### Haatchi and Little B

The moving and inspirational story of the friendship between one boy and his dog. On a bitterly cold night in January 2012, Haatchi the dog was hit over the head, and abandoned on a railway line to be hit by a train. The driver saw the adorable five-month old Anatolian Shepherd moments too late. Somehow, the terrified puppy survived the blood loss from his partially severed leg and tail and managed to crawl away to safety. Fortunately, Haatchi was rescued, although vets couldn't save his leg and tail. A Facebook appeal brought him to the attention of a couple of kind-hearted dog lovers, Colleen Drummond and Will Howkins, who are also the dad and stepmum of Owen (known to his family as Little B for 'little buddy'). One look at Haatchi's expressive face told them all they needed to know and the lucky dog moved into the Howkins' family home just six weeks after almost being killed. Owen, now aged eight, has a rare genetic disorder which causes his muscles to tense permanently. Largely confined to a wheelchair, he was withdrawn and anxious and found it difficult to make friends. But when Owen awoke the morning after Haatchi arrived he immediately fell in love with the severely disabled rescue animal who would, in turn, rescue him. This book tells their inspiring true story -- one astonishing little boy and the very special dog who has changed his life forever.

### I Got Two Dogs

John Lithgow sings one of his most popular songs, "I Got Two Dogs," in this e-book edition. The clever rhyming text tells of the narrator's two dogs who could not be more different—one is big, one is small, one barks quietly, while one has a loud and enthusiastic bark—but he loves them both the same. The bold graphic art style adds humor by revealing that the narrator's view of the dogs isn't exactly the way others might see them.

Learn to communicate with your dog—using their language “Good reading for dog lovers and an immensely useful manual for dog owners.”—The Washington Post An Applied Animal Behaviorist and dog trainer with more than twenty years’ experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how “man’s best friend” might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover: • How you can get your dog to come when called by acting less like a primate and more like a dog • Why the advice to “get dominance” over your dog can cause problems • Why “rough and tumble primate play” can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief • How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than “alpha wanna-bes!” Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a completely new way—so as to enrich that most rewarding of relationships.

### Rugby and Rosie

Since the German edition of this book, the topic of risk has experienced even greater attention, not only in the world of science but also in other fields, such as economics and politics. Therefore, many new publications have evolved. To keep with the idea of an encyclopedia for the topic of risk, this book

has been completely reworked. Not only are many updated examples included in chapter "Risks and disasters" but also new chapters have been introduced, such as the chapter "Indetermination and risk". This new chapter was developed since the question "Is it possible for risks to be completely eliminated, and if not why?" has become a major point of concern. Therefore, especially in this chapter, the focus of the book has - tended from a simple mathematical or engineering point of view to include much broader concepts. Here, not only aspects of system theory have to be considered, but also some general philosophical questions start to influence the considerations of the topic of risk. The main goal of this edition, however, is not only the extension and revision of the book, but also the translation into the English language to allow more readers access to the ideas of the book. The author deeply hopes that the success the book made in the German edition continues and that readers experience a major gain from reading the book.

### I Rescued Two Dogs

As Izzy settles down to life on Bedlam Farm, Jon is amazed that all signs of the troubled rescue dog who first arrived have disappeared. More than this, the Border collie demonstrates an uncanny sensitivity to, and tenderness towards, humans who are troubled or ill. Izzy's unusual gift leads Jon off the farm and into new, extraordinary friendships, as they together begin volunteer hospice work. Izzy shows Jon what dogs can do for people at our most desperate times. But the work isn't easy, and Jon is reminded that at times he is needy himself. Enter Lenore, a glossy jet-black Labrador retriever puppy, whose seemingly boundless capacity for love reminds Katz why he'd come to the farm in the first place - and why he'd devoted so much of his life to working with dogs. The Dog who Loved is a moving and inspiring story of love, compassion, and the incredibly rich and complex relationships between dogs and humans. Please note, The Dog who Loved is the UK title for the book published in the US as Izzy and Lenore.

## Observer

A vivid, riveting novel about an abandoned boy who takes up with a pack of feral dogs Two million children roam the streets in late twentieth-century Moscow. A four-year-old boy named Romochka, abandoned by his mother and uncle, is left to fend for himself. Curious, he follows a stray dog to its home in an abandoned church cellar on the city's outskirts. Romochka makes himself at home with Mamochka, the mother of the pack, and six other dogs as he slowly abandons his human attributes to survive two fiercely cold winters. Able to pass as either boy or dog, Romochka develops his own moral code. As the pack starts to prey on people for food with Romochka's help, he attracts the attention of local police and scientists. His future, and the pack's, will depend on his ability to remain free, but the outside world begins to close in on him as the novel reaches its gripping conclusion. In this taut and emotionally convincing narrative, Eva Hornung explores universal themes of the human condition: the importance of home, what it means to belong to a family, the consequences of exclusion, and what our animal nature can teach us about survival.

## The Curious Incident of the Dog in the Night-time

Ollie was just about cured of his basketcase habits; the neurotic lurcher at last appeared to have his paws planted firmly on the ground (well, almost). But did Stephen Foster take a well-earned rest? Not. He decided one thing was missing from Ollie's life, someone who could really understand him, a friend with whom he could have dog-to-dog chats. ? If you must get another dog get a girl, the experts told Foster. So he got a boy, a pure-bred Saluki lunatic called Dylan. As soon as the new puppy peered through the door, Ollie threw his master a look of contemptuous disbelief that said, ? I refuse to have anything whatsoever to do with this. You're on your own, pal. The riotously funny Along came Dylan takes up where Foster's bestselling Walking Ollie left off, but instead of one canine conundrum, he's got two: Dylan, the outlaw, proves to be virtually untrainable; Ollie, feeling threatened, becomes increasingly antisocial, and Foster is caught in the middle wondering why man's best friends can't just be friends.

### The Book of Joe

In the tradition of Anna Quindlen's Good Dog. Stay., the iconic star of the Dr. Phibes films shares the heartwarming tale of his mischievous mutt. Actor Vincent Price won acclaim for his performances as a menacing villain in dozens of macabre horror films, such as House of Wax. Less well known, though, is Price's lifelong love of animals, especially his fourteen-year-old mutt, Joe. From his wife's passion for poodles to film set encounters with all types of creatures, including goats, apes, and camels, Price's life was full of furry, four-legged friends. But it was Joe who truly captured his heart. Intelligent, courageous, and devoted to his owner, Joe was a special dog with a personality all his own. In this touching and light-hearted memoir, with a new introduction by Bill Hader and a preface by Vincent Price's daughter, Victoria, Joe gets involved in all sorts of hijinks: At one point, the actor has to defend his canine companion in court! Despite some bad habits, like stealing guests' shoes, pursuing lustful trysts with neighboring dogs, or belly flopping into the garden fishpond—crushing more than a few fish—Price loves his Joselito, whose unconditional loyalty more than makes up for his minor indiscretions. And when Price's elderly cousin who comes to stay with him is stricken with cancer, Joe never leaves her side. Price's tender and witty recollections of his time spent with Joe will bring joy to any animal lover's heart. The Vincent Price Family Legacy will donate a portion of the proceeds from this book to the Fund for Animals.

### Texts from Dog

Dog is back - the Bark Knight has risen. Unfortunately for weary owner October Jones (but luckily for us), that means there is a brand new selection of the funniest, most bizarre texts from his insane canine companion. There is also the welcome return of Batdog and CatCat (half cat, half cat), and a new 'friend' in Benedict, the creepiest pug in the world.

### Beautiful Joe : the Autobiography of a Dog

In The Mafia Cookbook, Joe Dogs took the quintessential Mob formula -- murder, betrayal, food -- and turned it into a bestseller, not surprisingly, since Joe Dogs's mixture of authentic Italian recipes and colorful Mafia anecdotes is as much fun to read as it is to cook from. Now The Mafia Cookbook is reprinted with Cooking on the Lam -- adding thirty-seven original new recipes and a thrilling account of Dogs's recent years since he testified against the Mob in five major trials, all told in his authentic, inimitable tough-guy style. The new recipes are simple, quick, and completely foolproof, including such classic dishes as Shrimp Scampi, Tomato Sauce (the Mob mainstay), Chicken Cordon Bleu, Veal

Piccata, Marinated Asparagus Wrapped with Prosciutto, Baked Stuffed Clams, Veal Chops Milanese, Sicilian (what else?) Caponata, Gambino-style Fried Chicken, Lobster Thermidor (for when you want to celebrate that big score), and desserts rich enough to melt a loan shark's heart. Readers can follow these recipes and learn to cook Italian anytime, anywhere, even on the lam, even in places where Italian groceries may be hard or impossible to find. Tested by Mob heavy hitters as well as FBI agents and U.S. marshals, these recipes are simple to follow, full of timesaving shortcuts, and liberally seasoned with Joe Dogs's stories of life inside -- and outside -- the Mob. This is the perfect cookbook for anyone who wants to make the kind of food that Tony Soprano only dreams about.

### The Mafia Cookbook

The first book to give the hunting dog owner comprehensive information and guidelines for the lifetime health care of their hunting dogs. The author covers a step-by-step schedule of care for an eight-week-old puppy to a senior dog of 18 years. There is an extensive section on conditioning and pre-season exercises. The author also covers the importance of breeding and dog nutrition and its importance in performance and good conformation. There is also a section on health care including vaccinations, and on skin and coat care. Also covered are the common orthopedic problems and conditions in hunting dogs and how to treat them.

### Beautiful Joe

"Joe Camp did it again! I Love this book. It is short, a quick easy read, but PACKED with profound insight into the way dogs view life. It is a book I will read over and over to remind me that by viewing the world thru a dog's eyes I can become a better person." - Jane Collier From Joe: I've spent three decades wandering around inside the heart and soul of a dog, writing Benji stories, directing Benji movies, trying to understand how to better draw you, the audience, in there with me. This time and effort spent on four legs learning to inhale the world from a canine point of view has taught me many amazingly simple lessons about life. Lessons that can and should apply to our lives, yours and mine, because they work better. Dogs know more than we do. By knowing less. If you don't have a dog, or two, or three, there's no way for you to understand this concept, much less embrace it. So put this book down and go straightaway to your local animal shelter. Don't open the cover until you have a warm puppy or a big old lab sprawled in your lap. For the rest of us, those who have dogs, squeeze in closer for a moment and ponder this quiz. Have you ever told a little white lie? Or maybe a bigger one that wasn't even white? Have you ever stomped through the front door all grumpy and barking at your kids, or your spouse? Have you ever questioned the value of being persistent, not giving up? Or being loyal? Or having passion? Have you ever had to work at making someone else happy? Have you ever shaded the truth in a business deal? Or pondered the meaning of the word selfish? Your dog hasn't. None of the above. And we can all learn from that. And that's what this book is about. "Joe Camp is phenomenal! Everything he writes somehow always hits home. His love and sympathy for animals is wonderful. When you have lost touch this is a must read." - Suzanne Reeves "This may be a little book, but it packs a HUGE message. The heart-felt warmth and genuine love for dogs with which Joe writes is contagious. Even if you don't have a dog or dogs, the lessons in this book are still applicable. And if, after reading this book, you find yourself at your local animal shelter, don't be surprised! This book would make a great gift to give to ANYONE!" - Ruth Swander "Joe Camp is a master storyteller." - The New York Times "One cannot help but be touched by Camp's love and sympathy for animals and by his eloquence on the subject." - Michael Korda, The Washington Post

### Baily's Magazine of Sports and Pastimes

On the eve of one of mankind's toughest races, accompanied by thirteen of America's rarest dog breed, rookie musher Kyle Walker only has one thought in mind: win. Discovered in the lowlands of South Carolina, the Carolina grays have traveled over five thousand miles to face off in the 2003 Yukon Quest. But one dog stands above the rest—King. When an unexpected storm strikes, Kyle Walker and the reigning champion are forced to turn back. Stranded at the checkpoint, Kyle and his dogs find solace in a young veterinarian with auburn hair and keen green eyes—Jenna Maynor. In this storm another race is forming, one of an Inuit man racing to save his family. Presented with the choice to help, but at the risk of his and his dogs' lives, Kyle Walker ventures into the unknown in search of a mom and two young daughters. The Yukon Quest was founded on the premise that a dog driver and his team should be a self-sufficient unit capable of challenging varied terrain and severe weather. But these conditions may prove to be too much, even for Kyle and King.

What happens when one dog roams the countryside and makes a home for himself in every house? How can so many different people find themselves drawn together and become friends? What is it about this dog that makes people love him, whether they want to or not? Bailey is a city dog brought to the country, and he finds that it suits him better. Before long he's roaming the woods and fields of the Hill, making friends everywhere that he goes. Wherever he visits he finds sadness and grief, but when he leaves, people's lives are changed forever. Whether it's the old man who lives alone or the grieving widow who looks for happiness in a bottle of wine, Bailey comes into their lives and shakes it up, making them better people just because he's there. Each person believes they are the only ones that Bailey visits, but just how long will it be until he gets caught? And what will happen when everyone learns the truth? Based on the life adventures of a real dog, "The Secret Life of Yellow Dog" is a tale of love, acceptance, and understanding as people collide and clash, all over a single dog.

### Faith In Every Footstep

In the fictional story of Merit the Greyhound, the reader learns about some of the unique characteristics of the greyhound breed and the racing industry. Greyhounds, the world's oldest and fastest breed, were worshiped by the Egyptians -Racing dogs must win or face an uncertain future. As events unfold Merit and her kennel mates recognize they are lucky to belong to Tom Coal, a kind and ethical dog trainer. In a twist of fate, Isabel and King, two retired greyhounds, help Merit and her kennel mates

navigate the often cruel world of dog racing. Merit's extraordinary speed creates jealousy in the kennel. The greyhounds' fragility helps develop a love story between trainer Tom and veterinarian Carol. Merit breaks the rules and falls for a racing competitor and must fight to regain composure or risk separation from her teammates. King's coaching helps Merit save the other greyhounds when a fire breaks out at the track. Merit encounters her first cat, Swish--her sharp clawed, name calling, nemesis. A sudden event leads Swish and Merit to become allies. Finally, a dramatic crash on the track leaves a friend dead and Merit facing retirement.

### Hearings

Dogs have shared our homes for as long as we can remember, and, in return, have guarded us, helped us hunt, and herded our livestock. They have generally been our friends as well; that is what most of them are today. Canine friends give us uncritical affection, free of the ambivalence that plagues human relationships. Dogs figure prominently in literature, starting with Homer's Argus, the hound who remembered Odysseus after twenty years. Victorian novels are full of vivid canine characters. "Ms. Rogers is impressively thorough...best of all, the author knows and respects dogs." Steve Goode, Washington Times

### Dog Tales

An Epic Story of a Poodle's Heart and His Will to Survive. A wonderful "human" story as it can only be seen through a dog's eyes. Together and apart, man and dog face betrayal, lost love, and hardship. Only through deep devotion and perseverance do the windows open to each of their hearts, allowing them the strength to endure and face the future unknowns.

Joyce Ackley, author of Get Out of Heaven's Waiting Room, now has a book of poetry, House of Memories and other poems. The cover is her drawing of the house that was lived in by four generations of her family. Some of her poetry reflects the memories of people and events spent at that home, which has now been demolished. Her poems are simple memories or ah-ha moments when she discovered the beauty and mystery of nature.. She ends her book with a few little rhymes for the little ones who also enjoy poetry. Her sense of humor is found in such poems as There's Prejudice in the Church, or Confessions to my Third Grade Teacher.
