TOGAF® Version 9 - A Pocket Guide

This is the official Open Group Pocket Guide for TOGAF Version 9 Enterprise Edition. This pocket guide is published by Van Haren Publishing on behalf of The Open Group. TOGAF, The Open Group Architectural Framework is a fast growing, worldwide accepted standard that can help organisations build their own Enterprise Architecture in a standardised way. This book explains why the in's and out's of TOGAF in a concise manner. This book explains how TOGAF can help to make an Enterprise Architecture. Enterprise Architecture is an approach that can help management to understand this growing complexity.

The TOGAF ® Standard, Version 9.2 - A Pocket Guide

This is the official Pocket Guide for the TOGAF® Standard, Version 9.2, from The Open Group. It is published in hard copy and electronic formats by Van Haren Publishing. The TOGAF Standard, a standard of The Open Group, is a proven Enterprise Architecture methodology and framework used by the world's leading organizations to improve business efficiency. It is the most prominent and reliable Enterprise Architecture standard, ensuring consistent standards, methods, and communication among Enterprise Architecture professionals. Those professionals who are fluent in the TOGAF approach enjoy greater industry credibility, job effectiveness, and career opportunities. The TOGAF approach helps practitioners avoid being locked into proprietary methods, utilize resources more efficiently and effectively, and realize a greater return on investment.

TOGAF® Version 9.1 - A Pocket Guide

Note: This book is available in several languages: Brazilian Portuguese, English, Spanish, French. This is the official Open Group Pocket Guide for TOGAF Version 9.1 and is published in hard copy and electronic format by Van Haren Publishing on behalf of The Open Group. TOGAF®, an Open Group Standard, is a proven enterprise architecture methodology and framework used by the world's leading organizations to improve business efficiency. It is the most prominent and reliable enterprise architecture standard, ensuring consistent standards, methods, and communication among enterprise architecture professionals. Enterprise architecture professionals fluent in TOGAF standards enjoy greater industry credibility, job effectiveness, and career opportunities. TOGAF helps practitioners avoid

being locked into proprietary methods, utilize resources more efficiently and effectively, and realize a greater return on investment.

The Togaf (R) Standard, Version 9.2 - A Pocket Guide

This is the official Pocket Guide for the TOGAF® Standard, Version 9.2, from The Open Group. The TOGAF Standard is a proven Enterprise Architecture methodology and framework used by the world's leading organizations to improve business efficiency.

Togaf Version 8.1.1 Enterprise Edition

The official Open Group Pocket Guide for TOGAF Version 8.1.1 Enterprise Edition. TOGAF, The Open Group Architectural Framework, is a fast growing, worldwide accepted standard that can help organizations build their own Enterprise Architecture in a standardized way.

TOGAF® Version 9.1

TOGAF is a framework - a detailed method and a set of supporting tools - for developing an enterprise architecture, developed by members of The Open Group Architecture Forum. TOGAF Version 9.1 is a maintenance update to TOGAF 9, addressing comments raised since the introduction of TOGAF 9 in 2009. It retains the major features and structure of TOGAF 9, thereby preserving existing investment in TOGAF, and adds further detail and clarification to what is already proven. It may be used freely by any organization wishing to develop an enterprise architecture for use within that organization (subject to the Conditions of Use). This Book is divided into seven parts: Part I - Introduction This part provides a high-level introduction to the key concepts of enterprise architecture and in particular the TOGAF approach. It contains the definitions of terms used throughout TOGAF and release notes detailing the changes between this version and the previous version of TOGAF. Part II - Architecture Development Method This is the core of TOGAF. It describes the TOGAF Architecture Development Method (ADM) – a step-by-step approach to developing an enterprise architecture. Part III - ADM Guidelines & Techniques This part contains a collection of guidelines and techniques available for use in applying TOGAF and the TOGAF ADM. Part IV - Architecture Content Framework This part describes the TOGAF content framework, including a structured metamodel for architectural artifacts, the use of re-usable architecture building blocks, and an overview of typical architecture deliverables. Part V - Enterprise Continuum & Tools This part discusses appropriate taxonomies and tools to categorize and store the outputs of architecture activity within an enterprise. Part VI - TOGAF Reference Models This part provides a selection of architectural reference models, which includes the TOGAF Foundation Architecture, and the Integrated Information Infrastructure Reference Model (III-RM). Part VII Architecture Capability Framework This section looks at roles, Governance, compliance skills and much more practical guidance

The Open Group Architecture Framework TOGAF™ Version 9

The Open Group Architecture Framework (TOGAF) is a framework – a detailed method and a set of supporting tools – for developing an enterprise architecture, developed by members of The Open Group Architecture Forum (www.opengroup.org/architecture). As a comprehensive, open method for enterprise architecture, TOGAF Version 9 complements, and can be used in conjunction with, other frameworks that are more focused on specific aspects of architecture or for vertical sectors such as Government, Defense, and Finance. TOGAF may be used freely by any organization wishing to develop an enterprise architecture for use within that organization (subject to the Conditions of Use). This book is divided into seven main parts : PART I (Introduction) This part provides a high-level introduction to the key concepts of enterprise architecture and in particular the TOGAF approach. It contains the definitions of terms used throughout TOGAF and release notes detailing the changes between this version and the previous version of TOGAF. PART II (Architecture Development Method) This is the core of TOGAF. It describes the TOGAF Architecture Development Method (ADM) – a step-by-step approach to developing an enterprise architecture. PART III (ADM Guidelines & Techniques) This part contains a collection of guidelines and techniques available for use in applying TOGAF and the TOGAF ADM. PART IV (Architecture Content Framework) This part describes the TOGAF content framework, including a structured metamodel for architectural artifacts, the use of re-usable architecture building blocks, and an overview of typical architecture deliverables. PART V (Enterprise Continuum & Tools) This part discusses appropriate taxonomies and tools to categorize and store the outputs of architecture activity within an enterprise. PART VI (TOGAF Reference Models) This part provides a selection of

architectural reference models, which includes the TOGAF Foundation Architecture, and the Integrated Information Infrastructure Reference Model (III-RM). PART VII (Architecture Capability Framework) This part discusses the organization, processes, skills, roles, and responsibilities required to establish and operate an architecture function within an enterprise.

TOGAF® 9 Foundation Study Guide - 3rd Edition

For trainers free additional material of this book is available. This can be found under the "Training Material" tab. Log in with your trainer account to access the material. This title is a Study Guide for TOGAF® 9 Foundation. It gives an overview of every learning objective for the TOGAF 9 Foundation Syllabus and in-depth coverage on preparing and taking the TOGAF 9 Part 1 Examination. It is specifically designed to help individuals prepare for certification. This Study Guide is excellent material for:- Individuals who require a basic understanding of TOGAF 9;- Professionals who are working in roles associated with an architecture project such as those responsible for planning, execution, development, delivery, and operation;- Architects who are looking for a first introduction to TOGAF 9;- Architects who want to achieve Level 2 certification in a stepwise manner and have not previously qualified as TOGAF 8 Certified. A prior knowledge of enterprise architecture is advantageous but not required. While reading this Study Guide, the reader should also refer to the TOGAF Version 9.1 documentation (manual), available as hard copy and eBook, from www.vanharen.net and online booksellers, and also available online at www.opengroup.org.

The TOGAF ® Standard, Version 9.2

The TOGAF® Standard, a standard of The Open Group, is a proven Enterprise Architecture methodology and framework used by the world's leading organizations to improve business efficiency. It is the most prominent and reliable Enterprise Architecture standard, ensuring consistent standards, methods, and communication among Enterprise Architecture professionals. Those professionals fluent in the TOGAF approach enjoy greater industry credibility, job effectiveness, and career opportunities. The TOGAF approach helps practitioners avoid being locked into proprietary methods, utilize resources more efficiently and effectively, and realize a greater return on investment.

The TOGAF® Standard, 10th Edition - A Pocket Guide

This is the official Pocket Guide for the TOGAF® Standard, 10th Edition from The Open Group. Building on over 25 years of development and constant input from The Open Group Architecture Forum's global community of Enterprise Architecture thought leaders, the TOGAF Standard, 10th Edition expands the material available to architecture practitioners to make adoption of best practices easier. With greatly expanded guidance and "how-to" material, it enables organizations to operate in an efficient and effective way across a broad range of use-cases, including Agile enterprises and Digital Transformation. The TOGAF Standard is the most prominent and reliable Enterprise Architecture standard, ensuring consistent standards, methods, and communication among Enterprise Architecture professionals. Those professionals who are fluent in the TOGAF approach enjoy greater industry credibility, job effectiveness, and career opportunities. The TOGAF approach helps practitioners avoid being locked into proprietary methods, utilize resources more efficiently and effectively, and realize a greater return on investment. This official Pocket Guide provides an overview of the contents and purpose of the TOGAF Standard in a condensed form. As such it does not cover every aspect of the standard in detail, but provides highlights and key reference information. Topics covered include:

- A high-level introduction to the TOGAF Standard, introducing the modular TOGAF documentation set, the TOGAF Library, and the TOGAF framework
- Guidance on how to read the standard
- An introduction to the general how-to information provided in the TOGAF Standard, including guidance for practitioners, and how to use the standard in the Digital Enterprise
- An overview of guidance to support the establishment of an Enterprise Architecture team
- An overview of the guidance provided in the TOGAF Standard for specific topic domains, including Security Architecture, Business Architecture, Data/Information Architecture, Agile Methods, and Reference Models and Methods
- An introduction to the TOGAF Fundamental Content documents provided in the TOGAF Standard, which describe the concepts considered to be universally applicable to the TOGAF framework, including:
 - o Key techniques of the ADM cycle
 - o Guidelines for adapting the TOGAF ADM for different usage scenarios
 - o The Architecture Content Framework
 - o Enterprise Architecture Capability and Guidance
- The TOGAF Architecture Development Method (ADM), including summary phases for each of the ADM phases
- An overview of ADM deliverables

The Open Group Architecture Framework TOGAF Version 9

The Open Group Architecture Framework (TOGAF) is a framework a detailed method and a set of supporting tools for developing an enterprise architecture, developed by members of The Open Group Architecture Forum (www.opengroup.org/architecture). As a comprehensive, open method for enterprise architecture, TOGAF Version 9 complements, and can be used in conjunction with, other frameworks that are more focused on specific aspects of architecture or for vertical sectors such as Government, Defense, and Finance. TOGAF may be used freely by any organization wishing to develop an enterprise architecture for use within that organization (subject to the Conditions of Use). This book is divided into seven main parts :PART I (Introduction) This part provides a high-level introduction to the key concepts of enterprise architecture and in particular the TOGAF approach. It contains the definitions of terms used throughout TOGAF and release notes detailing the changes between this version and the previous version of TOGAF. PART II (Architecture Development Method) This is the core of TOGAF. It describes the TOGAF Architecture Development Method (ADM) a step-by-step approach to developing an enterprise architecture. PART III (ADM Guidelines & Techniques) This part contains a collection of guidelines and techniques available for use in applying TOGAF and the TOGAF ADM. PART IV (Architecture Content Framework) This part describes the TOGAF content framework, including a structured metamodel for architectural artifacts, the use of re-usable architecture building blocks, and an overview of typical architecture deliverables. PART V (Enterprise Continuum & Tools) This part discusses appropriate taxonomies and tools to categorize and store the outputs of architecture activity within an enterprise. PART VI (TOGAF Reference Models) This part provides a selection of architectural reference models, which includes the TOGAF Foundation Architecture, and the Integrated Information Infrastructure Reference Model (III-RM). PART VII (Architecture Capability Framework) This part discusses the organization, processes, skills, roles, and responsibilities required to establish and operate an architecture function within an enterprise.

TOGAF® 9 Certified Study Guide - 2nd Edition

The TOGAF 9 certification program is a knowledge-based certification program. It has two levels, leading to certification for TOGAF 9 Foundation and TOGAF 9 Certified, respectively. The purpose of certification to TOGAF 9 Certified is to provide validation that, in addition to the knowledge and comprehension of TOGAF 9 Foundation level, the Candidate is able to analyze and apply this knowledge. The learning objectives at this level therefore focus on application and analysis in addition to knowledge and comprehension. This Study Guide supports students in preparation for the TOGAF 9 Part 2 Examination, leading to TOGAF 9 Certified.

TOGAF® Business Architecture Level 1 Study Guide

This title is the Study Guide for the TOGAF® Business Architecture Part 1 Examination. It gives an overview of every learning objective for the TOGAF Business Architecture Syllabus and in-depth coverage on preparing and taking the TOGAF Business Architecture Part 1 Examination. It is specifically designed to help individuals prepare for certification. This Study Guide is excellent material for:

- Individuals who require knowledge and understanding of TOGAF Business Architecture techniques;
- Professionals who are working in roles associated with an architecture project such as those responsible for planning, execution, development, delivery, and operation;
- Architects who are looking to achieve the TOGAF Business Architecture Level 1 credential;
- Architects who want to specialize in development of a Business Architecture based on the TOGAF Standard, Version 9.2;

It covers the following topics:

- Business Modeling
- Business Capabilities
- Value Streams
- Information Mapping
- TOGAF Business Scenarios and how to apply them in development of a Business Architecture based on the TOGAF Standard, Version 9.2.

A prior knowledge of Enterprise Architecture is advantageous but not required. While reading this Study Guide, the reader should also refer to the TOGAF Standard, Version 9.2 documentation (manual), available as hard copy and eBook, from www.vanharen.net and online booksellers, and also available online at www.opengroup.org.

The TOGAF® Standard, Version 9.2 - A Pocket Guide

The TOGAF 9 certification program is a knowledge-based certification program. It has two levels, leading to certification for TOGAF 9 Foundation and TOGAF 9 Certified, respectively. The purpose of certification to TOGAF 9 Certified is to provide validation that, in addition to the knowledge and comprehension of TOGAF 9 Foundation level, the Candidate is able to analyze and apply this knowledge. The learning objectives at this level therefore focus on application and analysis in addition to knowledge and comprehension. This Study Guide supports students in preparation for the TOGAF

9 Part 2 Examination, leading to TOGAF 9 Certified. This third edition contains minor updates to remove references to the TOGAF 8-9 Advanced Bridge Examination¹ and also adds four bonus practice examination questions to Appendix B. It gives an overview of every learning objective for the TOGAF 9 Certified Syllabus beyond the Foundation level.

TOGAF® 9 Certified Study Guide – 4th Edition

Modeling Enterprise Architecture with TOGAF explains everything you need to know to effectively model enterprise architecture with The Open Group Architecture Framework (TOGAF), the leading EA standard. This solution-focused reference presents key techniques and illustrative examples to help you model enterprise architecture. This book describes the TOGAF standard and its structure, from the architecture transformation method to governance, and presents enterprise architecture modeling practices with plenty of examples of TOGAF deliverables in the context of a case study. Although widespread and growing quickly, enterprise architecture is delicate to manage across all its dimensions. Focusing on the architecture transformation method, TOGAF provides a wide framework, which covers the repository, governance, and a set of recognized best practices. The examples featured in this book were realized using the open source Modelio tool, which includes extensions for TOGAF. Includes intuitive summaries of the complex TOGAF standard to let you effectively model enterprise architecture. Uses practical examples to illustrate ways to adapt TOGAF to the needs of your enterprise. Provides model examples with Modelio, a free modeling tool, letting you exercise TOGAF modeling immediately using a dedicated tool. Combines existing modeling standards with TOGAF.

Modeling Enterprise Architecture with TOGAF

TOGAF® stellt ein offenes, branchenübergreifend vereinbartes Framework sowie eine Methode fürs Management von Unternehmensarchitekturen bereit. Dieses Taschenbuch basiert auf TOGAF Version 9 Enterprise Edition. Es bietet eine kurze und prägnante Einführung in TOGAF Version 9 und basiert auf der Spezifikation von TOGAF 9 und ergänzenden Beiträgen von Mitgliedern von The Open Group Architecture Forum. Zielgruppe dieses Dokuments: Unternehmensarchitekten, insbesondere Geschäfts-, Daten- und IT-Architekten, Systemarchitekten oder Lösungsarchitekten sowie Führungskräfte, die sich mit TOGAF vertraut machen möchten. Es werden keine Vorkenntnisse über die Unternehmensarchitektur vorausgesetzt. Behandelte Themen: Allgemeiner Überblick über TOGAF, die Unternehmensarchitektur sowie über die Inhalte und wichtigsten Konzepte von TOGAF; Einführung in die Methode zur Architekturentwicklung (Architecture Development Method, ADM), die TOGAF für die Entwicklung von Unternehmensarchitekturen bereitstellt; Überblick über die wichtigsten Arbeitstechniken und -ergebnisse des ADM-Zyklus; Überblick über die Richtlinien zur Anpassung der ADM; Einführung in das Architecture Content Framework, einem strukturierten Metamodell für Architektur-Artefakte; Einführung in das Enterprise Continuum, einem übergreifenden Konzept, das zusammen mit der ADM zur Entwicklung einer Unternehmensarchitektur verwendet werden kann; Einführung in die TOGAF-Referenzmodelle, einschließlich TOGAF-Basisarchitektur und Integrated Information Infrastructure Reference Model (III-RM); Einführung in das Architecture Capability Framework, einer Sammlung von Ressourcen und Elementen, die für den Aufbau und Betrieb einer Architekturfunktion innerhalb eines Unternehmens bereitstehen; Übersicht über die Unterschiede und Neuerungen von TOGAF 9 im Vergleich zu TOGAF 8.1.1.

TOGAF® Version 9 - Ein Pocket Guide

It gives an overview of every learning objective for the TOGAF 9 Certified Syllabus beyond the Foundation level.

TOGAF® 9 Certified Study Guide – 4th Edition

Software services are established as a programming concept, but their impact on the overall architecture of enterprise IT and business operations is not well-understood. This has led to problems in deploying SOA, and some disillusionment. The SOA Source Book adds to this a collection of reference material for SOA. It is an invaluable resource for enterprise architects working with SOA. The SOA Source Book will help enterprise architects to use SOA effectively. It explains: What SOA is How to evaluate SOA features in business terms How to model SOA How to use The Open Group Architecture Framework (TOGAF™) for SOA SOA governance This book explains how TOGAF can help to make an Enterprise Architecture. Enterprise Architecture is an approach that can help management to understand this growing complexity.

SOA Source Book

An enterprise architecture tries to describe and control an organisation's structure, processes, applications, systems and techniques in an integrated way. The unambiguous specification and description of components and their relationships in such an architecture requires a coherent architecture modelling language. Lankhorst and his co authors present such an enterprise modelling language that captures the complexity of architectural domains and their relations and allows the construction of integrated enterprise architecture models. They provide architects with concrete instruments that improve their architectural practice. As this is not enough, they additionally present techniques and heuristics for communicating with all relevant stakeholders about these architectures. Since an architecture model is useful not only for providing insight into the current or future situation but can also be used to evaluate the transition from 'as is' to 'to be', the authors also describe analysis methods for assessing both the qualitative impact of changes to an architecture and the quantitative aspects of architectures, such as performance and cost issues. The modelling language presented has been proven in practice in many real life case studies and has been adopted by The Open Group as an international standard. So this book is an ideal companion for enterprise IT or business architects in industry as well as for computer or management science students studying the field of enterprise architecture.

Enterprise Architecture at Work

Note: This book is available in several languages: Dutch, English, German, French. This is the official Open Group Pocket Guide for TOGAF Version 9 Enterprise Edition. This pocket guide is published by VHP on behalf of The Open Group. TOGAF, The Open Group Architectural Framework is a fast growing, worldwide accepted standard that can help organisations build their own Enterprise Architecture in a standardised way. This book explains why the in s and out s of TOGAF in a concise manner. This book explains how TOGAF can help to make an Enterprise Architecture. Enterprise Architecture is an approach that can help management to understand this growing complexity.

TOGAF Version 9 - Guide de Poche

This Pocket Guide describes the purpose, role and value of architecture in the enterprise, and the makeup and skillsets of the architecture team in different business contexts. It explores the relationship between architecture, project management.

Enterprise Architecture

This document is the Enterprise Agility and Digital Transformation TOGAF Series Guide Set. It contains two TOGAF Series Guides that have been developed and approved by The Open Group, and is part of the TOGAF Standard, 10th Edition. TOGAF® Series Guide: Enabling Enterprise Agility This document is designed to help Enterprise Architects requiring information on how to adapt and use the TOGAF framework to support an Agile enterprise. It covers the following topics: • An introduction to the topic, including what is meant by agility, the role of Enterprise Architecture, and how it relates to agility • The terms and definitions used in the document • The TOGAF Architecture Development Method (ADM) and how that relates to agility • How architecture activities can be structured to support agility • How to execute Enterprise Architecture in an Agile environment TOGAF® Series Guide: Using the TOGAF® Standard in the Digital Enterprise This document is written those undertaking the roles of both Enterprise Architect and Digital Practitioner. For Digital Practitioners, it communicates what architecture practices would help to grow their digital enterprise, and how to interact with the Enterprise Architecture community to get them. For those undertaking an Enterprise Architect role, it provides guidance on supporting the digital enterprise. It covers the following topics: • A high-level introduction to how established Enterprise Architecture practices bring value to digital enterprises at all scales • How Enterprise Architecture and the TOGAF Standard bring valuable tools to digital enterprises of all sizes • Alignment of terminology between the TOGAF Standard and the Digital Practitioner Body of Knowledge™ • Applying Enterprise Architecture and the TOGAF Standard to the contexts described in the DPBoK™ Standard

The TOGAF® Standard, 10th Edition - Enterprise Agility and Digital Transformation

This title is a Study Guide for TOGAF® 9 Foundation. It gives an overview of every learning objective for the TOGAF 9 Foundation Syllabus and in-depth coverage on preparing and taking the TOGAF 9 Part 1 Examination. It is specifically designed to help individuals prepare for certification. This Study Guide is excellent material for: • Individuals who require a basic understanding of the TOGAF 9 framework; • Professionals who are working in roles associated with an architecture project such as those responsible for planning, execution, development, delivery, and operation; • Architects who are looking for a first introduction to the TOGAF 9 framework; • Architects who want to achieve Level 2 certification in a stepwise manner. A prior knowledge of Enterprise Architecture is advantageous but not required. While reading this Study Guide, the reader should also refer to the TOGAF Standard, Version 9.2 documentation (manual), available as hard copy and eBook, from www.vanharen.net and online booksellers, and also available online at www.opengroup.org.

TOGAF® 9 Foundation Study Guide – 4th Edition

Summary The TOGAF 9 certification program is a knowledge-based certification program. It has two levels, leading to certification for TOGAF 9 Foundation and TOGAF 9 Certified, respectively. The purpose of certification to TOGAF 9 Certified is to provide validation that, in addition to the knowledge and comprehension of TOGAF 9 Foundation level, the Candidate is able to analyze and apply this knowledge. The learning objectives at this level therefore focus on application and analysis in addition to knowledge and comprehension. This Study Guide supports students in preparation for the TOGAF 9 Part 2 Examination, leading to TOGAF 9 Certified. This third edition contains minor updates to remove references to the TOGAF 8-9 Advanced Bridge Examination¹ and also adds four bonus practice examination questions to Appendix B. It gives an overview of every learning objective for the TOGAF 9 Certified Syllabus beyond the Foundation level.

The TOGAF® Enterprise Architecture Foundation Study Guide

This document is a compilation of TOGAF Series Guides addressing Business Architecture. It has been developed and approved by The Open Group and is part of the TOGAF Standard, 10th Edition. It consists of the following documents: TOGAF® Series Guide: Business Models This document provides a basis for Enterprise Architects to understand and utilize business models, which describe the rationale of how an organization creates, delivers, and captures value. It covers the concept and purpose of business models and highlights the Business Model Canvas™ technique. TOGAF® Series Guide: Business Capabilities, Version 2 This document answers key questions about what a business capability is, and how it is used to enhance business analysis and planning. It addresses how to provide the architect with a means to create a capability map and align it with other Business Architecture viewpoints in support of business planning processes. TOGAF® Series Guide: Value Streams Value streams are one of the core elements of a Business Architecture. This document provides an archi-

tected approach to developing a business value model. It addresses how to identify, define, model, and map a value stream to other key components of an enterprise's Business Architecture. TOGAF® Series Guide: Information Mapping This document describes how to develop an Information Map that articulates, characterizes, and visually represents information that is critical to the business. It provides architects with a framework to help understand what information matters most to a business before developing or proposing solutions. TOGAF® Series Guide: Organization Mapping This document shows how organization mapping provides the organizational context to an Enterprise Architecture. While capability mapping exposes what a business does and value stream mapping exposes how it delivers value to specific stakeholders, the organization map identifies the business units or third parties that possess or use those capabilities, and which participate in the value streams. TOGAF® Series Guide: Business Scenarios This document describes the Business Scenarios technique, which provides a mechanism to fully understand the requirements of information technology and align it with business needs. It shows how Business Scenarios can be used to develop resonating business requirements and how they support and enable the enterprise to achieve its business objectives.

Togaf(r) 9 Foundation Study Guide - 4th Edition

The TOGAF® Standard, a standard of The Open Group, is a proven Enterprise Architecture methodology and framework used by the world's leading organizations to improve business efficiency. The TOGAF Certification Program has enabled more than 100,000 Enterprise Architects and trainers around the globe to demonstrate their proven knowledge of the framework and method. This is the book you need to prepare for the TOGAF Business Architecture Foundation qualification. This edition is aligned to the TOGAF Standard, 10th Edition. It includes an overview of every learning outcome included in the TOGAF Business Architecture Syllabus and in-depth coverage on preparing and taking the TOGAF Business Architecture Foundation examination. It includes Key Learning Points, exercises and challenging Test Yourself questions for each part of the syllabus, together with a Test Yourself examination paper that you can use to test your readiness to take the official TOGAF Business Architecture Foundation examination. The audience for this Study Guide is:

- Individuals, such as those responsible for business planning, who wish to apply the TOGAF Business Architecture approach in their working environment
- Individuals needing to gain competencies in TOGAF Business Architecture techniques
- Individuals who wish to become qualified as part of their own professional development

A prior knowledge of Enterprise Architecture is advantageous but not required. Topics covered include:

- An introduction to TOGAF certification and the TOGAF Business Architecture Foundation qualification, including the TOGAF Business Architecture Foundation examination
- The concepts of Enterprise Architecture and the TOGAF Standard; this includes the TOGAF Architecture Development Method (ADM), the contents of the TOGAF framework, and the TOGAF Library
- The key terminology of TOGAF Business Architecture
- An introduction to the TOGAF ADM, including the objectives of the ADM phases, and how to adapt and scope the ADM for use
- How business modeling relates to the TOGAF Standard, the impact and benefits of business models, and examples of different representations of business models
- How to define business capabilities, how they can be modeled, and how to map them to other business perspectives
- Value streams and value stream mapping; the benefits, the different approaches to value stream analysis, the relationship to other Business Architecture concepts, and how to apply value streams
- How to apply information mapping when developing a Business Architecture
- How to apply organization mapping when developing a Business Architecture
- How to apply the TOGAF Business Scenario method
- How a Business Architecture is developed with the TOGAF ADM

The TOGAF® Standard, 10th Edition - Business Architecture

For trainers free additional material of this book is available. This can be found under the "Training Material" tab. Log in with your trainer account to access the material. The TOGAF 9 certification program is a knowledge-based certification program. It has two levels, leading to certification for TOGAF 9 Foundation and TOGAF 9 Certified, respectively. The purpose of certification to TOGAF 9 Certified is to provide validation that, in addition to the knowledge and comprehension of TOGAF 9 Foundation level, the Candidate is able to analyze and apply this knowledge. The learning objectives at this level therefore focus on application and analysis in addition to knowledge and comprehension. This Study Guide supports students in preparation for the TOGAF 9 Part 2 Examination, leading to TOGAF 9 Certified. This third edition contains minor updates to remove references to the TOGAF 8-9 Advanced Bridge Examination¹ and also adds four bonus practice examination questions to Appendix B. It gives an overview of every learning objective for the TOGAF 9 Certified Syllabus beyond the Foundation level.

The TOGAF® Business Architecture Foundation Study Guide

This document is a TOGAF Series Guide: The TOGAF Leader's Guide to Establishing and Evolving an EA Capability. It has been developed and approved by The Open Group, and is part of the TOGAF Standard, 10th Edition. Written for the Enterprise Architecture Capability Leader, the person who is tasked to lead the effort to establish or evolve an Enterprise Architecture Capability, the Leader's Guide presents advice on establishing an Enterprise Architecture Capability that aligns to a set of requirements and expectations that are specific to each enterprise. It proposes an approach for the standing-up and enhancement of an enterprise's Enterprise Architecture Capability, based upon established best practices. This approach follows a configured path through the TOGAF Architecture Development Method (ADM). This document:

- Introduces key topics of concern
- Defines the terms related to the topic
- Shows the terms that are related to an EA Capability
- Discusses what the Leader needs to know
- Describes what the Leader should do with this knowledge

It covers the following topics:

- An introduction to the topic, including an assessment of the state of EA, definitions, and key concepts used in the Guide
- A narrative that is a companion to the TOGAF ADM, that leads the reader through a series of topics and related steps to assist in stepping back from the current operational context to seek a broader perspective
- How to adopt an EA Capability, including the preparation and initiation activities required to establish or enhance the EA Capability
- A mapping of how the TOGAF ADM can be used for architecting and establishing an EA Capability

TOGAF® 9 Certified Study Guide - 3rd Edition

This document is a TOGAF Series Guide: A Practitioners' Approach to Developing Enterprise Architecture Following the TOGAF ADM. It has been developed and approved by The Open Group, and is part of the TOGAF Standard, 10th Edition. Designed to help the Practitioner, it provides guidance on using the TOGAF framework to develop, maintain, and use an Enterprise Architecture. It is a companion to the TOGAF framework and is intended to bring the concepts and generic constructs in the TOGAF framework to life. It puts forward an approach to develop, maintain, and use an Enterprise Architecture that aligns to a set of requirements and expectations of the stakeholders, and enables predictable value creation. This document:

- Introduces key topics of concern
- Describes the TOGAF Standard concepts related to the topic
- Shows how it is related to developing, maintaining, and using an EA
- Discusses what the Practitioner needs to know
- Describes what the Practitioner should do with this knowledge

It covers the following topics:

- An introduction to the topic, including how to use this guide with the TOGAF framework and definitions
- Guidance on Enterprise Architecture, including what it is and what it is used for
- Coordinating EA development across the EA Landscape and business cycle
- Using the ADM to develop an Enterprise Architecture
- Guidance on using an Enterprise Architecture
- Guidance on maintaining an Enterprise Architecture

The TOGAF® Standard, 10th Edition - Leader's Guide

The TOGAF 9 certification program is a knowledge-based certification program. It has two levels, leading to certification for TOGAF 9 Foundation and TOGAF 9 Certified, respectively. The purpose of certification to TOGAF 9 Certified is to provide validation that, in addition to the knowledge and comprehension of TOGAF 9 Foundation level, the Candidate is able to analyze and apply this knowledge. The learning objectives at this level therefore focus on application and analysis in addition

to knowledge and comprehension. This Study Guide supports students in preparation for the TOGAF 9 Part 2 Examination, leading to TOGAF 9 Certified. This third edition contains minor updates to remove references to the TOGAF 8-9 Advanced Bridge Examination¹ and also adds four bonus practice examination questions to Appendix B. It gives an overview of every learning objective for the TOGAF 9 Certified Syllabus beyond the Foundation level.

The TOGAF® Standard, 10th Edition - ADM Practitioners' Guide

This document is a compilation of three documents within the TOGAF® Standard. It has been developed and approved by The Open Group, and is part of the TOGAF Standard, 10th Edition. The three documents in this set are:

- The TOGAF Standard — Architecture Development Method This document describes the TOGAF Architecture Development Method (ADM) — an iterative approach to developing an Enterprise Architecture.
- The TOGAF Standard — ADM Techniques This document contains a collection of techniques available for use in applying the TOGAF approach and the TOGAF ADM.
- The TOGAF Standard — Applying the ADM This document contains guidelines for adapting the TOGAF ADM to address the specific style of architecture required in a practical context. The TOGAF Standard is intended for Enterprise Architects, Business Architects, IT Architects, Data Architects, Systems Architects, Solution Architects, and anyone responsible for the architecture function within an organization.

TOGAF® 9 Certified Study Guide – 4th Edition

This document is the TOGAF Standard — Introduction and Core Concepts. It has been developed and approved by The Open Group, and is part of the TOGAF Standard, 10th Edition. This document introduces the standard, including an executive overview of Enterprise Architecture, a description of how the standard is organized, and a summary of core concepts. It also contains the material common to the individual documents that comprise the standard, such as the definitions, as well as document references and abbreviations. It covers the following topics:

- An introduction to the standard, including an executive overview of Enterprise Architecture
- A description of the TOGAF documentation set, describing the contents of the standard and the supporting TOGAF Library
- The core concepts that apply across the TOGAF Standard
- The terms and definitions that apply across the TOGAF Standard
- A glossary of supplementary definitions

The TOGAF Standard is intended for Enterprise Architects, Business Architects, IT Architects, Data Architects, Systems Architects, Solution Architects, and anyone responsible for the architecture function within an organization. Other audiences are Digital and Agile Practitioners, Product Managers, and C-Suite. These audiences will find more detailed guidance on how to apply the standard to fulfill specific needs in the TOGAF Series Guides.

The TOGAF® Standard, 10th Edition – Architecture Development Method

This document is a compilation of two documents within the TOGAF® Standard. It has been developed and approved by The Open Group, and is part of the TOGAF Standard, 10th Edition. The two documents in this set are:

- TOGAF Standard — Architecture Content This document describes the TOGAF Content Framework and a structured metamodel for architectural artifacts, the use of re-usable Architecture Building Blocks (ABBs), and an overview of typical architecture deliverables.
- TOGAF Standard — Enterprise Architecture Capability and Governance This document discusses the organization, processes, skills, roles, and responsibilities required to establish and operate an architecture function within an enterprise, and describes an Enterprise Architecture governance framework.

The TOGAF Standard is intended for Enterprise Architects, Business Architects, IT Architects, Data Architects, Systems Architects, Solution Architects, and anyone responsible for the architecture function within an organization.

The TOGAF® Standard, 10th Edition — Introduction and Core Concepts

For trainers free additional material of this book is available. This can be found under the "Training Material" tab. Log in with your trainer account to access the material. This title is a Study Guide for TOGAF® 9 Foundation. It gives an overview of every learning objective for the TOGAF 9 Foundation Syllabus and in-depth coverage on preparing and taking the TOGAF 9 Part 1 Examination. It is specifically designed to help individuals prepare for certification. This Study Guide is excellent material for:

- Individuals who require a basic understanding of TOGAF 9;
- Professionals who are working in roles associated with an architecture project such as those responsible for planning, execution, development, delivery, and operation;
- Architects who are looking for a first introduction to TOGAF 9;
- Architects who

want to achieve Level 2 certification in a stepwise manner and have not previously qualified as TOGAF 8 Certified. A prior knowledge of enterprise architecture is advantageous but not required. While reading this Study Guide, the reader should also refer to the TOGAF Version 9.1 documentation (manual), available as hard copy and eBook, from www.vanharen.net and online booksellers, and also available online at www.opengroup.org.

The TOGAF® Standard, 10th Edition - Content, Capability, and Governance

This title is the Study Guide for the TOGAF® Business Architecture Part 1 Examination. It gives an overview of every learning objective for the TOGAF Business Architecture Syllabus and in-depth coverage on preparing and taking the TOGAF Business Architecture Part 1 Examination. It is specifically designed to help individuals prepare for certification. This Study Guide is excellent material for:

- Individuals who require knowledge and understanding of TOGAF Business Architecture techniques;
- Professionals who are working in roles associated with an architecture project such as those responsible for planning, execution, development, delivery, and operation;
- Architects who are looking to achieve the TOGAF Business Architecture Level 1 credential;
- Architects who want to specialize in development of a Business Architecture based on the TOGAF Standard, Version 9.2;

It covers the following topics:

- Business Modeling
- Business Capabilities
- Value Streams
- Information Mapping
- TOGAF Business Scenarios and how to apply them in development of a Business Architecture based on the TOGAF Standard, Version 9.2.

A prior knowledge of Enterprise Architecture is advantageous but not required. While reading this Study Guide, the reader should also refer to the TOGAF Standard, Version 9.2 documentation (manual), available as hard copy and eBook, from www.vanharen.net and online booksellers, and also available online at www.opengroup.org.

TOGAF® 9 Foundation Study Guide - 3rd Edition

Van Haren Publishing is the world's leading publisher in best practice, methods and standards within IT Management, Project Management, Enterprise Architecture and Business Management. We are the official publisher for some of the world's leading organizations and their frameworks including: The Open Group, IPMA, ASL BiSL Foundation, IAOP® and IACCM. This catalog will provide you with an overview of our most popular and upcoming titles (including courseware), but also gives you a quality summary on internationally relevant frameworks. Van Haren Publishing is an independent, worldwide recognized publisher, well known for our extensive professional network (authors, reviewers and accreditation bodies of standards), flexibility and years of experience. We make content available in hard copy and digital formats, designed to suit your personal preference (iPad, Kindle and online), available through over 50 distribution partners (Amazon, Google Play, Barnes & Noble, Managementboek and Bol.com, etc.) and over 700 outlets worldwide.

TOGAF® Business Architecture Level 1 Study Guide

The TOGAF Standard, Version 9.2
