CIA

Der junge CIA-Offizier Harry Hubbard kommt in geheimer Mission nach Florida. Seine Aufgabe: die Vorbereitung einer Invasion exilkubanischer Kräfte auf Kuba. Doch er ist nur Werkzeug undurchschaubarer Kräfte, die ihn für ihre Zwecke missbrauchen. Diese Kräfte schrecken auch vor der Zusammenarbeit mit dem organisierten Verbrechen nicht zurück und setzen dabei das Leben Unschuldiger aufs Spiel. Unversehens verfängt sich Hubbard im Netz von Harlot, der grauen Eminenz des CIA, und aus den Feinden, an denen er schuldig wird, erwachsen die Gespenster, die ihm zuletzt zum Schicksal werden.

Deutsche Bibliographie

David Talbot liefert mit seiner packend erzählten Biographie über den langjährigen CIA-Direktor Allen Dulles nicht nur einen realen Spionage-Thriller. Sein internationaler Bestseller führt uns auf die dunkle Seite der Macht und durch ein halbes Jahrhundert amerikanischer Schattenpolitik. Als "finsterer Prinz des Kalten Krieges" entwickelte Dulles die CIA vom kleinen Nachrichtendienst zu einer schlagkräftigen Organisation zur weltweiten Durchführung verdeckter Operationen, Mordplänen gegen ausländische Staatsführer, dem Sturz legitim gewählter Regierungen im Ausland und der massenhaften Überwachung der eigenen Staatsbürger. Eine beängstigende Biographie, über Manipulation und Machtmissbrauch, die die Augen öffnet.

Feinde

Das ist doch mal eine hübsch formulierte Überschrift, die uns da Volker Ebersbach in einem seiner zehn Essays über „Kuriose Liebhaber“ präsentiert : Ein Stratege heiratet. Aber nein, es geht keineswegs um Boris Johnson, den britischen Politclown, Brexit-Durchpeitscher und british prime minister, sondern um einen Mann namens Perikles – der von vor oder um 490 vor Christus bis September 429 vor Christus lebte, ein führender griechischer Staatsmann, ein glänzender Rhetoriker sowie ein Stratege der Demokratie und ein Mann, der sich durchaus für die Liebe und die Lust interessierte und den damit verbundenen Wonnen mit Frauen verschiedener gesellschaftlicher Stellungen keineswegs abgeneigt war: „DIE WONNE DES STRATEGEN“. Und gleich mit den ersten Sätzen seines Versuchs über Perikles kommt Ebersbach auf das Geheimnis zu sprechen, weshalb die yellow press so erfolgreich war und ist: Gerüchte über das Privatleben „großer Männer“ kennen alle Zeiten. Was ein beliebiger Mensch tut und lässt, findet vielleicht das Interesse seiner Nachbarn oder anderer, die ihn kennen. Ein Mann, den alle kennen, muss es hinnehmen, dass sich jeder Gedanken über ihn macht. Er mag seine privaten Vorlieben, Freuden und Ärgernisse der Öffentlichkeit, so gut er kann, verbergen. Alle wollen jedoch mehr über ihn wissen, als bekannt wird, und jeder schließt von sich auf andere. Die Vorzüge des „großen Mannes“ langweilen mit ihrer Selbstverständlichkeit. Mit dem einen oder anderen kleinen Fehler, mit all den Schwächen und Lastern, die man selbst hat, lebt es sich besser, wenn auch ein Bedeutenderer nicht frei von ihnen ist. So trennt sich allmählich, zumal unter einem allgemeinen und scheinbar unumstößlichen Konsens der Gesellschaft über die moralischen Werte, von der Gestalt des berühmten Mannes ein Doppelgänger und beginnt in den neugierigen Köpfen der Leute ein Eigenleben, auf das sein ahnungsloses Original kaum noch einen Einfluss hat, dafür aber die tausendstimmige Menge umso mehr. Neben Perikles befasst sich Ebersbach, von dessen Büchern man immer schlauer aufsteht als man sich hingesezt (oder bei diesem Thema eher auch hingelegt hat) mit den Lebens- und Liebesabenteuern von Kaiser Caligula, Dante Alighieri, Papst Alexander VI. und Zar Peter dem Großen (DER UNWIDERSTEHLICHE GERUCH DER MÄGDE), Stendhal und Novalis sowie König Edward VIII. von Großbritannien und Nordirland und nicht zuletzt mit John F. Kennedy und – Marilyn Monroe. Sie erinnern sich? „HAPPY BIRTHDAY MISTER PRESIDENT!“

The Stasi were among the most successful security and intelligence services in the Cold War. Behind the Berlin Wall, colleagues, friends, husbands and wives, informed on each other. Stasi chief, General Mielke, prided himself on this situation. Under Marcus Wolf, Stasi agents were spectacularly successful in gaining entry into the West German Establishment and NATO. Some remain undiscovered. Now, for the first time in English, two British experts reveal how the Stasi operated. Based on a wealth of sources, including interviews with former Stasi officers and their victims, the book tells a fascinating yet frightening story of unbridled power, misguided idealism, treachery, widespread opportunism and lonely courage.

Die geheime internationale Spitzel, Terror und Computer

David Icke marks his 20th year of uncovering astounding secrets and suppressed information with the publication of his most amazing book yet: Human Race Get off Your Knees : The Lion Sleeps No More. He takes the manipulation of the human race and the nature of reality to still new levels of understanding and he calls for humanity to rise from its knees and take back the world from the sinister network of families and non-human entities that covertly control us from cradle to grave. His most staggering revelation is that the Earth and the collective human mind is manipulated from the Moon, which, he says, is not a 'heavenly body, but an artificial construct - a gigantic 'spacecraft' (probably a hollowed-out 'planetoid') - which is home to the extraterrestrial group that has been manipulating humanity for aeons. Humanity is at a fork in the road and it is time to make a choice. Are we going to awaken to our true genius and potential as Infinite Consciousness? Or are we going to remain entrapped in body/mind and the manufactured illusions of the Moon Matrix? It is time to shake off the shackles, stop being Pavlov's dogs and grab reality by the balls and wake up to who we are truly meant to be.

Liquid Reign is a work of speculative fiction, imagineering a fairly liveable future in 2051, neither dys- nor utopian. Melting the boundaries between science and fiction into a novel format, each chapter provides links to the sources of inspiration influencing it - ranging from Jean Jacques Rousseau's social contract of 1762 to blockchain startups from 2018. "A vertiginous rollercoaster of ideas and a unique take on the future of (un)governance, delivered with irrepressible, unruly energy."- Jamie King of the Pirates, Host "Steal this Show""Tim Reutemann has become one of my favorite big brain boys over the past few months. In his book Liquid Reign he explores the future of democracy and civics in a way I have never seen done before..."- TheBurgerkrieg, Edgy Youtuber"Liquid Reign is a SciFi Novel about technology and our future and AI an all sorts of awesome shit and how it's gonna affect our world"- Jarred "PiG" Krensel, Ex Pro-Starcraft Player and e-Sports commentator "Woow, what a reading experience - truly immersive! A world with liquid democracy, artificial intelligence, universal basic income and a limit on wealth accumulation. After you've read the book, you have a feeling of a possible future."- Raphel Fasko, Mastermind of the Circular Economy

The Other Side of Deception

Between 1967 and 2000, film production in Germany underwent a number of significant transformations, including the birth and death of New German Cinema as well as the emergence of a new transnational cinematic practice. In Projecting History, Nora M. Alter explores the relationship between German cinematic practice and the student protests in both East and West Germany against the

backdrop of the U.S. war in Vietnam in the sixties, the outbreak of terrorism in West Germany in the seventies, West Germany's rise as a significant global power in the eighties, and German reunification in the nineties. Although a central tendency of New German Cinema in the 1970s was to reduce the nation's history to the product of individuals, the films addressed in *Projecting History* focus not on individual protagonists, but on complex socioeconomic structures. The films, by Rainer Werner Fassbinder, Harun Farocki, Alexander Kluge, Ulrike Ottinger, Wim Wenders and others, address basic problems of German history, including its overall "peculiarity" within the European context, and, in particular, the specific ways in which the National Socialist legacy continues to haunt Germans. Nora M. Alter is Associate Professor of German, Film and Media Studies, and Women and Gender Studies at the University of Florida. A specialist in twentieth-century film, comparative literature, and cultural studies, Alter has been the recipient of a National Endowment for the Humanities Fellowship and a Howard Foundation Fellowship. She is also the author of *Vietnam Protest Theatre: The Television War on Stage*.

The United States, the East German Uprising of 1953, and the Limits of Rollback

Germany in the 20th century endured two world wars, a failed democracy, Hitler's dictatorship, the Holocaust, and a country divided for 40 years. But it has also boasted a strong welfare state, affluence, liberalization and globalization, a successful democracy, and the longest period of peace in European history. In this award-winning volume of German history, Ulrich Herbert analyzes the trajectory of German politics and culture during a century of extremes.

Uprising in East Germany 1953

Who really rules Iran today? Are the men in official positions merely puppets activated by hidden hands? How are decisions made in a system that appears so chaotic at first glance? Is the current political structure doomed to conflict? These are some of the questions that Amir Taheri addresses in this riveting and timely book. An anatomy of one of the most secretive regimes in the contemporary world, *The Persian Night* traces the historical, religious, cultural, and political roots of the Khomeinist revolution and analyzes the way it has grown into a pseudo-religious ideology over the past three decades. Taheri dissects a regime that has hijacked a nation of seventy million people and mobilized its resources for global "holy war" against the United States and its allies. From Khomeini's "divine mission" to President Mahmoud Ahmadinejad's messianic campaign in the name of the "Hidden Imam," Iran is on a trajectory towards war. *The Persian Night* looks into the actual links between the Islamic Republic and terrorist networks including al-Qaeda and Hezbollah; the reality of the Iranian nuclear program; the Islamic Republic's war-making capabilities and strategies; and the origins of the three Khomeinist phobias—women, Jews, and the United States. But as Taheri demonstrates, Khomeinism is not Iran. Today there are two competing Irans: the one manifested in the negative Khomeinist energies that have dragged the nation into its dark night; the other drawing from the long and celebrated history of Persian culture while extending a friendly hand to the West. Successive U.S. administrations, along with most European governments, have failed to understand the reality of the Khomeinist regime and at times have even aided its pursuit of weapons of mass destruction, including a nuclear arsenal. Taheri provides a set of imaginative suggestions for more effective ways of dealing with Iran.

The Montauk Project - Experiments in Time

Focusing on the changing image of the West Coast through such varied social and cultural artifacts as bodybuilding, group therapy, suicide cults, milk-carton images of missing children, teenage slang, and surf music, Laurence Rickels offers a dizzying psychohistory of the twentieth century as crystallized in the symbolic configuration called California and considered in relation to German modernism, national socialism, and Freudian psychoanalysis.

The Treatment of Prisoners Under International Law

Filmmaker, film essayist, installation artist, writer: the Berlin artist Harun Farocki has devoted his life to the power of images. Over the thirty-plus years of his career, Farocki has explored not the images of life but rather the life of images that surrounds us in newspapers, cinema, books, television, and advertising. Harun Farocki examines, from different critical perspectives, his vast oeuvre, which includes three feature films, critical media pieces, children's television features, "learning films" in the tradition of Brecht, and installation pieces. Interviews, a selection of Farocki's own writings, and an annotated filmography complete a valuable biography of this pioneering artist and his legendary career.

History of Greek Culture

Since his international breakthrough with 1960's *La Route des Flandres*, Claude Simon has captivated readers worldwide with his relentless examination of interior life - in particular his own. Breaking from realistic narrative, obsessed with the power (and betrayals) of memory, *The Jardin des Plantes* is nothing less than an inquiry into what creates each of us. While admitting that there are defining moments in one's life - eight days of battle during World War II was Simon's unforgettable experience - *The Jardin des Plantes* rings with his refusal to be defined by any single event. His thoughts show the complexity, the fabulous chaos, that makes up the experience of life for Simon and, he insists, for all thinking human beings. These memories - whether everyday minutiae or passages from novels or the staggering experiences of war and death - unreel like films, constantly replaying or stopping and starting according to the whimsical or terrifying nature of his experiences. The juxtapositions may hold meaning, or be nothing more than a trick of the mind. What is important is that each memory has a place in his mind and each has an effect on his self and the way he projects that self.
