What About Ataxic Dysarthria Ataxic dysarthria is typically caused by damage to the cerebellum
Cerebellar function Help maintain muscle tone Coordination and balance Speech Characteristics of Ataxic Dysarthria Inaccurate movements Inconsistent Voicing errors

Now let's practice some clinical thinking with respect to identifying characteristics that may represent deficits in phonology versus those that are associated with the label CAS This child was referred to Maya for assessment of her SSD List the speech characteristics you observe Come to a differential diagnosis regarding presence, absence or co-occurrence of

The DEMSS examines four parameters frequently associated with diagnosis of CAS Parameter
Movement accuracy Practice in listening and Vowel Errors Consistency Prosody

You don't have to use the DEMSS You can devise a dynamic motor speech exam for a particular child Choose your hierarchy of syllable shapes as well as consonants and vowels to sample across co articulatory context Have the child repeat the utterance Provide cueing as necessary to elicit improvement in production

Make initial clinical decisions regarding • Approach and Method . Initial stimulus set Use the principles of motor learning to determine • How we will organize practice How we will provide type and amount of feedback

Diagnostic Statement a 5-year-old male who is exhibiting low average receptive language skills, severe impairment in expressive language, and a severe impairment in speech acquisition, due primarily to difficulty with planning and programming movement gestures for speech production (CAS). There is no frank evidence for dysarthria. He is pragmatically and socially appropriate, focuses attention well, and attempts all tasks.

Diagnostic Statement Example This child exhibits a moderate phonologic impairment characterized by fronting, and consistent typical substitution errors developing sounds. In addition, he exhibits a slightly slower rate more difficulty with multisyllabic words with occasional segmentation and occasional

CP Lecture #4 Assessment and Diagnosis of Mental Disorders - CP Lecture #4 Assessment and Diagnosis of Mental Disorders by Paul Merritt 6,236 views 3 years ago 20 minutes - In this video I discuss **assessment**, and **diagnosis**, in a variety of contexts.

Intro

1. Definitions of Assessment and Diagnosis A. Assessment involves the systematic collection of relevant information.

I. Definitions of Assessment & Diagnosis

1. Definitions of Assessment & Diagnosis

1. Definitions of Assessment and Diagnosis B. Diagnosis is made according to criteria laid out in the DSM-5 and the ICD-10 1. At times, DSM-V classification requires clinicians to make differential diagnoses, decisions about mutually exclusive categories of disorder.

Diagnosis, Evaluation, and Treatment of ADHD Under the BASC-3 Model of Assessment and Intervention

Mild delays in learning, language, social, and motor development Work performance is impaired. • Poor performance on tests of attention, memory, and executive function. • When co-morbid with a mood disorder, conduct disorder, or substance use disorder, suicide risk is elevated.

Homogeneous Gender Norms Equate Males and Females on All Variables • Does this reflect reality? • Are boys and girls really different in how they think, feel, and behave? • Yes. Use combined gender norms to preserve differences. • No-the differences are artifacts of measurement bias. Use homogenous gender norms to remove all observed differences, thereby equating boys and girls on all variables.

What happens when we equate boys and girls? Exs. Girls and anxiety disorders? • Boys and externalizing disorders? • Are boys less adversely affected and girls more adversely affected by a common set of symptoms of inattention? • What if judges used homogeneous gender norms for sentencing considerations?

Psychiatry Lecture: How to do a Psychiatric Assessment - Psychiatry Lecture: How to do a Psychiatric Assessment by Psychiatry Lectures 160,954 views 9 years ago 53 minutes - About this video: A presentation that systematically goes through the different steps of making a thorough psychiatric **assessment**, ...
