Financial and Managerial Accounting for MBAs

Course Overview: Management/Managerial Accounting (undergraduate and MBA) The managerial accounting course follows financial accounting in a two-course sequence for first and second year business majors. It is found at both two and four year schools, as well as in MBA programs. The purpose of managerial accounting is to provide managers with information useful in planning and controlling the activities of a business. It deals with internal, rather than external information. Managerial accounting reports include budgets, performance reports, and analysis of economic alternatives such as make-or.

Managerial Accounting 3rd Edition with Financial Accounting 3rd Edition Annual Report and EGrade Plus WebCT (2) Set

Accounting and Finance for Managers is specifically designed for the needs of MBA, EMBA and MA Business and Management students. It includes worked examples throughout the chapters, as well as real-world scenarios and full exercises at the end of each chapter. The book also includes 'Expert view' notes, which encourage students to think more broadly and present them with further issues to consider. For lecturers, the book begins with an indication of how the course material throughout the book might be divided over different time periods. Providing coverage of basic bookkeeping, readers will learn how to interpret financial statements and grasp underlying theory, interpret a cash budget and identify potential problems, identify appropriate pricing strategies to fit different markets and products/services and incorporate financial evaluation into operational decision making and problem solving. Online supporting resources for this book include bonus chapters covering topics such as cash flow, investment decisions and business planning, and lecture slides for each chapter.

Prepare your MBA students to become successful managers, not just leading accountants, with the proven success of MANAGERIAL ACCOUNTING: AN INTRODUCTION TO CONCEPTS, METHODS AND USES, 11E. This edition effectively balances coverage of concepts, methods, and the uses of managerial accounting with a strong emphasis on management decision-making. Students focus on concepts and managerial uses of financial information, rather than simply perfecting the accounting techniques. This edition combines core managerial accounting concepts with the latest cutting-edge material that is relevant to all managers and decision makers. A continued emphasis on international issues prepares students for today's globalized business environment. This edition also highlights the

strategic effects of decisions, ethics, and new management accounting trends to prepare students for the challenges of today's workplace. Numerous realistic examples and application problems help emphasize the skills most critical today including process improvement and integrating financial reporting issues within management decision-making. Students also learn to apply managerial accounting tools to the emerging service sector, government, and nonprofit organizations with new coverage of risk management and internal controls. Select MANAGERIAL ACCOUNTING, 11E to truly prepare your MBA students to be the successful managers they are meant to be.
