On the Roof of the World

Throughout its history the Guardian has had unparalleled access to mountaineers and climbers, and its coverage of the sport is second to none. From Edward Whymper's conquest of the Matterhorn in 1865 through to the first ever ascent of Everest in 1953, and on to the extreme climbing (and associated apparatus) that dominates the modern-day incarnation of the sport, the paper has chronicled every development with insight and intelligence. This beguiling collection draws together a selection of Guardian writing that is both informative and celebratory, tracking the sport's history and uncovering how public perception has changed over time. - Postings on how cigarettes 'aided breathing' on some of the earliest Everest expeditions - Victorian advice to 'lady climbers': 'Small rings should be sewn inside the seams of the skirt ... [so] that the whole dress may be drawn up at a moment's notice to

the requisite height' - Articles on scrambling, fell-running, rock-climbing and rambling. Whether you're a serious mountaineer or a weekend Rambler, *On the Roof of the World* is packed full of insights and stories that make it the perfect bedside companion.

East of the Mountains

When Dr Ben Givens left his Seattle home he never intended to return. It was to be a journey past snow-covered mountains to a place of canyons, sagelands and orchards, where, on the verges of the Columbia River, Ben had entered the world and would now take his leave of it.

Out of the Mountains

Analyzes four megatrends—population growth, urbanization, coastal life and connectedness-and concludes that future conflict is increasingly likely to occur in sprawling coastal cities; in underdeveloped regions of the Middle East, Africa, Latin America and Asia; and in highly networked, connected settings, in a book that also looks at gangs, cartels and warlords.

Kneeknock Rise

From the moment young Egan arrives in Instep for the annual fair, he is entranced by the fable surrounding the misty peak of Kneeknock Rise: On stormy nights when the rain drives harsh and cold, an undiscovered creature raises its voice and moans. Nobody knows what it is—nobody has ever dared to try to find out and come back again. Before long, Egan is climbing the Rise to find an answer to the mystery. *Kneeknock Rise* is a 1971 Newbery Honor Book.

The Madonna of The Mountains

1923 Maria Vittoria is embroidering a sheet for her dowry trunk. Her father has gone to find her a husband. He's taken his mule, a photograph and a pack of food: home-made sopressa sausage, cold polenta, a little flask of wine - no need to take water - the world is full of water. There are no eligible men in this valley or the next one, and her father will not let her marry just anyone, and now, despite Maria's years, she is still healthy. Her betrothed will see all that. He'll be looking for a woman who can do the work. Maria can do the work. Everyone in the contrà says that. And the Lord knows Maria will need to be able to work. Fascism blooms as crops ripen, the state craves babies just as the babies cry for food. Maria faces a stony path, but one she will surely climb to the summit. In this sumptuous and elegant novel you will taste the bigoli co l'arna, touch the mulberry leaves cut finer than organdie, and feel the strain of one woman attempting to keep her family safe in the most dangerous of times.

The Mountains Sing

The International Bestseller New York Times Editors' Choice Selection Winner of the 2020 Lannan Literary Awards Fellowship "[An] absorbing, stirring novel . . . that, in more than one sense, remedies history." —The New York Times Book Review "A triumph, a novelistic rendition of one of the most difficult times in Vietnamese history . . . Vast in scope and intimate in its telling . . . Moving and riveting." —VIET THANH NGUYEN, author of *The Sympathizer*, winner of the Pulitzer Prize With the epic sweep of Min Jin Lee's *Pachinko* or Yaa Gyasi's *Homegoing* and the lyrical beauty of Vaddey Ratner's *In the Shadow of the Banyan*, *The Mountains Sing* tells an enveloping, multigenerational tale of the Trşn family, set against the backdrop of the ViÇt Nam War. Trşn DiÇu Lan, who was born in 1920, was forced to flee her family farm with her six children during the Land Reform as the Communist government rose in the North. Years later in Hà NŮi, her young granddaughter, H°ing, comes of age as her parents and uncles head off down the HÓ Chí Minh Trail to fight in a conflict that tore apart not just her beloved country, but also her family. Vivid, gripping, and steeped in the language and traditions of ViÇt Nam, *The Mountains Sing* brings to life the human costs of this conflict from the point of view of the Vietnamese people themselves, while showing us the true power of kindness and hope. *The Mountains Sing* is celebrated Vietnamese poet Nguyễn Phan QuÇ Mai's first novel in English.

From Under Mountains

The story of the first Illeniel wizard continues. Tyrion's life among the She'Har had become quiet, but the sins of his youth have returned to haunt him. The Mordan wardens have discovered one of his children, and the other groves are racing to find and claim the rest of his illegitimate offspring. Others' love had made his children strong, but his hate would make them powerful.

The Silent Tempest

This collection is the first comprehensive, cohesive volume to unite Appalachian history with its culture. Richard A. Straw and H. Tyler Blethen's *High Mountains Rising* provides a clear, systematic, and engaging overview of the Appalachian timeline, its people, and the most significant aspects of life in the region. The remaining essays take a more cultural focus, addressing stereotypes, music, folklife, language, literature, and religion. Bringing together many of the most prestigious scholars in Appalachian studies, this volume has been designed for general and classroom use, and includes suggestions for further reading.

High Mountains Rising

"An immersive and deeply emotional reading experience—especially satisfying for readers who love richly drawn characters and a strong sense of place" —NPR He's gonna be sorry he ever messed with

me and Loretta Lynn. Sadie Blue has been a wife for fifteen days. That's long enough to know she should have never hitched herself to Roy Tupkin, even with the baby. Sadie is desperate to make her own mark on the world, but in remote Appalachia, a ticket out of town is hard to come by and hope often gets stomped out. When a stranger sweeps into Baines Creek and knocks things off kilter, Sadie finds herself with an unexpected lifeline...if she can just figure out how to use it. Fans of *The Book Woman of Troublesome Creek* will love this intimate insight into a fiercely proud, tenacious community and relish the voices of the forgotten folks of Baines Creek. With a colorful cast of characters and a flair for the Southern Gothic, *If the Creek Don't Rise* is a debut novel bursting with heart, honesty, and homegrown grit. "Like all great southern writers, Leah Weiss's magic turns the local into the universal." —Wiley Cash, New York Times bestselling author, on *All The Little Hopes*

If the Creek Don't Rise

Tyrion has been given a second chance to cast aside his obsession with vengeance and lead his children to a brighter future. But destiny has chosen Tyrion for a different path and given him the spark that will burn the world to ashes. Forgoing peace, he will reap a harvest of hatred, and no one will find safety in the purge of fire that he brings. Will anything be left to rise from the ash?

Betrayer's Bane

The incredible story of the creation of a continent—our continent—from the acclaimed author of *The Last Volcano* and *Mask of the Sun*. The immense scale of geologic time is difficult to comprehend. Our lives—and the entirety of human history—are mere nanoseconds on this timescale. Yet we hugely influenced by the land we live on. From shales and fossil fuels, from lake beds to soil composition, from elevation to fault lines, what could be more relevant than the history of the ground beneath our feet? For most of modern history, geologists could say little more about why mountains grew than the obvious: there were forces acting inside the Earth that caused mountains to rise. But what were those forces? And why did they act in some places of the planet and not at others? When the theory of plate tectonics was proposed, our concept of how the Earth worked experienced a momentous shift. As the Andes continue to rise, the Atlantic Ocean steadily widens, and Honolulu creeps ever closer to Tokyo, this seemingly imperceptible creep of the Earth is revealed in the landscape all around us. But tectonics cannot—and do not—explain everything about the wonders of the North American landscape. What about the Black Hills? Or the walls of chalk that stand amongst the rolling hills of west Kansas? Or the fact that the states of Washington and Oregon are slowly rotating clockwise, and there a diamond mine in Arizona? It all points to the geologic secrets hidden inside the 2-billion-year-old-continental masses. A whopping ten times older than the rocky floors of the ocean, continents hold the clues to the long history of our planet. With a sprightly narrative that vividly brings this science to life, John Dvorak's *How the Mountains Grew* will fill readers with a newfound appreciation for the wonders of the land we live on.

How the Mountains Grew

"In this second volume of the trilogy, we meet Dag again, who is now slightly older. He is now Old-Dag. His son, Young-Dag, is married off to Adelheid Barre, an officer's daughter, something her urban office-holding family is not immediately thrilled about. But Old-Dag makes a grand impression on them at the wedding, and the objectors fall silent. Adelheid's life at the farm is different than she expected. Her marriage is especially difficult to comprehend. She grows close to Old-Dag, and finds much joy in his company and in long and deep conversations with him. Young-Dag is in many ways a stranger both to her and the family. A tragedy prompts him to run away from the farm, into the woods - all the way to Death Mountain. From there, nobody returns. But he does anyway, and the experiences become a turning point in the relationship between Young-Dag and Adelheid. The trilogy: *Beyond Sing the Woods No Way Around*"--Goodreads

The Wind from the Mountains

The first ever memoir from the most decorated female skier of all time, revealing never-before-told stories of her life in the fast lane, her struggle with depression, and the bold decisions that helped her break down barriers on and off the slopes. 82 World Cup wins. 20 World Cup titles. 3 Olympic medals. 7 World Championship Medals. A fixture in the American sports landscape for almost twenty years, Lindsey Vonn is a legend. With a career that spanned a transformation in how America recognizes and celebrates female athletes, Vonn—who retired in 2019 as the most decorated American skier of all

time—was in the vanguard of that change, helping blaze a trail for other world-class female athletes and reimagining what it meant to pursue speed at all costs. In *Rise*, Vonn shares her incredible journey for the first time, going behind the scenes of a badass life built around resilience and risk-taking. One of the most aggressive skiers ever, Vonn offers a fascinating glimpse into the relentless pursuit of her limits, a pursuit so focused on one-upping herself that she pushed her body past its breaking point as she achieved greatness. While this iconic grit and perseverance helped her battle a catalog of injuries, these injuries came with a cost—physical, of course, but also mental. Vonn opens up about her decades-long depression and struggles with self-confidence, discussing candidly how her mental health challenges influenced her career without defining her. Through it all, she dissects the moments that sidelined her and how, each time, she clawed her way back using an iconoclastic approach rooted in hard work—pushing boundaries, challenging expectations, and speaking her mind, even when it got her into trouble. At once empowering and raw, *Rise* is an inspirational look at her hard-fought success as well as an honest appraisal of the sacrifices she made along the way—an emotional journey of winning that understands all too well that every victory comes with a price.

WINNER OF THE VICTORIAN PREMIER'S LITERARY PRIZE FOR LITERATURE AND FOR NON-FICTION 2019 Where have I come from? From the land of rivers, the land of waterfalls, the land of ancient chants, the land of mountains... In 2013, Kurdish journalist Behrouz Boochani was illegally detained on Manus Island. People would run to the mountains to escape the warplanes and found asylum within their chestnut forests... This book is the result. Rise of the Ranges of Light

A family, separated by duty and distance, waits for a loved one to return home in this lyrical picture book celebrating the bonds of a Cherokee family and the bravery of history-making women pilots. At the mountain's base sits a cabin under an old hickory tree. And in that cabin lives a family -- loving, weaving, cooking, and singing. The strength in their song sustains them through trials on the ground and in the sky, as they wait for their loved one, a pilot, to return from war. With an author's note that pays homage to the true history of Native American U.S. service members like WWII pilot Ola Mildred "Millie" Rexroat, this is a story that reveals the roots that ground us, the dreams that help us soar, and the people and traditions that hold us up.

The Mountains We Carry

The Algerian Islamist Abdullah Anas, 'perhaps the greatest warrior of the Afghan Arabs', fought the Soviet Union for a decade. As one of the earliest Arabs to join the Afghan jihad, he counted as brothers-in-arms the future icons of Al-Qaeda's global war, from Abdullah Azzam to Osama bin Laden to Omar Abdel-Rahman, and befriended key Afghan jihadi figures such as Gulbuddin Hekmatyar and Ahmad Shah Massoud, the Lion of Panjshir. To the Mountains is an intimate portrait of this brutal war, tracing Anas's involvement in the conflict, as well as his experiences of the Algerian civil war (1992-8) and his sojourn in 'Londonistan'. Brushing shoulders with everyone from Abu Mus'ab al-Zarqawi to Jalaluddin Haqqani, Anas opted for his own independent route, seeking to persuade the Afghan Arabs that they should not be distracted by attacks on the West. Paradoxically, he remains committed to the broader Islamist movement, believing that jihad will continue till the end of time, yet has also spent years talking to the Taliban, seeking to build a lasting peace in Afghanistan. This is his story. Co-written with investigative journalist Tam Hussein, Anas's memoir will doubtless become a seminal primary source on the rise of global jihadism.

Junko Tabei Masters the Mountains

Melanie K. Hutsell's debut novel, *The Dead Shall Rise*, uses magical realism and the earthy authenticity of Appalachia to create its modern folktale world, both beautiful and baleful. It is set in the mountain village of Beulah Creek, whose ordinary inhabitants are unsettled by the arrival of a stranger seeking shelter from a mysterious past. The woman, who calls herself Malathy Joan, moves into the haunted Greenberry place. Though she attracts friends and admirers as she tries to heal the atmosphere of deceit and disaster in the abandoned house, the spirits of its dead cannot rest and tragedy once more threatens to change Beulah Creek forever. Two chapters from the novel (in slightly different form and under a different title) won first place in the Tennessee Writers' Alliance Novel Competition in 2001, awarded at the Southern Festival of Books in Nashville. A native of Kingsport, Tennessee, Melanie currently lives in Maryville, but she has many treasured childhood memories of visiting her maternal grandmother, Mamaw, at the family farm in Plainview. Her short fiction has appeared in *Appalachian Heritage*, *Still: The Journal*, *Trajectory*, and the Knoxville Writers' Guild anthology, *Outscape: Writings on Fences and Frontiers*. An avid reader and music lover, she has also published poetry in *The Sow's Ear*. "This is the highest caliber of story-telling in the tradition of Thomas Hardy or Lee Smith, yet completely original as well, told in the unmistakable and singular voice of Hutsell, who has carefully crafted each sentence so that we know we're in the hands of the truest of writers. *The Dead Shall Rise* is a beauty." -Silas House author of *Clay's Quilt* and *A Parchment of Leaves* "Melanie Hutsell brings the mountain town of Beulah Creek to life. Ordinary people live ordinary lives until a stranger arrives among them. Walking away from a past that haunts her, she walks into a present that will haunt her and the rest of the town. Taking up residence in the Old Greenberry place, Malathy Joan gathers a circle of friends and begins to renew herself until the spirits of the dead and fallen stars take her away from the sphere of her true friends. Full of suspense and magical realism, *The Dead Shall Rise* creates a landscape, both gorgeous and ominous, for the reader's exploration." -Jane Hicks author of *Driving with the Dead*

To the Mountains

Spanning more than two centuries in Ireland, *Castle on the Rise* unites the legacy of three women who must risk mending their broken places for life, love, and the belief that even through the depths of our pain, a masterpiece of a story can emerge. When Laine Forrester travels overseas to attend her best friend's vineyard wedding, she expects to find the bride on the brink of a fairy-tale life. But after a series of unforeseen setbacks, it seems the storybook lives they'd imagined are suddenly ripping apart. With hopes of resurrecting a happy ending, Laine agrees to accompany the newlyweds to the groom's home in Ireland—never expecting she'd be the one drawn in by its wide-open moors, backroads bordering the Irish Sea, and a mysterious castle that dares to keep its secrets hidden. From the storied streets of Dublin to the shores of the Emerald Isle, Laine is drawn in to the land and its rich history. The castle ruins whisper stories of Issy—a photojournalist battling through the 1916 Easter Rising, and Maeve—the castle's lady of legend, fighting for survival through the 1798 rebellion that started it all. Praise for *Castle on the Rise*: "Enchanting and mesmerizing!" —PATTI CALLAHAN, New York Times bestselling author of *Becoming Mrs. Lewis* "Castle on the Rise perfectly showcases rising star Kristy Cambron's amazing talent! Perfect pacing, lovely prose, and an intricate plot blend together in a delightful novel I couldn't put down. Highly recommended!" —Colleen Coble, USA TODAY bestselling author of *Secrets at Cedar Cabin* and the *Rock Harbor* series "Cambron's latest is one of her best. Gripping and epic, this intricately woven tale of three generations seeking truth and justice will stay with you long after the last page." —Rachel Hauck, New York Times bestselling author *Second in the Lost Castle* series (*The Lost Castle*, *Castle on the Rise*, *The Painted Castle*) Can be read as a stand-alone, but best if read in order Sweet romance set in three time periods: present day, World War I/Easter Rising, and late 1700s Full-length novel (over 110,000 words)

The Dead Shall Rise

Set in 1970s Japan, this tender and poetic novel about a young, single mother struggling to find her place in the world is an early triumph by a modern Japanese master. Alone at dawn, in the heat of midsummer, a young woman named Takiko Odaka departs on foot for the hospital to give birth to a baby boy. Her pregnancy, the result of a brief affair with a married man, is a source of sorrow and shame to her abusive parents. For Takiko, however, it is a cause for reverie. Her baby, she imagines, will be hers and hers alone, a challenge that she also hopes will free her. Takiko's first year as a mother is filled with the intense bodily pleasures and pains that come from caring for a newborn. At first she seeks refuge in the company of other women—in the hospital, in her son's nursery—but as the baby

grows, her life becomes less circumscribed as she explores Tokyo, then ventures beyond the city into the countryside, toward a mountain that captures her imagination and desire for a wilder freedom.

Witch Light

THIS IS A BOOK ABOUT SELF-SABOTAGE. Why we do it, when we do it, and how to stop doing it-for good. Coexisting but conflicting needs create self-sabotaging behaviors. This is why we resist efforts to change, often until they feel completely futile. But by extracting crucial insight from our most damaging habits, building emotional intelligence by better understanding our brains and bodies, releasing past experiences at a cellular level, and learning to act as our highest potential future selves, we can step out of our own way and into our potential. For centuries, the mountain has been used as a metaphor for the big challenges we face, especially ones that seem impossible to overcome. To scale our mountains, we actually have to do the deep internal work of excavating trauma, building resilience, and adjusting how we show up for the climb. In the end, it is not the mountain we master, but ourselves.

Mountains of the Mind

This dazzling collection of short stories, originally published in 1985, marks the brilliant debut of Neil Bissoondath, a major voice in Canadian fiction. Focusing on contemporary themes of cultural dislocation, revolution, and the shifting politics of the Third World, the stories resonate with Bissoondath's compassion for people threatened by circumstances beyond their control.

Digging Up the Mountains

"Unfolds in pitch-perfect regional dialect. . . . For fans of Ruth White's and Kerry Madden's Appalachian-inspired fiction."--Kirkus Reviews It's about keeping the faith. Growing up poor in 1953 in the Appalachian Mountains of West Virginia doesn't bother Lydia Hawkins. She treasures her tight-knit family. There's her loving mama, now widowed; her whip-smart younger brother, BJ, who has cystic fibrosis; and wise old Gran. But everything falls apart after Gran and BJ die and mama is jailed unjustly. Suddenly Lydia has lost all those dearest to her. Moving to a coal camp to live with her uncle William and aunt Ethel Mae only makes Lydia feel more alone. She is ridiculed at her new school for her outgrown homemade clothes and the way she talks, and for what the kids believe her mama did. And to make

matters worse, she discovers that her uncle has been keeping a family secret—about her. If only Lydia, with her resilient spirit and determination, could find a way to clear her mother's name. . . .

Mountain Path

Masterfully wrought and keenly observed, Mountain Path draws on Harriette Simpson Arnow's experiences as a schoolteacher in downtrodden Pulaski County, Kentucky, deep in the heart of Appalachia, prior to WWII. Far from a quaint portrait of rural life, Arnow's novel documents hardships, poverty,

illiteracy, and struggles. She also recognizes a fragile cultural richness, one characterized by “those who like open fires, hounds, children, human talk and song instead of TV and radio, the wisdom of the old who had seen all of life from birth to death,” and which has since been eroded by the advent of highways and industry. In *Mountain Path*, Arnow exquisitely captures the voices, faces, and ways of a people she cared for deeply, and who evoked in her a deep respect and admiration.

The Mountain Path

In 1998, Paul Pritchard was struck on the head by a falling rock as he climbed a sea stack in Tasmania. Close to death, Pritchard kept himself going with a promise that he would 'at least attempt to live'. *The Mountain Path* is an adventure book like no other, an exploration of a healing brain, a test of will and a triumph of hope.

Cold Mountain Path: The Ghost Town Decades of McCarthy-Kennecott, Alaska

We all have ghost towns. Impermanent places we dream of returning to. Here was Alaska's. In 1938, the last copper train left the Wrangell Mountains. But the spirit of the old days-free-wheeling, self-reliant, bounty-blessed-lived on in the remote town of McCarthy. The valley's few holdouts were joined over time by a gallery of prospectors, grifters, back-to-the-landers, dreamers, escape artists, hippies, speculators, preachers, and outlaws. While the rest of Alaska boomed in the new oil age, an old and makeshift way of life persisted against the quiet undertow of the past, that ebbing toward the wilderness that was here before us. Then the modern world found its way back in. A road, a bridge, a national park. A mass shooting that left six dead. *Cold Mountain Path* is a deeply American saga of renunciation and renewal--a rollicking local history that is also a lyrical exploration of time, loss, and change. . . and a pulsating account of the morning that brought Alaska's ghost town decades to an end. Tom Kizzia's previous book, *Pilgrim's Wilderness*, was an Amazon Top-Ten Book of the Year and was named Alaska's best True Crime book by the New York Times. Kizzia has written for *The New Yorker* and was a longtime reporter for the Anchorage Daily News. He has a place of his own near McCarthy.

Bear and the Whisper of the Wind

From the award-winning author and illustrator of *Up the Mountain Path*, *The Fish and the Cat*, and *Otto & Pio* comes an imaginative read-aloud picture book about one bear's journey to believe in himself and discover the beauty of change. Bear is happy at home, eating strawberry pie and spending time with his friends. But one day, the wind whispers to Bear, calling him to embark on a surprising journey to an unknown place. He isn't sure where he is going, but he knows that everything will turn out okay if he trusts his instincts. A sweet, delightfully illustrated tale about believing in yourself, *Bear and the Whisper of the Wind* shows children that change may be scary at first, but it can lead to fun, happy, and exciting things too.

Mountains Along Our Path

Adventure along with a group of friends on their twenty-five year quest to climb mountains while exploring national parks, state parks, and mountain ranges in the United States and Canada. The Slovene Mountain Trail

A guidebook to trekking the Slovene Mountain Trail, crossing Slovenia from Austria to the Adriatic. The 550km route is presented in a series of 12 3 to 6-day treks of all levels of difficulty, all featuring start and finish points that can be accessed by public transport. They can be completed as single sections or linked to create a longer trip. Each day is graded: low-grade walking is mostly on tracks or lanes with no steep ascents, whereas the most difficult stages may involve steep and technical terrain including fixed protection or sections of via ferrata, for which a helmet, self-belaying equipment and the appropriate experience are required. In addition to clear route description and mapping, the guide provides all the practical information you will need to plan your trip, covering transport, accommodation and safety, as well as background notes on geology, plants and wildlife. From Maribor, close by the Austrian border in the north-east, to Ankaran on the Adriatic coast in the south-west, the route covers outstanding mountain and upland walking: the vast forested plateau of Pohorje, the sheer limestone peaks of the Julian and Kamnik-Savinja Alps with their via ferrata protected routes, the traditional alpine pastures

and flower-strewn ridges of the Karavanke, and the forested hills and olive groves of the limestone karst country that stretch towards the coast.

Scotland's Mountain Ridges

A guidebook to the rich mix of summer scrambling, rock climbing and winter mountaineering on Scotland's ridges, from the remote Cairngorms to the splendour of the Cuillin. Graceful carved walkways slung between summits, twisted spines of stone - ridges can be the most beautiful of mountain landforms. With elegant lines and giddy exposure, ridge climbs emit a powerful siren call, drawing us out onto the rocks. Life on the edge has a special quality, born of the contrast of empty space all around, and intricate detail in close-up. The crests are strangely irresistible. Scotland's ridges are among the finest mountaineering lines in the country, every one a unique adventure. The variety of these routes reflects the breadth of the mountain experience: a rich mix of summer scrambles, technical rock and challenging winter climbs. This book covers both the popular classics and some obscure gems, aiming to celebrate these thrilling climbs as much as to document them. Along the way it explores landscapes of magnificent diversity, ranging from the remote desolation of the Cairngorms to the seaside splendour of the Cuillin, the great trench of Glencoe to the surreal exhibitionism of the far north. The chosen selection spans the grade range, with routes to suit all levels of ability. Whether an earthbound hillwalker or an accomplished climber, Scotland's ridges cannot fail to stir your imagination.

The Spiritual Path

The author of the international bestseller *Shantaram* takes us on a gripping personal journey of wonder and insight into science, belief, faith and devotion. Drawing on sacred traditions, rigorous logic and the six-year instruction of his spiritual teacher, Roberts describes the step-by-step process he followed in search of spiritual connection - a process that anyone, of any belief or none, can benefit from in their own lives. This gripping personal account of the 'Leap Of Faith' is a compellingly fresh addition to such enduring, spiritually inspiring works as *Zen and The Art of Motorcycle Maintenance*, *The Road Less Travelled* and *The Celestine Prophecy*. As Roberts writes, 'The Spiritual Path is a book on spiritual matters that my younger self wanted desperately: one that offers more answers than questions, and helps to reset the spiritual compass.'

The Path

For the first time an award-winning Harvard professor shares the lessons from his wildly popular course on classical Chinese philosophy, showing you how these ancient ideas can guide you on the path to a good life today. The lessons taught by ancient Chinese philosophers surprisingly still apply, and they challenge our fundamental assumptions about how to lead a fulfilled, happy, and successful life. Self-discovery, it turns out, comes through looking outward, not inward. Power comes from holding back. Good relationships come from small gestures. Spontaneity comes from practice. And excellence comes from what you choose to do, not your "natural" abilities. Counterintuitive. Countercultural. Even revolutionary. These powerful ideas have made Professor Michael Puett's course the third most popular at Harvard University in recent years, with enrollment surging every year since it was first offered in 2006. It's clear students are drawn by a bold promise Professor Puett makes on the first day of class: "These ideas will change your life." Now he offers his course to the world.

Deep Play

Winner of the 1997 Boardman Tasker Prize for Mountain Literature, Paul Pritchard's *Deep Play* is a unique, stylish and timeless commentary reflecting the pressures and rewards of climbing some of the world's hardest and most challenging rock climbs. Pritchard started climbing in Lancashire before moving to join the vibrant Llanberis scene of the mid 1980s, at a time when the adventurous development of the Dinorwig slate quarries was in full swing. Many of the new slate routes were notable for their fierce technical difficulty and sparse protection, and Pritchard took a full part in this arcane sub-culture of climbing and at the same time deployed his skills on the Anglesey sea cliffs to produce a clutch of equally demanding wall climbs. Born with an adventurous soul, it was not long before Pritchard and his friends were planning exotic trips. In 1987, paired with Johnny Dawes, Pritchard made an epoch-making visit to Scotland's Sron Ulladale to free its famous aid route, The Scoop. Pritchard and Dawes, with no previous high altitude experience, then attempted the Catalan Pillar of Bhagirathi III in the Garwhal Himalaya in India, a precocious first expedition prematurely curtailed when Pritchard was hit by stonefall at the foot of the face. In 1992, Pritchard and Noel Craine teamed up with the alpinists Sean Smith and Simon Yates to climb a big wall route on the East Face of the Central Tower of Paine, Patagonia. Pritchard followed this with an equally fine first ascent of the West Face of Mt Asgard on Baffin Island. Other trips - to Yosemite, Pakistan and Nepal as well as returns to Patagonia - resulted in a clutch of notable repeats, first ascents and some failures. The failure list also included two life threatening falls (one on Gogarth, the other on Creag Meaghaidh), which prompted the author into thought-provoking personal re-assessments, in advance of his later near-terminal accident on The Totem Pole in Tasmania. A penetrating view of the adventures and preoccupations of a contemporary player, *Deep Play* stands alone as a unique first-hand account of what many consider to be the last great era in British climbing.

Paul Preuss: Lord of the Abyss

Shortlisted for the 2019 Banff Mountain Book Award for Mountain Literature Shortlisted for the 2019 Boardman Tasker Award An intriguing biography of the renowned Austrian alpinist Paul Preuss, who achieved international recognition both for his remarkable solo ascents and for his advocacy of an ethically "pure" alpinism (meaning without any artificial aids). In the months before his death in 1913, from falling more than 300 metres during an attempt to make the first free solo ascent of the North Ridge of the Mandlkogel, Paul Preuss's public presentations on his climbing adventures filled concert halls in Austria, Italy, and Germany. George Mallory, the famed English mountaineer who took part in the first three British expeditions to Mount Everest in the early 1920s, is quoted as saying "no one will ever equal Preuss." Reinhold Messner, the first climber to ascend all fourteen 8000 metre peaks, was so impressed by the young Austrian's achievements that he built a mountaineering museum around Preuss's piton hammer, wrote two books (in German) about him and instituted a foundation in Preuss's name. Although he died at only 27 years old, modern climbing may never have developed the ethical, existential core that it has today if not for Preuss's bold style. Even the most trenchant traditionalists remain unsure about whether to add him to their pantheon or dismiss him as at worst a lunatic or at best an indelicate subject better left ignored.

The GR5 Trail

An essential guidebook for walking the GR5, one of the world's most spectacular long-distance trails. The GR5 makes its way through the Alps from the shores of Lac Léman at Geneva to the Mediterranean at Nice. A route of 674km (420 miles), it can be trekked in a month, or split over a series of summer trips. The GR5 is well within the reach of fit and moderately experienced walkers and backpackers. Full descriptions and maps are provided for these alternatives. The result is an ideal companion to planning and completing your trek. Two further Cicerone guidebooks cover the remaining sections of the GR5; 'The GR5 Trail - Vosges and Jura', and 'The GR5 Trail - Benelux and Lorraine' which together cover the route from Lac Léman to the Hoek Van Holland.

Ben Nevis and Glen Coe

This guidebook details 100 walking routes around Ben Nevis and Glen Coe, centred in 10 areas including Fort William and Glen Nevis, the Aonachs, the Mamores, Kinlochleven, Glen Coe, Glen Etive, Black Mount and Ben Cruachan. Routes are graded according to difficulty, and range between short, easy strolls and long, challenging walks with overnight bothy stays. The region's 44 Munro summits are covered, including 2 easy scrambles and the formidable traverse of Aonach Eagach's iconic jagged ridge. Alongside step-by-step route descriptions and mapping, the guide presents practical advice on transport, access, safety and where to stay plus background information on the area's fascinating geology. Many of the routes reflect the author's belief that the best rewards often lie off the popular tourist trails. Yet the highlights are all there: Buachaille Etive Mor, Aonach Eagach, the Mamores, the Grey Corries, Bidean nam Bian, Ben Starav, Carn Mor Dearg and of course, the mighty Ben Nevis. The book - like Glen Coe itself - encourages exploration and includes a helpful 'summit summary' to show different options and assist with route-planning.

Riprap and Cold Mountain Poems

By any measure, Gary Snyder is one of the greatest poets in America in the last century. From his first book of poems to his latest collection of essays, his work and his example, standing between Tu Fu and Thoreau, have been influential all over the world. Riprap, his first book of poems, was published in Japan in 1959 by Origin Press, and it is the fiftieth anniversary of that groundbreaking book we celebrate with this edition. A small press reprint of that book included Snyder's translations of Han Shan's Cold Mountain Poems, perhaps the finest translations of that remarkable poet ever made into English. Reintroducing one of the twentieth century's foremost collections of poetry, this edition will please those already familiar with this work and excite a new generation of readers with its profound simplicity and spare elegance.

The Mountain Is You

THIS IS A BOOK ABOUT SELF-SABOTAGE. Why we do it, when we do it, and how to stop doing it-for good. Coexisting but conflicting needs create self-sabotaging behaviors. This is why we resist efforts to change, often until they feel completely futile. But by extracting crucial insight from our most damaging habits, building emotional intelligence by better understanding our brains and bodies, releasing past experiences at a cellular level, and learning to act as our highest potential future selves, we can step out of our own way and into our potential. For centuries, the mountain has been used as a metaphor for the big challenges we face, especially ones that seem impossible to overcome. To scale our mountains, we actually have to do the deep internal work of excavating trauma, building resilience, and adjusting how we show up for the climb. In the end, it is not the mountain we master, but ourselves.
