[#AIAG Core Tools](#) [#Automotive Quality Standards](#) [#APQP PPAP FMEA](#) [#Quality Management Systems](#) [#Process Improvement](#)

The AIAG Core Tools Manual provides essential guidance for implementing robust quality management systems within the automotive industry. It comprehensively covers key methodologies such as APQP, PPAP, FMEA, MSA, and SPC, which are critical for ensuring product and process quality throughout the supply chain. This manual serves as a vital resource for professionals dedicated to enhancing process improvement, mitigating risks, and achieving compliance with stringent automotive quality standards.

Our goal is to make academic planning more transparent and accessible to all.
