Multiword expressions

Multiword expressions (MWEs) are a challenge for both the natural language applications and the linguistic theory because they often defy the application of the machinery developed for free combinations where the default is that the meaning of an utterance can be predicted from its structure. There is a rich body of primarily descriptive work on MWEs for many European languages but comparative work is little. The volume brings together MWE experts to explore the benefits of a multilingual perspective on MWEs. The ten contributions in this volume look at MWEs in Bulgarian, English, French, German, Maori, Modern Greek, Romanian, Serbian, and Spanish. They discuss prominent issues in MWE research such as classification of MWEs, their formal grammatical modeling, and the description of individual MWE types from the point of view of different theoretical frameworks, such as Dependency Grammar, Generative Grammar, Head-driven Phrase Structure Grammar, Lexical Functional Grammar, Lexicon Grammar.

Alluvial Fans

Alluvial fans are important sedimentary environments. They trap sediment delivered from mountain source areas, and exert an important control on the delivery of sediment to downstream environments, to axial drainages and to sedimentary basins. They preserve a sensitive record of environmental change within the mountain source areas. Alluvial fan geomorphology and sedimentology reflect not only drainage basin size and geology, but change in response to tectonic, climatic and base-level

controls. One of the challenges facing alluvial fan research is to resolve how these gross controls are reflected in alluvial fan dynamics and to apply the results of studies of modern fan processes and Quaternary fans to the understanding of sedimentary sequences in the rock record. This volume includes papers based on up-to-date research, and focuses on three themes: alluvial fan processes, dynamics of Quaternary alluvial fans and fan sedimentary sequences. Linking the papers is an emphasis on the controls of fan geomorphology, sedimentology and dynamics. This provides a basis for integration between geomorphological and sedimentological approaches, and an understanding how fluvial systems respond to tectonic, climatic and base-level changes.

Börsenblatt für den deutschen Buchhandel

This in-depth exploration of key manuscript sources reveals new information about medieval songs and sets them in their original contexts.

Manuscripts and Medieval Song

This ambitious and vivid study in six volumes explores the journey of a single, electrifying story, from its first incarnation in a medieval French poem through its prolific rebirth in the nineteenth and twentieth centuries. The Juggler of Notre Dame tells how an entertainer abandons the world to join a monastery, but is suspected of blasphemy after dancing his devotion before a statue of the Madonna in the crypt. He is then saved when the statue, delighted by his skill, miraculously comes to life. Jan Ziolkowski tracks the poem from its medieval roots to its rediscovery in late nineteenth-century Paris, before its translation into English in Britain and the United States. The visual influence of the tale on Gothic revivalism and vice versa in America is carefully documented with lavish and inventive illustrations, and Ziolkowski concludes with an examination of the explosion of interest in The Juggler of Notre Dame in the twentieth century and its place in mass culture today. The Juggler of Notre Dame and the Medievalizing of Modernity is a rich case study for the reception of the Middle Ages in modernity. Spanning centuries and continents, the medieval period is understood through the lens of its postmodern reception in Europe and America. Profound connections between the verbal and the visual are illustrated by a rich trove of images, including book illustrations, stained glass, postage stamps, architecture, and Christmas cards. Presented with great clarity and simplicity, his work is accessible to the general reader, while its many new discoveries will be valuable to academics in such fields and disciplines as medieval studies, medievalism, philology, literary history, art history, folklore, performance studies, and reception studies. This work was published by Saint Philip Street Press pursuant to a Creative Commons license permitting commercial use. All rights not granted by the work's license are retained by the author or authors.

The Juggler of Notre Dame and the Medievalizing of Modernity

This book reconstructs the pre-Julian calendar of Rome on the basis of epigraphical and literary evidence, and analyzes its relation to the solar and lunar years. Mrs. Michels shows how the varied contents of the calendar were related to the political as well as to the religious life of Rome of the first century B.C. She traces the history of the calendar back to the fifth century, indicating the stages by which a single list of festivals may have developed into the complex document of the late republic. The Roman method of intercalation, the character of the days, and the history of the *trinum nundinum* are presented in appendices. Originally published in 1967. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Calendar of the Roman Republic

Terrorist organizations might increase use of digital cryptocurrencies to support their activities. RAND researchers consider the needs of such groups and the advantages and disadvantages of the cryptocurrency technologies available to them.

Terrorist Use of Cryptocurrencies

This is a study of the nature of Ottoman administration under Sultan Abdulhamid and the effects of this on the three provinces that were to form the modern state of Iraq. The author provides a general commentary on the late Ottoman provincial administration and a comprehensive picture of the nature of its interaction with provincial society. In drawing on sources of the Ottoman archives, bringing together and analyzing an abundance of complex documents, this book is a fascinating contribution to the field of Middle Eastern studies.

The University

Deutschland 2052: Die Menschen leiden unter heißen, trockenen Sommern. Um die Wasserknappheit zu lindern, arbeitet Vega als Wettermacherin – sie beeinflusst die Wolken und lässt es regnen. Doch sie hütet ein Geheimnis: Anders als ihre Kollegen benutzt sie dazu keine Chemikalien und Drohnen. Denn Vega kann mit der Kraft ihrer Gedanken Wind und Regen rufen. Als bei einem rätselhaften Wetterunfall Kinder verletzt werden, wird Vega zur Zielscheibe. Wie soll sie ihre Unschuld beweisen, wenn niemand von ihrer Gabe erfahren darf? Hilfe erhält sie unerwartet von Leo, einem jungen Wissenschaftler, der das Wesen von Stürmen erforscht. Auf ihrer Suche nach der Wahrheit gerät Vega immer tiefer in ein Netz aus einflussreichen Umweltbehörden, Aktivisten und Konzernen ... Wem kann sie noch vertrauen? Und wie die Menschen schützen, die sie liebt?

The Ottoman Administration of Iraq, 1890-1908

"The Renaissance saw a dramatic explosion of such force that, four hundred years later, its plays are still amongst the most frequently performed and studied we have. This anthology offers a full introduction to Renaissance theatre in its historical and political context, along with newly edited and comprehensively annotated texts of the following plays: The Spanish Tragedy (Thomas Kyd); Arden of Faversham (Anon.); Edward II (Christopher Marlowe); A Woman Killed with Kindness (Thomas Heywood); The Tragedy of Mariam (Elizabeth Cary); The Masque of Blackness (Ben Jonson); The Knight of the Burning Pestle (Francis Beaumont); Epicoene, or the Silent Woman (Ben Jonson); The Roaring Girl (Thomas Middleton and Thomas Dekker); The Changeling (Thomas Middleton and William Rowley); and 'Tis Pity She's a Whore (John Ford).".

Fortnightly Index

Marion Reddy, Iris Zachenhofer Dachschaden - zwei Neurochirurginnen decken auf. Mit dem schwarzen Humor abgebrühter Ärztinnen decken Marion Reddy und Iris Zachenhofer schwere Missstände an neurochirurgischen Abteilungen auf: Da wagt sich ein Bandscheiben-Spezialist mit nichts als einer Video-Anleitung an einen Gehirntumor. Ein Gehirnspezialist führt eine völlig überflüssige Operation durch, bloß weil sie ihm noch auf seiner Liste fehlt. Die Folgen sind allzu leicht bleibende Schäden für die Patienten. "Dachschaden" ist ein freches Buch über Machtstrukturen, Systemfehler, programmierte Pannen und den Narzissmus ärztlichen Personals im exponiertesten Bereich des Gesundheitssystems, der Neurochirurgie. Quintessenz: Jemand öffnet Ihren Schädel und tut etwas mit Ihrem Gehirn. Sie vertrauen ihm. Das sollten Sie aber nicht.

Allgemeines Gelehrten Lexicon (fortges. von Johann Christoph Adelung und Heinrich Wilhelm Rodermund.)

A collection of Pollmann's previously-published essays on early Christian poetry, most newly-translated from German and all updated and corrected. It is a genre that has tended to be overlooked by both Classicists and Patristics scholars and this collection will rectify that.

Official Register of the United States

The advice given to Cicero by his astute, campaign-conscious brother to prepare him for the consular elections of 64 B.C., has a curiously modern ring: "Avoid taking a definite stand on great public issues either in the Senate or before the people. Bend your energies towards making friends of key-men in all classes of voters." Party Politics in the Age of Caesar is a shrewd commentary on this text, designed to clarify the true meaning in Roman political life of such terms as "party" and "faction." Taylor brilliantly explains the mechanics of Roman politics as she discusses the relations of nobles and their clients,

the manipulation of the state religion for political expedience, and the practical means of delivering the vote.

National Five Digit Zip Code and Post Office Directory

Belize, a tiny corner of the Caribbean wedged into Central America, has been a fast food nation since buccaneers and pirates first stole ashore. As early as the 1600s it was already caught in the great paradox of globalization: how can you stay local and relish your own home cooking, while tasting the delights of the global marketplace? Menus, recipes and bad colonial poetry combine with Wilk's sharp anthropological insight to give an important new perspective on the perils and problems of globalization.

Army and Power in the Ancient World

Bailey & Love's Short Practice of Surgery remains one of the world's pre-eminent medical textbooks, beloved by generations of surgeons, with lifetime sales in excess of one million copies. Now in its 25th edition, the content has been thoroughly revised and updated while retaining its traditional strengths. Under the stewardship of the eminent editorial team, comprising two editors with experience gained over previous editions and a third editor new to this edition, and in response to reader feedback, the content has been sub-divided into parts to ensure a logical sequence and grouping of related chapters throughout while the text features enthusiastically received in the last edition have been retained. The new edition opens with sections devoted to the underlying principles of surgical practice, investigation and diagnosis, and pre-operative care. These are followed by chapters covering all aspects of surgical trauma. The remainder of the book considers each of the surgical specialties in turn, from elective orthopaedics through skin, head and neck, breast and endocrine, cardiothoracic and vascular, to abdominal and genitourinary. Key features: Authoritative: emphasises the importance of effective clinical examination and soundly based surgical principles, while taking into account the latest developments in surgical practice. Updated: incorporates new chapters on a wide variety of topics including metabolic response to injury, shock and blood transfusion, and surgery in the tropics. Easy to navigate: related chapters brought together into clearly differentiated sections for the first time. Readable: preserves the clear, direct writing style, uncluttered by technical jargon, that has proved so popular in previous editions. User-friendly: numerous photographs and explanatory line diagrams, learning objectives, summary boxes, biographical footnotes, memorable anecdotes and full-colour presentation supplement and enhance the text throughout. Bailey and Love has a wide appeal to all those studying surgery, from undergraduate medical students to those in preparation for their postgraduate surgical examinations. In addition, its high standing and reputation for unambiguous advice also make it the first point of reference for many practising surgeons. The changes that have been introduced to the 25th edition will only serve to strengthen support for the text among all these groups.

Who's who in American Education

This ambitious and vivid study in six volumes explores the journey of a single, electrifying story, from its first incarnation in a medieval French poem through its prolific rebirth in the nineteenth and twentieth centuries. The Juggler of Notre Dame tells how an entertainer abandons the world to join a monastery, but is suspected of blasphemy after dancing his devotion before a statue of the Madonna in the crypt; he is saved when the statue, delighted by his skill, miraculously comes to life. Jan Ziolkowski tracks the poem from its medieval roots to its rediscovery in late nineteenth-century Paris, before its translation into English in Britain and the United States. The visual influence of the tale on Gothic revivalism and vice versa in America is carefully documented with lavish and inventive illustrations, and Ziolkowski concludes with an examination of the explosion of interest in The Juggler of Notre Dame in the twentieth

century and its place in mass culture today. Volume 3: The American Middle Ages hinges upon two figures influenced by the juggler: Henry Adams, scion of Presidents and distinguished cultural historian whose works contributed to the rise of medievalism in America during the Gilded Age, and Ralph Adams Cram, the architect whose vision of Gothic accounts directly or indirectly for the campuses of West Point, Princeton, Yale, Chicago, Notre Dame, and many other universities across America. The Juggler of Notre Dame and the Medievalizing of Modernity is a rich case study for the reception of the Middle Ages in modernity. Spanning centuries and continents, the medieval period is understood through the lens of its (post)modern reception in Europe and America. Profound connections between the verbal and the visual are illustrated by a rich trove of images, including book illustrations, stained glass, postage stamps, architecture, and Christmas cards. Presented with great clarity and simplicity, Ziolkowski's work is accessible to the general reader, while its many new discoveries will be valuable to academics in such fields and disciplines as medieval studies, medievalism, philology, literary history, art history, folklore, performance studies, and reception studies.

Register of the Commissioned and Warrant Officers of the Navy of the United States and of the Marine Corps

Italians to America is the first indexed reference work devoted to Italian immigrants to the United States. This series contains passenger list information in chronological order on the first major wave of Italian migration during the last two decades of the nineteenth century, as well as the beginning of the twentieth century. As with the highly regarded companion series on German immigrants, Italians to America presents the passenger lists in chronological order, including information on each person's age, sex, occupation, village of origin, and destination, plus the name of the ship, the port of embarkation, and the date of arrival. Each volume also contains an introduction on the history of Italian migration to the U.S. and a full name index, greatly simplifying the researcher's job.

Dachschaden

A l'occasion de l'emeritatus de Herman Braet, professeur de litterature medievale francaise et occitane aux universites d'Anvers et de Louvain, de nombreux collegues belges et etrangers ont souhaite contribuer au volume d'hommages Contez me tout. Ce recueil propose un itineraire passionnant a travers les investigations les plus recentes, principalement en langue, en litterature et en iconographie du Moyen Age, tant dans le domaine francais qu'occitan. Par son titre comme par les contributions qui le composent, il rend hommage a l'infatigable chercheur qu'est Herman Braet qui, depuis pres de quarante ans, parcourt la litterature et le monde en quete de savoir et d'images. Son portrait scientifique ainsi que sa bibliographie actualisee completent ces hommages.

Annals of Music in America

Profiles the most influential men and women from America's heartland Contains over 16,000 biographies of people working in Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, and Wisconsin in the United States, and from Manitoba and western Ontario in Canada.

The Baptized Muse

This book serves to provide a detailed exploration of the various leadership styles exhibited today. In order to better comprehend the organic link between styles of leadership, this book deals with almost all models of leadership and demonstrates how dynamic these forms of leadership actually are. It is an essential and extensive reference point for both academics and practitioners.

Party Politics in the Age of Caesar

This collection of essays deals with the rise and development of early Christian poetry, discussing its techniques and its theoretical foundation. The individual papers concern specimina of Hebrew, Syriac, Greek and Latin poetry and study the various and partly conflicting traditions from which it originated. The biblical examples, e.g. of the Psalms, held great authority, but on the other hand it was impossible to break away from the models of classical Greco-Roman poetry, although these were deemed dangerous because of the pagan content and excessive cult of literary art. The book shows how the problems involved were solved in different ways, which justified the use of pagan literary accomplishments for singing the praises of the Lord.

Billboard

A SCIENCE FICTION CLASSIC BACK IN PRINT! Simeon was a shell-person—the brain who ran Space Station SSS-900 on the fringes of human space. But things hadn't been going too well lately, and he was more than a little discontented. Though normally he enjoyed his work, these days it seemed boring. To make matters worse, his long-time partner had just retired and he was having a hard time adjusting to his newly assigned brawn—a strong-willed woman named Channa Hap who seemed to feel it her duty to keep him in line. He's buried himself in his favorite pastime—wargaming. Simeon's hobby would find unexpected uses when the brutal Kolnari attack the nearby colony planet Bethel. Sheltering the colony's refugees brought “the city” an invitation to serious trouble with Kolnari pirates. And only Simeon and Channa working together can save the city. At the publisher's request, this title is sold without DRM (Digital Rights Management). About Death of Sleep by Anne McCaffrey and Jody Lynn Nye: “McCaffrey has created a feisty, likable character in Lunzie Mespil.” —Publishers Weekly About S.M. Stirling: “Rousing . . . a stirring tale.” —John Ringo
