"The ways that we think we'll find happiness, we might have it back to front. Where we think by getting what we want and pushing away what we don't want. That's the path to happiness. And it's very natural and very understandable, but it could be that there's another way that's actually deeper, which requires us to let go of that. And then we find that we're part of something already, which gives us basically an infinite amount of happiness, an infinite happiness."

Intro

Clean the block Remove excess wax from edges

Mount block Check that attached without movement

Insert blade NOTE: demonstrator will do this for you

Check safety measures Always engage the blade-guard and handwheel lock when not cutting

Position the block Using left side handwheel

Face the block

Check progress Look for areas where tissue is still covered

Cool the block Necessary to generate flat sections

Re-mount the cooled block

Check position

Assess section quality e.g. check for crumpling and knife marks

Collect sections with forceps Gently encourage sections off the blade

5 minutes later

Check section quality again

A few sections look useable

Transfer sections to water bath c.g. Cradle ribbon between forceps and brush

Mount sections NOTE: Don't scoop. Use upwards motion.

Remove any unwanted sections Reduces risk of cross-contamination

Label slides NOTE: Always label immediately after mounting

Details: Name, date and tissue.

Can do better - block still too warm

While waiting - change the blade Can retain old blade for future trimming of blocks

Let's try again NB: A lot more frost is on the cold plate now.

Patience is the key

Wow, what great sections!

Don't get too greedy 4 to 5 sections is fine when starting out

Now don't mess things up!!

Oops, lost control - made a mess of it!

One good section at least

"Who left the door open?" Was me...

Be patient - try again

Time to cool the block again

Mount, label, then bake slides in oven

Occupational Outlook Handbook, 1976-77 Edition

A head server at a renowned NYC restaurant dishes out stories and trade secrets from the world of fine dining in this behind-the-scenes memoir. While recent college grad Phoebe Damrosch was figuring out what to do with her life, she supported herself by working as a waiter. Before long she was a captain at the legendary four-star restaurant Per Se, the culinary creation of master chef Thomas Keller. *Service Included* is the story of her experiences there: her obsession with food, her love affair with a sommelier, and her observations of the highly competitive and frenetic world of fine dining. Along the way, she provides insider dining tips, such as: Never ask your waiter what else he or she does. Never send something back after eating most of it. Never make gagging noises when hearing the specials—someone else at the table might like to order one.

Restaurant: The Owner's Manual

From the publisher of *Pipette Magazine*, discover a natural wine-soaked memoir about finding your passion—and falling in love. It was Rachel Signer's dream to be that girl: the one smoking hand-rolled cigarettes out the windows of her 19th-century Parisian studio apartment, wearing second-hand Isabel Marant jeans and sipping a glass of Beaujolais redolent of crushed roses with a touch of horse mane. Instead she was an under-appreciated freelance journalist and waitress in New York City, frustrated at always being broke and completely miserable in love. When she tastes her first pétillant-naturel (pét-nat for short), a type of natural wine made with no additives or chemicals, it sets her on a journey of self-discovery, both deeply personal and professional, that leads her to Paris, Italy, Spain, Georgia, and finally deep into the wilds of South Australia and which forces her, in the face of her "Wildman," to ask herself the hard question: can she really handle the unconventional life she claims she wants? Have you ever been sidetracked by something that turned into a career path? Did you ever think you were looking for a certain kind of romantic partner, but fell in love with someone wild, passionate and with a completely different life? For Signer, the discovery of natural wine became an introduction to a larger ethos and philosophy that she had long craved: one rooted in egalitarianism, diversity, organics, environmental concerns, and ancient traditions. In *You Had Me at Pét-Nat*, as Signer begins to truly understand these revolutionary wine producers upending the industry, their deep commitment to making their wine with integrity and with as little intervention as possible, she is smacked with the realization that unless she faces, head-on, her own issues with commitment, she will not be able to live a life that is as freewheeling, unpredictable, and singular as the wine she loves.

Pure and Applied Science Books, 1876-1982

"In *A Good Drink*, Farrell goes in search of the bars, distillers, and farmers who are driving a transformation to sustainable spirits. She meets mezcaleros in Guadalajara who are working to preserve traditional ways of producing mezcal, for the health of the local land, the wallets of the local farmers, and the culture of the community. She visits distillers in South Carolina who are bringing a rare variety of corn back from near extinction to make one of the most sought-after bourbons in the world. She

meets a London bar owner who has eliminated individual bottles and ice, acculturating drinkers to a new definition of luxury."--Amazon.

The Waiter & Waitress and Waitstaff Training Handbook

"Sustainability is about contributing to a society that everybody benefits from, not just going organic because you don't want to die from cancer or have a difficult pregnancy. What is a sustainable restaurant? It's one in which as the restaurant grows, the people grow with it."-from *Behind the Kitchen Door*

How do restaurant workers live on some of the lowest wages in America? And how do poor working conditions-discriminatory labor practices, exploitation, and unsanitary kitchens-affect the meals that arrive at our restaurant tables? Saru Jayaraman, who launched the national restaurant workers' organization Restaurant Opportunities Centers United, sets out to answer these questions by following the lives of restaurant workers in New York City, Washington, D.C., Philadelphia, Los Angeles, Chicago, Houston, Miami, Detroit, and New Orleans. Blending personal narrative and investigative journalism, Jayaraman shows us that the quality of the food that arrives at our restaurant tables depends not only on the sourcing of the ingredients. Our meals benefit from the attention and skill of the people who chop, grill, sauté, and serve. *Behind the Kitchen Door* is a groundbreaking exploration of the political, economic, and moral implications of dining out. Jayaraman focuses on the stories of individuals, like Daniel, who grew up on a farm in Ecuador and sought to improve the conditions for employees at Del Posto; the treatment of workers behind the scenes belied the high-toned Slow Food ethic on display in the front of the house. Increasingly, Americans are choosing to dine at restaurants that offer organic, fair-trade, and free-range ingredients for reasons of both health and ethics. Yet few of these diners are aware of the working conditions at the restaurants themselves. But whether you eat haute cuisine or fast food, the well-being of restaurant workers is a pressing concern, affecting our health and safety, local economies, and the life of our communities. Highlighting the roles of the 10 million people, many immigrants, many people of color, who bring their passion, tenacity, and vision to the American dining experience, Jayaraman sets out a bold agenda to raise the living standards of the nation's second-largest private sector workforce-and ensure that dining out is a positive experience on both sides of the kitchen door.

The Survey

The first cocktail book from the award-winning mixologist Masahiro Urushido of Katana Kitten in New York City, on the craft of Japanese cocktail making Katana Kitten, one of the world's most prominent and acclaimed Japanese cocktail bars, was opened in 2018 by highly-respected and award-winning mixologist Masahiro Urushido. Just one year later, the bar won 2019 Tales of the Cocktail Spirited Award for Best New American Cocktail Bar. Before Katana Kitten, Urushido honed his craft over several years behind the bar of award-winning eatery Saxon+Parole. In *The Japanese Art of the Cocktail*, Urushido shares his immense knowledge of Japanese cocktails with eighty recipes that best exemplify Japan's contribution to the cocktail scene, both from his own bar and from Japanese mixologists worldwide. Urushido delves into what exactly constitutes the Japanese approach to cocktails, and demystifies the techniques that have been handed down over generations, all captured in stunning photography.

You Had Me at Pet-Nat

A rural, working class New England town elects as its mayor a New York hedge fund millionaire in this urgent and inspired novel for our times. Mark Firth is a home builder in Howland, Massachusetts who, after being swindled by a financial advisor, feels opportunity passing him and his family by. What future can he promise to his wife Karen and their young daughter Haley? When a wealthy money manager, Philip Hadi, moves to Howland to escape post-9/11 New York, he hires Mark to turn his house into a secure location. The collision of these two men's very different worlds -- rural vs urban, middle class vs rich -- propels Jonathan Dee's powerful new novel. After the town's first selectman passes away suddenly, Hadi runs for office and begins subtly transforming the town in his image with unexpected

results for Mark and his extended family. THE LOCALS is that rare work of fiction capable of capturing a fraught American moment in real time. It is also a novel that is timeless in its depiction of American small town life.
