Lipstick Traces

A cult classic in a new edition. This book is about a single, serpentine fact: late in 1976 a record called 'Anarchy in the UK' was issued in London, and this event launched a transformation of pop music all over the world. The song distilled, in crudely poetic form, a critique of modern society once set out by a small group of Paris intellectuals. In Lipstick Traces, Greil Marcus's classic book on punk, Dadaism, the situationists, medieval heretics and the Knights of the Round Table (amongst others), the greatest cultural critic of our times unravels the secret history of the twentieth century.

Lipstick Traces

This is a secret history of modern times, told by way of what conventional history tries to exclude. Lipstick Traces tells a story as disruptive and compelling as the century itself.

Rude Mechs' Lipstick Traces

A graphic adaptation by Lana Lesley of the stage adaptation by Rude Mechs of the book by Greil Marcus.

Lipstick Traces

Twenty years as an outsider scouring the underbelly of American culture has made Howard Hampton a uniquely hard-nosed guide to the heart of pop darkness. Bridging the fatalistic, intensely charged space between Apocalypse Now Redux and Nirvana's "Smells Like Teen Spirit," his writing breaks down barriers of ignorance and arrogance that have segregated art forms from each other and often from the world at large. In the freewheeling spirit of Pauline Kael, Lester Bangs, and Manny Farber, Hampton calls up the extremist, underground tendencies and archaic forces simmering beneath the surface of popular forms. Ranging from the kinetic poetry of Hong Kong cinema and the neo-New Wave energy of Irma Vep to the punk heroines of Sleater-Kinney and Ghost World, Born in Flames plays odd couples off one another: pitting Natural Born Killers against Forrest Gump, contrasting Jean-Luc Godard with Steven Spielberg, defending David Lynch against aesthetic ideologues, invoking The Curse of the Mekons against Fredric Jameson's Postmodernism, and introducing D. H. Lawrence to Buffy the Vampire Slayer. "We are born in flames," sang the incandescent Lora Logic, and here those flames are a source of illumination as well as destruction, warmth as well as consumption. From the scorched-earth works of action-movie provocateurs Seijun Suzuki and Sam Peckinpah to the cargo cult

soundscapes of Pere Ubu and the Czech dissidents Plastic People of the Universe, *Born in Flames* is a headlong plunge into the passions and disruptive power of art.

Born in Flames

The first Situationist text to be published in the UK in 1974, 'Leaving the 20th Century' was Chris Gray and the English situationists' attempt to capture and distil the vibrant anti-art, anti-capitalist energy of the original International Situationist texts (1957-74). With its loose translations and irreverent commentary, Gray and co. attempted to capture the "terrorism, wit and general megalomania" of the original publications, whilst faithfully reprinting the "photographs of girls, soldiers, bombings, comic-strip frames, maps of cities and diagrams of labyrinths, cathedrals and gardens." From the art/anti-art beginnings, to the role of the Situationists in the worker-student insurrection of May 68', 'Leaving the 20th Century' remains the definitive English pro-situ text.

Leaving the 20th Century

The Washington Post hails Greil Marcus as our greatest cultural critic. Writing in the London Review of Books, D. D. Guttenplan calls him probably the most astute critic of American popular culture since Edmund Wilson. For nearly thirty years, he has written a remarkable column that has migrated from the Village Voice to Artforum, Salon, City Pages, Interview, and The Believer and currently appears in the Barnes & Noble Review. It has been a laboratory where Marcus has fearlessly explored and wittily dissected an enormous variety of cultural artifacts, from songs to books to movies to advertisements, teasing out from the welter of everyday objects what amounts to a de facto theory of cultural transmission. Published to complement the paperback edition of *The History of Rock & Roll in Ten Songs*, *Real Life Rock* reveals the critic in full: direct, erudite, funny, fierce, vivid, astute, uninhibited, and possessing an unerring instinct for art and fraud. The result is an indispensable volume packed with startling arguments and casual brilliance.

Real Life Rock

Every year since 1933 many of the world's leading intellectuals have met on Lake Maggiore to discuss the latest developments in philosophy, history, art and science and, in particular, to explore the mystical and symbolic in religion. The Eranos Meetings - named after the Greek word for a banquet where the guests bring the food - constitute one of the most important gatherings of scholars in the twentieth century. The book presents a set of portraits of some of the century's most influential thinkers, all participants at Eranos: Carl Jung, Erich Neumann, Mircea Eliade, Martin Buber, Walter Otto, Paul Tillich, Gershom Scholem, Herbert Read, Joseph Campbell, Erwin Schrodinger, Karl Kereyni, D.T. Suzuki, and Adolph Portmann. The volume presents a critical appraisal of the views of these men, how the exchange of ideas encouraged by Eranos influenced each, and examines the attraction of these esotericists towards authoritarian politics.

"With *Audiotopia*, Kun emerges as a pre-eminent analyst, interpreter, and theorist of inter-ethnic dialogue in US music, literature, and visual art. This book is a guide to how scholarship will look in the future—the first fully realized product of a new generation of scholars thrown forth by tumultuous social ferment and eager to talk about the world that they see emerging around them."—George Lipsitz, author of *Time Passages: Collective Memory and American Popular Culture* "The range and depth of *Audiotopia* is thrilling. It's not only that Josh Kun knows so much—it's that he knows what to make of what he knows."—Greil Marcus, author of *Lipstick Traces: A Secret History of the 20th Century* "The way Josh Kun writes about what he hears, the way he unravels word, sound, and power is breathtaking, provocative, and original. A bold, expansive, and lyrical book, *Audiotopia* is a record of crossings, textures, tangents, and ideas you will want to play again and again."—Jeff Chang, author of *Can't Stop Won't Stop: A History of the Hip-Hop Generation*

Listening in on public conversation that recreates Elvis after death, Marcus tracks Presley's resurrection. He grafts together snatches of film, music, books, newspapers, photos, posters, and cartoons, and amazes us with what America has been saying as it raises its late king--and also what this obsession with dead Elvis says about America itself.

Dead Elvis

The legendary critic and author of *Mystery Train* “ingeniously retells the tale of rock and roll” (Publishers Weekly, starred review). Unlike previous versions of rock ‘n’ roll history, this book omits almost every iconic performer and ignores the storied events and turning points everyone knows. Instead, in a daring stroke, Greil Marcus selects ten songs and dramatizes how each embodies rock ‘n’ roll as a thing in itself, in the story it tells, inhabits, and acts out—a new language, something new under the sun. “Transmission” by Joy Division. “All I Could Do Was Cry” by Etta James and then Beyoncé. “To Know Him Is to Love Him,” first by the Teddy Bears and almost half a century later by Amy Winehouse. In Marcus’s hands these and other songs tell the story of the music, which is, at bottom, the story of the desire for freedom in all its unruly and liberating glory. Slipping the constraints of chronology, Marcus braids together past and present, holding up to the light the ways that these striking songs fall through time and circumstance, gaining momentum and meaning, astonishing us by upending our presumptions and prejudices. This book, by a founder of contemporary rock criticism—and its most gifted and incisive practitioner—is destined to become an enduring classic. “One of the epic figures in rock writing.”—The New York Times Book Review “Marcus is our greatest cultural critic, not only because of what he says but also, as with rock-and-roll itself, how he says it.”—The Washington Post Winner of the Deems Taylor Virgil Thomson Award in Music Criticism, given by the American Society of Composers, Authors & Publishers

History of Rock 'n' Roll in Ten Songs

Literary Nonfiction. Poetry. Film. Jewish Studies. Edited by Julian Kabza. Translated by Ian Thompson, Anna O'Meara, Julian Kabza, Nadege LeJeune, and Charles Penwarden. Introduction by Adrian Martin. Forward by Frédérique Devaux. Interview with Isou by Roland Sabatier. Afterword by Erik Bullot. "Who is Isou? Some may know that he was the founder and leader of a movement in art and thought named Lettrism. Some may know the remarkable film he made a year before he wrote his manifesto, the *Treatise on Slime and Eternity*, a breakthrough work of feature-length experimentation that was to win fans including Stan Brakhage--Isou himself would coldly remark, many years later, that Jean-Luc Godard and Guy Debord (to name only two luminaries whom he considered his mortal enemies) stole everything from it. Some might have come to the legend of Isou through the fond passage devoted to him in Greil Marcus' book on the distant origins of punk, *Lipstick Traces*--a book whose subtitle evokes 'a secret history of the 20th century.' In that book, Marcus tells the fine story of his teenage niece stumbling upon the photos on his desk of a young Isou in the late 1940s, and mistaking the artist for a contemporary pop star. And Isou did indeed look the part--especially in a self-portrait which was an example of what the Lettrists called hypergraphics, a work mixing the media of photography, painting, drawing, and Lettrist poetry."--Adrian Martin, from the introduction "Isou chipped language down to the bone that it might build its flesh up again, fresh and new. It is one of the grand aesthetic visions of the late twentieth century. His cinema, in particular, is a marvelous document of the secret history of our times. Here at last is the book that, for Anglophone readers and beyond, cements his fleeting presence for all time."--McKenzie Wark "Long-overdue, this translation of Isou's masterpiece--together with its contextual essays and interviews by Martin, Devaux, Sabatier, and Bullot--will be a monumental resource for international research into the origins of the Lettrist movement along with postwar Experimental Film and Media Art."--Andrew V. Uroskie

A deep dive into how F. Scott Fitzgerald's vision of the American Dream has been understood, portrayed, distorted, misused, and kept alive Renowned critic Greil Marcus takes on the fascinating legacy of F. Scott Fitzgerald's *The Great Gatsby*. An enthralling parable (or a cheap metaphor) of the American Dream as a beckoning finger toward a con game, a kind of virus infecting artists of all sorts over nearly a century, Fitzgerald's story has become a key to American culture and American life itself. Marcus follows the arc of *The Great Gatsby* from 1925 into the ways it has insinuated itself into works

by writers such as Philip Roth and Raymond Chandler; found echoes in the work of performers from Jelly Roll Morton to Lana Del Rey; and continued to rewrite both its own story and that of the country at large in the hands of dramatists and filmmakers from the 1920s to John Collins's 2006 *Gatz* and Baz Luhrmann's critically reviled (here celebrated) 2013 movie version—the fourth, so far.

Under the Red White and Blue

A writer investigates her family's secret history, uncovering a story that spans a century, two World Wars, and three generations. Hadley Freeman knew her grandmother Sara lived in France just as Hitler started to gain power, but rarely did anyone in her family talk about it. Long after her grandmother's death, she found a shoebox tucked in the closet containing photographs of her grandmother with a mysterious stranger, a cryptic telegram from the Red Cross, and a drawing signed by Picasso. This discovery sent Freeman on a decade-long quest to uncover the significance of these keepsakes, taking her from Picasso's archives in Paris to a secret room in a farmhouse in Auvergne to Long Island to Auschwitz. Freeman pieces together the puzzle of her family's past, discovering more about the lives of her grandmother and her three brothers, Jacques, Henri, and Alex. Their stories sometimes typical, sometimes astonishing—reveal the broad range of experiences of Eastern European Jews during Holocaust. This thrilling family saga is filled with extraordinary twists, vivid characters, and famous cameos, illuminating the Jewish and immigrant experience in the World War II era. Addressing themes of assimilation, identity, and home, this powerful story about the past echoes issues that remain relevant today.

Following his acclaimed history of the Situationist International up until the late sixties, *The Beach Beneath the Street*, McKenzie Wark returns with a companion volume which puts the late work of the Situationists in a broader and deeper context, charting their contemporary relevance and their deep critique of modernity. Wark builds on their work to map the historical stages of the society of the spectacle, from the diffuse to the integrated to what he calls the disintegrating spectacle. *The Spectacle of Disintegration* takes the reader through the critique of political aesthetics of former Situationist T.J. Clark, the Fourierist utopia of Raoul Vaneigem, René Vienet's earthy situationist cinema, Gianfranco Sanguinetti's pranking of the Italian ruling class, Alice-Becker Ho's account of the anonymous language of the Romany, Guy Debord's late films and his surprising work as a game designer. At once an extraordinary counter history of radical praxis and a call to arms in the age of financial crisis and the resurgence of the streets, *The Spectacle of Disintegration* recalls the hidden journeys taken in the attempt to leave the twentieth century, and plots an exit from the twenty first. The dustjacket unfolds to reveal a fold-out poster of the collaborative graphic essay combining text selected by McKenzie Wark with composition and drawings by Kevin C. Pyle.

John Lydon has secured prime position as one of the most recognizable icons in the annals of music history. As Johnny Rotten, he was the lead singer of the Sex Pistols - the world's most notorious band, who shot to fame in the mid-1970s with singles such as 'Anarchy in the UK' and 'God Save the Queen'. So revolutionary was his influence, he was even discussed in the Houses of Parliament, under the Traitors and Treasons Act, which still carries the death penalty. Via his music and invective he spearheaded a generation of young people across the world who were clamouring for change - and found it in the style and attitude of this most unlikely figurehead. With his next band, Public Image Ltd (PiL) Lydon expressed an equally urgent impulse in his make-up - the constant need to reinvent himself, to keep moving. From their beginnings in 1978 he set the groundbreaking template for a band that continues to challenge and thrive in the 2010s. He also found time for making innovative new dance records with the likes of Afrika Baambaata and Leftfield. Following the release of a solo record in 1997, John took a sabbatical from his music career into other media, most memorably his own Rotten TV show for VH1 and as the most outrageous contestant ever on *I'm a Celebrity.... Get Me Out of Here!* He then fronted the Megabugsseries and one-off nature documentaries and even turned his hand to a series of much loved TV advertisements for Country Life butter. Lydon has remained a compelling and

dynamic figure - both as a musician, and, thanks to his outspoken, controversial, yet always heartfelt and honest statements, as a cultural commentator. The book a fresh and mature look back on a life full of incident from his beginnings as a sickly child of immigrant Irish parents who grew up in post-war London, to his present status as a vibrant, alternative national hero.

Anger is an Energy: My Life Uncensored

Over fifty years after the Situationist International appeared, its legacy continues to inspire activists, artists and theorists around the world. Such a legend has accrued to this movement that the story of the SI now demands to be told in a contemporary voice capable of putting it into the context of twenty-first-century struggles. McKenzie Wark delves into the Situationists' unacknowledged diversity, revealing a world as rich in practice as it is in theory. Tracing the group's development from the bohemian Paris of the '50s to the explosive days of May '68, Wark's take on the Situationists is biographically and historically rich, presenting the group as an ensemble creation, rather than the brainchild and dominion of its most famous member, Guy Debord. Roaming through Europe and the lives of those who made up the movement – including Constant, Asger Jorn, Michèle Bernstein, Alex Trocchi and Jacqueline De Jong – Wark uncovers an international movement riven with conflicting passions. Accessible to those who have only just discovered the Situationists and filled with new insights, *The Beach Beneath the Street* rereads the group's history in the light of our contemporary experience of communications, architecture, and everyday life. The Situationists tried to escape the world of twentieth-century spectacle and failed in the attempt. Wark argues that they may still help us to escape the twenty-first century, while we still can.

"A key document. . . . Indispensable for an understanding of the beginnings of the Dada movement and Dada in Zurich."—Rudolf Kuenzli, Director, International Dada Archive "In *Flight Out of Time* one can follow Dada's unfolding and expansion almost day-by-day."—Charles Haxthausen, coeditor, *Berlin: Culture and Metropolis*

"In this memoir, Michelle Tea takes the reader back to the city of her childhood: Chelsea, Massachusetts - Boston's ugly, scrappy little sister and a place where time and hope can only keep things from getting any worse." "Tea's girlhood is shaped by the rough fabric of the neighborhood and by its characters - the soft vulnerability of her sister Madeline and her quietly brutal Polish father; the doddering, sometimes violent nuns of Our Lady of the Assumption; Marisol from the projects by the creek; and the tough-as-nails Italian dance-school teacher who offered a slim chance for escape to every young Chelsea girl in tulle and tap shoes." "Told in Tea's trademark loose-tongued, lyrical style, this memoir both celebrates and annihilates one girl's tightrope walk out of a working-class slum, and the lessons she carries with her. With wry humor and a hard-fought wisdom, Tea limns the extravagant peril of a dramatic adolescence with the private, catastrophe secret harbored within the walls of her family's home - a secret that threatens to destroy her family forever."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. The Chelsea Whistle

Rising from the drug-infested streets of '80s New York City, the incomparable Sonic Youth recorded some of the most important albums in alternative music history and influenced an entire generation

of indie rockers. They helped spawn an alternative arts scene of underground films and comics, conceptual art, experimental music, even fashion. More than perhaps any band of their time, they brought art previously considered "fringe" into the mainstream - and irrevocably altered the cultural zeitgeist. Based on extensive research, exclusive band interviews, and unprecedented access to unreleased recordings and documents, *Goodbye 20th Century* is the definitive biography of the Velvet Underground of their generation.

Spectacular Realities

African literatures, says volume editor Oyekan Owomoyela, "testify to the great and continuing impact of the colonizing project on the African universe." African writers must struggle constantly to define for themselves and others just what "Africa" is and who they are in a continent constructed as a geographic and cultural entity largely by Europeans. This study reflects the legacy of colonialism by devoting nine of its thirteen chapters to literature in "Europhone" languages—English, French, and Portuguese. Foremost among the Anglophone writers discussed are Nigerians Amos Tutuola, Chinua Achebe, and Wole Soyinka. Writers from East Africa are also represented, as are those from South Africa. Contributors for this section include Jonathan A. Peters, Arlene A. Elder, John F. Povey, Thomas Knipp, and J. Ndukaku Amankulor. In African Francophone literature, we see both writers inspired by the French assimilationist system and those influenced by Negritude, the African-culture affirmation movement. Contributors here include Servanne Woodward, Edris Makward, and Alain Ricard. African literature in Portuguese, reflecting the nature of one of the most oppressive colonizing projects in Africa, is treated by Russell G. Hamilton. Robert Cancel discusses African-language literatures, while Oyekan Owomoyela treats the question of the language of African literatures. Carole Boyce Davies and Elaine Savory Fido focus on the special problems of African women writers, while Hans M. Zell deals with the broader issues of publishing—censorship, resources, and organization.

Goodbye 20th Century (Large Print 16pt)

A fan from the moment the Doors' first album arrived, Greil Marcus saw the band many times at the legendary Fillmore Auditorium and the Avalon Ballroom in 1967. Five years later it was all over. Forty years after the singer Jim Morrison was found dead in Paris and the group disbanded, Greil Marcus muses on how one could drive from here to there, changing from one FM pop station to another, and be all but guaranteed to hear two, three, four Doors songs in an hour. Whatever the demands in the music, they remained unsatisfied, in the largest sense unfinished, and absolutely alive. There have been many books on the Doors. This is the first to bypass their myth, their mystique, and the death cult both of Jim Morrison and the era he was made to personify, and focus solely on the music. It is a story untold; all these years later it is a new story.

The Voices of Guns

America is a nation making itself up as it goes along. A story of discovery and invention unfolding in speeches and images, letters and poetry, unprecedented feats of scholarship and imagination. In these myriad, multiform, endlessly changing expressions of the American experience, the authors and editors of this volume find a new American history. In more than two hundred original essays, *A New Literary History of America* brings together the nation's many voices. From the first conception of a New World in the sixteenth century to the latest re-envisioning of that world in cartoons, television,

science fiction, and hip hop, the book gives us a new, kaleidoscopic view of what "Made in America" means. Literature, music, film, art, history, science, philosophy, political rhetoric—cultural creations of every kind appear in relation to each other, and to the time and place that give them shape. The meeting of minds is extraordinary as T. J. Clark writes on Jackson Pollock, Paul Muldoon on Carl Sandburg, Camille Paglia on Tennessee Williams, Sarah Vowell on Grant Wood's American Gothic, Walter Mosley on hard-boiled detective fiction, Jonathan Lethem on Thomas Edison, Gerald Early on Tarzan, Bharati Mukherjee on *The Scarlet Letter*, Gish Jen on *Catcher in the Rye*, and Ishmael Reed on Huckleberry Finn. From Anne Bradstreet and John Winthrop to Philip Roth and Toni Morrison, from Alexander Graham Bell and Stephen Foster to Alcoholics Anonymous, Life, Chuck Berry, Alfred Hitchcock, and Ronald Reagan, this is America singing, celebrating itself, and becoming something altogether different, plural, singular, new. K-Punk

The period between the end of World War I and Hitler's ascension to power witnessed an unprecedented cultural explosion that embraced the whole of Europe but was, above all, centered in Germany. Germany housed architect Walter Gropius and the Bauhaus movement; playwrights Bertolt Brecht and Erwin Piscator; artists Hans Richter, George Grosz, John Heartfield, and Hannah Hoch; composers Paul Hindemith, Arnold Schonberg, and Kurt Weill; and dozens of others. In *Art and Politics in the Weimar Period*, John Willett provides a brilliant explanation of the aesthetic and political currents which made Germany the focal point of a new, down-to-earth, socially committed cultural movement that drew a significant measure of inspiration from revolutionary Russia, left-wing social thought, American technology, and the devastating experience of war.

The Doors

One of the most important avant-garde movements of postwar Paris was Lettrism, which crucially built an interest in the relationship between writing and image into projects in poetry, painting, and especially cinema. Highly influential, the Lettrists served as a bridge of sorts between the earlier works of the Dadaists and Surrealists and the later Conceptual artists. *Off-Screen Cinema* is the first monograph in English of the Lettrists. Offering a full portrait of the avant-garde scene of 1950s Paris, it focuses on the film works of key Lettrist figures like Gil J Wolman, Maurice Lemaître, François Dufrêne, and especially the movement's founder, Isidore Isou, a Romanian immigrant whose "discrepant editing" deliberately uncoupled image and sound. Through Cabañas's history, we see not only the full scope of the Lettrist project, but also its clear influence on Situationism, the French New Wave, the New Realists, as well as American filmmakers such as Stan Brakhage.

A New Literary History of America

"This volume traces the dynamic first years of the Situationist International movement - a cultural avant-garde that continues to inspire new generations of artists, theorists, and writers more than half a century later. Debord's letters - published here for the first time in English - provide a fascinating insider's view of just how this seemingly disorganized group drifting around a newly consumerized Paris became one of the most defining cultural movements of the twentieth century. Circumstances, personalities, and ambitions all come into play as the group develops its strategy of anarchic, conceptual, but highly political "intervention."

Art And Politics In The Weimar Period

When a little cat is taken captive by a pair of robbers it sets in motion not just a grand rescue operation but also the beginning of lasting friendships and adventures on the high seas. Join Fall Landon Sully as his journey to fulfill his destiny is begun when he crosses paths with the mysterious Pirate with a Heart of Gold!

From My Soul to Yours

Until his death aged thirty-three in 1982, Lester Bangs wrote wired, rock 'n' roll pieces on Iggy Pop, The Clash, John Lennon, Kraftwerk, Lou Reed. As a rock critic, he had an eagle-eye for distinguishing the pre-packaged imitation from the real thing; written in a conversational, wisecracking, erotically charged style, his hallucinatory hagiographies and excoriating take-downs reveal an iconoclast unafraid to tell it like it is. To his journalism he brought the talent of a great a renegade Beat poet, and his essays, reviews and scattered notes convey the electric thrill of a music junky indulging the habit of a lifetime. As Greil Marcus writes in his introduction, 'What this book demands from a reader is a willingness to accept that the best writer in America could write almost nothing but record reviews.'

Off-Screen Cinema

Since the earliest days of British television drama, scriptwriter Nigel Kneale has been a seminal figure. His Quatermass serials for the BBC were a seismic event in the 1950s, before finding international success when adapted by Hammer Films for the big screen. Later TV plays, such as *The Road*, *The Stone Tape* and *The Year of the Sex Olympics*, skilfully blend elements of science fiction and the ghost story. They remain classics and Kneale himself a great influence on popular culture. Revised and updated, this new edition of *Into the Unknown* charts Nigel Kneale's extraordinary career, from his childhood on the Isle of Man, to his fraught days at the BBC, strange adventures in Hollywood, and his status as legend to legions of fans. It draws on a wealth of research and many hours of interviews with Kneale himself, as well as prominent admirers. These include John Carpenter, Ramsey Campbell, Grant Morrison, Russell T Davies, and Mark Gatiss and Jeremy Dyson of the *League of Gentlemen*.
