Summary Justice

The last time Tess de Vere saw William Benson she was a law student on work experience. He was a twenty-one year old, led from the dock of the Old Bailey to begin a life sentence for murder. He'd said he was innocent. She'd believed him. Sixteen years later Tess overhears a couple of hacks mocking a newcomer to the London Bar, a no-hoper with a murder conviction, running his own show from an old fishmonger's in Spitalfields. That night she walks back into Benson's life. The price of his rehabilitation - and access to the Bar - is an admission of guilt to the killing of Paul Harbeton, whose family have vowed revenge. He's an outcast. The government wants to shut him down and no solicitor will instruct him. But he's subsidised by a mystery benefactor and a desperate woman has turned to him for help: Sarah Collingstone, mother of a child with special needs, accused of slaying her wealthy lover. It's a hopeless case and the murder trial, Benson's first, starts in four days. The evidence is overwhelming but like Benson long ago, she swears she's innocent. Tess joins the defence team, determined to help Benson survive. But as Benson follows the twists and turns in the courtroom, Tess embarks upon a secret investigation of her own, determined to uncover the truth behind the death of Paul Harbeton on

a lonely night in Soho. True to life, fast-paced and absolutely compelling, Summary Justice introduces a new series of courtroom dramas featuring two maverick lawyers driven to fight injustice at any cost.

Murder Picks the Jury

Murder Picks the Jury, first published in 1947, is a fast-paced murder mystery and courtroom drama by author W. T. Ballard, writing under the pseudonym Harrison Hunt. From the cover notes: "Hate, like a point of flame, burned in Lee's brain, hate for Vale City and all it represented. Vale City, corrupt, cruel and uncaring, had murdered his only friend – the one man who had stood by him through his degradation. As surely as if it had plunged a knife into his back, Vale City had murdered him. And Randolph Lee determined that he would make the city pay for its crime, if it was the last thing he did. Not that there seemed much likelihood that he would have the opportunity. For Randolph Lee, once the state's most brilliant young prosecutor, was now a down-and-outer, a vagrant in the Vale City jail. Then unexpectedly Fate dealt a lucky card. Through an error in a planned escape, Lee suddenly found himself a free man. And through the same error he met pretty, blue-eyed Susan Drake – who needed him. His chance had come. Susan's father, Gregory Drake, philanthropist and reformer, was about to go on trial for murder. Whether Drake was guilty or innocent made no difference to Randolph Lee. Here was the way to tear Vale City wide open, and he did not hesitate..."

Answers to many legal questions often depend on our understanding of the relationship between the human brain and behavior. While there is no evidence to suggest that violence is the sole result of cognitive impairment, research does suggest that frontal lobe impairment in particular may contribute to the etiology of violent behavior. *Murder in the Courtroom* presents a comprehensive and detailed analysis of issues most relevant to answering questions regarding the link between cognitive functioning and violence. It is the first book to focus exclusively on the etiology and assessment of cognitive impairment in the context of violent behavior and the challenges courts face in determining the reliability of neuroscience evidence; provide objective discussions of currently available neuropsychological tests and neuroimaging techniques, and their strengths and limitations; provide a methodology for the assessment of cognitive dysfunction in the context of violent behavior that is likely to withstand a Daubert challenge; and include detailed discussions of criminal cases to illustrate important points. Clinical and forensic psychologists and psychiatrists, cognitive neuroscientists, and legal professionals will be able to use this book to further their understanding of the relationship between brain function and extreme violence.

Volume II of *PEE WEE*, *Serial Killer or Homicidal Maniac*, focuses on the courtroom drama of his several trials and appeals. Readers that enjoy trial strategy, courtroom personalities and the cloakroom maneuvering of the criminal courts will find a plethora of intriguing twists and turns. Seemingly foregone outcomes are reversed by national events or by the local politics of the farmlands of South Carolina that stubbornly resist change. It is replete with excerpts from actual trial transcriptions and transcripts of out of court statements given under oath. Despite his numerous murder convictions Gaskins manages time and again to avoid the death penalty in real life by virtue of unexpected events that could seemingly occur only in fiction. Told by an attorney intimately involved in the cases, there are pithy descriptions of battles fought in and out of the courtroom on the one hand and on the other of the camaraderie between adversaries. Both often lead to unpredictable outcomes. Pee Wee Gaskins describes the murders to which he will plead guilty in his own words. At the same time by either omission or outright lies, he avoids the inclusion of those murders for which he does not want to admit responsibility. Finally, in one of the most incredible crimes imaginable, the tiny killer foils the safeguard systems of a maximum security penitentiary to murder a fellow death row inmate with plastic explosives.

PEE WEE

From the legendary Famous Trials series of real-life courtroom dramas, two classic murder trials abridged and refreshed as Penguin Specials for modern readers, selected and introduced by Alex McBride, author of *Defending the Guilty* Nineteen year-old Madeleine Smith may have been charged in 1857 with poisoning her lover, Emile L'Angelier, but her real sin was having sex - a lot of sex - out of wedlock. Her mistake was to write him frank and passionate letters, described by the trial judge as 'without any sense of decency', which L'Angelier threatened to send to her father when she cooled

on the idea of marriage, having secretly engaged herself to someone else. Some fifty years later, the trial of Robert Wood, a respectable, hard-working illustrator by day, who frolicked with prostitutes by night, including the unfortunate Emily Dimmock, also hinged on a dangerous correspondence. Dimmock's murderer had evidently ransacked her rooms for a postcard written by Wood. Was there something he was desperate to hide? The author of his trial is certain he was guilty. But both escaped conviction - in Wood's case, thanks to the defence of the best defence barrister in the land. In Madeleine Smith's, the three judges ruled two-to-one to exclude from evidence L'Angelier's pocket book, which recorded her meetings with him on the day of the murder. These two salacious and controversial trials demonstrate how the dramatic difference between 'guilty' and 'not guilty' can sometimes be decided by a mere scrap of paper. The legendary Famous Trials series set the benchmark for historical crime writing with its accounts of the most notorious and intriguing criminal trials of the nineteenth and twentieth centuries. Expertly reconstructed from court transcripts, these often sensational narratives have gripped generations of readers since they first appeared in 1941. In this digital edition, two of the very best Famous Trials have been selected, introduced and further abridged by criminal barrister and author Alex McBride to provide modern readers with the most compelling versions yet of these court-room classics. Alex McBride is a criminal barrister. His book *Defending the Guilty: Truth and Lies in the Criminal Courtroom* was shortlisted for the 2010 Crime Writers' Association Gold Dagger for Non-Fiction and is available in Penguin. He has written for the Guardian, Independent, Prospect and New Statesman, and has contributed to various BBC programmes, including *From Our Own Correspondent*. 'Expert, authoritative, hilarious - an insider's fearless account of life at the criminal bar' *Times Literary Supplement* Books of the Year on *Defending the Guilty*

Famous Trials: Lucky Escapes

'Vivid and exciting' *The Times* WINNER OF THE PRIX DU MASQUE She was found hanging in a dingy London bedsit with a blood orange in her mouth. Diane Heybridge, a young woman without a past or much of a future, has captured in death the compassion denied her in life. For the prosecution, this seeming suicide is nothing more than a bungled killing and a disgusted public looks to Court 2 of the Old Bailey for justice. Her callous, jilted partner Brent Stainsby stands accused of her murder and he's turned to the maverick legal team William Benson and Tess de Vere to defend him. However, as the trial unfolds it soon becomes clear that there is far more to Diane Heybridge than meets the eye. She wasn't the weak and downtrodden victim now being presented to the jury. She was capable of a sophisticated form of vengeance. By the same token, Brent Stainsby isn't who he seems to be either. He's hiding a motive for murder unknown to the police and may well be playing a deadly game of poker with the judicial process. What began as a simple trial rapidly turns into a complex search for the truth beyond the confines of the courtroom...

The Defendants

When murder is the crime, the clash in the courts is likely to be between two constitutionally enshrined rights--freedom of speech and the right to a fair trial. Peter E. Kane shows what happened in seven famous court cases when First Amendment rights (concerning freedom of speech) conflicted with Sixth Amendment rights (concerning fair trial). He reports the circumstances of each crime, the court

proceedings, and the conduct of the press in the trials of Sam Sheppard, Charles Manson and his followers, John Paul Stevenson, Claus von Bülow, and Arthur Shawcross and the cases involving the Kellie family and the Wayne Clapp murders. Kane's narrative and analytical approach illuminates legal principles and shows the roles of actual human beings underlying the abstractions of court opinions. In this revised and expanded edition, Kane considers two new topics stemming from recent court cases: cameras in the courtroom and a code of ethics for crime reporting. Kane explores the issue of cameras through the famous Claus von Bülow retrial, which featured live television broadcasts; regarding a journalistic code, Kane examines the massive pretrial reporting of the serial murders of Arthur Shawcross. Kane notes that sensational crime stories serve the interests of many people: the public wants to read them; journalists want to write them because they can make a reporter's fortune and reputation; and editors and publishers want to sell papers. The sensational crime story serves everyone's purpose except that of the accused. In addition to exploring journalistic ethics and the proper procedures for trial judges in guaranteeing a fair trial, these cases also provide an introduction to the operation of the courts in criminal justice. "The trial court is the arena in which the conflicts between a free press and a fair trial are played out," Kane writes. "This play is described here as are the subsequent evaluations of that play by the appellate courts. Thus the legal process is considered from its beginning with the original crime to the final resolution of the case in the United States Supreme Court."

Murder, Courts, and the Press

On January 14, 2009, Marissa DeVault killed her husband, Dale Harrell, by striking him multiple times on the head with a hammer. It seemed like a simple case of murder, but questions remained. Was Dale Harrell a hapless, innocent victim of a brutal killing, or was this the final act of a desperate woman who had suffered through years of domestic violence? The fact that the incident took place in a middle class suburb of Phoenix, Arizona, with the couple's three children within the property at the time, meant nothing. The questions for the jury were simple. Was the killing premeditated or was it an act of self defense? Was it done for financial gain? Should the defendant pay for her crime with her life, should she be incarcerated for twenty-five years to life, or should she receive a life sentence with no chance of parole? Author Paul Sanders was Juror #13 in a trial packed with twists and turns. He sat every day in court, in a trial which got deep inside the day-to-day lives of a family and eventually delivered justice to a victim. Read this remarkable true story now and make up your own mind as to the truth behind the Hammer Killing Trial. Amazon reviews: "Mr. Sanders is a brilliant writer. You feel like you are right in the courtroom with him..." "This is a must-read for any avid trial watcher!" "Brain Damage is a very interesting journey through a death penalty trial. It made me want to be a juror!"

"A murder trial ends in a hung jury because of the reasonable doubt of a few jurors who, faced with circumstantial evidence, refuse to judge the accused. Thompson confronts this evasion of judgment

through the reexamination of the works of Faulkner, Austen, Tocqueville, Plato, and Aristotle"--Provided by publisher.

Unreasonable Doubt

This book is about murder - in life and in art - and about how we look at it and feel about it. At the centre of Wendy Lesser's investigation is a legal case in which a federal court judge was asked to decide whether a gas chamber execution would be broadcast on public television. Lesser conducts us through the proceedings, pausing along the way to reflect on the circumstances of violent death in our culture. Her book is also a meditation on murder in a civilized society - what we make of it in law, morality and art.

Pictures at an Execution

Sing Sing Prison, New York, July 1916. Charles Frederick Stielow, a 37-year-old farmhand with the mind of an infant, is just minutes away from the electric chair for a double murder he didn't commit. With a vengeful legal system baying for blood, his situation looks hopeless. Eight blocks away, Stielow's wife sobs helplessly in her hotel room, certain she will never see her husband alive again. "Slaughter on a Snowy Morn" is the first full account of how Charles Stielow, convicted of murdering a wealthy landowner and his housekeeper, became the central figure in one of the most fascinating yet little-known stories in criminal history. The cast list includes New York state Governor Charles Seymour Whitman - ambitious for the White House - and his nemesis, Sing Sing warden Thomas Mott Osborne, a passionate opponent of the death penalty, convinced of Stielow's innocence. The crooked 'expert' testimony of Albert H. Hamilton, a jumped-up druggist, condemned Stielow to death row, where the battle to save his life is led by America's most celebrated female lawyer, Grace Humiston. But the story's undung hero is the obsessively secretive, quietly spoken Charles E. Waite - the great mystery man of American forensic science - whose experts tore Hamilton's testimony to shreds. Colin Evans presents a nail-biting true story of wrongful conviction and redemption in an age of bare-knuckle politics and cynical courtroom manoeuvring, which changed for ever the face of American justice.

False Testimony

From Gerry Spence, one of America's greatest trial attorneys and the New York Times bestselling author of *How to Argue and Win Every Time*, comes an explosive courtroom thriller of murder, passion, and the twists and treachery of law and justice. Gerry Spence is one of the greatest trial lawyers of our time. He has not lost a jury trial in fifty years and has never lost a criminal or a capital case. A New York Times bestselling author, he has represented many celebrated defendants and appeared on countless national TV talk shows. Spence now presents us with beautiful Lillian Adams, who is going on trial for the murder of her wealthy husband before Judge John Murray. The prosecutor, Haskins Sewell, however, is consumed by political ambition. He plans to advance his own career by framing Lillian for murder one and by railroading the judge into prison. A fast-paced, up-all-night courtroom thriller, *Court of Lies* is also a harsh indictment of today's legal system. The country has 2.3 million people behind bars and 7.5 million more on parole or probation. A major reason for so much mass incarceration is the dominance of politically motivated prosecutors, who over-sentence defendants for the sake of winning votes in their own elections and advancing their careers.

Brent is not normally a criminal defense attorney, but takes the case because he believes he is dealing with an innocent client. To make matters worse, another client's destiny is about to cross their path. Is Brent's client really innocent or guilty? Can justice be done? At the crossroads of morality and ethics, the courtroom drama explodes, while the action outside the courtroom spirals out of control. Discover what critics say "HOA Wire successfully weaves crime and courtroom to such a degree that the unexpected conclusion comes as both a successful, logical outcome and as a real surprise. With its real insights on HOA processes and neighbor disputes, HOA Wire is a deft exploration of attorney-client ethics on the line, and is crime/courtroom writing at its best." Midwest Book Review "HOA Wire by Kenneth Eade was a very good book, written by a lawyer. A combination of courtroom drama and crime, it's full of twists and turns and a very surprising ending. It's an intriguing story, going in a different direction at every corner." - Reader's Favorite "Crime,

betrayal, thought-provoking questions related to ethics and morality - this novel has everything it needs to become a must-read for any lover of true crime literature."- Top Books Worth Reading "HOA Wire is much more than a suspenseful, fast-paced crime novel; it is a courtroom drama that will remind readers of pulp thrillers and will keep them glued to the pages. Eade is brilliant when it comes to creating complicated, intriguing stories that end in mind-blowing surprises, and some have said that his novels will remind readers of John Grisham, proving that Kenneth Eade deserves to be on the same lists with the world's greatest thriller authors."-I Publisher News "This is part of series, however totally stands on its own. It's a great murder mystery"-InD Tale Magazine Discover what other readers already know "If you're a huge fan of legal and political thrillers with a lot of courtroom drama, then you will love Kenneth Eade's newest novel in the "Brent Marks Legal Thriller Series"

Assumed Innocent

A scar from cheek to chin is all Marc Jordan remembers of the man kneeling over his dead mother. Now, 15 years later, Marc searches his memory for clues; he hopes to be the first to find the killer. Murder, blackmail, corruption and betrayal leave a trail from the storied vineyards of Spain to the wineries of Southern California, where no one is who or what they claim to be. Forced to accept a court case he does not want, Marc inadvertently unravels the threads that lead to solving his mother's murder. But with each revelation, his life spirals more and more out of control. A Man's Face is a multi-generational saga of treachery and corruption, set against the backdrop of the elite wine industry and courtroom drama.

A Man's Face

From the author of *The One-Eyed Judge*: A New York Times–bestselling novel about a federal death penalty trial from the perspective of the presiding judge. When a drive-by shooting in Holyoke, Massachusetts, claims the lives of a drug dealer and a hockey mom volunteering at an inner-city clinic, the police arrest a rival gang member. With no death penalty in Massachusetts, the US attorney shifts the double homicide out of state jurisdiction into federal court so he can seek a death sentence. The Honorable David S. Norcross, a federal judge with only two years on the bench, now presides over the first death penalty case in the state in decades. He must referee the clash between an ambitious female prosecutor and a brilliant veteran defense attorney in a high-stress environment of community outrage, media pressure, vengeful gang members, and a romantic entanglement that threatens to capsize his trial—not to mention the most dangerous force of all: the unexpected. Written by judge Michael Ponsor, who presided over Massachusetts's first capital case in over fifty years, *The Hanging Judge* explores the controversial issue of capital punishment in a dramatic and thought-provoking way that will keep you on the edge of your seat. It is “a crackling court procedural” (Anita Shreve) and “gripping legal thriller” (Booklist) perfect for fans of Scott Turow.

The Hanging Judge

A suicide before the First World War, a university career cut short by drink and debt, a missed business opportunity, family antagonisms, a threat to jobs on the estate, all give the inspector some food for thought, until he rumbles the one tiny mistake that leads to the unmasking of a killer.

The Wichenford Court Murder

From the best-selling author of *The Defense*, a spellbinding sequel: *The Prosecution*. It was a one-way ticket out of his self-imposed isolation and into the courtroom on the right side of justice. It was a favor for his old friend Judge Horace Woolner. It was a once-in-a-lifetime chance to serve as special prosecutor in a case against a man sworn to uphold the law, Marshall Goodwin, the chief deputy district attorney accused of having his former wife murdered. It was an opportunity Joseph Antonelli couldn't walk away from. But Antonelli is walking into more than he bargained for. The Goodwin case renews his appetite for the practice of law, and although Antonelli is determined to remain on the side of justice, there are many shades between right and wrong. And Antonelli may be over his head when Russell Gray, an urbane, worldly, and wealthy man from a prominent Portland family, is found murdered in his living room. Horace Woolner's wife stands accused of the crime. With justice and love on the line, the stakes couldn't be higher. In this stunning look at our legal system and our hearts, D. W. Buffa delivers on the promise of *The Defense* and takes us into the dark recesses of our courtrooms and our souls, where there are no easy answers.

The Prosecution

Maigret receives an anonymous phone call concerning the brutal murder of a woman and young child. The tip off concerns the woman's nephew, a mild-mannered man by the name of Gaston Meurant. At Meurant's trial Maigret is called to testify where he admits to continuing the investigation unofficially as he remains doubtful of the man's guilt. Maigret reveals that he had both Meurant and his wife followed and during the trial he exposes some shocking truths about Meurant's private life that may prove his innocence. Penguin is publishing the entire series of Maigret novels in new translations. 'His artistry is supreme' John Banville 'One of the greatest writers of the twentieth century . . . Simenon was unequalled at making us look inside, though the ability was masked by his brilliance at absorbing us obsessively in his stories' Guardian

Maigret in Court

In this gripping legal thriller from author and prosecutor Marcia Clark, Rachel Knight faces down the dark side of Hollywood - perfect for fans of James Patterson and David Baldacci. Would you kill to protect your career? When the teenage daughter of a billionaire director is kidnapped, Deputy DA Rachel Knight and Detective Bailey Killer are on the case. But things go wrong fast. The girl is found murdered, and the man they suspect has rich and powerful friends. In the hostile glare of the media, under attack from her own bosses, Rachel prepares the case for trial. She will bring the truth to light... no matter who wants it to stay hidden. The stage is set for stunning courtroom drama and a thrilling ride through the dark side of Hollywood.

Killer Ambition

Journalist Karen Kissane follows the accused into the courtroom, telling the inside story of one of Australia's most controversial trials and the marriage at its centre. A compelling combination of great writing, true crime and courtroom drama. Julie and Jamie Ramage were the perfect middle-class Australian couple with everything: children at private schools, he a company director and she a financial controller for a fashion house. But Julie walked out of their seemingly perfect marriage. And then, one day, he killed her. Beneath the veneer of perfection there had lain a relationship marred by affairs, obsession and a history of violence. Jamie confessed to the killing - but declared that he had been provoked and therefore not guilty of murder as his wife had driven him over the edge. Jamie's defence of provocation was successful and he is now serving a prison sentence for the lesser crime of manslaughter. The woman he strangled the life from and buried in a shallow grave had no voice in court and no way of telling her story. *Silent Death* tells Julie's story - but also takes us into the disturbing wider situation - how a killing took place in the comfort and security of a moneyed life; how friends and family either didn't see or think they should be involved. And it is the story of how a court case is about tactics and procedure first - and justice second.

Silent Death

INSPIRATION FOR THE ORIGINAL SERIES THE LINCOLN LAWYER – THE #1 TV SHOW ON NETFLIX Defense attorney Mickey Haller and Detective Harry Bosch must either work together or die as they investigate a Hollywood lawyer's murder in this "epic page-turner" (Library Journal). Things are finally looking up for defense attorney Mickey Haller. After two years of wrong turns, Haller is back in the courtroom. When Hollywood lawyer Jerry Vincent is murdered, Haller inherits his biggest case yet: the defense of Walter Elliott, a prominent studio executive accused of murdering his wife and her lover. But as Haller prepares for the case that could launch him into the big time, he learns that Vincent's killer may be coming for him next. Enter Harry Bosch. Determined to find Vincent's killer, he is not opposed to using Haller as bait. But as danger mounts and the stakes rise, these two loners realize their only choice is to work together.

The Brass Verdict

From an award-winning author, a crime thriller with "some of the sharpest courtroom cut-and-thrust since *Presumed Innocent*" (Kirkus Reviews). The Maxwell brothers both became lawyers, following in their father's footsteps. But their father, Lawrence, had his career come to a screeching halt over two decades ago—when he was convicted of killing his wife. Now, faced with evidence of stunning prosecutorial misconduct, a San Francisco judge has ordered a new trial for Lawrence. Soon after, a prison snitch and potential key witness turns up dead, and Lawrence's son, Leo, finds himself trying

to defend his father against murder charges both old and new—and confronting the darkness at the center of his own life, as he struggles to do right by both the law and his blood. From the author of *Bear Is Broken*, which won the Shamus Award and was a Kirkus Reviews best book of the year, this novel in the Leo Maxwell series is “a sharp-edged legal thriller with the deep emotional undertones of family drama and tragedy” (New York Times—bestselling author Reed Farrel Coleman). “Superlative . . . Smith is masterly in creating realistic courtroom scenes, including the subtleties of witness examination.” —Publishers Weekly, starred review “The line Maxwell family members walk between innocence and guilt becomes more blurred with every step and turn of the page.” —Library Journal, starred review

Fox Is Framed

On the day before his twenty-first wedding anniversary, David Sullinger buried an ax in his wife's skull. Now, eight jurors must retire to the deliberation room and decide whether David committed premeditated murder—or whether he was a battered spouse who killed his wife in self-defense. Told from the perspective of over a dozen participants in a murder trial, *We, the Jury* examines how public perception can mask the ghastliest nightmares. As the jurors stagger toward a verdict, they must sift through contradictory testimony from the Sullingers' children, who disagree on which parent was Satan; sort out conflicting allegations of severe physical abuse, adultery, and incest; and overcome personal animosities and biases that threaten a fair and just verdict. Ultimately, the central figures in *We, the Jury* must navigate the blurred boundaries between bias and objectivity, fiction and truth.
