movements in the United States and abroad. Other essays evaluate the movement's primary strategies: legislation, litigation, and mobilization. While all of the contributors support the campaign for redress in one way or another, some of them engage with arguments against reparations. Among the fifty-three primary documents included in the volume are federal, state, and municipal acts and resolutions; declarations and statements from organizations including the Black Panther Party and the NAACP; legal briefs and opinions; and findings and directives related to the provision of redress, from the Oklahoma Commission to Study the Tulsa Race Riot of 1921 to the mandate for the Greensboro Truth and Reconciliation Commission. Redress for Historical Injustices in the United States is a thorough assessment of the past, present, and future of the modern reparations movement. Contributors. Richard F. The Judicial Process

The life and times of the thirty-second President who was reelected four times.

Leadership

Today most Americans, black and white, identify slavery with cotton, the deep South, and the African-American church. But at the beginning of the nineteenth century, after almost two hundred years of African-American life in mainland North America, few slaves grew cotton, lived in the deep South, or embraced Christianity. *Many Thousands Gone* traces the evolution of black society from the first arrivals in the early seventeenth century through the Revolution. In telling their story, Ira Berlin, a leading historian of southern and African-American life, reintegrates slaves into the history of the American working class and into the tapestry of our nation. Laboring as field hands on tobacco and rice plantations, as skilled artisans in port cities, or soldiers along the frontier, generation after generation of African Americans struggled to create a world of their own in circumstances not of their own making. In a panoramic view that stretches from the North to the Chesapeake Bay and Carolina lowcountry to the Mississippi Valley, *Many Thousands Gone* reveals the diverse forms that slavery and freedom assumed before cotton was king. We witness the transformation that occurred as the first generations of creole slaves--who worked alongside their owners, free blacks, and indentured whites--gave way to the plantation generations, whose back-breaking labor was the sole engine of their society and whose physical and linguistic isolation sustained African traditions on American soil. As the nature of the slaves' labor changed with place and time, so did the relationship between slave and master, and between slave and society. In this fresh and vivid interpretation, Berlin demonstrates that the meaning of slavery and of race itself was continually renegotiated and redefined, as the nation lurched toward political and economic independence and grappled with the Enlightenment ideals that had inspired its birth.

Redress for Historical Injustices in the United States

An award-winning journalist envisions the future of leadership, excellence, and prosperity in Black America with this "urgent and pathbreaking" work (Marc Lamont Hill). Hard-hitting, thought-provoking, and inspiring, *Conversations in Black* offers sage wisdom for navigating race in a radically divisive America, and, with help from his mighty team of black intelligentsia, veteran journalist Ed Gordon creates hope and a timeless new narrative on what the future of black leadership should look like and how we can get there. In *Conversations in Black*, Gordon brings together some of the most prominent voices in black America today, including Stacey Abrams, Harry Belafonte, Charlamagne tha God, Michael Eric Dyson, Alicia Garza, Jemele Hill, Iyanla VanZant, Eric Holder, Killer Mike, Angela Rye, Al Sharpton, T.I., Maxine Waters, and so many more to answer questions about vital topics affecting our nation today, such as: Will the black vote control the 2020 election? Do black lives really matter? After the Obama presidency, are black people better off? Are stereotypical images of people of color changing in Hollywood? How is "Black Girl Magic" changing the face of black America? Bombarded with media, music, and social media messages that enforce stereotypes of people of color, Gordon sets out to dispel what black power and black excellence really look like today and offers a way forward in a new age of black prosperity and pride.

The Negro Family

"*Black Man in the White House*, first published in 1963, is the White House account of E. Frederic Morrow (1906-1994), the first black American to serve on a Presidential staff in an executive position. During the 1950s, Morrow was a member of President Eisenhower's inner circle of policy-makers, and the book, extracted from Morrow's diaries, is a fascinating look at the Eisenhower administration and also of a country coming-to-grips with the about-to-explode problems of segregation and racial inequality"--Back cover

Many Thousands Gone

Toussaint L'Ouverture was the leader of the Haitian Revolution in the late eighteenth century, in which slaves rebelled against their masters and established the first black republic. In this collection of his

writings and speeches, former Haitian politician Jean-Bertrand Aristide demonstrates L'Ouverture's profound contribution to the struggle for equality.

The Cult of the Presidency

One of America's leading historians on the role of leadership in American history.

Conversations in Black

"This guide lists the numerous examples of government documents, manuscripts, books, photographs, recordings and films in the collections of the Library of Congress which examine African-American life. Works by and about African-Americans on the topics of slavery, music, art, literature, the military, sports, civil rights and other pertinent subjects are discussed"--

Advanced Placement Examination in American History

Offers a thorough examination of Afro-Barbadian migration to Liberia during the mid- to late nineteenth century.

Black Man in the White House

The Haitian Revolution
