The Forgotten Tower

The Forgotten Tower is a mesmerising gothic mystery about a castle full of dark secrets and buried history, from Sunday Times top ten bestselling author Lulu Taylor. Georgie is reluctant to move when her husband inherits Wakefield Castle, but he is determined to restore its fortunes. When exploring her new home she finds an old handwritten recipe book which leads her to suspect that the castle hides secrets as troubling as her own . . . In 1939, as war is declared, the Wakefield family open the castle to shelter unusual guests. As the Wakefield children learn to cope with the loss of their missing parents and the presence of newcomers, the castle becomes a refuge and a keeper of secrets. As Georgie's fascination for the castle grows, it becomes a place for her own escape. But when unravelling the mysteries of its past, she realises that in order to be truly free, she must confront what she most dreads. 'Don't you just want to grab this, switch off the phone and curl up on the sofa? Winter bliss from Lulu Taylor' - Veronica

Henry, author of The Foreign Exchange 5 Star Reader Reviews: 'A mesmerising gothic novel, written to perfection' 'I have loved everything this author has written and this was no exception'

The Forgotten Tower

The final installment of Sara Harvey's steampunk trilogy finds Portia Gyony trapped in a circus cage. Her ghostly lover, Imogen, has been resurrected to corporeal form, but a happy reunion must wait. Dark forces still lurk in the land of the dead, and they are bent on stealing the energies of the living to power a machine that will break the barriers between the realms of the living and the shadowlands beyond. This time, Portia may not have the full support of the Primacy behind her as she battles to save humankind from powers beyond the understanding of mortal man. Deceit and disaster abound, bringing Portia and Imogen closer to each other and to doom than ever before. Old allies and old enemies converge in this final chapter of the nephilim's power struggle over the world. Don't miss the first two books of the Penemue trilogy!: The Convent of the Pure The Labyrinth of the Dead "Sara M. Harvey writes suspenseful, romantic, and exciting steampunk that is not to be missed. An absolute delight!" --Lavie Tidhar, World Fantasy Award-nominated author of The Bookman and Camera Obscura. "The Labyrinth of the Dead is a sensual, apocryphal nightmare--an exquisite adventure that manages to be both epic and personal, sweet and vicious." Cherie Priest, Hugo Award-nominated author of Boneshaker, Fathom, and Four and Twenty Blackbirds "The Convent of the Pure is a compelling blend of the numinous and the creepy, with a rich, atmospheric setting. I devoured it in a single sitting!" --Jacqueline Carey, author of Kushiel's Dart Reviews "I finished The Tower of the Forgotten in record time and it left me wanting more. I give this book 5 out of 5 tentacles and beg Sara M. Harvey to write more of this world and its inhabitants." --She Never Sleeps, Heather Royston

The Tower of the Forgotten

Excerpt from The Tower of London The Tower of London is the most interesting fortress in Great Britain; it has a history equalled in interest by few fortresses in the world. The Acropolis at Athens and the Capitol of Rome are far more ancient, but they are fortresses no longer. The only rival in this respect that occurs to me is the massive tower at the Western Gate of Jerusalem. It was probably built by King David, and enlarged by Herod and it is a military castle at this day. So is our Tower, and it was built for that use. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. The Tower of London

Excerpt from The Secret of the Tower "Just in time, wasn't it?" asked Mary Arkroyd. "Two days before the - the ceremony! Mercifully it had all been kept very quiet, because it was only three months since poor Gilly was killed. I forget whether you ever met Gilly? My half-brother, you know?" "Only once - in Collingham Gardens. He had an exeat, and dashed in one Saturday morning when we were just finishing our work. Don't you remember?" "Yes, I think I do. But since my engagement I'd gone into colors. Oh, of course I've gone back into mourning now! About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. The Tower

Excerpt from The Tower of Oblivion I think it is Edgar Allan Poe who says that while a plain thing may on occasion be told with a certain amount of elaboration of style, one that is unusual in its very nature is best related in the simplest terms possible. I shall adopt the second of these methods in telling this story of my friend, Derwent Rose. And I will begin straight away with that afternoon of the spring of last year when, with my own eyes, I first saw, or fancied I saw, the beginning of the change in him. PRISONERS OF THE TOWER OF LONDON

From the Aurealis Award-winning author of *A Crucible of Souls*. In a world devastated by a series of cataclysms, where the followers of different gods vie for ascendancy, mankind carves out a precarious existence among the remnants of a desolated past. Cities and civilizations are built atop mysterious and oftentimes menacing ruins, and the unforgiving wilderness outside is filled with inhuman creatures and races from before the dawn of history. Sorcery is seen by some as a gift of the gods, and by others as their curse. And the demon-ravaged past has all but been forgotten. As a secret cabal schemes to awaken an evil thought defeated millennia ago, the lives of three unlikely heroes are fated to converge: Aldric, a veteran priest and sorcerer, who seeks acceptance from the church that shuns him. On the brink of their approval, he receives a mission that brings him face to face with a long-buried evil. Niklaus, master swordsman, and slave to his goddess, who plots to split the veil between life and death and ascend to become her equal. Kurio, the runaway daughter of a noble family, now turned to thievery, who stumbles across a disturbing secret that binds her future to infernal designs. Drawn toward a horrifying endgame by an unknown force, Aldric, Niklaus, and Kurio find themselves in a battle not only for their lives, but for the beliefs that have come to define them. A wrong decision, an overreaching ambition, or the failure of an already tormented faith, is all it will take to plunge mankind into an eternal dark.

The Tower of Oblivion (Classic Reprint)

Excerpt from *The Tower*: A Novel Turning to the table she took up the field-glasses and hastily levelled them at the wide windows of the Tower rooms, below the arches. Surely there was some one moving inside! A woman in a mob cap came to the window and shook out a duster in the air. It was an intrusion, an unendurable intrusion! She swept her glass upward and was startled to find herself gazing into the face of a man who was leaning with his elbows on the stone balustrade, looking out over the garden and smoking tranquilly, as if he had a right to be there! There was something familiar in the poise of his head; his hand moved out slowly and she knew that he had flicked the ash from the tip of his cigar with his little finger. The color rushed to Miss Langdon's cheeks; she could not have seen at that distance; how was it, then, that she had been able to divine the exact turn of the hand, the quick motion of the finger, every detail that must have accompanied the vague movement which had caught her eye through the glass? Who can he be she murmured. He doesn't look young; it is not possible that some one is going to take the rooms again? The Tower

Excerpt from 1967 *Tower* Many a night in a small room labeled 102, better known to the yearbook staff as the year book office, there can be heard the sounds of the creation of the *Tower* A typewriter clicking, an excited cry when a layout is finished, or even the murmur of voices planning for future deadlines, are all part of producing a yearbook. The *Tower* staff has strived to create a yearbook using new themes and ideas in order that U. High students can best remember the highlights of this year. The Tower From Within (Classic Reprint)

Excerpt from The Tower of London, Vol. 1 of 2 It would be vain to search any other city, Rome itself not excepted, for another such group of buildings, or to match the historic interest and splendid record of the ancient Norman structure. The Tower is indeed rife with interest; the most dramatic events of our country's history during more than seven hundred years have been enacted within or near its walls. To see it is to conjure up a vision of scenes, some brilliant and stately, some tragic and awful, but all full of deepest interest to the hearts and minds of Britons, to whom the history of their land is dear. Although several works - some voluminous, such as the two ponderous quartos by John Bayley, published in 1825, and some more recent, such as the histories of the Tower by Britton and Brayley, and, more recently still, those by Lord de Ros and Doyne Bell - have appeared, I venture to think that in writing the present account of the Tower I have not undertaken a thankless or a useless task. The Tower of London

Excerpt from The History and Antiquities of the Tower of London: With Memoirs of Royal and Distinguished Persons, Deduced From Records, State-Papers, and Manuscripts, and From Other Original and Authentic Sources Dr. Milles considered it in some degree questionable, whether Honorius was here meant for an officer in the mint where this piece of metal was refined and stamped, or whether it applied to the emperor of that name: many reasons, however, induce us to adopt the latter signification the form of the letters and the style of the mark unite in giving it antiquity coeval with Honorius's reign, and the peculiar circumstance of its being found with the three gold coins above mentioned, one of which was of that emperor, satisfactorily identifies it with his person. We may therefore conclude, that the impression was made with the stamp of the imperial mint, as soon as the metal had been assayed; and was intended to certify its standard purity and weight; and also, perhaps, to give it currency. The Tower of London, Vol. 2

In derelict Dresden a cultivated, middle-class family does all it can to cope amid the Communist downfall. This striking tapestry of the East German experience is told through the tangled lives of a soldier, surgeon, nurse and publisher. With evocative detail, Uwe Tellkamp masterfully reveals the myriad perspectives of the time as people battled for individuality, retreated to nostalgia, chose to conform, or toed the perilous line between East and West. Poetic, heartfelt and dramatic, *The Tower* vividly resurrects the sights, scents and sensations of life in the GDR as it hurtled towards 9 November 1989. Uwe Tellkamp was born in 1968 in Dresden. After completing his military service, he lost his place to study medicine on the grounds of 'political sabotage'. He was arrested in 1989, but went on to study medicine in Leipzig, Dresden and New York, later becoming a surgeon. He has won numerous regional prizes for poetry, as well as the Ingeborg Bachmann Prize for *The Sleep in the Clocks*. In 2008, he won the German Book Prize for *The Tower*.

The Tower

Excerpt from *Memorials of the Tower of London* In attempting a Memoir of this Royal Palace and Fortress, and of the most remarkable and notorious persons who have been inmates of the Tower, it would be unjust not to acknowledge the value of Messrs. Britton and Brayley's book, as the most satisfactory reference for most of the disputed questions of Tower tradition, as well as for the general historical accuracy with which they have treated the whole of the subject.(vii) About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. The Tower 1954 (Classic Reprint)

Excerpt from *The Tower of London*, Vol. 2 of 2 Owing to the plague then raging in London, the customary procession at the coronation was omitted, although the King rode in state from the Tower to Westminster, preparatory to the Opening of his first Parliament on 1st Of March 1605, as the Londoners had made their welcome for him ready. In Mr Sidney Lee's *Life of Shakespeare*, he states that Shakespeare, with eight other players of the King's company of actors, walked from the Tower of London to Westminster in the procession which accompanied the King in his formal entry into London. Each actor received four and a half yards of scarlet cloth to wear as a cloak on the occasion, and in the document authorising the grant, Shakespeare's name stands first on the list. This is the only time that we can positively know that Shakespeare was ever at the Tower; but his frequent introduction Of the fortress into his historical dramas makes it certain that he must often have visited a place so full of dramatic episodes and historical memories. Memorials of the Tower of London (Classic Reprint)

Excerpt from Authorised Guide to the Tower of London The present buildings are partly of the Norman period but architecture of almost all the styles which have flourished in England may be found within the walls. It is well to remember that though the Tower is no longer a place of great military strength it has in time past been a fortress, a palace, and a prison, and to view it rightly we must regard it in this threefold aspect. The Tower of London, Vol. 2 of 2 (Classic Reprint)

Excerpt from The Tower, 1932 Now, as we present this book to the Class of '32, we like to recall to memory those earlier editions of the tower, for although their words were written with other individuals in mind, their meaning is universally applicable to every true daughter of Manhattanville. Just as the traditions of Manhattanville are still living, glowing things, though the passing years have wrought many changes, so the things written about her remain always true and always applicable, despite the different atmosphere which characterizes each individual year. And it is because we feel that the Class of '32 has become permeated with this spirit of timelessness in all that concerns their Alma Mater that we can part with them, if not joyfully, yet at least not sorrowfully. We are confident that while Manhattanville lasts and the tower endures their college days will live contemporaneously with them and not merely linger as memories. In some far-distant May, when the tower celebrates its fiftieth instead of its fifth birthday, it will still be the same book, warm and alive with the same spirit of timelessness which is the essence of Manhattanville and the all-encompassing bond which draws together all her children, 'past, present and future, in the quiet Shadow of the Copper Tower. The Tower, 1932 (Classic Reprint)

Excerpt from St. Katherine's by the Tower: A Novel Great and mighty events happened in the year 1793 - yea, and continued to happen for twenty years and more to follow. These events have already, though so recent, engaged the attention of the historian, the biographer, and of those humbler writers who collect the crumbs, so to speak - the anecdotes, stories, whispers, and scandals concerning all the great men engaged, so that the curious world shall learn to its complete satisfaction how the Corsican Usurper - to instance the greatest man concerned - behaved in respect to his eating, his drinking,

his amours, and his dress. If we cannot understand statesman Ship and high policy, we can at least understand these lesser things. St. Katherine's by the Tower

Excerpt from The Tower of Taddeo, Vol. 3 of 3 She was a good - hearted woman, but in her manner she permitted herself to be rougher, ruder, more boisterous of late; she did not see why she should not add Violence to her nature, why she should trouble herself to speak softly. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. The Tower, 1934 (Classic Reprint)

A young group of friends must navigate conspiracy and sorcery in one of the most legendary cities of the Forgotten Realms—Waterdeep When the newest Blackstaff—a powerful wizard who defends the city of Waterdeep—is captured as part of an evil ploy for power, a motley crew of accomplices must band together to restore the Blackstaff to power and save the city. Laraelra, Meloon, Renaer and other legendary heroes of the Forgotten Realms form an unlikely team, rising above their humble origins to complete an epic quest through the City of Splendors. Together, they fight side by side in the race to reach Blackstaff Tower before the forces of evil can claim it as their own. Blackstaff Tower is the first book in a series of standalone novels set in Waterdeep.

The Tower of Taddeo, Vol. 3 of 3 (Classic Reprint)

Excerpt from Authorised Guide to the Tower of London: Abridged; Revised Edition The Tower of London was founded in 1078, by William the Conqueror, for the purpose of protecting and controlling the city. To make room for his chief buildings he removed two bastions of the old wall of London, and encroached slightly upon the civic boundaries. Part therefore of the Tower is in London, and part in Middlesex, but it forms, with its surrounding fortifications, a precinct in itself which belongs neither to the city nor the county. It covers an area of 18 acres within the Garden rails. The present buildings are partly of the Norman period; but architecture of almost all the styles which have flourished in England may be found within the walls. It is well to remember that though the Tower is no longer a place of great military strength it has in time past been a fortress, a palace, and a prison, and to view it rightly we must regard it in this threefold aspect. It was first built as a fortress, and has a central Keep, called the "White Tower." The Inner Ward is defended by a wall, flanked by thirteen towers, the entrance to it being on the south side under the Bloody Tower. The Outer Ward is defended by a second wall, flanked by six towers on the river face, and by three semicircular bastions on the north face. About the

Blackstaff Tower

IF IT'S WAR YOU WANT . . . The best of military epic fantasy as the bestselling Saga of the Forgotten Warrior series continues. The Great Extermination has begun. In the Capitol, Grand Inquisitor Omand Vokkan hatches a plot to kill every member of the untouchable caste in all of Lok, down to the last man, woman, and child. As a member of the Order of Inquisition, Vokkan has no official say in the creation of Law, but he has powerful allies willing to do his bidding. Through them, he has convinced the Judges that the genocide will be swift, complete, and without complication. Nothing is farther from the truth. Lord Protector Devedas has sworn to uphold the Law. Once, he and the traitor Ashok Vadal had been like brothers. Now, he hunts Vadal and the Sons of the Black Sword, heretics and rebels who seek to live outside the rule of the Law. All Devedas must do is find and kill his best friend and order will be restored to Lok. The rebels seek the secret kingdom spoken of by the Prophet Thera, a paradise where water is pure and food plentiful, where there are no castes, where the people rule themselves, and are not slaves to the Capitol. Ashok Vadal is not sure he believes in such a Paradise, but he—along with his allies—does seek refuge in the rebellion's hideout in Akershan. But Vadal, a former High Protector who has turned his back on the corrupt Law, will not merely wait meekly, hoping that fleeing to Akershan will spare the rebellion from the clutches of the Great Extermination. No, if it's a war the Capitol wants, Vadal, who has faced down gods and demons, will be all too willing to give it to them. About House of Assassins: "Correia piles on the intrigue, action, and cliffhangers in the invigorating second Saga of the Forgotten Warrior epic fantasy. . . . Correia also weaves in elements that question the value of belief and the cost of giving authority to those who find more profit in preying on the weak. . . . Brisk fight scenes, lively characters, and plenty of black humor continue to make this series a real pleasure."—Publishers Weekly About prequel Son of the Black Sword: "This book has everything I like in fantasy: intense action scenes, evil in horrifying array, good struggling against the darkness, and most of all people—gorgeously flawed human beings faced with horrible moral choices that force them to question and change and grow."—Jim Butcher, creator of the New York Times best-selling Dresden Files "Best-selling fantasy author Correia casts a compelling spell with this India-influenced series opener. . . . Correia skillfully sets in motion this story of plots within plots, revealing complex, sympathetic characters and black-hearted villains with equal detail and insight. Full of action, intrigue, and wry humor, this exciting series launch promises many more thrills to come."—Publishers Weekly (starred review) "Fans who like Correia's fast-moving style will be pleased with the plethora of action scenes, and epic fantasy readers interested in delving into a new universe should be equally satisfied. A solid choice for admirers of Brent Weeks and Brandon Sanderson's Mistborn series."—Library Journal "Correia is, above all, a storyteller, and he weaves a unique and entertaining tale. Without question, his action sequences pop on the page, his magic system has a nice wrinkle, and he has the foundations laid out for some excellent character growth as the series continues . . . [A] definite hit."—Bookreporter "The lore here is fascinating and well told. I enjoyed learning the history of the world and the legend of Ramrowan. The politics are just complicated enough to feel real without being too difficult to follow. Where the book truly shines, however, is in the characters. All are well drawn and distinctively voiced."—SFCrowsnest "I loved the book, it was great, fast paced, with wonderful characters, and also a lot of wonderful scenes that screamed to be painted."—Larry Elmore, legendary, award-winning artist, and cover artist for Son of the Black Sword. "Son of the Black Sword: Saga of the Forgotten Warrior tells of what happens after the war with the gods, when demons were cast out and fell to the world to nearly destroy these unstoppable beasts until the gods sent a hero to save them. Centuries have passed since this event and the people have regulated these events to legend. One Ashok has been chosen to be a protector with a powerful weapon in hand, uncovering those who still practice old ways and are potential dangers to the order—but when he discovers all his efforts have been based on a lie, everything's about to change. A powerful epic fantasy evolves into a solid, compelling read."—Midwest Book Review About the Urban Fantasy of Larry Correia: "[A] no-holds-barred all-out page turner that is part science fiction, part horror, and an absolute blast to read."—Bookreporter.com "A gun person who likes science fiction—or, heck, anyone who likes science fiction—will enjoy [these books] . . . The plotting is excellent, and Correia

makes you care about the characters . . . I read both books without putting them down except for work . . . so whaddaya waitin' for? Go and buy some . . . for yourself and for stocking stuffers.”—Massad Ayoob
“This lighthearted, testosterone-soaked sequel to 2009’s *Monster Hunter International* will delight fans of action horror with elaborate weaponry, hand-to-hand combat, disgusting monsters, and an endless stream of blood and body parts.”—Publishers Weekly on *Monster Hunter Vendetta*

Authorised Guide to the Tower of London

Excerpt from *A Short History of the Tower of London: With a List of Interesting Curiosities Contained Therein* There is not, in this country, a building so replete with historical associations as the tower or London. Its early character as a palace, a prison, and a fortress, immediately connected with the metropolis, has rendered an acquaintance with its annals indispensable to a knowledge of the history of our great nation annals which frequently supply, in their detail, those secret springs of political action, in the absence of which, the historian too frequently substitutes fancy for truth, and consequently produces, in the result of his labours, a mere tale founded on facts. Destroyer of Worlds

Excerpt from *The Tower of Taddeo, Vol. 1* Had belonged to that age in which men knew so well how to unite the useful and the beautiful, how to harmonize the lovely with the formidable, and how to use the sports of peace to hide the strength of war. For it had been built by the great builder of its neighbour, the Jeweller’s Bridge, and it was called now, as it had been called in the days of its rising, the Tower of Taddeo. Tradition indicated it also as at one time his residence, but this rested only on rumour; that he had been its architect the archives of the city proved beyond any doubt. He had built it as he built and painted so much else that was beautiful. Beauty in those days was necessary as air to those men, so much. A Short History of the Tower of London

In derelict Dresden a cultivated, middle-class family does all it can to cope amid the Communist downfall. This striking tapestry of the East German experience is told through the tangled lives of a soldier, surgeon, nurse and publisher. With evocative detail, Uwe Tellkamp masterfully reveals the myriad perspectives of the time as people battled for individuality, retreated to nostalgia, chose to conform, or toed the perilous line between East and West. Poetic, heartfelt and dramatic, *The Tower* vividly resurrects the sights, scents and sensations of life in the GDR as it hurtled towards 9 November 1989.

The Tower of Taddeo, Vol. 1 (Classic Reprint)

Excerpt from *The Tower of London, Vol. 1: An Historical Romance* The advanced guard of the procession was formed by a troop of halberdiers dressed in striped hose of black and tawny, velvet caps decked at the side with silver roses, and doublets of murrey and blue cloth, embroidered on the front and at the back with the royal blazon, woven in covered with crimson velvet, mented with golden tassels. The Tower

Excerpt from Prisoners of the Tower of London: Being an Account of Some Who at Divers Times Lay Captive, Within Its Walls It would be quite impossible for me to personally mention every work from which I have received valuable help in the compilation and arrangement of these little sketches. Wherever direct quotations have been made I have endeavoured to mark the same, but if in any case I have omitted to do so, I crave forgiveness for such an unintentional error; and I gratefully acknowledge my indebtedness to a long list of writers, from the early chroniclers to the historians of our own day, including the authors of special works on the Tower of London. The shortcomings of this work are all too apparent; and, realising the greatness of the subject, I am conscious of my own inability to treat it worthily.
