Exposure is photography's fundamental concept. Master it, and you'll master photography. You don't need a book to take good photos any more; most (but not all) of the time your camera, or your phone, will handle things for you. But if you don't know what it's doing - you don't know how to expose photos - you can't join in the real fun of photography. With this book, though, you'll quickly master the key principles, and grasp a few simple concepts that will open up a world of beautiful sunsets, clever silhouettes, light trails and bokeh - as well as sophisticated techniques like HDR, manual exposure blending, and focus stacking. Armed with this knowledge the digital photos you share will stand head-and-shoulders above the rest, and you'll have no problem using that film camera or used Polaroid you picked up at that garage-sale.

Slim Aarons

Slim Aarons made a career, in his words, photographing attractive people who were doing attractive things in attractive places. His subjects were the beautiful and the celebrated, the rich and the powerful, the talented and the privileged, high society and aristocracy. Slim Aarons captured their image for the picture magazines of the 1940s - '90s, and, in so doing so, defined the image of the Beautiful People - the post-war international Jet Set. Aarons always shows his subjects in their natural setting, in a circumstance synonymous with their station in life, and in so doing, he gained their trust and a most precious thing - access. And so he was welcomed into the exclusive precincts of the world's elite, in essence attaining the status of court photographer. The images included here are the fruit of that access.

Poolside With Slim Aarons

Slim Aarons offers images of jet-setters and the wealthy, and beautiful, glittering people living the glamorous life. However, the main character is the pool and everything that goes with them - magnificent suntanned bodies, well-oiled skin, bikini-clad women, yachts, summer cocktails, sumptuous buffets, and, above all, fun.

Slim Aarons

This volume shows Aarons influential photographs of the international elite in their exclusive playgrounds during the jet-set decades of the 1950s, 60s and 70s.

Slim Aarons: La Dolce Vita

This lavish fourth volume in Abrams' Slim Aarons collection revels in this photographer's decades-long love affair with Italy. From breathtaking aerials of the Sicilian countryside to intimate portraits of celebrities and high society taken in magnificent villas, Slim Aarons: La Dolce Vita captures the essence of "the good life." Slim Aarons first visited Italy as a combat photographer during World War II and later moved to Rome to shoot for Life magazine, yet even after relocating to New York, he would return to Italy almost every year for the rest of his life. The images collected here document the aristocracy, cultural elite, and beautiful people, such as Marcello Mastroianni, Ursula Andress, Joan Fontaine, and Tyrone Power, who lived la dolce vita in Italy's most fabulous places during the last 50 years. The introduction by Christopher Sweet shares stories from Aarons's years in Italy and new insights about his life and career. Also available from Slim Aarons: Slim Aarons: Women, Slim Aarons: Once Upon a Time, Slim Aarons: A Place in the Sun, and Poolside with Slim Aarons. Praise for Slim Aarons: La Dolce Vita: "Nostalgia-soaked images." --Harper's Bazaar "Sumptuous images." --Publishers Weekly "It's the next best thing to time travel." --DuJour magazine

Slim Aarons: Women

The book presents the women who most influenced Aarons's life and work—and the other remarkable personalities he photographed along the way, including Audrey Hepburn, Jackie Kennedy, Diana Vreeland, and Marilyn Monroe, all featured in unforgettable photographs. The collection contains more than 200 images, the majority of which have not appeared in previous books, along with detailed captions written by one of Aarons's closest colleagues. Showcasing beautiful women at their most glamorous in some of the most dazzling locations across the globe, Slim Aarons: Women is a fresh look at the acclaimed photographer through the muses who inspired his most incredible photographs. Also available from Slim Aarons: Poolside with Slim Aarons, Slim Aarons: Once Upon a Time, Slim Aarons: A Place in the Sun, and Slim Aarons: La Dolce Vita.

Slim Aarons: Style

Glamorous fashions, personalities, and places captured by iconic photographer Slim Aarons. Slim Aarons, at least according to the man himself, did not photograph fashion: “I didn’t do fashion. I did the people in their clothes that became the fashion.” But despite what he claimed, Aarons’s work is indelibly tied to fashion. Aarons’s incredibly influential photographs of high society and socialites being unambiguously themselves are still a source of inspiration for modern day style icons. Slim Aarons: Style showcases the photographs that both recorded and influenced the luminaries of the fashion world. This volume features early black-and-white fashion photography, as well as portraits of the fashionable elite—like Jacqueline de Ribes, C.Z. Guest, Nan Kempner, and Marisa Berenson—and those that designed the clothes, such as Oscar de la Renta, Emilio Pucci, Mary McFadden, and Lilly Pulitzer. Featuring some never-before-seen images and detailed captions written by fashion historians, Slim Aarons: Style is a collection of the photographer’s most stylish work.

Vanity Fair 100 Years

Early in the 1900s, one-time oil baron Henry Morrison Flagler took interest in the Southern coast of Florida and began developing an exclusive resort community. Establishing a railroad that would allow easier access to the area, he went on to build two hotels—his hope was that America’s first families would come to populate the area. This modest community would later evolve into an iconic American destination, hosting British royalty, American movie stars, and becoming the home-away-from-home to some of the country’s leading families. As the century continued, Palm Beach established itself as a luxury hideaway synonymous with old-world glamour and new-world sophistication. In this splendid volume, longtime resident and Palm Beach social fixture Aerin Lauder takes us through her Palm Beach. From favorite restaurants like Nandos and Renatos, to favorite houses like La Folgia and Villa Artemis, she takes us to the elite shopping of Worth Avenue and the scenic walkways of the Lake Worth trail, all the while relating to us the histories, faces, and places that have become so identified with Palm Beach.

Acerbic, wisecracking and hilarious, this is the definitive essay collection from New York legend and satirist, Fran Lebowitz, star of Martin Scorsese's hit Netflix series, Pretend It's a City. 'The gold standard for intelligence, efficiency and humour. Now and forever' DAVID SEDARIS 'She's inexhaustible - her personality, her knowledge, her brilliance, most of all her humour' MARTIN SCORSESE 'The rare example of a legend living up to her own mythology. She really is THAT funny' HADLEY FREEMAN Lebowitz turns her trademark caustic wit to the vicissitudes of life - from children ('rarely in the position to lend one a truly interesting sum of money') to landlords ('it is the solemn duty of every landlord to maintain an adequate supply of roaches'). And her attitude to work is the perfect antidote to our exhausting culture of self-betterment ('3.40pm. I consider getting out of bed. I reject the notion as being unduly vigorous. I read and smoke a bit more'). 'Great people talk about ideas, average people talk

about things and small people talk about wine' 'Think before you speak. Read before you think' 'All God's children are not beautiful. Most of God's children are, in fact, barely presentable' 'There is no such thing as inner peace. There is only nervousness and death' 'The opposite of talking isn't listening. The opposite of talking is waiting'

Bondi Urban

This intimate book explores Broy Lim's realization of his homosexuality in his hometown of Singapore, where it still remains illegal. Combining personal texts and photos, and now they know narrates Lim's sexual identity and his nine-year relationship with his partner, while also representing the broader struggle of many youths who navigate their sense of self in conservative heteronormative societies. Lim

begins the book with handwritten texts that establish his confessional tone: _My truth has always been an untouchable, unspeakable illusion / I want to be unlimited too _ I want to ascend to your paradise, to escape this inferno._ Such thoughts reoccur and give autobiographic nuance to his suggestive, hushed photos which include self-portraits, still lifes and landscapes. This lyrical interplay between text and image captures a sense of the often unspoken norms which Lim has overcome and his _open secret_ that for many years even his family could only speculate on.

"ATLAS MONOGRAPHS is a compression of nine travel journals, beginning with Pam's most recent work (Karakoram 2006) and shifting back through the decades to his first journals begun in 1970. The journals map, through text, photo and marks on paper his engagement with the cultures he has travelled through. Just as importantly, the journals provided the engine room for his development as a photographer and a writer and an artist."--Provided by publisher.

The essential backstory to the creation and meaning of one of the most important novels of the twentieth century—and now the twenty-first. Since its publication nearly seventy years ago, George Orwell's 1984 has been regarded as one of the most influential novels of the modern age. Politicians have testified to its influence on their intellectual identities, rock musicians have made records about it, TV viewers watch a reality show named for it, and a White House spokesperson tells of "alternative facts." The world we live in is often described as an Orwellian one, awash in inescapable surveillance and invasions of privacy. On *Nineteen Eighty-Four* dives deep into Orwell's life to chart his earlier writings and key moments in his youth, such as his years at a boarding school, whose strict and charismatic headmaster shaped the idea of Big Brother. Taylor tells the story of the writing of the book, taking readers to the Scottish island of Jura, where Orwell, newly famous thanks to *Animal Farm* but coping with personal tragedy and rapidly declining health, struggled to finish 1984. Published during the cold war—a term Orwell coined—Taylor elucidates the environmental influences on the book. Then he examines 1984's post-publication life, including its role as a tool to understand our language, politics, and government. In a climate where truth, surveillance, censorship, and critical thinking are contentious, Orwell's work is necessary. Written with resonant and reflective analysis, *On Nineteen Eighty-Four* is both brilliant and remarkably timely. Praise for *On Nineteen Eighty-Four* "A lively, engaging, concise biography of a novel." —Kirkus Reviews "The fascinating origins and complex legacy of this enduring masterwork are chronicled in [this] arresting new book." —BookPage "Brisk [and] focused. . . . Taylor here covers the highlights, giving both an overview of Orwell's career and a survey of his greatest literary achievement." —Wall Street Journal "Taylor is an accomplished literary critic and he illuminates Orwell's work in the context of his life, elegantly and expertly charting his course from Grub Street to bestsellerdom." —TheGuardian

Designer Tony Duquette's legendary Dawnridge, located in Beverly Hills, is one of the most creatively designed private homes in America. Built in 1949 by Duquette and his wife, Elizabeth, the original structure was a modest 30 x 30 foot box. Hutton Wilkinson purchased the home following Duquette's death in 1999, and he has since breathed new life into the estate, broadening the property, adding houses of his own design, and incorporating remarkable objects designed and created by the Duquettes. Written by Wilkinson, Tony Duquette's Dawnridge chronicles the luxe and historic home's transformation. The book is organized by the three main houses, and Wilkinson elaborates on the spectacular design elements in each room and shares the stories behind the spaces. Tim Street-Porter's photographs show both the original and redesigned rooms.

On Nineteen Eighty-Four

The North American frontier is an enduring symbol of romance, rebellion, escape, and freedom. At the same time, it's a profoundly masculine myth - cowboys, outlaws, Beat poets. Photographer Justine Kurland reclaimed this space in her now-iconic series of images of teenage girls, taken between 1997 and 2002 on the road in the American wilderness. She portrays the girls as fearless and free, tender and fierce. They hunt and explore, braid each other's hair, and swim in sun-dappled watering holes - paying no mind to the camera (or the viewer). Their world is at once lawless and utopian, a frontier Eden in the wild spaces just outside of suburban infrastructure and ideas. Twenty years on, the series still resonates, published here in its entirety and including newly discovered, unpublished images

Iconic and unseen images and ephemera from the renowned chronicler of the Vietnam War Renowned for his color images of the Vietnam War, British photographer Tim Page (born 1944) has now delved deep into his black-and-white archives of the conflict for the first time. Nam Contactharks back to an era when 36 frames on a roll of film had to tell the story of a particular action. Edited with Stephen Dupont, this book is Page's intricate look at his contact sheets and single images from those sheets, as well as the chronicle and notes of his diaries made about all he experienced during this intense period. It also contains letters from some of the most noted journalists of the time and further ephemera from what became known as the "first media war" and the first and last war without media censorship. Page covered diverse actions with the South Vietnamese, Americans, Koreans and Australians. Nam Contactexplores the period from 1965, before the marines had arrived, to 1969, when American troops numbered over 500,000. This was also the year Page's involvement in the Vietnam War ended, after being injured by a landmine. His images have since become iconic; as has the lifestyle he shared with his band of brothers, depicted in the television documentary Frankie's House(1992), as well as in numerous movies about the conflict.

A Love of Eating

As long as already five thousand years ago, the allure of the sea inspired humans to recreate its essence in miniature, artistic forms, as public baths where ancient rituals would take place. Since then, it has become quite normal to immerse ourselves in cooling waters, in the privacy of our homes and without religious incentives. Swimming pools have rapidly become status symbols and the source for many diverse experiences: leisure-time athletics, relaxation, or the simple pleasure of just being in water. It is no wonder then that filmmakers and photographers constantly return to the swimming pool

as a subject and setting. Reflections of water and light are captured in countless, unique ways in the more than two hundred compelling images that comprise this catalogue. Also included of course are the images of those who animate it. With works by: Abbas Attar, Henri Cartier-Bresson, Peter Marlow, Martin Parr, Alec Scoth, Alex Webb, and others.

The Swimming Pool in Photography

Cristóbal Hara

Autobiography, the second volume of a trilogy (following *An Imaginary Spaniard*, 2004), puts images of contemporary Spain through the emotional filters of Hara's childhood. The result digs deep into Spanish culture and into the cultural background of his generation.

An Imaginary Spaniard

What could the cheerful woman in the middle of a crowd be looking for in that coffin? And what kind of bishop is that with the naked beauty on his cape? The photographs of Cristóbal Hara show an undiscovered Spain--far from the beautiful beaches and urban centers--full of completely normal people and animals (and all their peculiarities) that reveal the extraordinary in the ordinary. At processions and markets, funerals and bullfights, or simply on the street, Hara positions his camera to extract unexpected details from the hustle and bustle of the provinces. *An Imaginary Spaniard* contains photographs that tell of joy, sorrow, loneliness and companionship, and create their own fairy-tale world out of a combination of sadness and enchantment.

The World Atlas of Street Photography

Collects street photographs from noted photographers of cities around the world, from New York and Sao Paulo to Paris and Sydney.

The Shepherd

Professor Lawrence Miller lost his son Val to a drug overdose. Overwhelmed he could sense his son's distress as he called out from beyond the grave. Recklessly Miller followed his son into the afterlife. Reunited, Lawrence and Val now wander the "Seam," that place between this world and whatever comes next, choosing to help other souls.

The Diplomatic Enlightenment

Eighteenth-century Spain drew on the Enlightenment to reconfigure its role in the European balance of power. As its force and its weight declined, Spanish thinkers discouraged war and zealotry and pursued peace and cooperation to reconfigure the international Spanish Empire.

Ramifications

The memories we return to most frequently are the most inaccurate, the least faithful to reality... This is the tragic realisation made by the narrator of *Ramifications* as he tries to make sense of the defining event of his childhood: the disappearance of his mother to join the Zapatista uprising that shook Mexico in 1994. Left behind with an emotionally distant father who is singularly unqualified to raise him, and an older sister who only wants to get on with being a teenager, he takes refuge in strange rituals that isolate him from his peers: favouring the left-hand side of his body, trying to tear leaves into perfect halves, obsessively shaping origami figures. Now, two decades older and withdrawn from the world, he folds and unfolds these memories, searching the creases for the truth of what happened to his mother, unaware that he is on the verge of a discovery that will destroy everything he believed he knew about his family. Award-winning Mexican author Daniel Saldaña París masterfully evokes a child's attempts to interpret events beyond his understanding. Less a Bildungsroman than a tale of arrested development, this story of a boy growing up in the aptly-named Educación neighbourhood of Mexico City is a rich and moving portrait of a life thwarted by machismo and secrecy.

From a young Palestinian writer comes this compelling look at the Israel/Palestine conflict, from both the perspective of an Israeli soldier in 1949 as well as that of a young Palestinian woman.

The Italian

An emblematic story of the shipwreck of the Arab Spring At his father's funeral, to the great consternation of all present, Abdel Nasser beats the imam who is celebrating the funeral rite. The narrator, a childhood friend of the protagonist, retraces the story of "the Italian" from his days as a free and rebellious adolescent spirit to the leader of a student movement and then affirmed journalist. Those were crucial years in Tunisia, years of great tension, change, and repression. Against this background full of revolutionary ferments stands the tormented love story between Abdel Nasser and Zeina, a brilliant and beautiful philosophy student. Their dreams will unfortunately end up being wrecked under the ruthless gears of a corrupt and chauvinist society. Abdel Nasser's transformation from a young idealist with high hopes to a successful, but disillusioned and tired journalist is masterfully narrated in a stream of stories, digressions and flashbacks in which the narrative tension is always high. Winner of the 2015 International Prize for Arabic Fiction

America in a Trance

Niko J. Kallianiotis first monograph, *America in a Trance* dives into the heart and soul of the Pennsylvania industrial regions, where the notion of small town values exist and sustainable small businesses once thrived under the sheltered wings of American Industry. A mode to promote American values, industrialism provided a place where immigrants from tattered European countries crossed the Atlantic for a better future. The project isn't just about the flushing out of industry and the towns suffering, but something more. Something as deep rooted as these values and traditions of hard work, family, faith, and an attitude of trying to make the best out of a little less as much of the world passes by or looks in with a skew. Kallianiotis, born and raised in Greece but seemingly Northeastern Pennsylvania bred, has called this place home for roughly twenty years. He believes in this place with a whole heart and it's the element of the experience that drives his concept. Although the sway and beliefs from both sides of the fence in the current political climate have a direct effect and interest in these towns, Kallianiotis achieves a certain level of neutrality within the work. Whether it is the hard Pennsylvania coal towns to the East, the shadows of looming steel stacks to the West or every faded American dream in between. Through the use of light and color, an illumination of hope, the photographer explores his own relationship with the land. Within *America in a Trance* there is the silhouette of what once was, streets and storefronts thriving, and the echo of that time still ringing in the bricks of the houses and churches.

The GEO Handbook on Biodiversity Observation Networks

Biodiversity observation systems are almost everywhere inadequate to meet local, national and international (treaty) obligations. As a result of alarmingly rapid declines in biodiversity in the modern era, there is a strong, worldwide desire to upgrade our monitoring systems, but little clarity on what is actually needed and how it can be assembled from the elements which are already present. This book intends to provide practical guidance to broadly-defined biodiversity observation networks at all scales, but predominantly the national scale and higher. This is a practical how-to book with substantial policy relevance. It will mostly be used by technical specialists with a responsibility for biodiversity monitoring to establish and refine their systems. It is written at a technical level, but one that is not discipline-bound: it should be intelligible to anyone in the broad field with a tertiary education.

As hopes for Japan's youngest generation fade, a secretive organisation embarks on an audacious plan to find a cure - might Yoshiro's great-grandson be the key to saving the last children of Tokyo?

Contemporary American Literature

Author's Foreword This book is unfinished. The Filipino people shall finish it for me. I wrote this volume very, very slowly. I could have done with it in three months after my defection from the conjugal dictatorship of Ferdinand and Imelda Marcos on February 20, 1975. Instead, I found myself availing of every excuse to slow it down. A close associate, Marcelino P. Sarmiento, even warned me, "Baka mapanis 'yan." (Your book could become stale.) While I availed of almost any excuse not to finish the manuscript of this volume, I felt the tangible voices of a muted people back home in the Philippines beckoning to me from across the vast Pacific Ocean. In whichever way I turned, I was confronted by the distraught images of the Filipino multitudes crying out to me to finish this work, lest the frailty of human memory -- or any incident *à la* Nalundasan - consign to oblivion the matters I had in mind to form the vital parts of this book. It was as if the Filipino multitudes and history itself were surging in an endless wave presenting a compelling demand on me to San Francisco, California perpetuate the personal knowledge I have gained on the infamous machinations of Ferdinand E. Marcos and his overly ambitious wife, Imelda, that led to a day of infamy in my country, that Black Friday on September 22, 1972, when martial law was declared as a means to establish history's first conjugal dictatorship. The sense of urgency in finishing this work was also goaded by the thought that Marcos does not have eternal life and that the Filipino people are of unimaginable forgiving posture. I thought that, if I did not perpetuate this work for posterity, Marcos might unduly benefit from a Laurelian statement that, when a man dies, the virtues of his past are magnified and his faults are reduced to molehills. This is a book for which so much has been offered and done by Marcos and his minions so that it would never see the light of print. Now that it is off the press, I entertain greater fear that so much more will be done to prevent its circulation, not only in the Philippines but also in the United States. But this work now belongs to history. Let it speak for itself in the context of developments within the coming months or years. Although it finds great relevance in the present life of the present life of the Filipinos and of Americans interested in the study of subversion of democratic governments by apparently legal means, this work seeks to find its proper niche in history which must inevitably render its judgment on the seizure of government power from the people by a lame duck Philippine President. If I had finished this work immediately after my defection from the totalitarian regime of Ferdinand and Imelda, or after the vicious campaign of the dictatorship to vilify me in July-August, 1975, then I could have done so only in anger. Anger did influence my production of certain portions of the manuscript. However, as I put the finishing touches to my work, I found myself expurgating it of the personal venom, the virulence and intemperate language of my original draft. Some of the materials that went into this work had been of public knowledge in the Philippines. If I had used them, it was with the intention of utilizing them as links to heretofore unrevealed facets of the various ruses that Marcos employed to establish his dictatorship. Now, I have kept faith with the Filipino people. I have kept my rendezvous with history. I have, with this work, discharged my obligation to myself, my profession of journalism, my family and my country. I had one other compelling reason for coming out with this work at the great risks of being uprooted from my beloved country, of forced separation from my wife and children and losing their affection, and of losing everything I have in my name in the Philippines - or losing life itself. It is that I wanted to make a public expiation for the little influence that I had . . . (more inside)

The Conjugal Dictatorship of Ferdinand and Imelda Marcos

Who are the green women? They are powerful (one is a disciplinarian teacher). They are mysterious (one haunts a house like a ghost). They are seductive (one marries her best friend's father). And they are unbearably personal (one is the author's own mother). They are all aspects of their creator: Marie NDiaye, an author celebrated worldwide as one of France's leading writers. Here, in her own skewed take on the memoir, NDiaye combs through all the menacing, beguiling, and revelatory memories submerged beneath the consciousness of a singular literary talent. Mysterious, honest, and unabashedly innovative, NDiaye's self-portrait forces us all to ask questions--about what we repress, how we discover those things, and how those obsessions become us. This 10th anniversary hardcover edition of Marie NDiaye's genre-defying classic restores photographs that appeared in the original

French edition alongside Jordan Stump's dazzling translation, revealing in English, at last, the complete vision of NDiaye's influential masterpiece.

The financial crisis is destroying wealth but is also a remarkable opportunity to uncover the ways by which debt can be used to regulate the economic system. This book uses four case studies of cooperatives to give an in-depth analysis on how they have braved the crisis and continued to generate wealth.

Capital and the Debt Trap

The English-language debut of a master stylist: a compassionate but relentless novel about the long, dark harvest of Brazil's totalitarian rule. A professor prepares to retire—Gustavo is set to move from Sao Paulo to the countryside, but it isn't the urban violence he's fleeing: what he fears most is the violence of his memory. But as he sorts out his papers, the ghosts arrive in full force. He was arrested in 1970 with his brother-in-law Armando: both were vicariously tortured. He was eventually released; Armando was killed. No one is certain that he didn't turn traitor: I didn't talk, he tells himself, yet guilt is his lifelong harvest. *I Didn't Talk* pits everyone against the protagonist—especially his own brother. The torture never ends, despite his bones having healed and his teeth having been replaced. And to make matters worse, certain details from his shattered memory don't quite add up... Beatriz Bracher depicts a life where the temperature is lower, there is no music, and much is out of view. *I Didn't Talk's* pariah's-eye-view of the forgotten "small" victims powerfully bears witness to their "internal exile." I didn't talk, Gustavo tells himself; and as Bracher honors his endless pain, what burns this tour de force so indelibly in the reader's mind is her intensely controlled voice.

Christopher Columbus and the Participation of the Jews in the Spanish and Portuguese Discoveries

In this book, the authors explore and discuss the development of one of the most interesting and dynamic of photographic genres. Hailed as a landmark work when it was first published in 1994, *Bystander* is widely regarded by street photographers as the "bible" of street photography. It covers an incredible array of talent, from the unknowns of the late 19th century to the acknowledged masters of the 20th, such as Atget, Stieglitz, Strand, Cartier-Bresson, Brassai, Kertesz, Frank, Arbus, Winogrand, and Levitt to name just a few. In this new and fully revised edition, the story of street photography is brought up to date with a re-evaluation of some historical material, the inclusion of more contemporary photographers, and a discussion of the ongoing rise of digital photography.

Sobre el límite: frontera, migración e identidad en la literatura y el arte actuales

This open access book is the first to systematically introduce the principles of urban informatics and its application to every aspect of the city that involves its functioning, control, management, and future planning. It introduces new models and tools being developed to understand and implement these technologies that enable cities to function more efficiently – to become 'smart' and 'sustainable'. The smart city has quickly emerged as computers have become ever smaller to the point where they can be embedded into the very fabric of the city, as well as being central to new ways in which the population can communicate and act. When cities are wired in this way, they have the potential to become sentient and responsive, generating massive streams of 'big' data in real time as well as providing immense opportunities for extracting new forms of urban data through crowdsourcing. This book offers a comprehensive review of the methods that form the core of urban informatics from various kinds of urban remote sensing to new approaches to machine learning and statistical modelling. It provides a detailed technical introduction to the wide array of tools information scientists need to develop the key urban analytics that are fundamental to learning about the smart city, and it outlines ways in which these tools can be used to inform design and policy so that cities can become more efficient with a greater concern for environment and equity.

Golden Age departures in historiography and theory of history in some ways prepared the ground for modern historical methods and ideas about historical factuality. At the same time, they fed into the period's own "aesthetic-historical culture" which amalgamated fact and fiction in ways modern historians would consider counterfactual: a culture where imaginative historical prose, poetry and drama self-consciously rivalled the accounts of royal chroniclers and the dispatches of diplomatic envoys; a culture dominated by a notion of truth in which skilful construction of the argument and exemplarity took precedence over factual accuracy. *Literature and Historiography in the Spanish Golden Age: The Poetics of History* investigates this grey area backdrop of modern ideas about history, delving into a variety of Golden Age aesthetic-historical works which cannot be satisfactorily described as either works of literature or works of historiography but which belong in between these later strictly separate categories. The Shepherd

The strategic significance of the Papuan Campaign can be briefly stated. In addition to blunting the Japanese thrust toward Australia and the transpacific line of communications, it put General MacArthur's forces in a favorable position to take the offensive. But this little known campaign is significant for still another reason. It was the battle test of a large hitherto-inexperienced U.S. Army force and its commanders under the conditions which were to attend much of the ground fighting in the Pacific. Costly in casualties and suffering, it taught lessons that the Army had to learn if it was to cope with the Japanese under conditions of tropical warfare. Samuel Milner holds a graduate degree in history from the University of Alberta and has done further graduate work in political science at the University of Minnesota. During World War II, he served in Australia and New Guinea as a historian with the Air Transport Command, Army Air Forces. Upon completing Victory in Papua he left the Office of the Chief of Military History to become historian of the Air Weather Service, U.S. Air Force.

Literature and Historiography in the Spanish Golden Age

Appearing together in English for the first time, two masterpieces that take on the jazz age, the Nuremberg trials, postwar commercialism, and the feat of writing a book, presented in one brilliant volume *The Death of My Brother Abel* and its delirious sequel, *Cain*, constitute the magnum opus of Gregor von Rezzori's prodigious career, the most ambitious, extravagant, outrageous, and deeply considered achievement of this wildly original and never less than provocative master of the novel. In *Abel* and *Cain*, the original book, long out of print, is reissued in a fully revised translation; *Cain* appears for the first time in English. *The Death of My Brother Abel* zigzags across the middle of the twentieth century, from the 1918 to 1968, taking in the Jazz Age, the Anschluss, the Nuremberg trials, and postwar commercialism. At the center of the book is the unnamed narrator, holed up in a Paris hotel and writing a kind of novel, a collage of sardonic and passionate set pieces about love and work, sex and writing, families and nations, and human treachery and cruelty. In *Cain*, that narrator is revealed as Aristide Subics, or so at least it appears, since Subics' identity is as unstable as the fictional apparatus that contains him and the times he lived through. Questions abound: How can a man who lived in a time of lies know himself? And is it even possible to tell the story of an era of lies truthfully? Primarily set in the bombed-out, rubble-strewn Hamburg of the years just after the war, the dark confusion and deadly confrontation and of *Cain* and *Abel*, inseparable brothers, goes on.

A Shared Elegy presents two pairs of photographers connected by family ties. Osamu James Nakagawa and his uncle, Takayuki Ogawa, and Elijah Gowin and his father, Emmet Gowin, present unique but overlapping visions recording family histories. Nakagawa, like his uncle, Ogawa, grew up in Japan and draws upon his country's traditions and the practice of honoring elders; family heritage and home in Virginia have inspired the Gowins to make photographs that depict the intimate and hallowed nature of the world. These photographs compel us to reflect and consider our place in the cycle of life. A collaboration between the Grunwald Gallery and the Eskenazi Museum of Art at Indiana University, this exhibition catalogue juxtaposes rich imagery with discussions about the artists and their aesthetic approaches to photography.

This research level reference book has been co-written by Enrico Drioli, perhaps one of the world's best known researchers into membrane technology. The application of membrane technology to chemical transformation and molecular separation are beginning to be exploited in the pharmaceutical science and biotechnology industries, but there is a need for researchers and students to have up-to-date literature - and this book provides it. The book will be of interest to students of chemistry, chemical engineering, pharmacy and biotechnology.

Principles of Nutrigenetics and Nutrigenomics

Jean-Luc Godard, like many of his European contemporaries, came to filmmaking through film criticism. This collection of essays and interviews, ranging from his early efforts for *La Gazette du Cinéma* to his later writings for *Cahiers du Cinéma*, reflects his dazzling intelligence, biting wit, maddening judgments, and complete unpredictability. In writing about Hitchcock, Welles, Bergman, Truffaut, Bresson, and Renoir, Godard is also writing about himself-his own experiments, obsessions, discoveries. This book offers evidence that he may be even more original as a thinker about film than as a director. Covering the period of 1950-1967, the years of *Breathless*, *A Woman Is a Woman*, *My Life to Live*, *Alphaville*, *La Chinoise*, and *Weekend*, this book of writings is an important document and a fascinating study of a vital stage in Godard's career. With commentary by Tom Milne and Richard Roud, and an extensive new foreword by Annette Michelson that reassesses Godard in light of his later films, here is an outrageous self-portrait by a director who, even now, continues to amaze and bedevil, and to chart new directions for cinema and for critical thought about its history.

Dictionary of World Biography

"This account of photography and cinema shows how the two media are not separate but in fact have influenced each other since their inception. David Campany explores photographers on screen, photographic and filmic stillness, photographs in film, the influence of photography on cinema, and the photographer as a filmmaker"--OCLC
