### Fire Academy Firefighter Skills Objectives

Today's fire fighters respond to all types of crises from fires to medical emergencies and terrorist attacks. As they answer these calls, it is imperative that no gaps in knowledge compromise their effectiveness or their safety in protecting the public. Fire fighters need up-to-date, comprehensive training materials to thoroughly prepare for any situation that may arise. The International Association of Fire Chiefs and the National Fire Protection Association have joined forces to develop new fire fighter training materials that will set the standard for fire fighter education for years to come. The text meets and exceeds the entire 2002 editions of NFPA 1001, Standard for Fire Fighter Professional Qualifications, and NFPA 472, Standard for Professional Competence of Responders to Hazardous Materials Incidents, and covers a number of additional areas to help prepare students for a career in the fire service including wildland and ground fires, pre-incident planning, terrorism response, and much more. With such comprehensive content, it's no wonder why Fundamentals of Fire Fighter Skills is receiving such high acclaim: "TrainingDivision.com has successfully trained over 400 firefighters Internationally. Our class grade point averages were consistently in the 80% margin early on. Since we have implemented the Jones and Bartlett resources to our program, test scores are on the rise. The last seven out of ten recruit classes have had a GPA over 90%. TrainingDivision.com currently holds the highest class GPA in the state of Texas for Firefighter 1 & 2 at 95.04%. We want to thank Jones and Bartlett for their efforts in assisting our organization to provide quality fire service training to our students." Mick Moffitt Emergency Training Center Chief Operations Officer Fundamentals of Fire Fighter Skills is the core of a modern teaching and learning system. It combines current and comprehensive content with dynamic features, interactive technology, and both instructor and student resources. This integrated system supports instructors and helps prepare students for the job. The National Fire Protection Association (NFPA) and the International Association of Fire Chiefs (IAFC) are pleased to bring you the third edition of Fundamentals of Fire Fighter Skills, the next step in the evolution of Fire Fighter I and Fire Fighter II training. With superior teaching and learning tools, the first and second editions of Fundamentals of Fire Fighter Skills set a new benchmark in fire fighter training. Now the NFPA, IAFC, and Jones & Bartlett Learning are proud to raise the bar for the fire service again. Comprehensive Content The third edition covers the entire spectrum of the 2013 Edition of NFPA 1001: Standard for Fire Fighter Professional Qualifications, as well as the requirements for Operations level responders in the 2013 Edition of NFPA 472: Standard for Competence of Responders to Hazardous Materials/Weapons of Mass Destruction Incidents. From fire suppression to hazardous materials to emergency medical care, this one volume covers all of Fire Fighter I and Fire Fighter II training requirements. The training program also includes coverage of the UL/NIST research studies and experiments on fire behavior and techniques for ventilation, fire suppression, and search and rescue as a result of the changes in modern building construction and furnishing materials. As a result of these changes, today's fires release energy faster, reach flashover potential sooner, may reach higher temperatures, and are much more likely to become ventilation-limited than building fires of even a few years ago. Tools for Success Quickly identify Fire Fighter II content and skill drills through clear visual roadmaps. Rapidly access content through clear and concise Knowledge and Skill Objectives with page references, as well as NFPA 1001 and 472 correlations. Encourage critical thinking skills. Fire Fighter I and Fire Fighter II case studies offer students a genuine context for applying the knowledge presented in the chapter.
