The information you provide on your resume should be placed in a specific order.

Make sure you use a simple but professional looking font such as Arial.

When writing your resume focus on any previous achievements you have gained that show you can ADD VALUE to their company in the role.

Where possible include numbers on your resume.

Any numbers will really stand out on your resume, and they allow a hiring manager to see how you are going to ADD VALUE to their company.

LET ME NOW TELL YOU HOW TO STRUCTURE YOUR RESUME! THESE ARE THE DIFFERENT SECTIONS TO INCLUDE.

Your resume should only be 2 pages in length. This makes it easy for the hiring manager to read it and to quickly decide whether they want to invite you to interview.

Now, because you are only working with 2-pages you need to use a concise structure that covers everything the hiring manager wants to see.

Personal Details And Contact Information; At the start of your resume include your name your address, email and contact telephone number. And don't forget to make sure any answer phone message on your cell phone is professional sounding. If they call you to invite you to interview and they get an unprofessional sounding answerphone message, they may hang up

The personal statement is the first thing the hiring manager will read. Therefore, it needs to grab their attention. The personal statement should ideally, be approximately 150-200 words in length, and contain powerful words and phrases that quickly explain who you are your values, and what you can bring to the role

Previous Work Experience; This section details in chronological order any previous jobs you have had. Make sure you include the job title, the name of the organization, and the years that you worked
Key Skills; Key skills are essentially the strengths you have that you can bring to the role These should be in bullet points

Education & Qualifications; in the education section list the qualifications you possess and don't forget to include brief details of any relevant courses you have attended and completed

References. At the end of your resume I strongly recommend you give the details of two people who

would be willing to act as a positive reference for you
