Glass Sword

In this epic African adventure, Wilbur Smith returns to his longest running series -- and the very beginnings of the Courtney family saga in the late seventeenth century -- with co-author Giles Kristian. Henry 'Hal' Courtney has always lived at sea. He watched his own father executed during the Anglo-Dutch naval war, and spent his entire young adulthood avenging his father's death. Now a truce has been made between the warring countries and Hal is captain of his own ship the Golden Bough. From the slave markets of Zanzibar to the pirate-riddled waters of the Indian Ocean, Hal leads his crew in and out of the waves of danger. But he soon realizes that just because the war is over, does not mean the battle is won, and the more a man achieves, the more he has to lose. GOLDEN LION follows Hal Courtney's adventures after the Christians have routed the Muslim invaders in Ethiopia in the mid-seventeenth century. And though conflicts still rage, Hal will face a much more personal enemy bent on revenge. WHEN THE LION FEEDS (1964) introduced the Courtney family to readers around the world. Subsequent Courtney novels traced the fortunes, and misfortunes, of this sprawling, ambitious family, from the dawn of the 18th century to the late 20th century, from Natal in South Africa through Rhodesia and up through East Africa. 'Wilbur Smith is one of those benchmarks against whom others are compared' The Times 'No one does adventure like Wilbur Smith' Daily Mirror 'Smith is a master' Publishers Weekly

The Lion Wakes (The Kingdom Series)

'One of them shouted "A Merry Christmas English. We're not shooting tonight." . . . [then] they stuck up a light. Not to be outdone, so did we. Then up went another. So, we shoved up another. Soon the lines looked like an illuminated fete.' Rifleman Leslie Walkington On Christmas Eve 1914, a group of German soldiers laid down their arms, lit lanterns and started to sing Christmas carols. The British troops in nearby trenches responded by singing songs of their own. The next day, men from both sides met in No Man's Land. They shook hands, took photos and exchanged food and souvenirs. Some even played improvised football games, kicking around empty bully-beef cans and using helmets for goalposts. Both sides also saw the lull in fighting as a chance to bury the bodies of their comrades. In some parts of the front, the truce lasted a few hours. In others, it continued to the New Year. But everywhere, sooner or later, the fighting resumed. Today, the Christmas Truce is seen as a poignant symbol of hope in a war that many people regard as unnecessary and futile. But what was the real story of those remarkable few days? In this fascinating new book, historian Anthony Richards has brought together hundreds of first-hand reminiscences from those who were there - including previously unpublished German accounts - to cast fresh light on this extraordinary episode.

'The Art and Ideology of the Trade Union Emblem, 1850–1925' is a groundbreaking book that considers trade union emblems and banners as art objects in their own right. It studies their commissioning, their designers and the social conditions and gender relations that they knowingly or unwittingly reveal. The volume celebrates working-class culture and shows how it could be both innovative and derivative. Annie Ravenhill-Johnson's exploration of the artistry of the emblems – the art of and for the toiling masses – sets these images of labour in their historical, cultural and ideological context.

"Harrowing and emotional . . . A tribute to the enduring power of family. The story of the disaster's widows uplifts and devastates in equal measure." —Gareth Russell, author of *The Ship of Dreams*
When the Titanic foundered in April 1912, the world's focus was on the tragedy of the passengers who lost their lives. Ever since, in films, dramatizations, adaptations and books, the focus has mostly continued to be on the ones who died. *The Titanic and the City of Widows It Left Behind* focuses on another group of people—the widows and children of the crew who perished on board. Author Julie Cook's great-grandfather was a stoker who died on the Titanic. Her great-grandmother had to raise five children with no breadwinner. This book focuses on Emily and the widows like her who had to fight for survival through great hardship, while still grieving for the men they loved who'd died on the ship. Using original archive sources and with accounts from descendants of crew who also lost their lives, the book asks how these women survived through abject poverty and grief—and why their voices have been silent for so long. "The sinking of the Titanic has produced a wealth of books, articles, films and TV documentaries, all of which have given very little thought to the dependents and friends of those who lost their lives in this ocean tragedy. A moving and involving story that corrects this neglect, told by a descendant of a Titanic widow . . . How most of them survived the grief and grinding hardship is a story worth the telling, as are the stories of those who did not survive the crushing pressures." —Firetrench

The Art and Ideology of the Trade Union Emblem, 1850-1925

This is a Scripture-honoring novel of action-adventure, romance, and real-life struggle. It features a culture of relationships tested through war, love, weakness, and triumph. These heroes are not outwardly exceptional—they fail, they don't know what to do, they become angry, and some are beaten down by others—but they are used in amazing, life-changing ways that rise to move even the heart of the king! Go with them into the unknown of far-off exploration. Face the enemy in hand-to-hand combat. Meet the Black Sheik, the old shepherd, and the mysterious "Scrolls of Legacy." Will the love for a lost young wife ever be felt again? Will a family be split apart by adversity? Set in the land of Israel around 1000 BC, it is both a link to our faith's roots, and an understanding of how scriptural principles are timeless.

The Titanic and the City of Widows It Left Behind

Minalan gave up a promising career as a professional warmage to live the quiet life of a village spellmonger in the remote mountain valley of Boval. It was a peaceful, beautiful little fief, far from the dangerous feudal petty squabbles of the Five Duchies, on the world of Callidore. There were cows. Lots of cows. And cheese. For six months things went well: he found a quaint little shop, befriended the local lord, the village folk loved him, he found a sharp young apprentice to help out, and best yet, he met a comely young widow with the prettiest eyes . . . Then one night Minalan is forced to pick up his mageblade again to defend his adopted home from the vanguard of an army of goblins - gurvani, they call themselves - bent on a genocidal crusade against all mankind. And that was the good news. The bad news was that their shamans were armed with more magical power than has been seen since the days of the ancient Imperial Magocracy - and their leader, a mysterious, vengeful force of hate and dark magic, is headed directly to Boval Vale, along with a massive invading army of gurvani. The good people of Boval and their spellmonger have only one choice: to hole up in the over-sized Boval Castle and hope they can endure a siege against hundreds of thousands of goblins. When the people look to him for hope, Minalan does his best, but the odds are depressing: there are multitudes of goblins, and they want Boval Vale as a staging ground for a vengeful invasion of the whole Five Duchies. Add to his troubles a jealous rival mage, a motley band of mercenaries, a delusional liege lord who insists victory is at hand despite the hordes at his door, a dour castellan, a moody, pregnant girlfriend and a catty ex-girlfriend who specializes in sex magic - all trapped in a stinking, besieged castle with no hope of rescue, and you'll understand why Minalan is willing to take his chances with the goblins. All that stands between the gurvani horde and the people of the Five Duchies is one tired, overwhelmed baker's son who wanted nothing more than to be a simple village spellmonger!

Scotland's maritime heritage is a highly significant one, embracing as it does a quite outstanding contribution to Britain's development both as an empire and as the world's leading maritime power in the nineteenth century. Scottish engineering, ship-owning and operating, as well as business and entrepreneurial skills, played a major part in the success of the Merchant Navy, while Scottish emigrants took skills to every corner of the world, creating trade and wealth both abroad and at home. In terms of engineering, 'Clyde-built' was the Kitemark for the shipbuilding industry the world over. Scottish shipowners included household names such as Allan, Anchor, Donaldson and Henderson, while Scotsmen were instrumental in founding and, for much of the time, managing Cunard, British India, P & O, Orient, Glen and many other 'English' companies. The author tells an exhilarating story of energy and inventiveness, describing the remarkable navigational skills of the highlanders and the technological and business skills of the lowlanders, and relates the early development of the steamship, the impact of emigration, the involvement with exploration and the development of trade routes, and the final flowering of the world's last great iron sailing ships. And the evidence is still here, in the Cutty Sark, the Denny test tank at Dumbarton, and the Burrell Collection at Pollock, all reminders of a remarkable story. As seen in Scottish Memories Magazine.

Captain Bennett was, for many years, a serving officer in the Royal Navy as well as being one of the most highly regarded naval historians of his time. He sets the battle in the context of the world-wide struggle against Napoleon, describes the ships, their crews and the tactics of the action. In his scholarly but immensely readable account of the battle he discusses the preparatory manoeuvres and the mechanics of naval warfare in the age of sail. He illustrates the text with many diagrams.
