Two Shakes of a Lamb's Tail

Two Shakes of a Lamb's Tail is the funny, illuminating diary of a year in the life of a New Zealand farm vet With a husband and two children, 1200 sheep and 400 cattle, farm dogs and pet lambs, pigs bent on excavation and a goat bent on escape, country life is never dull. From calving cows to constipated dogs, weddings to weaning lambs, daffodils to ducklings to droughts, each season brings new challenges and delights. Sometimes it's exhausting but it's almost always a lot of fun - anyway, it's all part and parcel of the life of a Kiwi mother, farmer's wife and vet.

Snapshots from a Country Diary Sprinkled with a Little Humor

Snapshots From A Country Diary is a collection of true stories reflecting life in rural America as experienced by a tenant farmer's daughter. Values learned by being a member of a large family along with the importance of common sense are integral parts of the content. Contributions farmers have made and their means of sharing what they knew, are life lessons for all. The humor portrayed is a reminder of how using our sense of humor can help us enjoy life, just as our relatives did in the past. Readers will be informed about what goes on during hog-killings as shown in actual photos. Life on a tobacco farm, making moonshine, and gardening reflect on life at its' best, despite the back-drop of poverty in a large family. Pearls of wisdom acquired from experiences as a farmer's daughter, can be found In her quotes. Her work experience in the field of psychiatric nursing shine throughout many of the stories. Interactions with friends, neighbors, former co-workers, and relatives are sprinkled with humor. Readers may identify with life lessons learned from associations with ordinary working people. Necessary tasks such as moving to another house, replacing the chicken house and making a living in lean times represent more challengers for farm families. The stories included about these challenges are meant to remind readers that perseverance and resourcefulness helps us reach our goals, regardless of the circumstances. Relationships formed from participating in the events described, are long lasting and irreplaceable. Observations of women on the job in rural America shines light on the changing roles of women. Perhaps, many readers will recognize their participation in this transition. Our on-going love affair with the earth, can not be overstated. Results are seen in garden photos, encouraging readers to dig in the dirt. Examples of misunderstandings, point to how they occur and their relevance in everyday life. Because of the appreciation for the humor in them, they are shared with a new audience. Going through life, listening to well intended advice and grabbing nuggets that can improve our lives has been included, with credit given to persons who shared them An expressions shared from a close friend, which has become priceless, compelled the author to share it with people who might fail to understand its' importance in our relationships with someone of a different race. When all is" shucked down to the cobb" the realization that we are all more alike than we are different should be apparent. Upon reading Snapshots of A Country Diary, the author hopes your funny-bone has been tickled and your appreciation of country living has been enhanced.

Rain and Ruin

Sally Urwin and her husband Steve own High House Farm in Northumberland, which they share with two kids, Mavis the Sheepdog, one very Fat Pony, and many, many sheep. Set in a beautiful, wild landscape, and in use for generations, it's perfect for Sally's honest and charming account of farming life. From stock sales to lambing sheds, out in the fields in driving snow and on hot summer days, Diary

of a Pint-Sized Farmer reveals the highs, lows and hard, hard work involved in making a living from the land. Filled with grit and humour, newborn lambs and local characters, this is the perfect book for anyone who has ever wondered what it's like on the other side of the fence. 'I am going to do the whole bloody lambing. I'm going to lamb all the lambs. I imagine myself lean and strong, with thin thighs, in attractive waterproof overalls, striding through the lambing shed like I own it. I spend the rest of the evening searching through eBay for waterproof trousers, short leg, size 14, that don't look like a pair of plastic bags stitched together at the crotch.'

I Am A Farmer Who Wears Many Hats

Brought up amid the lively coaching business, Elizabeth Cotton became the wife of a Suffolk tenant farmer twenty years her senior. The diaries she kept between 1854-1869 give accounts of her everyday activities, a busy social life, which included holiday travel around the country and to France, as well as a wide range of current fashions and events. Sheila Hardy has taken this information to expand our knowledge of life for a mid-Victorian middle class woman.

"In entries marked by simplicity and honesty is the concrete tale of pioneering, of community life on the frontier, of persons and places." Theodore C. Blegen, from the Introduction Farmers William R. Brown and Mitchell Y. Jackson kept remarkable diaries of life on their mid-nineteenth century Minnesota farms, gripping stories that reflected the experiences of countless pioneers who broke the sod, tilled the field, and built their homes throughout this country. Minnesota Farmers' Diaries features the first-hand accounts of these farmers, both born in Ohio in 1816 and eventually settling in Minnesota--Brown in

the Red River Valley and Jackson in Washington County. With his diary, Brown created one of the few primary sources for the history of Minnesota in the 1840s. Jackson, while offering acute perceptions and a wide range of observation about his daily life and surroundings, eloquently voices the concerns a man who came to Minnesota in the first great wave of immigration. Few other Minnesota farm diarists showed an equal facility with the pen or exhibited interest in so many subjects. Included in this fascinating volume is an invaluable introduction by Rodney C. Loehr, who gives the diaries context by detailing the larger agricultural, historical, and social aspects of this period in U.S. history.

There Was a Country

From the legendary author of *Things Fall Apart*—a long-awaited memoir of coming of age in a fragile new nation, and its destruction in a tragic civil war For more than forty years, Chinua Achebe maintained a considered silence on the events of the Nigerian civil war, also known as the Biafran War, of 1967–1970, addressing them only obliquely through his poetry. Decades in the making, *There Was a Country* is a towering account of one of modern Africa's most disastrous events, from a writer whose words and courage left an enduring stamp on world literature. A marriage of history and memoir, vivid firsthand observation and decades of research and reflection, *There Was a Country* is a work whose wisdom and compassion remind us of Chinua Achebe's place as one of the great literary and moral voices of our age.

There was a Country

From the legendary author of *Things Fall Apart* comes a long awaited memoir of coming of age with a fragile new nation only to watch it torn asunder in a tragic civil war. The defining experience of Chinua Achebe's life was the Nigerian civil war, also known as the Biafran War, of 1967-1970. The conflict was infamous for its savage impact on the Biafran people, Chinua Achebe's people, many of whom were starved to death after the Nigerian government blockaded their borders. By then, Chinua Achebe was already a world-renowned novelist, with a young family to protect. He took the Biafran side in the conflict and served his government as a roving cultural ambassador, from which vantage he absorbed the war's full horror. Immediately after the war, Achebe took refuge in an academic post in the United States, and for more than forty years he has maintained a considered silence on the events of those terrible years, addressing them only obliquely through his poetry. Now, decades in the making, comes a towering reckoning with one of modern Africa's most fateful events, from a writer whose words and courage have left an enduring stamp on world literature. Achebe begins his story with Nigeria's birth pangs and the story of his own upbringing as a man and as a writer, so that we may understand both the young country's keen sense of promise, which too quickly turned to horror, and Achebe's view of the particular obligation of the artist, especially in a time of war. For Chinua Achebe, to be a serious writer is to be a committed writer - to speak for one's history, one's beliefs, and one's people, especially when others cannot. A marriage of history and memoir, vivid first-hand observation and decades of further research and reflection. *There Was a Country* is a work whose wisdom and compassion remind us of Chinua Achebe's place as one of the great literary and moral voices of our age.

There Was a Country

From the legendary author of *Things Fall Apart* comes this long-awaited memoir recalling Chinua Achebe's personal experiences of and reflections on the Biafran War, one of Nigeria's most tragic civil wars Chinua Achebe, the author of *Things Fall Apart*, was a writer whose moral courage and storytelling gifts have left an enduring stamp on world literature. *There Was a Country* was his long-awaited account of coming of age during the defining experience of his life: the Nigerian Civil War, also known as the Biafran War of 1967-1970. It became infamous around the world for its impact on the Biafrans, who were starved to death by the Nigerian government in one of the twentieth century's greatest humanitarian disasters. Caught up in the atrocities were Chinua Achebe and his young family. Achebe, already a world-renowned novelist, served his Biafran homeland as a roving cultural ambassador, witnessing the war's full horror first-hand. Immediately after the war, he took an academic post in the United States, and for over forty years he maintained a considered silence on those terrible years, addressing them only obliquely through his poetry. After years in the making *There Was A Country* presents his towering reckoning with one of modern Africa's most fateful experiences, both as he lived it and came to understand it. Marrying history and memoir, with the author's poetry woven throughout, *There Was a Country* is a distillation of vivid observation and considered research and reflection. It relates Nigeria's

birth pangs in the context of Achebe's own development as a man and a writer, and examines the role of the artist in times of war. Reviews: 'No writer is better placed than Chinua Achebe to tell the story of the Nigerian Biafran war ... [The book] makes you pine for the likes of Achebe to govern ... We have in *There Was a Country* an elegy from a master storyteller who has witnessed the undulating fortunes of a nation' Noo Saro-Wiwa, *Guardian* 'Chinua Achebe's history of Biafra is a meditation on the condition of freedom. It has the tense narrative grip of the best fiction. It is also a revelatory entry into the intimate character of the writer's brilliant mind and bold spirit. Achebe has created here a new genre of literature' Nadine Gordimer 'Part-history, part-memoir, [Achebe's] moving account of the war is laced with anger, but there is also an abiding tone of regret for what Nigeria might have been without conflict and mismanagement' *Sunday Times* About the author: Chinua Achebe was born in Nigeria in 1930. He published novels, short stories, essays, and children's books. His volume of poetry, *Christmas in Biafra*, was the joint winner of the first Commonwealth Poetry Prize. Of his novels, *Arrow of God* won the New Statesman-Jock Campbell Award, and *Anthills of the Savannah* was a finalist for the 1987 Booker Prize. *Things Fall Apart*, Achebe's masterpiece, has been published in fifty different languages and has sold more than ten million copies. Achebe lectured widely, receiving many honors from around the world. He was the recipient of the Nigerian National Merit Award, Nigeria's highest award for intellectual achievement. In 2007, he won the Man Booker International Prize. He died in 2013.

Personal History

As seen in the new movie *The Post*, directed by Steven Spielberg and starring Meryl Streep, here is the captivating, inside story of the woman who piloted the *Washington Post* during one of the most turbulent periods in the history of American media. Kennedy and Lyndon Johnson - plunge into the mental illness that would culminate in his suicide. As timely now as ever, *Personal History* is an exemplary record of our history and of the woman who played such a shaping role within them, discovering her own strength and sense of self as she confronted - and mastered - the personal and professional crises of her fascinating life.

Africa Is Not A Country

A bright portrait of modern Africa that pushes back against harmful stereotypes to tell a more comprehensive story. 'Warm, funny, biting and essential reading.' Adam Rutherford You already know these stereotypes. So often Africa is depicted simplistically as an arid red landscape of famines and safaris, uniquely plagued by poverty and strife. In this funny and insightful book, Dipo Faloyin offers a much-needed corrective. He examines each country's colonial heritage, and explores a wide range of subjects, from chronicling urban life in Lagos and the lively West African rivalry over who makes the best Jollof rice, to the story of democracy in seven dictatorships and the dangers of stereotypes in popular culture. By turns intimate and political, *Africa Is Not A Country* brings the story of the continent towards

reality, celebrating the energy and fabric of its different cultures and communities in a way that has never been done before. 'Hilarious, ferocious, generous and convincing. It made me reconsider almost everything I thought I knew about Africa.' Oliver Bullough 'This book should be on the curriculum.' Nikki May, author of WAHALA

Here There was Once a Country

Lebanese writer Vénus Khoury-Ghata, who lives in France and has won many of France's major literary prizes, blends French surrealism with Arabic poetry's communal narrative mode in three stunning poetic sequences. Here brilliantly translated from the French by poet Marilyn Hacker, the English-speaking reader has rare insight into another world, another dimension.

Anthills of the Savannah

Annotation Achebe writes of the old Africa and the new, tribal warfare and the war that goes on in people's hearts. His story takes place two years after a military coup in the mythical West African state of Kangan, and shows the transformation of a brilliant young.

A Man Without a Country

A Man Without a Country is Kurt Vonnegut's hilariously funny and razor-sharp look at life ("If I die—God forbid—I would like to go to heaven to ask somebody in charge up there, 'Hey, what was the good news and what was the bad news?'"), art ("To practice any art, no matter how well or badly, is a way to make your soul grow. So do it."), politics ("I asked former Yankees pitcher Jim Bouton what he thought of our great victory over Iraq and he said, 'Mohammed Ali versus Mr. Rogers.'"), and the condition of the soul of America today ("What has happened to us?"). Based on short essays and speeches composed over the last five years and plentifully illustrated with artwork by the author throughout, A Man Without a Country gives us Vonnegut both speaking out with indignation and writing tenderly to his fellow Americans, sometimes joking, at other times hopeless, always searching.

Home and Exile

This work is an extended exploration of the European impact on African culture, viewed through the most vivid experience available to the author - his own life. It is an extended snapshot of a major writer's childhood, illuminating his roots as an artist.

The Education of a British-Protected Child

The pieces here span reflections on personal and collective identity, on home and family, on literature, language and politics, and on Achebe's lifelong attempt to reclaim the definition of 'Africa' for its own authorship. For the first thirty years of his life, before Nigeria's independence in 1960, Achebe was officially defined as a 'British Protected Person'. In The Education of a British-Protected Child he gives us a vivid, ironic and delicately nuanced portrait of growing up in colonial Nigeria and inhabiting its 'middle ground', interrogating both his happy memories of reading English adventure stories in secondary school and also the harsher truths of colonial rule.

Things Fall Apart

"A true classic of world literature . . . A masterpiece that has inspired generations of writers in Nigeria, across Africa, and around the world." —Barack Obama "African literature is incomplete and unthinkable without the works of Chinua Achebe." —Toni Morrison Nominated as one of America's best-loved novels by PBS's The Great American Read Things Fall Apart is the first of three novels in Chinua Achebe's critically acclaimed African Trilogy. It is a classic narrative about Africa's cataclysmic encounter with Europe as it establishes a colonial presence on the continent. Told through the fictional experiences of Okonkwo, a wealthy and fearless Igbo warrior of Umuofia in the late 1800s, Things Fall Apart explores one man's futile resistance to the devaluing of his Igbo traditions by British political and religious forces and his despair as his community capitulates to the powerful new order. With more than 20 million copies sold and translated into fifty-seven languages, Things Fall Apart provides one of the most illuminating and permanent monuments to African experience. Achebe does not only capture life in a pre-colonial African village, he conveys the tragedy of the loss of that world while broadening our understanding of our contemporary realities.

This Present Darkness

Nigeria and Nigerians have acquired a notorious reputation for involvement in drug-trafficking, fraud, cyber-crime and other types of serious crime. Successful Nigerian criminal networks have a global reach, interacting with their Italian, Latin American and Russian counterparts. Yet in 1944, a British colonial official wrote that 'the number of persistent and professional criminals is not great' in Nigeria and that 'crime as a career has so far made little appeal to the young Nigerian'. This book traces the origins of Nigerian organised crime to the last years of colonial rule, when nationalist politicians acquired power at a regional level. In need of funds for campaigning, they offered government contracts to foreign businesses in return for kickbacks, in a pattern that recurs to this day. Political corruption encouraged a wider disrespect for the law that spread throughout Nigerian society. When the country's oil boom came to an end in the early 1980s, young Nigerian college graduates headed abroad, eager to make money by any means. Nigerian crime went global at the very moment new criminal markets were emerging all over the world.

Surviving in Biafra

In 1966, several waves of rioting in northern Nigeria culminated in the brutal massacre of thousands of easterners by their northern Nigerian counterparts. Sensing that their safety could no longer be guaranteed, the easterners fled to the eastern region and established an independent nation called Biafra. Refusing to accept her sovereignty, Nigeria waged a thirty-month war against Biafra, targeting air assaults at civilian locations, which resulted in the deaths of thousands of children, women, and the elderly. Nigeria used land and sea blockade to prevent relief food from reaching hungry masses in Biafra and thousands of children died from a form of malnutrition called kwashiorkor. At the end of it all in 1970, two million people had perished.

On War

On War is a treatise about a military art which Prussian officer Carl Philipp Gottlieb von Clausewitz had been working on for 15 years. It is commonly believed that Clausewitz's treatise had a greater impact on military leaders of the late XIX and XX centuries than any other book. In reality, this book is an overturn in the war theory. The work is notable for its brightness, narration details as well as hard criticism of many war events. The author dedicates a special place in his work to politics, its influence on the war events, the dependence how the war finishes on powers and weaknesses of particular politicians and

military leaders. There is a good reason why his famous phrase “the war is the continuation of the politics, but with other, strong arm methods” is still relevant.

Gods and Soldiers

A one-of-a-kind collection showcasing the energy of new African literature. Coming at a time when Africa and African writers are in the midst of a remarkable renaissance, *Gods and Soldiers* captures the vitality and urgency of African writing today. Including works by J. M. Coetzee, Chimamanda Adichie, Nuruddin Farah, Binyavanga Wainaina, and Chinua Achebe, and edited by Rob Spillman of *Tin House* magazine, *Gods and Soldiers* features many pieces never before published, making it a vibrant and essential glimpse of Africa as it enters the twenty-first century.

In the Country of Men

An extraordinarily powerful and personal meditation on race, culture, and identity. When Stan Grant was born in Australia in 1963, the national census classed him and his family among the country's flora and fauna. As Aboriginal Australians, their history and culture had been suppressed for centuries. A legacy of racism stood between him and the opportunities that white Australia - the so-called Lucky Country - seemed awash with. But Grant was lucky enough to find an escape route through education. Finding early inspiration in the writing of James Baldwin and fellow indigenous activists at the Australian National University, on completing his studies he went on to become one of the country's leading journalists. As a correspondent for CNN he travelled extensively, covering conflicts in the Middle East, Africa, and Asia. Struck by how common humanity can live on in the face of repression and mass destruction - from North Korea to Pakistan to Baghdad - the lives of individuals he met spoke to him of sacrifice, endurance, and the undying call of family and homeland. And in the stories of other dispossessed peoples, he saw that of his own. In *Talking To My Country*, Grant draws on his own life and community to respond to the ongoing racism that he sees around him. He writes with passion and striking candour of the sorrow, shame, anger, and hardship of being an indigenous man. Fortright and unblinking, Stan reaches beyond his own heritage to show how the effects of colonialism and racism are everyday realities that still shape our world, and how we should never grow complacent in the fight to overcome them.

In the Country of Others

In *A Country of Cities*, author Vishaan Chakrabarti argues that well-designed cities are the key to solving America's great national challenges: environmental degradation, unsustainable consumption, economic stagnation, rising public health costs and decreased social mobility. If we develop them wisely in the future, our cities can be the force leading us into a new era of progressive and prosperous stewardship of our nation. In compelling chapters, Chakrabarti brings us a wealth of information about

cities, suburbs and exurbs, looking at how they developed across the 50 states and their roles in prosperity and globalization, sustainability and resilience, and health and joy. Counter to what you might think, American cities today are growing faster than their suburban counterparts for the first time since the 1920s. If we can intelligently increase the density of our cities as they grow and build the transit systems, schools, parks and other infrastructure to support them, Chakrabarti shows us how both job opportunities and an improved, sustainable environment are truly within our means. In this call for an urban America, he illustrates his argument with numerous infographics illustrating provocative statistics on issues as disparate as rising childhood obesity rates, ever-lengthening automobile commutes and government subsidies that favor highways over mass transit. The book closes with an eloquent manifesto that rallies us to build "a Country of Cities," to turn a country of highways, houses and hedges into a country of trains, towers and trees. Vishaan Chakrabarti is an architect, scholar and founder of PAU. PAU designs architecture that builds the physical, cultural, and economic networks of cities, with an emphasis on beauty, function and user experience. PAU simultaneously advances strategic urbanism projects in the form of master planning, tactical project advice and advocacy.
