Medical Equipment Service Manual

The format is particularly suited to the quick, effective repair of equipment malfunctions. Wherever possible, a description of the equipment is followed by diagrammatic description and numbered check lists for service. Also included are photographs and schematics of equipment currently in use.

Current Catalog

First multi-year cumulation covers six years: 1965-70.

Training Manual for Central Service Technicians

In addition to providing a fundamental text for aides and technicians, this concise, practical resource can be used by central service employees, managers, and educators in their orientation, training, and instructional programs.

Training Manual for Health Care Central Service Technicians

Includes Part 1, Number 2: Books and Pamphlets, Including Serials and Contributions to Periodicals July - December)

Public Health Service Publication

February issue includes Appendix entitled Directory of United States Government periodicals and subscription publications; September issue includes List of depository libraries; June and December issues include semiannual index

Public Health Service Bibliography Series

Excerpt from The Hospital Steward's Manual: For the Instruction of Hospital Stewards, Ward-Masters, and Attendants, in Their Several Duties; Prepared in Strict Accordance With Existing Regulations, and the Customs of Service in the Armies of the United States of America, and Rendered Authoritative The Hospital Steward's Manual, prepared by Assistant Surgeon J. J. Woodward, us. Army, hav ing been approved by a Board of Medical Officers, is adopted as a guide to hospital stewards and

other attendants, and will be strictly adhered to by them in the discharge of their duties. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

Public Health Bibliography Series

Includes Hospital news of the month.

Catalog of Copyright Entries. Third Series

An Equal Burden forms the first scholarly study of the Army Medical Services in the First World War to focus on the roles and experiences of the men of the ranks of the Royal Army Medical Corps (RAMC). These men, through their work as stretcher bearers and orderlies, provided a range of labour, both physical and emotional, in aid of the sick and wounded. They were not professional medical caregivers, yet were called upon to provide medical care, however rudimentary; they served in uniform, under military discipline, yet were forbidden, as non-combatants, from carrying weapons. Their service as men in wartime, was thus unique. Structured both chronologically and thematically, this study examines both the work that RAMC rankers undertook and its importance to the running of the chain of medical evacuation. It additionally explores the gendered status of these men within the medical, military and cultural hierarchies of a society engaged in total war, locating their service within the context of that of doctors, female nurses and combatant servicemen. Through close readings of official documents, personal papers, and cultural representations, both verbal and visual, it argues that the ranks of the RAMC formed a space in which non-commissioned servicemen, through their many roles, defined and redefined medical caregiving as men's work in wartime.

Training Manual for Central Service Technicians

Back at the end of the 1970s, three hundred copies of *Neglect & Violence – Mental Nurse's Training Manual* were released by Wombat Printing NL to friends and the nurse's underground. Forty plus years later it is now released to the public with little danger of litigation regarding libel or defamation. The back-cover blurb for *MENTAL NURSES TRAINING MANUAL* then had it that: 'An ex-psychiatric nurse recalls his experiences after reporting a bashing and drinking on duty to his superiors. He exposes a cover-up by the hospital authorities and the State government bureaucracy then known as the Mental Health Authority. His report details murder and suicide cases and hints at widespread cruelty and indifference. His memories and impressions of the people he met working at a Melbourne mental hospital adds colour to a subject which bears thinking about. The author's futile exploits as a candidate in the 1973 Victorian state election makes amusing and / or alarming reading, while his analysis of shortcomings in psychiatric practice might stimulate a new deal for the bewildered victims of our dog-eat-dog civilization...' "A must for all the up and coming maniacs." – Gough Whitelamb in the *Daylesford Gazette*. "Lifts the lid off the sanity business." – Clyde Pucker in the *Yea Times*. "Reading this book didn't relieve my obsessive-compulsive-neurosis or my ethical dilemmas, but it gave me the pleasant feeling that I am not alone in this world with my belief in the prefectability of mankind through the exercise of hope fertilized by integrity." – Malcolm Howard in the *West Wyalong Whinger*. "Whistle-blowing anti-psychiatry still resonates today." Phil Saddams in the *Rupert Warduck Stable*
