A history of the letter in pre-modern French culture.

Tractatus de actibus humanis in seminario episcopali Namurcensi dictatus

This innovative collection of essays participates in the ongoing debate about the epistolary form, challenging readers to rethink the traditional association between the letter and the private sphere. It also pushes the boundaries of that debate by having the contributors respond to each other within the volume, thus creating a critical community between covers that replicates the dialogic nature of epistolarity itself, with all its dissonances and differences as well as its connections. Focusing mainly on Anglo-American texts from the seventeenth century to the present day, these nine essays and their "postscripts" engage the relationship between epistolary texts and discourses of gender, class, politics, and commodification. Ranging from epistolary histories of Mary Queen of Scots to Turkish travelogues, from the making of the modern middle class and the correspondence of Melville and

Hawthorne to new epistolary innovators such as Kathy Acker and Orlan, the contributions are divided into three parts: part 1 addresses the "feminocentric" focus of the letter; part 2, the boundaries between the fictional and the real; and part 3 the ways in which the epistolary genre may help us think more clearly about questions of critical address and discourse that have preoccupied theorists in recent years. In sum, *Epistolary Histories* is a defining contribution to epistolary studies. Contributors: Nancy Armstrong, Brown University Anne L. Tractatus De Actibus Humanis

In My Power tells the story of letter writing and communications in the creation of the British Empire and the formation of the United States. In an era of bewildering geographical mobility, economic metamorphosis, and political upheaval, the proliferation of letter writing and the development of a communications infrastructure enabled middle-class Britons and Americans to rise to advantage in the British Atlantic world. Everyday letter writing demonstrated that the blessings of success in the early modern world could come less from the control of overt political power than from the cultivation of social skills that assured the middle class of their technical credentials, moral deserving, and social innocence. In writing letters, the middle class not only took effective action in a turbulent world but also defined what they believed themselves to be able to do in that world. Because this ideology of agency was extended to women and the youngest of children in the eighteenth century, it could be presented as universalized even as it was withheld from Native Americans and enslaved blacks. Whatever the explicit purposes behind letter writing may have been—educational improvement, family connection, business enterprise—the effect was to render the full terms of social division invisible both to those who accumulated power and to those who did not. The uncontested power that came from letter writing was, Konstantin Dierks provocatively argues, as important as racist violence to the rise of the white middle class in the British Atlantic world.

Tractatus de actibus humanis

Challenging the view of epistolary narrative as a faulty precursor to the nineteenth-century realist novel, Elizabeth MacArthur argues that the openness and flexibility that characterize correspondences, both real and fictional, reflect the preoccupations of the late seventeenth and eighteenth centuries. Her readings of the *Lettres portugaises*, Mme du Deffand's correspondence with Horace Walpole, and Rousseau's *La Nouvelle Hloise* propose an alternative to closure-oriented theories of narrative as they uncover an interplay between two forces: a tendency towards closure and meaning (metaphor) and a tendency towards openness and desire (metonymy). While such an interplay structures all narrative, the epistolary form differs from the third or first person in the extent to which metonymy predominates. The author shows how critics and editors of correspondences have attempted to control their metonymy, channeling epistolary energy into univocal meaning. By juxtaposing real and fictional epistolary works, MacArthur reveals the similarities between the two, particularly their "extravagance": ambiguity, openness, and forward-moving energy. Tractatus de legibus in seminario episcopali Namurcensi

Following Clifford Geertz and other cultural anthropologists, the New Historicist critics have evolved a method for describing culture in action. Their "thick descriptions" seize upon an event or anecdote--colonist John Rolfe's conversation with Pocohontas's father, a note found among Nietzsche's papers to the effect that "I have lost my umbrella"--and re-read it to reveal through the analysis of tiny particulars the motive forces controlling a whole society. Contributors: Stephen J. Greenblatt, Louis A. Montrose, Catherine Gallagher, Elizabeth Fox-Genovese, Gerald Graff, Jean Franco, Gayatri Chakravorty Spivak, Frank Lentricchia, Vincent Pecora, Jane Marcus, Jon Klancher, Jonathan Arac,

Tractatus de actibus humanis

In an attempt to better account for the impressive diversity of positions and relations that characterizes the eighteenth-century world, this collection proposes a new methodological frame, one that is less hierarchical in approach and more focused, instead, on the nature of these interactions, on their Addisonian “usefulness,” declared goals, and (un)intended results. By shifting focus from a cultural-historicist approach to sociability to the rhizomatic nature of eighteenth-century associations, this collection approaches them through new methodological lenses that include social network analysis, assemblage and graph theory, social media and digital humanities scholarship. Imagining the eighteenth-century world as a networked community rather than a competing one reflects a recent interest in novel forms of social interaction facilitated by new social media—from Internet forums to various types of social networking sites—and also signals the increasing involvement of academic communities in digital humanities projects that use new technologies to map out patterns of intellectual exchange. As such, the articles included in this collection demonstrate the benefits of applying interdisciplinary approaches to eighteenth-century sociability, and their role in shedding new light on the way public opinion was formed and ideas disseminated during pre-modern times. The issues addressed by our contributors are of paramount importance for understanding the eighteenth-century culture of sociability. They address, among other things, clubbing practices and social networking strategies (political, cultural, gender-based) in the eighteenth-century world, the role of clubs and other associations in “improving” knowledge and behaviors, conflicting views on publicity, literary and political alliances and their importance for an emerging celebrity culture, the role of cross-national networks in launching pan-European and transatlantic trends, Romantic modes of sociability, as well as the contribution of voluntary associations (clubs, literary salons, communities of readers, etc.) to the formation of the public sphere. This collection demonstrates how relevant social networking strategies were to the context of the eighteenth-century world, and how similar they are to the congeries of new practices shaping the digital public sphere of today.

In *Discourses of Desire*, Linda S. Kauffman looks at a neglected genre—the love letters written by literary heroines. Tracing the development of the genre from Ovid to the twentieth-century novel, Kauffman explores through provocative and incisive readings the important implications of these amatory discourses for an understanding of fictive representation in general. Among the texts Kauffman treats are Ovid's *Heroides*, Heloise's letters to Abelard, *The Letters of a Portuguese Nun*, *Clarissa*, *Jane Eyre*, *The Turn of the Screw*, *Absalom, Absalom!*, and *The Three Marias: New Portuguese Letters*. Drawing on the work of such theorists as Todorov, Genette, Barthes, Bakhtin, Lacan, and Derrida, Kauffman demonstrates how the codes of love shape intertextual dialogues among these works, in which each innovation in the genre is simultaneously a response to and a departure from the one preceding it. Throughout, she pays particular attention to the unsettling questions that the genre's shared thematic preoccupations and formal characteristics pose for concepts of gender, authorship, genre, and mimesis. Drawing on poststructuralism and psychoanalytic criticism to extend the boundaries of feminist theory, Kauffman makes a significant contribution to contemporary critical discussions of writing and gender, mimesis and narrative discourse, and poetics and politics. Her book, broad in its scope and far-reaching in its implications, will be valuable reading for anyone interested in feminist criticism, literary theory, and literary history.

Biblical Foundations for Baptist Churches

An updated examination of ecclesiology from a Baptist perspective In this useful book, professor and former pastor John Hammett helps church leaders think through foundational questions about the nature of the church. Blending biblical teaching and practical ministry experience, Hammett presents a comprehensive ecclesiology from a historic Baptist perspective, examining crucial contemporary issues such as church discipline, the role of elders, and church ministry in a post-Christian culture. This second edition contains updates throughout, including: · Substantive changes to chapters on the nature of the church, Baptist church polity, and deacons · An expanded chapter on baptism and the Lord's Supper · A thoroughly revised chapter on church models like multisite churches and missional churches · A brand-new chapter on meaningful church membership

Baptist Foundations

In this volume, representatives of several North American Baptist seminaries and a Baptist university make the exegetical and theological case for a Baptist polity. Right polity, they argue, is congregationalism, elder leadership, diaconal service, regenerate church membership, church discipline, and a Baptist approach to the ordinances.

ECCLESIA SEMPER REFORMANDA EST

This book on ecclesiology celebrates the life and work of Stanley K. Fowler, a professor at Heritage College & Seminary, Cambridge, Ontario. In view of Dr. Fowler's seventieth birthday, some of his colleagues have come together to honour him through the publication of this festschrift.

Manual of Theology

The Southern Baptist Convention is currently facing issues that challenge its identity, heritage, and future. In *The SBC and the 21st Century*, key leaders—including Jason Allen, Frank Page, Ronnie Floyd, Thom Rainer, Albert Mohler, Paige Patterson, David Platt, and Danny Akin—address critical issues such as: · Will the SBC grow more unified around shared convictions and mission or will it fragment over secondary concerns and tertiary doctrinal differences? · Will the SBC be able to maintain a distinct Baptist identity while engaging and partnering with the broader evangelical community? · Will the SBC be willing to reimagine its structures, programs, and efforts to effectively reach the world for Christ or will it risk being a past-tense denomination? This volume not only promotes meaningful dialogue, it calls leaders throughout the SBC into action. Extensive thought, research, assessment, and wisdom from some of the SBC's brightest minds have been poured into this volume with the intent of rendering a helpful contribution to SBC life that will propel forward the collective work of Southern Baptists well into the 21st century.

The SBC and the 21st Century

An updated edition of the essential guide for following the proper rules of procedure in church, denominational convention, or other religious business meetings.

A Parliamentary Guide for Church Leaders

Leading evangelical mission experts offer a comprehensive theology of mission text, providing biblical, historical, and contemporary perspectives.

Encountering Theology of Mission

This title offers a comprehensive analysis of Baptist theology. Embracing in one common trajectory the major Baptist confessions of faith, the major Baptist theologians, and the principal Baptist theological movements and controversies, this book spans four centuries of Baptist doctrinal history. Acknowledging first the pre-1609 roots (patristic, medieval, and Reformational) of Baptist theology, it examines the Arminian versus Calvinist issues that were first expressed by the General Baptists and the Particular Baptists; that dominated English and American Baptist theology during the seventeenth and eighteenth centuries from Helwys and Smyth and from Bunyan and Kiffin to Gill, Fuller, Backus, and Boyce; and, that were quickened by the 'awakenings' and the missionary movement. Concurrently there were the Baptist defense of the Baptist distinctives vis-a-vis the pedobaptist world and the unfolding of a strong Baptist confessional tradition. Then during the nineteenth and twentieth centuries the liberal versus evangelical issues became dominant with Hovey, Strong, Rauschenbusch, and Henry in the North and Mullins, Conner, Hobbs, and Criswell in the South even as a distinctive Baptist Landmarkism developed, the discipline of biblical theology was practiced and a structured ecumenism was pursued. Missiology both impacted Baptist theology and took it to all the continents, where it became increasingly indigenous. Conscious that Baptists belong to the free churches and to the believers' churches, a new generation of Baptist theologians at the advent of the twenty-first century appears somewhat more Calvinist than Arminian and decidedly more evangelical than liberal.

Polity

The Baptist Story is a narrative history spanning over four centuries of a diverse group of people living among distinct cultures on separate continents while finding their identity in Christ and expressing their faith as Baptists. Baptist historians Anthony Chute, Nathan Finn, and Michael Haykin highlight the Baptist transition from a despised sect to a movement of global influence. Each chapter includes stories of people who made this history so fascinating. Although the emphasis is on the English-speaking world, The Baptist Story integrates stories of non-English-speaking Baptists, ethnic minorities, women, and minority theological traditions, all within the context of historic, orthodox Christianity. This volume provides more than just the essential events and necessary names to convey the grand history. It also addresses questions that students of Baptist history frequently ask, includes prayers and hymns of those who experienced hope and heartbreak, and directs the reader's attention to the mission of the church as a whole. Written with an irenic tone and illustrated with photographs in every chapter, The Baptist Story is ideally suited for graduate and undergraduate courses, as well as group study in the local church.

Baptist Theology

Teaching for Spiritual Growth is a textbook that explains what it means to be spiritually mature and how churches can help people achieve spiritual growth.

The Baptist Story

Thomas offers practical, biblical instruction on a wide range of issues involving individual and corporate participation and responsibility in the life of a local church. (Christian)

Teaching for Spiritual Growth

What is a church? This can be a difficult question to answer and Christians have offered a variety of perspectives. Gregg Allison thus explores and synthesizes all that Scripture affirms about the new covenant people of God, capturing a full picture of the biblical church. He covers the topics of the church's identity and characteristics; its growth through purity, unity, and discipline; its offices and leadership structures; its ordinances of baptism and the Lord's Supper; and its ministries. Here is a rich approach to ecclesiology consisting of sustained doctrinal reflection and wise, practical application. Part of the Foundations of Evangelical Theology series.

Life in the Body of Christ

This new volume aims to create, as much as possible, a helpful “go-to” volume for “Religious Liberty 101” conversations in the present day for pastors, church leaders, professors and other like-minded evangelicals.

Sojourners and Strangers

The Oxford Handbook of Ecclesiology is a unique scholarly resource for the study of the Christian Church as we find it in the Bible, in history and today. As the scholarly study of how we understand the Christian Church's identity and mission, ecclesiology is at the centre of today's theological research, reflection, and debate. Ecclesiology is the theological driver of the ecumenical movement. The main focus of the intense ecumenical engagement and dialogue of the past half-century has been ecclesiological and this is the area where the most intractable differences remain to be tackled. Ecclesiology investigates the Church's manifold self-understanding in relation to a number of areas: the origins, structures, authority, doctrine, ministry, sacraments, unity, diversity, and mission of the Church, including its relation to the state and to society and culture. The sources of ecclesiological reflection are the Bible (interpreted in the light of scholarly research), Church history and the wealth of the Christian theological tradition, together with the information and insights that emerge from other relevant academic disciplines. This Handbook considers the biblical resources, historical development, and contemporary initiatives in ecclesiology. It offers invaluable and comprehensive guide to understanding the Church.

First Freedom

In *Ordained Ministry in Free Church Perspective* Jan Martijn Abrahamse offers a methodologically innovative way to understand ordained ministry in terms of covenantal theology by returning to the life and thought of the English Separatist Robert Browne (c. 1550-1633).

The Oxford Handbook of Ecclesiology

Is believer's baptism the clear teaching of the New Testament Scriptures? What are the historical and theological challenges to believer's baptism? What are the practical applications for believer's baptism today? Volume two in the NEW AMERICAN COMMENTARY STUDIES IN BIBLE & THEOLOGY (NACSBT) series for pastors, advanced Bible students, and other deeply committed laypersons addresses these compelling questions. Indeed, *Believer's Baptism* begins with the belief that believer's baptism (as opposed to infant baptism or other faith proclaiming methods) is the clear teaching of the New Testament. Along the way, the argument is supported by written contributions from Andreas Kostenberger, Robert Stein, Thomas Schreiner, Stephen Wellum, Steve McKinion, Jonathan Rainbow, Shawn Wright, and Mark Dever. Users will find this an excellent extension of the long-respected NEW AMERICAN COMMENTARY.

Ordained Ministry in Free Church Perspective

Dr. JM Carroll's "The Trail of Blood" is a great historical premise concerning the beginnings of the church from "Christ it's founder, till the current day". Written in the early 20th century, Dr. Carroll details the history and plight of TRUE bible believers throughout time. Still as relevant today as it was almost 100 years ago, this timeless classic is a must-have part of any Christian's personal reading collection.

Believer's Baptism

A Bible-based study of church membership and church discipline with contributions from respected theologians including Mark E. Dever, Thomas R. Schreiner, Bruce Riley Ashford, Danny Akin, John S. Hammett, Benjamin L. Merkle, Nathan A. Finn, Gregory A. Wills, and Andrew M. Davis.

The Trail of Blood

This newest contribution to the 40 Questions series continues the tradition of excellent research presented in clear, user-friendly writing. *40 Questions About Salvation* makes sense of one of Christianity's most disputed doctrines, covering the most common and difficult questions about election, the order of salvation, and perseverance of the saints. This volume will help pastors, college and seminary students, and all Christians who want to grow in their understanding of what the Bible teaches about salvation. Each chapter is succinct and readable, with a bibliography of additional resources for those who wish to study further.

Those Who Must Give an Account

Numerous trends are presently converging in ways that make this moment in mission history significant. These include the growth of short-term service, the multiplication of mission organizations, local churches sending missionaries without an agency, and the internationalization of missions. It is crucial in the midst of such change that we not lose connection with the New Testament model of the missionary apostles. Apostles, now commonly called missionaries, are God's gift for the initial planting phase of the church among every people, to the end of the age. This unique church-planting role is the forgotten foundation of the church. Much of the ineffectiveness in missions is due to our attempts to build Christ's church on a different foundation. This book will examine five critical questions from the perspective of biblical scholarship, history, and contemporary experience: Why are missions-minded Evangelicals reluctant to identify missionaries as apostles, considering that the two words have the same root meaning? How is apostolos used in the New Testament, and specifically, is it sometimes used as a designation for missionaries? How should we conceptualize an ongoing role for missionary apostles that does not detract from the crucial, unique role of the original Apostles? What ministry pattern does the New Testament record from the lives of the early missionary apostles? How should an awareness of missionary apostles guide our mission efforts today?

40 Questions About Salvation

Ours is an anti-polity age, perhaps more than any other time in the history of the church. Yet polity remains as important now as it was in the New Testament. What then is a right or biblical polity? The contributors to this volume make an exegetical and theological case for a Baptist polity. Right polity, they argue, is congregationalism, elder leadership, diaconal service, regenerate church membership, church discipline, and a Baptist approach to the ordinances. Each section explores the pastoral applications of these arguments. How do congregationalism and elder leadership work together? When should a church practice church discipline? How can one church work with another in matters of membership and discipline? To be read sequentially or used as a reference guide, Baptist Foundations provides a contemporary treatment of Baptist church government and structures, the first of its kind in decades.

Baptist Church Covenants

Benjamin L. Merkle is professor of New Testament at Malaysia Baptist Theological Seminary and is the author of numerous articles, which have appeared in journals such as JETS and Trinity Journal. He earned his Ph.D. from Southern Baptist Theological Seminary, where he wrote his dissertation on deacons and elders.

The Ongoing Role of Apostles in Missions

Going Public builds a theological case for why baptism is required for church membership, answers objections, and applies this theological vision to the local church's practice of baptism, the Lord's Supper, and church membership.

Baptist Foundations

Patient's life and ministry provide helpful data on what it means to be a Baptist, even though he is unknown by most Baptist historians. He will be shown to be an English Puritan then an American Baptist then an English Particular Baptist all culminating in his foundational role in establishing the Baptist movement in Ireland.

40 Questions about the End Times

The Christian church confesses "one baptism." But the church's answers to how, whom and when to baptize, and even what it means or does, are famously varied. This book provides a forum for thoughtful proponents of three principal evangelical views to state their case, respond to the others, and then provide a summary response and statement. Sinclair Ferguson sets out the case for infant baptism, Bruce Ware presents the case for believers' baptism, and Anthony Lane argues for a mixed practice. As with any good conversation on a controversial topic, this book raises critical issues, challenges preconceptions and discloses the soft points in each view. Evangelicals who wish to understand better their own church's practice or that of their neighbor, or who perhaps are uncertain of their own views, will value this incisive book.

Going Public

A contemporary evaluation of the history and present status of Southern Baptist Missions For more than 175 years the International Mission Board of the Southern Baptist Convention has been sending missionaries around the world to spread the gospel of Jesus Christ. It has also developed strategies and methods that have been adopted by numerous other missions groups. *Make Disciples of All Nations* tells the story of this groundbreaking organization, including its most recent developments. Besides recounting its historical development, the contributors to this volume critically evaluate the IMB's strategies and methods, as well as examine its controversies, regional developments, and organizational changes. The concluding chapter explores how Southern Baptist missions can best adapt to an era of global Christianity. Students, missionaries, and those involved in supporting them will be informed and encouraged by this account of one of the oldest and largest missions organizations in the world.

Thomas Patient

First Freedom is an important gathering of messages from a recent conference on religious liberty held at Southwestern Baptist Theological Seminary. Editor Jason B. Duesing explains: "The purpose of this collection is, first, to provide an introductory look into the biblical and historical foundations of religious liberty combined with several instances of contemporary expression and defense for the purpose of instruction, edification, and encouragement to all who take the time to read this volume. Second, however, we wish to remind Baptists in the twenty-first century of the price that was paid by their forefathers for the establishment and defense of religious liberty. To be sure, there were people of various religious and denominational preferences that providence used to implement the religious freedoms now enjoyed by all, but for Baptists to overlook the contribution of their own would be a travesty."

Baptism

Here, a team of award-winning teaching scholars has come together to create an introductory text that offers a truly unique and innovative contribution to the discipline of theological studies. This "first book" provides students of any religious tradition with the foundational skills, vocabulary, conceptual understanding, and research abilities that they need to succeed in theology and religious studies. *Theological Foundations* provides the following: Ten chapters that introduce the major sub-disciplines of theology creating a well-rounded source for understanding the discipline as a whole Contributions that are clear, accessible, and steeped in content A strong basis for vigorous intellectual and personal exploration of life and our relation to God Flexibility that allows the instructor to assign readings in any order that fits his or her syllabus A one-of-a-kind, integrated library research component, "From the Reference Librarian," which teaches students the foundational skills needed for successful study in theology and in any academic discipline

Make Disciples of All Nations

The Puritans hounded the Baptists out of Massachusetts Bay Colony. Four hundred years later, Baptists are the second-largest religious group in America, and their influence matches their numbers. Yet the historical legacy, and the inherently fractured nature of their faith, makes Baptists ever wary of threats from within as well as without. Kidd and Hankins, both practicing Baptists, weave the threads of Baptist history alongside those of American history to show how one religious denomination was transformed

from persecuted minority into a leading actor on the national stage, with profound implications for American society and culture.

First Freedom

Church membership is not just a status, it's an office. Leaders shouldn't fire members from the responsibilities given to them by Jesus—they should train them! When members are trained, the church grows in holiness and love, discipleship and mission. Complacency and nominalism are diminished. Jesus gives every church member an office in the church's government: to assume final responsibility for guarding the what and the who of the gospel in the church and its ministry. Similarly, Jesus gives leaders to the church for equipping the members to do this church-building and mission-accomplishing work. In our day, the tasks of reinvigorating congregational authority and elder authority must work together. The vision of congregationalism pictured in this book offers an integrated view of the Christian life. Congregationalism is biblical, but biblical congregationalism just might look a little different than you expect. It is nothing less than Jesus' authorization for living out his kingdom rule among a people on mission.

Theological Foundations

In the first comprehensive treatment of the role of churches in the processes that led to the American Civil War, C.C. Goen suggests that when Presbyterian, Methodist, and Baptist churches divided along lines of North and South in the antebellum controversy over slavery, they severed an important bond of national union. The forebodings of church leaders and other contemporary observers about the probability of disastrous political consequences were well-founded. The denominational schisms, as irreversible steps along the nation's tortuous course to violence, were both portent and catalyst to the imminent national tragedy. Caught in a quagmire of conflicting purposes, church leadership failed and Christian community broke down, presaging in a scenario of secession and conflict the impending crisis of the Union. As the churches chose sides over the supremely transcendent moral issue of slavery, so did the nation. Professor Goen, an eminent historian of American religion, does not seek in these pages the "causes" of the Civil War. Rather, he establishes evangelical Christianity as "a major bond of national unity" in antebellum America. His careful analysis and critical interpretation demonstrate that antebellum American churches -- committed to institutional growth, swayed by sectional interests, and silent about racial prejudice -- could neither contain nor redirect the awesome forces of national dissension. Their failure sealed the nation's fate. - Publisher.

Baptists in America

Historic and doctrinal perspectives and contemporary testimonies expound on the decision to be Baptist.

Don't Fire Your Church Members

Why I Am A Baptist presents twenty-seven Baptist leaders who stand at the end of one century looking into the promise of the next.

Broken Churches, Broken Nation

Arranged in a Q & A format, this volume tackles the major questions that pastors, church leaders, and students ask about congregational church government, a topic of much interest in the church today. It provides readers with a clear analysis of key biblical passages, succinct answers (4-8 pages each), and discussion questions. The unique format of the book allows the reader to pick and choose what issues are most pertinent to their interests and needs.

Why I Am a Baptist

This volume, edited by and contributed to primarily by African-American voices in the SBC, is one small effort to help remove the stain of racism from the SBC in pursuit of Christian unity in our beloved denomination.

Why I Am a Baptist

Renowned evangelical theologian Gerald Bray provides a clear and coherent account of the church in biblical, historical, and theological perspective. He tells the story of the church in its many manifestations through time, starting with its appearance in the New Testament, moving through centuries of persecution and triumph, and discussing how and why the ancient church broke up at the Reformation. Along the way, Bray looks at the four classic marks of the church--its oneness, holiness, catholicity, and apostolicity--and illustrates how each of these marks has been understood by different Christian traditions. The book concludes with a look at the ecumenical climate of today and suggests ways that the four characteristics of the church can and should be manifested in our present global context. This accessible introduction to the church from an evangelical perspective explores ecclesiology through the lenses of church history and doctrine to reveal what it means for us today. Bray discusses the church as a living reality, offering practical ways churches and individuals can cooperate and live together.

40 Questions about Elders and Deacons

"In a rapidly changing world,... the central missionary vision of the church must be constantly renewed, lest its foundations become lost in the confusion of change or its practices trapped in missionary models of the past." In this second edition of *Missions*, long-time missionary Gailyn Van Rheenen revises and updates his classic text on Christian missions, laying sound theological and strategic foundations for the missionary of today and tomorrow. Van Rheenen helps renew the missionary vision by discussing areas such as: The history of Christian mission, and how it affects where we are today Spiritual formation for God's mission The missionary cycle Cross-cultural communication The character and calling of missionaries Types of missionaries Church maturation Selecting mission fields The role of money in missions Four levels of involvement in missions But *Missions* is more than blackboard theory. Written by a long-time missionary, it carries the conviction and insights of one who has lived his subject. Accessible to students, practitioners, and laypeople alike, *Missions* provides a primary go-to resource for understanding and becoming involved in the dynamic activity of world missions.

Removing the Stain of Racism from the Southern Baptist Convention

This comprehensive systematic theology by respected theologian Robert Letham covers the whole field of Reformed Christian doctrine from biblical, historical, and theological angles. Letham begins with God's ultimate self-revelation as the Father, the Son, and the Holy Spirit in indivisible union, continuing on with the works of God in creation, providence, and grace. He draws deeply from Scripture and important voices from the church to provide a clear and concise articulation of the Reformed faith. He also addresses current issues such as feminism, charismatic gifts, sexual ethics, environmentalism, other religions, the nature of truth, and civil liberties. Each chapter is followed by discussion questions, with a glossary of terms included at the end. This work grounds theological understanding and practice in the life and ministry of the church, accessible to pastors, students, scholars, and anyone who desires to understand, believe, and live scriptural doctrine more fully.

Introduzione

Differenza tra esistenza e vita

La continuità della vita oltre la morte

L'ignoranza

La rianimazione

La morte vera

Noi non siamo il nostro corpo

Noi siamo spiriti individualizzati

La vita umana serve per assumere esperienze

Esperienze serie

L'amore e l'attaccamento

Il corpo è un ammasso di miliardi di cellule

Un istante fra secoli e millenni che passano e si rinnovano

L'inganno dello spazio e l'illusione del tempo

Il nostro corpo e la nostra psiche

L'uscita dal corpo è un senso di liberazione

La morte non ha paura

Finalmente sono giunto qui

La musica divenne più forte e bella

Noi non siamo il corpo

Il momento del distacco

L'inferno

Il corpo non ha più lo strumento per realizzare

Quale aiuto possiamo dare ai trapassavi?

L'importanza di essere accolti nel mondo spirituale

La preghiera
