Introduction

Overview of Superdeterminism

Bernardo's agreements / disagreements

It's more promising to violate statistical independence (SI)

What are the hidden variables in Superdeterminism?

What is statistical independence? Is it a mere assumption?  
People claim Superdeterminism isn't falsifiable, but is it?  
Back and forth criticism and justification of proposed experiments  
Does experiment change the outcome of what's measured?  
Contrarian views -- should they be put forward tentatively?  
Decoherence and the observer  
The observer (and consciousness) is irrelevant in quantum mechanics  
Why oppose violating statistical independence (SI)?  
Metaphysics? Or simply trying to solve the measurement problem?  
We don't have a good reason to depart with SI  
Holding Sabine to higher standards than John Bell?  
[gastronic] What is the definition of measurement / What does it mean to "look at"?  
[Salvatore Pais] Unification of forces by means of the "Super Force"  
[rad capsule] "Without thought, there is no science."  
Falsifying idealism  
Joscha Bach?  
Notes about the upcoming Salvatore Pais interview  
Escaping the Illusion: Bernardo Kastrup Exposes Reality - Escaping the Illusion: Bernardo Kastrup  
Exposes Reality by Theories of Everything with Curt Jaimungal 325,353 views 3 years ago 4 hours, 41 minutes - Bernardo Kastrup has been leading the modern renaissance of metaphysical idealism, the notion that reality is essentially mental.  
Introduction  
Bernardo's journey from materialism to idealism  
Materialism vs Analytical idealism  
Dissociative identity disorder (multiple personality disorder) and consciousness  
Why does life has a separate consciousness and not, say, a rock?  
What does it mean to "explain" without reductionism?  
Why not start with "nothing"? What would a theory like that look like?  
What does it mean to "exist"? Do abstractions exist?  
Theories of "truth" other than correspondence  
Randomness doesn't exist fundamentally  
If the mind is deceptive then what do we trust?  
Is "Mind At Large" God? Can you pray to it?  
Morality and purpose  
On disagreements with Joscha Bach  
On disagreements with Daniel Dennett  
On disagreements with Dawkins  
On disagreements with Douglas Hofstadter  
If everything is "in the mind" then why are objects independently verified and exert an influence when I'm gone?  
On disagreements with Donald Hoffman and Thomas Campbell  
The distinction between "in your head" and "in your mind" is crucial  
On disagreements with Carl Jung  
On disagreements with Roger Penrose  
Why parsimony in assumptions? Why not many assumptions?  
Curt says Bernardo's theory isn't better than the Flying Spaghetti Monster  
On Schopenhauer  
How to properly read Jung  
Bernardo and Curt speak about the "new age" and "woo"  
On Deepak Chopra  
Does Bernardo fear death? (a story about ego death)  
If this reality is a "dream", how much can we control it?  
Choice, free will, and becoming a slave voluntarily  
The intellect is a bouncer of the heart  
The East vs the West have different answers to the suffering of life  
The "self" is an illusion worth saving  
Bernardo almost killed himself twice, and later found meaning in the suffering  
On the pain of writing  
Should you ever regret? (Buddhism vs Christianity)

If consciousness is all there is, and the self is an illusion, why did the East get that and not the West?  
Can you have morality / ethics within materialism?  
What's the weakest point of Bernardo's model?  
Is there anything special about biological life?  
Logic  
What beats rationality? What's the "game of all games"?  
How does Bernardo write? What's the process look like?  
Bernardo gives Curt advice  
Don't feel like "others have it worse." Honor your suffering.  
Don't take yourself seriously but take life seriously  
Disagreements with Tony Robbins and self-help  
Brain as a radio tuner (Plastic Pears)  
How to falsify Bernardo's theory? What predictions does his model make?  
Other audience questions  
The relationship between universal consciousness and the Platonic Realm (Sessaly)  
These metaphysical questions are dangerous questions
