Mr. Mikey's Video Views; Volume One

Mr. Mikey's Video Views started as a response to the three-line reviews found in most review guides, and the "self-serving" and exceedingly picky reviews written by most "popular critics." Mr. Mikey is a movie lover, and has fun and enjoys virtually every movie he sees. His reviews reflect this love of movies.

The Erotic Thriller in Contemporary Cinema

This bold and original book examines in detail a relatively new genre of film--the erotic thriller. Linda Ruth Williams traces the genre's exploitation of pornography and noir, discusses mainstream stars

(including Michael Douglas and Sharon Stone) as well as genre-branded direct-to-video stars, charts the work of key producers and directors, and considers home videos as a distinct form of viewing pleasure. She maps the history of the genre, analyzing hundreds of movies from blockbusters such as *Basic Instinct*, *Fatal Attraction*, and *In the Cut* to straight-to-video film titles such as *Carnal Crimes*, *Sins of Desire*, and *Night Eyes*. Williams's witty and illuminating readings tell the story of this sensational genre and contribute to the analysis of mainstream screen sex--and its censorship--at the beginning of the 21st century. She shows that as the erotic thriller plays out the sexual fantasies of contemporary America, it also provides a vehicle for marketing those fantasies globally.

The Naked Truth

From parents and teachers to politicians and policymakers, there is a din of voices participating in the debate over how young people are affected by violence, strong language, and explicit sexual activity in films. The Motion Picture Association of America (MPAA) responded to this concern in 1968 when it introduced a classification and rating system based on the now well-known labels: "G", "PG", "PG-13", "R", and "X". For some, these simple tags are an efficient way to protect children from viewing undesirable content. But do the MPAA ratings actually protect children? In *The Naked Truth*, Kevin S. Sandler argues that the rating system does not protect children but instead protects the Hollywood film industry. One prime indicator of this is the collective abandonment of the NC-17 rating in 1990 by the major distributors of the MPAA and the main exhibitors of the National Association of Theatre Owners. By categorizing all films released by Hollywood and destined for mainstream theaters into R ratings (or lower), the industry ensures that its products are perceived as "responsible entertainment" to all audiences and "incontestable" to politicians and moral reformers. By embracing a no-NC-17 rule, the industry collapses mature subject matter with pornography, creating a national cinema where certain representations of sex and nudity are taboo.

Freedom and Entertainment

This is a story that Jack Valenti has long tried to keep secret. *Freedom and Entertainment* is the first book to offer a behind-the-scenes account of the motion picture rating system and the Motion Picture Association of America under Valenti's leadership. The book is based on the private papers and oral history of Richard D. Heffner, who headed the Classification and Rating Administration for two decades, from 1974 to 1994, and who was once called 'the least-known most powerful person in Hollywood.' The story chronicles the often tense working relationship between Heffner and Valenti, and the sometimes bruising encounters Heffner had with such Hollywood heavyweights as Clint Eastwood, Oliver Stone, Michael Douglas, George C. Scott, Lew Wasserman, Arthur Krim, Jerry Weintraub, and many others.

Pop Culture Wars

Entertainment has long been a source of controversy in American life. On the one hand, American popular culture is enormously desired, captivating audiences around the world. On the other hand, more and more critics blame it for the breakdown of morals and even civilizations itself. Surely Christians and other religious citizens have something to contribute to what is, after all, a discussion of morality. But too often their contributions have been ill-informed, unreflective and reactionary. In this groundbreaking book, William Romanowski brings something desperately needed to the discussion: an informed, systematic and challenging Christian perspective. Comprehensive and historically revealing, *Pop Culture Wars* bids to accomplish nothing less than to reframe and render more constructive a crucial but angry cultural debate.

Video Hounds Golden Movie Retrievee

"An engrossing read . . . Her description of the ways in which forensic experiments evolved is as fascinating as the courtroom dramas they accompanied." —Jess Kidd, *The Guardian*, "Best Summer Books 2018, as Picked by Writers" A surgeon and chemist at Guys Hospital in London, Professor Alfred Swaine Taylor used new techniques to search the human body for evidence that once had been unseen. As well as tracing poisons, he could identify blood on clothing and weapons, and used hair and fiber analysis to catch killers. Taylor is perhaps best remembered as an expert witness at one of Victorian England's most infamous trials—that of William Palmer, "The Rugeley Poisoner." But he was involved in many other intriguing cases, from a skeleton in a carpet bag to a fire that nearly destroyed two towns, and several poisonings in between. Taylor wrote widely on forensic medicine. He gave Charles Dickens a tour of his laboratory, and Wilkie Collins owned copies of his books. His work was known to Sir Arthur Conan Doyle, and he inspired the creation of fictional forensic detective Dr. Thorndyke. For Dorothy L. Sayers, Taylors books were the back doors to death. From crime scene to laboratory to courtroom and sometimes to the gallows, this is the world of Professor Alfred Swaine Taylor and his fatal evidence. "A must read for any lover of crime writing, criminology, and Victorian cultural history." —*Fortean Times* "Totally fascinating . . . Refers to many famous and not-so-famous cases, as well as giving an insight into this clever, enthusiastic, honourable and dedicated man. Very clearly written and very enjoyable read." —Michelle Birkby, author of *The Baker Street Inquiries* series

Fatal Evidence

Paul Verhoeven's 1992 thriller *Basic Instinct* - starring Michael Douglas as a police detective and Sharon Stone as the femme fatale Catherine Tramell - was one of the first mainstream 'erotic thrillers', a film which shifted the boundaries for graphic representations of sex in Hollywood cinema. It remains a significant milestone in film censorship and controversy. In his fascinating study, the first in-depth account of the film, Stevie Simkin explores the unrest and protest that *Basic Instinct* sparked in the gay, lesbian and feminist communities in the US, incensed by what they saw as the script's homophobia and misogyny. Simkin considers the social and cultural context in which *Basic Instinct* was made, examining the film's troubled production history, the battles with censors, and its reception. He offers a number of readings of the movie, looking at its representation of bisexuality and the depiction of a 'transgressive' female protagonist. He also focuses on key sequences, including the infamous interrogation scene, and details the cuts demanded by the censors, resulting in different UK and US versions. In conclusion, Simkin considers the legacy of *Basic Instinct*, and its enduring effect on media representations of the violent woman. STEVIE SIMKIN is Reader in Drama and Film at the University of Winchester, UK. His publications include work on cult television, popular music, and Renaissance drama. He is the author of, amongst other works, *A Preface to Marlowe* (1999), *Revenge Tragedy: A New Casebook* (2001), *Early Modern Tragedy and the Cinema of Violence* (2005), and, also in the *Controversies* series, a book on the Peckinpah film, *Straw Dogs*.

Basic Instinct

What if William Shakespeare didn't write the plays attributed to him? And, if he didn't write them, why was the true author's name deleted from the greatest plays ever written in the English language? "He didn't write them you know," a Smithsonian researcher I was dating looked across the restaurant table and flatly stated. "What do you mean, he didn't write them? Of course he wrote them." "Believe what you want to believe," she said, adjusting her napkin in her lap. "If you want to stay naïve, that's entirely

up to you." True or false, fact or rumor, the case against Shakespeare as the playwright had apparently convinced one bright Smithsonian researcher that the true authorship lay in another direction. I had always wanted to write a historical novel. Skeptical or not, maybe this was the time and this was the subject. Body of Evidence is the story that led me to England on the adventure of a lifetime.

Another thrilling novel from the bestselling author of Postmortem and Black Notice After months of menacing phone calls and feeling that her every move is being watched, successful writer Beryl Madison flees Key West when a terrifying message is scratched on her car. But the very night she returns to Richmond, she deactivates her burglar alarm and opens her door to someone who nearly decapitates her. Why did she let him in, wonders Chief Medical Examiner Dr. Kay Scarpetta? And, why is Beryl's latest manuscript missing? Persuing the answers involves Scarpetta in the murder of another writer's jealous mentor. While she copes with a variety of personal and professional problems, Scarpetta's high-tech forensic skills enable her to collect a body of evidence that would mean little without her intelligence, compassion, and imagination leads her directly into a nightmare all her own.
