This study examines metaphor in Zulu in the light of conceptual metaphor theory from the perspective of a Bible translator. It then considers the possibility of translating Biblical Hebrew metaphor into Zulu. Selected Hebrew metaphors in the Book of Amos are analysed according to conceptual metaphor theory and compared with the conceptual metaphor analysis of the corresponding verses in existing Zulu translations, thereby increasing the empirical basis of the theory, and showing that it is valid for the study of both Biblical Hebrew and Zulu and a useful tool for translators.

Rhetorical or compositional features important to understanding the passage are also introduced here. Comment—verse-by-verse interpretation of the text and dialogue with other interpreters, engaging with current opinion and scholarly research. Explanation—brings together all the results of the discussion in previous sections to expose the meaning and intention of the text at several levels: (1) within the context of the book itself; (2) its meaning in the OT or NT; (3) its place in the entire canon; (4) theological relevance to broader OT or NT issues.
