"Do not think of the Pennsylvania Railroad as a business enterprise," Forbes magazine informed its readers in May 1936. "Think of it as a nation." At the end of the nineteenth century, the Pennsylvania

Railroad was the largest privately owned business corporation in the world. In 1914, the PRR employed more than two hundred thousand people—more than double the number of soldiers in the United States Army. As the self-proclaimed "Standard Railroad of the World," this colossal corporate body underwrote American industrial expansion and shaped the economic, political, and social environment of the United States. In turn, the PRR was fundamentally shaped by the American landscape, adapting to geography as well as shifts in competitive economics and public policy. Albert J. Churella's masterful account, certain to become the authoritative history of the Pennsylvania Railroad, illuminates broad themes in American history, from the development of managerial practices and labor relations to the relationship between business and government to advances in technology and transportation. Churella situates exhaustive archival research on the Pennsylvania Railroad within the social, economic, and technological changes of nineteenth- and twentieth-century America, chronicling the epic history of the PRR intertwined with that of a developing nation. This first volume opens with the development of the Main Line of Public Works, devised by Pennsylvanians in the 1820s to compete with the Erie Canal. Though a public rather than a private enterprise, the Main Line foreshadowed the establishment of the Pennsylvania Railroad in 1846. Over the next decades, as the nation weathered the Civil War, industrial expansion, and labor unrest, the PRR expanded despite competition with rival railroads and disputes with such figures as Andrew Carnegie and John D. Rockefeller. The dawn of the twentieth century brought a measure of stability to the railroad industry, enabling the creation of such architectural monuments as Pennsylvania Station in New York City. The volume closes at the threshold of American involvement in World War I, as the strategies that PRR executives had perfected in previous decades proved less effective at guiding the company through increasingly tumultuous economic and political waters.

During the fourteen years Sydney Howard Gay edited the American Anti-Slavery Society's National Anti-Slavery Standard in New York City, he worked with some of the most important Underground agents in the eastern United States, including Thomas Garrett, William Still and James Miller McKim. Gay's closest associate was Louis Napoleon, a free black man who played a major role in the James Kirk and Lemmon cases. For more than two years, Gay kept a record of the fugitives he and Napoleon aided. These never before published records are annotated in this book. Revealing how Gay was drawn into the bitter division between Frederick Douglass and William Lloyd Garrison, the work exposes the private opinions that divided abolitionists. It describes the network of black and white men and women who were vital links in the extensive Underground Railroad, conclusively confirming a daily reality.

Secret Lives of the Underground Railroad in New York City

Between 1783 and 1860, more than 100,000 enslaved African Americans escaped across the border between slave and free territory in search of freedom. Most of these escapes were unaided, but as the American anti-slavery movement became more militant after 1830, assisted escapes became more common. Help came from the Underground Railroad, which still stands as one of the most powerful and sustained multiracial human rights movements in world history. This work examines and interprets the available historical evidence about fugitive slaves and the Underground Railroad in Kentucky, the southernmost sections of the free states bordering Kentucky along the Ohio River, and, to a lesser extent, the slave states to the immediate south. Kentucky was central to the Underground Railroad because its northern boundary, the Ohio River, represented a three hundred mile boundary between slavery and nominal freedom. The book examines the landscape of Kentucky and the surrounding states; fugitive slaves before 1850, in the 1850s and during the Civil War; and their motivations and escape strategies and the risks involved with escape. The reasons why people broke law and social

convention to befriend fugitive slaves, common escape routes, crossing points through Kentucky from Tennessee and points south, and specific individuals who provided assistance—all are topics covered.

Fugitive Slaves and the Underground Railroad in the Kentucky Borderland

" The underground railroad—with its mysterious signals, secret depots, abolitionist heroes, and slave-hunting villains—has become part of American mythology. But legend has distorted much of this history. Larry Gara shows how pre-Civil War partisan propaganda, postwar reminiscences by fame-hungry abolitionists, and oral tradition helped foster the popular belief that a powerful secret organization spirited floods of slaves away from the South. In contrast to much popular belief, however, the slaves themselves had active roles in their own escape. They carried out their runs, receiving aid only after they had reached territory where they still faced return. The Liberty Line puts slaves in their rightful position: the center of their struggle for freedom.

Includes detailed maps of the known routes and railroad sites. Organized in antebellum America to help slaves escape to freedom, the Underground Railroad was cloaked in secrecy and operated at great peril to everyone involved. The system was extremely active in Pennsylvania, with routes in all parts of the state. This book retraces those routes, discusses the large city networks, identifies the houses and sites where escapees found refuge, and records the names of the people who risked their lives to support the operation.

The women who traveled west in covered wagons during the 1840s speak through these letters and diaries. Here are the voices of Tamsen Donner and young Virginia Reed, members of the ill-fated Donner party; Patty Sessions, the Mormon midwife who delivered five babies on the trail between Omaha and Salt Lake City; Rachel Fisher, who buried both her husband and her little girl before reaching Oregon. Still others make themselves heard, starting out from different places and recording details along the way, from the mundane to the soul-shattering and spirit-lifting.

Now in its second edition, this ground-breaking book shares with you stories of life after death from the ghosts' own point of view. Some stories are tragic, some comical, some stunning and all of them fascinating. Meet Annabelle, a seven-year-old ghost in pink pajamas who was desperately looking for her family, or Lydia, a ghost who was being haunted by the living. There are more unforgettable stories in this poignant, unnerving and hopeful view of life after death. Author and intuitive, Tina Erwin is not your ordinary psychic. She is a retired US Navy Commander AND a ghost helper, NOT a ghost hunter. She not only talks to the dead, she assists them in crossing over to the Heaven World. Listen as each ghost tells you: What it's like to be dead. What it's like to be driving down the road one minute and the next have no idea where you are. A soul's frustration as he talks to someone who cannot seem to hear him no matter what he does. Or how much some ghosts enjoy controlling the living from the grave. *Ghost Stories from the Ghosts' Point of View* is a haunting look at not only what it's like to be a ghost, but also what it's like to find yourself dead and have no idea what to do, where to go or how to change your surroundings. This ground-breaking book invites you to finally hear their stories, to understand the ghosts' point of view and learn what it feels like for them when they are embraced by the light of the Heaven World. Listen as each ghost tells you: What it's like to be dead. What it's like to be driving down the road one minute and then the next have no idea where you are. What it's like to be talking to someone who cannot seem to hear you no matter what you do. What it's like to still control the living from the grave. What it's like to be haunted in death by the living.

Maybe there has never been a more comprehensive work on the history of Chicago than the five volumes written by Josiah S. Currey - and possibly there will never be. Without making this work a catalogue or a mere list of dates or distracting the reader and losing his attention, he builds a bridge for every historically interested reader. The history of Windy City is not only particularly interesting to her citizens, but also important for the understanding of the history of the West. This volume is number one out of five and covers the time from the period of discovery to the slavery issues of the town in the 19th century.

Chicago: Its History and its Builders, Volume 1

Though living far north of the Mason-Dixon line, many mid-nineteenth-century citizens of Michigan rose up to protest the moral offense of slavery; they published an abolitionist newspaper and founded an anti-slavery society, as well as a campaign for emancipation. By the 1840s, a prominent abolitionist from Illinois had crossed the state line to Michigan, establishing new stations on the Underground Railroad. This book is the first comprehensive exploration of abolitionism and the network of escape from slavery in the state. First-person accounts are interwoven with an expansive historical overview of national events to offer a fresh examination of Michigan's critical role in the movement to end American slavery.

Borrowing from Our Foremothers offers a panorama of women's struggles through artifacts to establish connections between the generations of women's right activists. In a thorough historical retelling of the women's movement from 1848 to 2017, Amy Helene Forss focuses on items borrowed from our innovative foremothers, including cartes de visite, clothing, gavels, sculptures, urns, service pins, and torches. Framing the material culture items within each era's campaigns yields a wider understanding of the women's metanarrative. Studded with relics and ninety-nine oral histories from such women as Rosalynn Carter to Pussyhat Project cocreator Krista Suh, this book contributes an important and

illuminating analysis necessary for understanding the development of feminism as well as our current moment.

When the first Africans arrived in Virginia in 1619, there were no "white" people there. Nor, according to colonial records, would there be for another sixty years. In this seminal two-volume work, *The Invention of the White Race*, Theodore W. Allen tells the story of how America's ruling classes created the category of the "white race" as a means of social control. Since that early invention, white privileges have enforced the myth of racial superiority, and that fact has been central to maintaining ruling-class domination over ordinary working people of all colors throughout American history. Volume I draws lessons from Irish history, comparing British rule in Ireland with the "white" oppression of Native Americans and African Americans. Allen details how Irish immigrants fleeing persecution learned to spread racial oppression in their adoptive country as part of white America. Since publication in the mid-nineties, *The Invention of the White Race* has become indispensable in debates on the origins of racial oppression in America. In this updated edition, scholar Jeffrey B. Perry provides a new introduction, a short biography of the author and a study guide.

Slavery came to North America via Virginia in the early 1600s. It would be two hundred and sixty-five years before the practice would finally come to an end. It would take another one hundred years before the basic civil rights of those former slaves and their descendants were fully established in law. During that time and thereafter, it would be a matter of attitude and acceptance by the white race. Of the years, there were a number of pivotal events that shaped the issues and the responses to slavery and civil rights. The Atlas presents a number of these events in an attempt to tell part of the history of the march for equality in America. It also includes brief biographical sketches of the lives of many of the leading figures that led the fight. This work deals with black Americans or blacks, a term that has become synonymous with the Negro race itself; their struggle out of slavery; and their quest for acceptance and equal rights under the law. The effects of slavery were all pervasive. Without an understanding of and an appreciation for slavery, segregation, and the struggle for equal rights, it is difficult if not impossible to understand the America of our history and to reach beyond where we are today to arrive at where we need to be.

This book is about previously unidentified people who became Abolitionists involved in the antislavery movement from about 1840 to 1860. Although arrests were made in nearby counties, not one person was prosecuted for aiding a fugitive slave in DeKalb County, Illinois. First, the area Congregationalist, Universalist, Presbyterian and Wesleyan Methodist churches all had compelling antislavery beliefs. Church members, county elected officials, and the Underground Railroad conductors and station-masters were all one and the same. Additionally, DeKalb County had the highest concentration of subscriptions to the Chicago-based Western Citizen antislavery newspaper. It was an accepted local activity to help escaped slaves. A biographical dictionary includes evidence and personal information for more than 600 men and women, and their families, who defied the prevailing Fugitive Slave Law, and helped the anti-slavery movement in this one Northern Illinois County. Unique photographs and illustrations are included along with notes, bibliography and index.

Reasoning with Democratic Values 2.0, Volume 1

Harnessing conceptual inspiration through the work of Harriet Tubman and Queen Nanny the Maroon of Jamaica, this book explores the historical and contemporary role that education has – and can continually play as an instrument of personal and group liberation. The book discusses the early formations of the Transatlantic Slave Trade, the enslavement of native populations, and the subsequent development of the Underground Railroad and Maroon societies in the Caribbean and Americas as systems of liberation. It investigates the development and maintenance of racial, gendered and class stratification, and provides a personal path to freedom as a context for a broader discussion on using education as a mechanism for dismantling the effects of colonization, miseducation, and social-psychological domination in schools and society. As a contemporary issue, it presents an in depth analysis of the Tucson Unified School District in Arizona, and the controversy surrounding its ethnic studies program as an example of one of the contested sites of curriculum development and student liberation. Additionally, it discusses high performing charter schools as an alternative model

of education, which may help to provide a systematic way of unshackling institutional barriers and oppression. Ultimately, this book acknowledges that today the road to freedom is still one we must all travel as: miseducation, school failure, school dropout, unemployment/underemployment, poverty, neighborhood violence, incarceration, and a growing prison industrial complex are all reminders of the work that still must be accomplished. Like those who historically sacrificed their lives to gain freedom and an education, today, with the lingering effects of institutionalized systems of domination, education must continue to be an instrument of social mobility and liberation, if indeed, we are to make schools and society more humane and inclusive towards those who are still waiting to be unshackled. The book presents implications regarding the treaties on education for freedom as a school reform and public policy topic.

Unshackled: Education for Freedom, Student Achievement, and Personal Emancipation

Stephen Foster's "My Old Kentucky Home" has been designated as the official state song and performed at the Kentucky Derby for decades. In light of the ongoing social justice movement to end racial inequality, many have questioned whether the song should be played at public events, given its inaccurate depiction of slavery in the state. In *Slavery and Freedom in the Bluegrass State*, editor Gerald L. Smith presents a collection of powerful essays that uncover the long-forgotten stories of pain, protest, and perseverance of African Americans in Kentucky. Using the song and the museum site of My Old Kentucky Home as a central motif, the chapters move beyond historical myths to bring into sharper focus the many nuances of Black life. Chronologically arranged, they present fresh insights on topics such as the domestic slave trade, Black Shakers, rebellion and racial violence prior to the Civil War, Reconstruction, the fortitude of Black women as they pressed for political and educational equality, the intersection of race and sports, and the controversy over a historic monument. Taken as a whole, this groundbreaking collection introduces readers to the strategies African Americans cultivated to negotiate race and place within the context of a border state. Ultimately, the book gives voice to the thoughts, desires, and sacrifices of generations of African Americans whose stories have been buried in the past.

In 1861, Colonel Grenville Dodge organized the 4th Iowa Volunteer Infantry Regiment and led them off to war. They had few uniforms or weapons and were more of a mob than a military unit, but Dodge shaped them into a fighting force that won honors on the battlefield and gained respect as one of the best regiments in the Union army. Promoted to the rank of major-general, Dodge became one of the youngest divisional, corps and departmental commanders in the Army. A superb field general, he also organized a network of more than 100 spies to gather military intelligence and built railroads to supply the troops in the Western Theater. This book covers Dodge's Civil War career and the history of the 4th Iowa, who fought at Pea Ridge, Vicksburg, Chattanooga and Atlanta.

Unlike most books about the Civil War, which address individual battles or the war at the national level, *States at War: A Reference Guide for Michigan in the Civil War* chronicles the actions of an individual state government and its citizenry coping with the War and its ramifications, from transformed race relations and gender roles, to the suspension of habeas corpus, to the deaths of over 10,000 Michigan fathers, husbands, sons, and brothers who had been in action. The book compiles primary source material—including official reports, legislative journals, executive speeches, special orders, and regional newspapers—to provide an exhaustive record of the important roles Michigan and

Michigan had in the War. Though not burdened by marching armies or military occupation like some states to the southeast, Michigan nevertheless had a fascinating Civil War experience that was filled with acute economic anxieties, intense political divisions, and vital contributions on the battlefield. This comprehensive volume will be the essential starting point for all future research into Michigan's Civil War-era history.

This volume of The Frederick Douglass Papers represents the first of a four-volume series of the selected correspondence of the great American abolitionist and reformer. Douglass's correspondence was richly varied, from relatively obscure slaveholders and fugitive slaves to poets and politicians, including Horace Greeley, William H. Seward, Susan B. Anthony, and Henry Wadsworth Longfellow. The letters acquaint us with Douglass's many roles—politician, abolitionist, diplomat, runaway slave, women's rights advocate, and family man—and include many previously unpublished letters between Douglass and members of his family. Douglass stood at the epicenter of the political, social, intellectual, and cultural issues of antebellum America. This collection of Douglass's early correspondence illuminates not only his growth as an activist and writer, but the larger world of the times and the abolition movement as well.

This set includes all six volumes of Interreligious Reflections. ABOUT VOLUME ONE: Friendship is an outcome of, as well as a condition for, advancing interfaith relations. However, for friendship to advance, there must be legitimation from within and a theory of how interreligious relations can be justified from the resources of different faith traditions. Friendship Across Religions explores these very issues, seeking to develop a robust theory of interreligious friendship from the resources of each of the participating traditions. It also features individual cases as models and precedents for such relations—in particular, the friendship of Gandhi and Charlie Andrews, his closest personal friend. Contributors: Balwant Singh Dhillon, Timothy J. Gianotti, Alon Goshen-Gottstein, Maria Reis Habito, Ruben L. F. Habito, Ryan McAnnally-Linz, Stephen Butler Murray, Eleanor Nesbitt, Anantanand Rambachan, Meir Sendor, Johann M. Vento, and Miroslav Volf ABOUT VOLUME TWO: This book tackles the core problem of how painful historical memories between diverse religious communities continue to impact—even poison—present-day relations. Its operative notion is the healing of memory, developed by John Paul II. Chapters explore how painful memories of yesteryear can be healed and so address some of the root causes. Strategies from six different faith traditions are brought together in what is, in some ways, a cross-religious brainstorming session that identifies tools to improve present-day relations. At the

other pole of the conceptual axis of this book is the notion of hope. If memory informs our past, hope sets the horizon for our future. How does the healing of memory open new horizons for the future? And what is the notion of hope in each of our traditions that could lead to a common vision of good? Between memory and hope, this book seeks to offer a vision of healing that can serve as a resource in contemporary interfaith relations. Contributors: Rahuldeep Singh Gill, Alon Goshen-Gottstein, Maria Reis Habito, Flora A. Keshgegian, Anantanand Rambachan, Meir Sender, Muhammad Suheyl Umar, and Michael von Brück

ABOUT VOLUME THREE: The essays collected here, prepared by a think tank of the Elijah Interfaith Academy, explore the challenges associated with sharing wisdom—learning, teachings, messages for good living. How should religions go about sharing their wisdom? These chapters, representing six faith tradition (Jewish, Christian, Muslim, Hindu, Sikh, and Buddhist), explore what wisdom means in each of these traditions; why and how it should be shared, internally and externally; and the role of love and forgiveness in sharing. This book offers a theory that can enrich ongoing encounters between members of faith traditions by suggesting a tradition-based practice of sharing wisdom, while preserving the integrity of the teaching and respecting the identity of anyone with whom wisdom is shared. Contributors: Pal Ahluwalia, Timothy Gianotti, Alon Goshen-Gottstein, Sallie B. King, Anantanand Rambachan, Meir Sender, Miroslav Volf

ABOUT VOLUME FOUR: All the world's religions are experiencing rapid change due to a confluence of social and economic global forces. Factors such as the pervasive intrusion of globalizing political and economic developments, polarized and morally equivalent presentations seen in the media, and the sense of surety demanded in and promised by a culture dominated by science are some of the factors that have placed extreme pressure on all religious traditions. This has stimulated unprecedented responses by religious groups, ranging from fundamentalism to the syncretistic search for meaning. As religion takes on new forms, the balance between individual and community is disrupted and reconfigured. Religions often lose the capacity to recall their ultimate purpose or lead their adherents toward it. This is the situation we call "the crisis of the holy." It is a confluence of threats, challenges, and opportunities for all religions. This volume explores the contours of pressures, changes, and transformations and reflects on how all our religions are changing. By identifying commonalities across religions as they respond to these pressures, *The Crisis of the Holy* recommends ways religious traditions might cope with these changes and how they might join forces in doing so. Contributors: Vincent J. Cornell, Alon Goshen-Gottstein, Sidney H. Griffith, Maria Reis Habito, B. Barry Levy, Deepak Sarma, Michael von Brück

ABOUT VOLUME FIVE: The chapters collected in this book, prepared by a think tank of the Elijah Interfaith Academy, address the subject of religious leadership. The subject is of broad relevance in the training of religious leaders and in the practice of religious leadership. As such, it is also germane to religious thought, where reflections on religious leadership occupy an important place. What does it mean to be a religious leader in today's world? To what degree are the challenges that confront religious leadership today the same perennial challenges that have arrested the attention of the faithful and their leaders for generations, and to what degree do we encounter challenges today that are unique to our day and age? One dimension is surely unique, and that is the very ability to explore these issues from an interreligious perspective and to consider challenges, opportunities, and strategies across religious traditions. Studying the theme across six faith traditions—Christianity, Islam, Judaism, Sikhism, Hinduism, and Buddhism—*The Future of Religious Leadership: World Religions in Conversation* recognizes the common challenges to present-day religious leadership. VOLUME SIX: One of the biggest challenges for relations between religions is the view of the religious Other. The question touches the roots of our theological views. *The Religious Other: Hostility, Hospitality, and the Hope of Human Flourishing* explores the views of multiple religious traditions on how to regard otherness. How does one move from hostility to hospitality? How can hospitality be understood not simply as social hospitality but as theological hospitality, making room for the religious Other on theological grounds? What is our vision for the flourishing of the Other, while respecting his otherness? This volume is an exercise in constructive interreligious theology. By including Abrahamic and non-Abrahamic traditions, it approaches these challenges from multiple perspectives, highlighting commonalities in approach and ways in which one tradition might inspire another.
