Toyota Is Making Millions of Improvements a Year

He Wasn't Trying To Teach Us the Fastest Way To Do It He Was Trying To Teach Us To Be on the Shop Floor with Your People Where the Work Is Added Where the Value Is Added Is on the Shop Floor and So I Got Down on My Hands and Knees and I Began To Do this and I Go Wow this Is Profound and Then He Told Me all You Have To Do Is Clean Your Factory every Day with Your People

And Then He Told Me all You Have To Do Is Clean Your Factory every Day with Your People You Need To Sort through Everything Get Rid of All the Crap That's Everywhere that's Cluttered Up All the Deaths on Desks across the United States and around the World Get Rid of Everything That Has Nothing To Do with the Job You're Doing and He in this Case Threw It Out in the Back Parking Lot And that's My Wife and My General Manager and I at the Lexus Plant and at the End of that Tour I Walked Up to the Vice President of Lexus Who Had Given Us a Lecture and I Said So What's the Most Important Thing for Toyota Thinking He Was GonNa Give Me some Crazy Answer because at that Point I've Been Doing Lean for Five Years and I Couldn't Make It Stick Frankly All the Lean Improvements Were Coming from Me Maybe One or Two Other People

And Then He Went On To Say Toyota Worldwide with 300 Thousand Employees Has under 1 % Turnover and if It Ever Got Anywhere near 1 Percent We Would Panic because We Know We Would Be Doing Our Job Wrong I Go Wow these Are Not the Things That I Was Thinking I Was GonNa Hear So after Five Years Had To Rethink Everything I Was Doing and I Said You Know I Think I Get this Whole Thing I Realized I Was Making Lean so Complicated I Had Value Stream Mapping Everywhere I Had 3 S's and I Had 5 S'S

We Should Fix this We Shouldn't Torture Our Customers but Yet We Do It all Day Long the Other Day We Went for a Loan To Buy To Build Our New Facility and We Had a Bunch of Banks Quote on the Loan One of the Bankers Was Very Astute He Read My Book He Went Online Watched the Videos Walked In To Make the Presentation and He Said Paul I Know You Would Have Thrown Me out of My Office if I Would Have Made My Normal 28 Page Presentation to You So I Didn't Do that He Gave Me a One-Page Document with the Loan Specs on It I Looked at It Took Me about Maybe 30 Seconds Saw the Terms of the Loan To Pay Off Details

They Are Connecting 48 Major Cities with High-Speed Trains That Go over 250 Miles an Hour They Have a Magnetically Levitated Train That Goes from Downtown Shanghai Out To Put on the Airport They'Re Build High-Rises 140 Story High-Rises Not One They'Re Building All over the Country in Two Years They Have the Best Infrastructure I've Ever Seen Anywhere in the World Our Airports Here Are Third-World Compared the Airports in china Third World They'Re a Joke We Got To Get this Man We Got To Start Fixing the Fruit Loops and We Got To Do It in a Big Hurry
