Appalachian Justice

In 1945, when Billy May was fourteen years old and orphaned, three local boys witnessed an incident in which Billy May's sexuality was called into question. Determined to teach her a lesson she would never forget, they orchestrated a brutal attack that changed the dynamics of the tiny coal mining village of Cedar Hollow, West Virginia forever.

Indies Unlimited: Authors' Snarkopaedia

In Volume One of the Authors' Snarkopaedia, sentences have been painstakingly crafted together using nouns, verbs and other words, bringing you paragraphs of text. These paragraphs flow into pages of expert tips, advice and insight for authors at all levels of the publication food chain. Any book can claim to offer this type of information, but they can't give you what sets the Indies Unlimited Authors' Snarkopaedia above the rest: the "je ne sais squat" of the high decorated staff of the Snarkology Department at the Indies Unlimited Online Academy. Their groundbreaking and empirical research over the years sheds new and snarkified light on subjects ranging from book publishing and marketing to the nuts and bolts of writing and technology. If you like information to grab you by the throat and smack you in the face, the Indies Unlimited Authors' Snarkopaedia is the reference book for you.

Liar's Winter

A West Virginia family struggles amid the booms and busts of the Appalachian coal industry in this "powerful, sure-footed, and haunting" novel with echoes of John Steinbeck (New York Times Book Review). Set in present day West Virginia, this debut novel tells the story of a coal mining family—a couple and their four children—living through the latest mining boom and dealing with the mountaintop removal and strip mining that is ruining what is left of their hometown. As the mine turns the mountains "to slag and wastewater," workers struggle with layoffs and children find adventure in the blasted moonscape craters. *Strange as This Weather Has Been* follows several members of the family, with a particular focus on fifteen-year-old Bant and her mother, Lace. Working at a motel, Bant becomes involved with a young miner while her mother contemplates joining the fight against the mining companies. As domestic conflicts escalate at home, the children are pushed more and more frequently outside among junk from the floods and felled trees in the hollows—the only nature they have ever known. But Bant has other memories and is as curious and strong-willed as her mother, and ultimately comes to discover the very real threat of destruction that looms as much in the landscape as it does at home.

Appalachian Portraits

Class MattersBy The New York Times

Strange as This Weather Has Been

"Freed Black women organizing for protection in the Reconstruction-era South. Jewish immigrant garment workers braving deadly conditions for a sliver of independence. Asian American fieldworkers rejecting government-sanctioned indentured servitude across the Pacific. Incarcerated workers advocating for basic human rights and fair wages. The queer Black labor leader who helped orchestrate America's civil rights movement. These are only some of the working-class heroes who propelled American labor's relentless push for fairness and equal protection under the law. The names and faces of countless silenced, misrepresented, or forgotten leaders have been erased by time as a privileged few decide which stories get cut from the final copy: those of women, people of color, LGBTQIA people, disabled people, sex workers, prisoners, and the poor. In this definitive and assiduously researched work of journalism, Teen Vogue columnists and independent labor reporter Kim Kelly excavates that untold history and shows how the rights the American worker has today--the forty-hour workweek, workplace-safety standards, restrictions on child labor, protection from harassment and discrimination on the job--were earned with literal blood, sweat, and tears."--Amazon.

Class Matters

The New York Times bestselling author of *Redeeming Love* and *A Voice in the Wind* pens a captivating tale of suffering, seeking, and redemption set in Appalachia in the 1850s. In the misty peaks and valleys of Appalachia roams the sin eater—a myth as much as a man, burdened with absolving the sins of villagers passing from this life to the next. But when a young girl uncovers the dark secret behind the tradition, she vows to show her village the truth. All that matters for young Cadi Forbes is finding the one man who can set her free from the sin that plagues her, the sin that has stolen her mother's love from her and made Cadi wish she could flee life and its terrible injustice. But Cadi doesn't know that the sin eater is seeking as well. Before their journeys are over, Cadi and the sin eater must face themselves, each other, and the One who will demand everything from them in exchange for the answers they seek. "This unforgettable novel is rich in style, lore, and action, revealing a profound truth in a way only Francine Rivers can do. Transcending age, gender, and reading genres, this gripping story is a must-read for men, women, and young people alike." —*Romantic Times* "Rivers delivers both a powerful message about Christian beliefs and the need for forgiveness of sins and an evocative portrayal of life in the 1850s. Highly recommended." —*Library Journal* Also available in The Francine Rivers Historical Collection (e-book only).

SOON TO BE FEATURED ON THE GRAHAM NORTON BOOK CLUB PODCAST ON AUDIBLE
Discover Albert French's haunting first novel; a story of racial injustice, as unsentimental as it is heartbreaking. The tale of Billy Lee Turner, a ten-year-old boy convicted of the murder of a white girl in Mississippi in 1937, illuminates the monstrous face of racism in America with harrowing clarity and power. Narrated in the rich accents of the American South, Billy's story is told amid the picking fields and town streets, the heat, dust and poverty of the region in the time of the Depression. 'Billy is a book that will stay with me in my dreams', Tim O'Brien author of *The Things They Carried*

A Thousand-Mile Walk to the Gulf

This thoughtful, compassionate book makes a major contribution to our understanding of the Southern Appalachian child—his mental disorders and his adaptive strengths. Drawing upon his extensive fieldwork as a clinical child psychiatrist in Eastern Kentucky, Dr. Loeff suggests means by which these children can be helped to bridge the gap between their subculture and the mainstream of American life today. The children described in this book, the author points out, are in a real sense not "all children." Since no child grows up in a vacuum, the children of Eastern Kentucky cannot be understood apart from the historical, geographic, and socioeconomic characteristics of the area in which they grow. Knowledge of the children requires some knowledge of the lives of parent, teachers, and the many others upon whom they are dependent. That is to say, mental disorder—or mental health—is embedded in a social matrix. Dr. Loeff therefore examines the milieu of these Southern Appalachian children, their future as adults, and how they can achieve their potential—whether in their native or an urban setting. In viewing the children within their own cultural framework, Dr. Loeff shows how they develop toward mental health or psychopathology, suggesting supportive techniques that build upon the strengths inherent in each child. These strengths, he suggests, rise out of the same culture that burdens the child with handicaps. Dr. Loeff's position is one of guarded optimism, based on the successes of the techniques he has used and observed in seven years of work in Appalachian field clinics. Although he details instances of mental disorder in children, and instances of failure in family functioning, he notes at the same time family strengths and sees these strengths as sources of hope. Although this book is based on fieldwork techniques within a specific area and culture, it is paradigmatically suggestive of wider application. Dr. Loeff demonstrates effectively and clearly the profound need for increased concern about what is happening to the rising generation—the children of Eastern Kentucky, the children of the Southern Appalachian region, and the children of the rural south.

Recording Culture

In 1907, author, poet, essayist, and folk art historian Eliza Calvert Hall (1856--1935) published *Aunt Jane of Kentucky*, a collection of stories about rural life infused with the spirit and gentle good humor of its elderly narrator, Aunt Jane. The book and several sequels achieved wide popularity, reaching an estimated one million readers in her lifetime, and placed Hall in the front ranks of "local color" fiction writers of her time. Eliza Calvert Hall's life and work unfolded during a time of restlessness and change for American women. Born Eliza "Lida" Calvert in Bowling Green, Kentucky, Hall experienced the upheaval of both the Civil War and family scandal. Forced to help support her mother and four siblings by teaching school, she became a published poet, adopting her grandmother's name, Hall, as her pseudonym. At twenty-nine, she married William A. Obenchain, and in the space of eight years gave birth to four children. As Hall struggled to balance her writing career with the duties of a nineteenth-century wife and mother, suffragist Laura Clay was lobbying for every woman's right to vote. Hall joined the battle, writing fearlessly in support of suffrage and equality. While her passionate essays served as a direct appeal for this cause, her creative writing also carried a feminist spirit, celebrating the strength, humor, love, and art of the common woman. In *Eliza Calvert Hall: Kentucky Author and Suffragist*, Lynn E. Niedermeier tells the story of this remarkable Kentuckian for the first time. Hall's challenge was to balance the artist's creative ambitions with the crusader's passion for achieving the goal of political equality for American women. Her successes did not stem from privilege or leisure; although she was an acclaimed writer, Hall was an ordinary woman, a wife and mother of moderate economic means. Through the power of her words, she challenged others to match her courage, independence, intellectual energy, and loyalty to her sex.

In a time of climate change and mass extinction, how we garden matters more than ever: "An outstanding and deeply passionate book." —Marc Bekoff, author of *The Emotional Lives of Animals* Plenty of books tell home gardeners and professional landscape designers how to garden sustainably, what plants to use, and what resources to explore. Yet few examine why our urban wildlife gardens matter

so much—not just for ourselves, but for the larger human and animal communities. Our landscapes push aside wildlife and in turn diminish our genetically programmed love for wildness. How can we get ourselves back into balance through gardens, to speak life's language and learn from other species? Benjamin Vogt addresses why we need a new garden ethic, and why we urgently need wildness in our daily lives—lives sequestered in buildings surrounded by monocultures of lawn and concrete that significantly harm our physical and mental health. He examines the psychological issues around climate change and mass extinction as a way to understand how we are short-circuiting our response to global crises, especially by not growing native plants in our gardens. Simply put, environmentalism is not political; it's social justice for all species marginalized today and for those facing extinction tomorrow. By thinking deeply and honestly about our built landscapes, we can create a compassionate activism that connects us more profoundly to nature and to one another.

The Leopard's Spots: A Romance Of The White Man's Burden 1865-1900, By Thomas Dixon. Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

A New Garden Ethic

In the autumn of 1777, near Saratoga, New York, an inexperienced and improvised American army led by General Horatio Gates faced off against the highly trained British and German forces led by General John Burgoyne. Despite inferior organization and training, the Americans exploited access to fresh reinforcements of men and materiel, and ultimately handed the British a stunning defeat. Assimilating the archaeological remains from the battlefield along with the many letters, journals, and memoirs of the men and women in both camps, Snow provides a richly detailed narrative of the two battles fought at Saratoga over the course of thirty-three tense and bloody days.

American Military History provides the United States Army—in particular, its young officers, NCOs, and cadets—with a comprehensive but brief account of its past. The Center of Military History first published this work in 1956 as a textbook for senior ROTC courses. Since then it has gone through a number of updates and revisions, but the primary intent has remained the same. Support for military history education has always been a principal mission of the Center, and this new edition of an invaluable history furthers that purpose. The history of an active organization tends to expand rapidly as the organization grows larger and more complex. The period since the Vietnam War, at which point the most recent edition ended, has been a significant one for the Army, a busy period of expanding roles and missions and of fundamental organizational changes. In particular, the explosion of missions and deployments since 11 September 2001 has necessitated the creation of additional, open-ended chapters in the story of the U.S. Army in action. This first volume covers the Army's history from its birth in 1775 to the eve of World War I. By 1917, the United States was already a world power. The Army had sent large expeditionary forces beyond the American hemisphere, and at the beginning of the new century Secretary of War Elihu Root had proposed changes and reforms that within a generation would shape the Army of the future. But world war—global war—was still to come. The second volume of this new edition will take up that story and extend it into the twenty-first century and the early years of the war on terrorism and includes an analysis of the wars in Afghanistan and Iraq up to January 2009.

The feelings are mutual...and

The Southern Appalachian Region is the largest American "problem area"—an area whose participation in the economic growth of the nation has not been sufficient to relieve the chronic poverty of its people. The existence of the problem was recognized a generation ago, but in the past decade the resistance of such areas to economic advance has acquired a more urgent significance in American thought. In 1958, a group of scholars undertook to make a new survey of the Southern Appalachian Region. Aided by grants from the Ford Foundation ultimately amounting to \$250,000, they set out to analyze the direction and extent of the changes which had taken place since the last survey (in 1935), to define the problem in terms of the present situation, and—if possible—to arrive at recommendations for action which might enable the leaders of the Region and the nation to attack the problem with practical measures. In this volume are presented their comprehensive reports on the Region's population, its economy, its institutions, and its culture. The problems defined by this survey are a challenge to the whole nation, for the consequences of success or failure in solving them will not be limited to the Southern Appalachian Region.

American Military History Volume 1

We begin on the first day of sixth grade in the upper-class community of Roslyn. I was the biggest loser in school and struggled to stay afloat. Then one day everything changed. It was in the eighth grade when I went from being the biggest embarrassment on Long Island to the most popular kid in school. But by that time it was already too late. So began a dark trail of revenge. It was May 4th of 1999 and I was fourteen-years-old. After being shipped across many state lines, touring America's finest juvenile institutions, I find myself at the infamous and notorious Hidden Lake Academy, an academy tucked quietly in the darkness of the Appalachian Mountains of Georgia. But before being shut down in June of 2011 for 'the tragic maltreatment of troubled youth', Hidden Lake Academy was still a thriving success with seemingly no way out. But I had to escape the danger, I had to unshackle my feet, and thus my journey to freedom began... But after a major catastrophe, I end up in New England, alone, on the run, homeless, sleeping in abandoned attics filled with counterfeit money, prostitutes and danger. I had nowhere to go, nowhere to sleep, and no money to eat. I was sixteen-years-old, it was a month before 9/11 and it was the greatest time of my life. Welcome to The Drifter Chronicles, Volume One.

A Brief History of Forestry

A bold call to deromanticize education and reframe universities as terrains of struggle between alternative modes of studying and world-making Higher education is at an impasse. Black Lives Matter and #MeToo show that racism and sexism remain pervasive on campus, while student and faculty movements fight to reverse increased tuition, student debt, corporatization, and adjunctification. Commentators typically frame these issues as crises for an otherwise optimal mode of intellectual and professional development. In *Beyond Education*, Eli Meyerhoff instead sees this impasse as inherent to universities, as sites of intersecting political struggles over resources for studying. Meyerhoff argues that the predominant mode of study, education, is only one among many alternatives and that it must be deromanticized in order to recognize it as a colonial-capitalist institution. He traces how key elements of education—the vertical trajectory of individualized development, its role in preparing people to participate in governance through a pedagogical mode of accounting, and dichotomous figures of educational waste (the “dropout”) and value (the “graduate”)—emerged from histories of struggles in opposition to alternative modes of study bound up with different modes of world-making. Through interviews with participants in contemporary university struggles and embedded research with an anarchist free university, *Beyond Education* paves new avenues for achieving the aims of an “alter-university” movement to put novel modes of study into practice. Taking inspiration from Black Lives Matter, Occupy Wall Street, and Indigenous resurgence projects, it charts a new course for movements within, against, and beyond the university as we know it.

Thoughts in the valleys: lessons from valleys of the Old Testament

The book is a collection of thoughts and poems that reflect the hills and valleys of life. The book is a collection of thoughts and poems the author wrote from junior high school to adulthood. From a young age, the author used poem as a way to cope with life and the challenges it presented to him as he grew. The book represents challenges to find love, with God, with society, with past demons, and with self.

Thoughts in the Valleys: Lessons from Valleys of the Old Testament

Through the door I could see her among the bushes, her lithe form bending in the quest of blossoms. Were it midsummer, I thought, and the garden filled with the whole season's wealth of flowers, it could hold nothing more beautiful than she. Perhaps there was some shadow of my moody fit, the evening after the dinner at the Hall, remaining to sadden my thoughts of parting from her. I cannot tell. I only know that they were indeed sad thoughts.

Mighty in the Scriptures

"The most powerful spiritual healer, fixer, teacher on the planet." —Oprah Winfrey Is it the job you hate but need in order to pay the rent? Is it that relationship that you gave your all to only to end up with a broken heart...again? Perhaps it's your children, a family member, or a life-long friend doing you in, dragging you down, pushing you to the brink. If you are an honorary member of the Black Woman's Suffering Society, you have probably been told that it's all your fault. Or that struggling and suffering is your lot in life. Iyanla Vanzant says, No! Life is an Act of Faith and suffering is optional! Those everyday challenges, obstacles, and dilemmas are what Iyanla calls "valleys." As bad as they may seem, there is a purpose or, as Iyanla says, "There is so much value in the valley." If you've ever been disappointed, betrayed, rejected, abandoned, or just plain old scared to let go, then you've been or may still be in a valley. Iyanla knows—she's been there and on a bad day she's still there, but now she shares the way out with you.

Word and work, ed. by C.R. Hurditch

I have walked many different paths, in several different countries, with many different people that I called friends and loves. Several times I became lost to my direction, and I had doubts in the Omnipresent Sacred Spirit, God, Allah, and hundreds of different names throughout time and even now. I have seen valleys of depression filled in by the crumbling mountains of stress, and I have seen crooked paths straightened, changing peoples lives. I knew these changes because I lived with and passed through the valleys, mountains, and crooked paths. This book has poems, thoughts, and a story or two that I have been writing for many years as I recorded what I have seen, what I had dreamed, and what my imagination gave to me. My Faith, my Hope, my Prayers, and my Imagination, are what I hope may help someone else in reading and enjoying these scribed experiences. Poetry, prayers, and imagination are at times hard to understand without the experience from which they came. It is a gift, and a work of love to all of The Great Spirits People. Mitakuye Oyasin! Valley of Thoughts

"How Green Was My Valley" is Richard Llewellyn's bestselling -- and timeless -- classic and the basis of a beloved film. As Huw Morgan is about to leave home forever, he reminisces about the golden days of his youth when South Wales still prospered, when coal dust had not yet blackened the valley. Drawn simply and lovingly, with a crisp Welsh humor, Llewellyn's characters fight, love, laugh and cry, creating an indelible portrait of a people.

Value in the Valley

Few people escape dark days or mind-boggling distress. Fewer yet are prepared when crushing blows leave them staggering with grief and pain. Knowing God's tried and proven mind-science principles will mean the difference between developing a growing positive experience rather than a trip into debilitating depression. Some might classify When You Walk a Dark Valley as a self-help book. It is more than that; it is how to turn disaster, overwhelming grief and pain into wells of water springing up like artesian springs for exuberant, thriving in Christ. It is turning bitter experiences produced even by supposed dear friends and loved ones, into victorious Christian living beyond your wildest expectations. It is taking every negative of life and finding incredible joy in Jesus and growth in His grace to become what He intended you to be. It is realizing that the way God has led was right for you and was really from His hand. Beyond all this, it will make the reader an instrument in God's hands to win the very souls who sought to wound him, making him the carrier and administrator of God's ultimate agape love. Realizing more of His selfless love, you will know more of His grace to not merely survive unbearable pain, but then to thrive in His more abundant life. You will find His peace in trusting Him with every inch of your innermost soul. If you personally take these few brief lessons to heart, you will never be the same again. This will be your reward for reading When You Walk a Dark Valley!

The Speaking Voice

Developing a Spiritual Warfare Mentality in the Midst of the Valley is a revolutionary look at Spiritual Warfare from a practical point of view. This book is designed to challenge your thinking so that you can function accurately in the midst of any situation that life presents. Hidden in the midst of every valley is the purpose waiting to be discovered. When you learn to think differently, you will discover the wonderful treasure of purpose, which will ultimately bring fulfilment to your life. In this landmark work, Stanley Saunders uses the analogy of two valleys (valley of bad decision and valley of destiny) to stir change in the heart of people. Regardless of what valley you find yourself in this book teaches you how

to respond so that you can find meaning and significance to life. Most people are tired of going through the same battles and struggles over and over. Therefore, its time to break that trend by applying the life-changing principles of Gods Word. Are you ready for victory in every area of your life?

Miracles of mercy; or, Asked of God

This Treasury of Biblical Moments is a collection of selected Scripture verses from all sixty-six books of the Bible. A theme is chosen for each verse, and that theme is developed with clarification of the text and other supporting Scripture. Effort has been made to point to the God we worship, to His saving grace through Jesus Christ, and to see practical applications to the concerns of our daily lives as children of God. It has been the author's desire to show that our Lord and Savior understands the paths we tread, the valleys and mountain peaks of our lives, and that He walks with us every step of our journey. Here you can spend a few moments in time that can have eternal value."

Her readings of a broad range of Emerson's writings are guided by a central question: what does it really mean to maintain that everything fluctuates, is relational, and so changes its identity?

History of Hocking Valley, Ohio

This is a collection of poems that vary in length, type and topic. Some are up, some are down, and a few fall somewhere in between. The goal was not to have them written for publication, and many were never thought to be read. These poems were simply written as an expression of the feelings and thoughts of that moment. They convey the human condition in that some days are joyful, and others filled with sorrow. And that it is day to day for many of us. Poetry is and always has been subjective. Each reader will take something different from what they have read. It is the author's goal, however, that this collection will help to serve as a reminder that whether we are at a peak or in a valley, we remain in the palm of God's hand.

In this unique collection of short stories and poems, Teresa Diane Daniell Freeman fondly re-creates the special childhood she enjoyed on her family's old-fashioned farm in the deep South of a much earlier time. She takes us back to this bygone era in a wonderfully poetic and often humorous way that

you will no doubt find wistful, entertaining and, above all, delightfully inspiring. Country poets are hard to come by and she is that and more. In this writing, she recalls, usually in the voice of the child she remembers being, what the old farm life was like. You'll be caught up in the vivid recollections of a girl who grew up in a loving, yet hard working environment where you had to produce most of what you ate and wore. She speaks eloquently of a life where only a few "special" things were bought from the country store down the road and everything else came from hard work and the farm. In both story and poem, she speaks poignantly of the fabric of her childhood -- about working hard to make the things we take for granted today (from dresses to sausage), being in church every time the doors opened, and even of being guilty of more than a little mischief. This volume portrays the daily life of ordinary Japanese civilians on the home front during World War Two. Drawing extensively on wartime records and early postwar recollections of people who lived through the war era, the book reveals a surprisingly cohesive society that bore up remarkably well.
