Monkey on a Stick

When ex-Krishna Steve Bryant launched a one-man holy war against the Hare Krishna cult, his body was found murdered. It was the Krishnas' response to make Bryant a monkey on a stick, a gruesome warning to all other Krishnas that death was in store for those with dreams of defection. 16 pages of photos.

Monkey on a Stick

A former Hare Krishna follower's investigation into corrupt and criminal practices of the sect

Killing for Krishna

The 1986 murder of Hare Krishna devotee Steven Bryant (Sulochan dasa) was arguably the darkest moment in the fifty-two year history of the International Society for Krishna Consciousness—a new branch of the Chaitanya-Bengali-Vaishnava religion founded in New York City in 1966 by an Indian spiritual teacher and guru, His Divine Grace A. C. Bhaktivedanta Swami Prabhupada (1896-1977). A mere nine years after the disappearance of this beloved spiritual father, one of their own was hunted down and assassinated. This brutal killing was achieved through a cooperative effort by "spiritual" leaders, senior managers and hit men enforcers from West Virginia, Ohio, and Southern California ISKCON temples. The murdered whistle-blower had discovered many secrets and threatened to reveal to the world the immoral acts and criminal dealings of a set of self-appointed, illegitimate successors to Swami Prabhupada: a corrupt oligarchy of new ISKCON "gurus." He had also, perhaps foolishly, advocated using violence against the gurus to evict them from their posts. ISKCON leaders took his threats seriously, and they hunted down and assassinated the passionate reformer. How did the peaceful, shaven-headed, saffron-clad Hare Krishna devotees regress from their blissful activities of chanting, dancing, and selling incense in the streets to this? The author, himself a former ISKCON devotee, probes deeply into the disturbing direction of a new religious movement. In this book, he

exposes the danger of philosophical errors and deranged devotion that practically ensured that bloody tragedy would eventually occur. The author has engaged in years of painstaking research by poring over tens of thousands of pages of trial transcripts, newspaper and magazine articles, ISKCON publications, and confidential ISKCON documents, while also interviewing dozens of eyewitnesses. His effort culminates in a thoroughly-engaging and extremely well-documented thesis exposing the hidden inside story of the conspiracy to murder Steven Bryant, including its genesis, development, blunders involved in it, execution, cover up, as well as a stunning aftermath after the deed was done.

Somebody Else's Children

With the narrative force of an epic novel and the urgency of first-rate investigative journalism, this important book delves into the daily workings and life-or-death decisions of a typical American family court system. It provides an intimate look at the lives of the parents and children whose fate it decides. A must for social workers and social work students, attorneys, judges, foster parents, law students, child advocates, teachers, journalists and anyone who cares about our nation's children.

The Science of Self-Realization

This collection of articles by Srila Prabhupada from Back to Godhead magazine covers knowledge of the soul and the practice of bhakti-yoga. These interviews, lectures, and essays cover topics such as the goal of human life, seeking a true spiritual teacher, reincarnation, super-consciousness, Krishna and Christ, and spiritual solutions to today's social and economic problems.

The Guru Business

Sulocana Prabhu was murdered May 22nd, 1986, 1:00 a.m., Los Angeles, two days after compiling his book "THE GURU BUSINESS"

The Hare Krishna Explosion

Prize-winning author John Hubner tells the inside story of the idealistic yet notorious entrepreneurs who turned pornography into mainstream entertainment, riding the '60s counterculture wave to fantastic success and, ultimately, to tragedy.

Bottom Feeders

This book studies the deviant form of Nonprofit Groups (NPGs), mainly volunteer-based associations, but occasionally paid-staff-based nonprofit agencies. A Deviant Nonprofit Group (DNG) is defined as "a Nonprofit group that deviates significantly from certain moral norms of the society" (Smith, Stebbins, & Dover, 2006, p. 68). The aim is to develop and present an empirically grounded theory with eighty-three hypotheses about many of the key analytical features or operational and structural characteristics of DNGs. Such DNGs were usually voluntary associations with memberships and usually run by volunteers, not nonprofit agencies without memberships and usually run by paid staff (Smith, 2017a). The total theory may be termed a Grounded General Theory of DNG Operation-Structure. The book is based on an extensive review and qualitative content analysis of about 260 published research documents representing twenty-five common-language (vernacular) purposive-goal types of DNGs (vs. analytical-theoretical types, which do not exist in detail). Moral norms are the broad, emotionally charged, customary directives concerning what is right and wrong, by which members of a community or society implement their institutionalized solutions to problems significantly affecting their valued way of life (Stebbins, 1996, pp. 2–3). All the grounded hypotheses reported here were supported by empirical evidence for at least one (often two) of the two or three specific DNGs studied for all DNG types in source documents. Indeed, all reported hypotheses were supported by most of the twenty-five DNG types studied, giving significant qualitative validity to the author's Grounded General Theory of DNG Operation-Structure. Such support suggests these hypotheses are valid at least sometimes for most DNG types and deserve further investigation. Collectively, the hypotheses of the present theory can be seen as a new theoretical paradigm for studying NPGs that helps bring analytical order to a previously chaotic realm of nonprofit sector deviant (rule-breaking) phenomena.

A Review of Deviant Nonprofit Groups

In a passionate and polemical manner, Pino Aprile's "Terroni" examines the effect that the unification of Italy has had on Southern Italy and analyzes what some of the ramifications are today. A bestseller in Italy, the book sold more than 200,000 copies in its first year of print.

Terroni

In these pages, the authors of the widely-acclaimed *The Wellness Syndrome* throw themselves headlong into the world of self-optimization, a burgeoning movement that seeks to transcend the limits placed on us by being merely human, whether the feebleness of our bodies or our mental incapacities. Cederström and Spicer, though willing guinea pigs in an extraordinary (and sometimes downright dangerous) range of techniques and technologies, had hitherto undertaken little by way of self-improvement. They had rarely seen the inside of a gym, let alone utilized apps that deliver electric shocks in pursuit of improved concentration. But, in the course of a year spent researching this book, they wore head-bands designed to optimize meditation, attempted to boost their memory through learning associative techniques (and failed to be admitted to MENSA), trained for weightlifting competitions, wrote what they (still) hope might become a bestselling Scandinavian detective story, enrolled in motivational seminars and tantra sex workshops, attended new-age retreats and man-camps, underwent plastic surgery, and experimented with vibrators and productivity drugs. André even addressed a London subway car whilst (nearly) naked in an attempt to boost attention. Somewhat surprisingly, the two young professors survived this year of rigorous research. Further, they have drawn deeply on it to produce a hilarious and eye-opening book. Written in the form of two parallel diaries, *Desperately Seeking Self-Improvement* provides a biting analysis of the narcissism and individual competitiveness that increasingly pervades a culture in which social solutions are receding and individual self-improvement is the only option left.

As Good as God

Marcus Yallow is no longer a student. California's economy has collapsed, taking his parents' jobs and his university tuition with it. Thanks to his activist past, Marcus lands a job as webmaster for a muckraking politician who promises reform. Things are never simple, though: soon Marcus finds himself embroiled in lethal political intrigue and the sharp end of class warfare, American style.

Desperately Seeking Self-Improvement

A powerful, bracing and deeply spiritual look at intensely, troubled youth, *Last Chance in Texas* gives a stirring account of the way one remarkable prison rehabilitates its inmates. While reporting on the juvenile court system, journalist John Hubner kept hearing about a facility in Texas that ran the most aggressive—and one of the most successful—treatment programs for violent young offenders in America. How was it possible, he wondered, that a state like Texas, famed for its hardcore attitude toward crime and punishment, could be leading the way in the rehabilitation of violent and troubled youth? Now Hubner shares the surprising answers he found over months of unprecedented access to the Giddings State School, home to “the worst of the worst”: four hundred teenage lawbreakers convicted of crimes ranging from aggravated assault to murder. Hubner follows two of these youths—a boy and a girl—through harrowing group therapy sessions in which they, along with their fellow inmates, recount their crimes and the abuse they suffered as children. The key moment comes when the young offenders reenact these soul-shattering moments with other group members in cathartic outpourings of suffering and anger that lead, incredibly, to genuine remorse and the beginnings of true empathy . . . the first steps on the long road to redemption. Cutting through the political platitudes surrounding the controversial issue of juvenile justice, Hubner lays bare the complex ties between abuse and violence. By turns wrenching and uplifting, *Last Chance in Texas* tells a profoundly moving story about the children who grow up to inflict on others the violence that they themselves have suffered. It is a story of horror and heartbreak, yet ultimately full of hope.

Homeland

Combining behind-the-scenes coverage of an often besieged religious group with a personal account of one woman's struggle to find meaning in it, *Betrayal of the Spirit* takes readers to the center of life in the Hare Krishna movement. Nori J. Muster joined the International Society of Krishna Consciousness (ISKCON)—the Hare Krishnas—in 1978, shortly after the death of the movement's spiritual master, and worked for ten years as a public relations secretary and editor of the organization's newspaper, the *ISKCON World Review*. In this candid and critical account, Muster follows the inner workings

of the movement and the Hare Krishnas' progressive decline. Combining personal reminiscences, published articles, and internal documents, *Betrayal of the Spirit* details the scandals that beset the Krishnas--drug dealing, weapons stockpiling, deceptive fundraising, child abuse, and murder within ISKCON--as well as the dynamics of schisms that forced some 95 percent of the group's original members to leave. In the midst of this institutional disarray, Muster continued her personal search for truth and religious meaning as an ISKCON member until, disillusioned at last with the movement's internal divisions, she quit her job and left the organization. In a new preface to the paperback edition, Muster discusses the personal circumstances that led her to ISKCON and kept her there as the movement's image worsened. She also talks about "the darkest secret"--child abuse in the ISKCON parochial schools--that was covered up by the public relations office where she worked.

Last Chance in Texas

The Wrestler's Body tells the story of a way of life organized in terms of physical self-development. While Indian wrestlers are competitive athletes, they are also moral reformers whose conception of self and society is fundamentally somatic. Using the insights of anthropology, Joseph Alter writes an ethnography of the wrestler's physique that elucidates the somatic structure of the wrestler's identity and ideology. Young men in North India may choose to join an akhara, or gymnasium, where they subject themselves to a complex program of physical and moral fitness. Alter's first-hand description of each detail of the wrestler's regimen offers a unique perspective on South Asian culture and society. Wrestlers feel that moral reform of Indian national character is essential and advocate their way of life as an ideology of national health. Everyone is called on to become a wrestler and build collective strength through self-discipline.

Betrayal of the Spirit

The landmark text about the inner workings of the unconscious mind—from the symbolism that unlocks the meaning of our dreams to their effect on our waking lives and artistic impulses—featuring more than a hundred images that break down Carl Jung's revolutionary ideas "What emerges with great clarity from the book is that Jung has done immense service both to psychology as a science and to our general understanding of man in society."—*The Guardian* "Our psyche is part of nature, and its enigma is limitless." Since our inception, humanity has looked to dreams for guidance. But what are they? How can we understand them? And how can we use them to shape our lives? There is perhaps no one more equipped to answer these questions than the legendary psychologist Carl G. Jung. It is in his life's work that the unconscious mind comes to be understood as an expansive, rich world just as vital and true a part of the mind as the conscious, and it is in our dreams—those personal, integral expressions of our deepest selves—that it communicates itself to us. A seminal text written explicitly for the general reader, *Man and His Symbols* is a guide to understanding the symbols in our dreams and using that knowledge to build fuller, more receptive lives. Full of fascinating case studies and examples pulled from philosophy, history, myth, fairy tales, and more, this groundbreaking work—profusely illustrated with hundreds of visual examples—offers invaluable insight into the symbols we dream that demand understanding, why we seek meaning at all, and how these very symbols affect our lives. By illuminating the means to examine our prejudices, interpret psychological meanings, break free of our influences, and recenter our individuality, *Man and His Symbols* proves to be—decades after its conception—a revelatory, absorbing, and relevant experience.

The Merchant of Venice

Reproduction of the original: *In the Permanent Way* by Flora Annie Steel

The Wrestler's Body

From handshakes and toasts to chant and genuflection, ritual pervades our social interactions and religious practices. Still, few of us could identify all of our daily and festal ritual behaviors, much less explain them to an outsider. Similarly, because of the variety of activities that qualify as ritual and their many contradictory yet, in many ways, equally legitimate interpretations, ritual seems to elude any systematic historical and comparative scrutiny. In this book, Catherine Bell offers a practical introduction to ritual practice and its study; she surveys the most influential theories of religion and ritual, the major categories of ritual activity, and the key debates that have shaped our understanding of ritualism. Bell refuses to nail down ritual with any one definition or understanding. Instead, her purpose is to reveal

how definitions emerge and evolve and to help us become more familiar with the interplay of tradition, exigency, and self-expression that goes into constructing this complex social medium.

Man and His Symbols

As with his previous bestseller, *The Man Who Mistook His Wife for a Hat*, in *An Anthropologist on Mars* Oliver Sacks uses case studies to illustrate the myriad ways in which neurological conditions can affect our sense of self, our experience of the world, and how we relate to those around us. Writing with his trademark blend of scientific rigour and human compassion, he describes patients such as the colour-blind painter or the surgeon with compulsive tics that disappear in the operating theatre; patients for whom disorientation and alienation – but also adaptation – are inescapable facts of life. 'An inexhaustible tourist at the farther reaches of the mind, Sacks presents, in sparse, unsentimental prose, the stories of seven of his patients. The result is as rich, vivid and compelling as any collection of short fictional stories' – *Independent on Sunday*

In the Permanent Way

First major theatrical adaptation of EM Forster's classic novel for a contemporary audience Before deciding whether to marry Chandrapore's local magistrate, Adela Quested wants to discover the "real India" for herself. Newly arrived from England, she agrees to see the Marabar Caves with the charming Dr Aziz. Through this one harmless event Forster exposes the absurdity, hysteria and depth of cultural ignorance that existed in British India in the twenties. E.M. Forster's classic novel is here adapted in this highly theatrical, humorous and faithful version for the stage by the author of *BENT*, Martin Sherman. Published to tie in with a major new production of *A PASSAGE TO INDIA* produced by Shared Experience Theatre company.

Ritual

Deep in lost history, did high civilizations and advanced knowledge thrive? The ancient Vedic literatures of India describe a worldwide civilization that flourished at a time when modern historians insist that humans like us existed simply as hunter-gatherers. This Vedic civilization, centered in India, employed technologies based on a scientific understanding of the physical elements and forces we know today, as well as more subtle conscious elements. Devamrita Swami, who has spent a lifetime in his own search for Vedic India, takes us on a journey of intellectual discovery through the history of the remarkable Vedic civilization and its knowledge, locked in the ancient literatures of India. His wit and wisdom combine to make our search for Vedic India not only illuminating but entertaining. He tells us not only the truths of Vedic India, but how they are again coming to be. Searching for Vedic India thus takes us not only into the past, but into the future

An Anthropologist on Mars

A never-before action packed retelling of Lord Krishna's life, Krishna Gopeshvara is the first in a trilogy that narrates the early life events of Lord Krishna from the time of Kamsa's capture of the Mathura throne to his killing by his nephew-as was foretold by the tyrant king's own priest. Styled as a historical fiction, Krishna and Kamsa are portrayed as men pursuing their narratives according to their understanding of the world around them. What entails is a clash of two narratives-the dharmic one symbolized by Krishna and the other a totalitarian and despotic narrative epitomized by Kamsa. The only assumption that has been made is that Krishna was a highly gifted young man. In the story of the battle between an uncle he must kill to survive lies embedded the truth of a nation gone rogue and a critique of the social, cultural and religious circumstances of Mathura, Magadha, Kashi, and other leading power centres of Aryavarta-which holds relevance even in our times-thus setting the stage for the great epic of Mahabharata. The careful portrayal of the other kings and princes of the Mahabharata era shows how often flaws in character can lead to devastating consequences, affecting, sometimes, the nation as a whole. Thus, human psychology is laid bare, including the inherent limitations of man. Weaving a riveting account of the life of the Lord, the political intrigues, discussions on dharma and debates on the position of women in the society, Krishna Gopeshvara is a perfect portrayal of the Vedic era with a deep resonance to the times we live in.

A Passage To India

Describes the psychological techniques cults use to indoctrinate their members and discusses deprogramming.

Searching for Vedic India

Werner Herzog is one of our most revered contemporary filmmakers, a visionary director who ceaselessly tests the boundaries of art. *Fitzcarraldo*, his lavish 1982 film about a would-be rubber baron who pulls a steamship over a hill to access a rich rubber territory, was hailed by critics around the globe and won Herzog the 1982 Outstanding Director Prize at Cannes. The text of *Conquest of the Useless* emerged as if out of an Amazonian fever dream: the crew's camp in the heart of the jungle was attacked and burned to the ground; the production clashed with a border war; two planes crashed during filming; and Herzog had to unravel the logistics of moving a 320-ton steamship over a hill without the use of special effects. More than just a journal or diary of the shooting of *Fitzcarraldo*, *Conquest of the Useless* is a work of art unto itself, which charts the inner landscapes born of the delirium of the jungle and offers an extraordinary glimpse into the mind of a genius during the making of one of his greatest achievements.

Krishna Gopeshvara

This book is about representations of the devil in English and European literature. Tracing the fascination in literature, philosophy, and theology with the irreducible presence of what may be called evil, or comedy, or the carnivalesque, this book surveys the parts played by the devil in the texts derived from the Faustus legend, looks at Marlowe and Shakespeare, Rabelais, Milton, Blake, Hoffmann, Baudelaire, Goethe, Dostoevsky, Bulgakov, and Mann, historically, speculatively, and from the standpoint of critical theory. It asks: Is there a single meaning to be assigned to the idea of the diabolical? What value lies in thinking diabolically? Is it still the definition of a good poet to be of the devil's party, as Blake argued?

Combatting Cult Mind Control

Figures of Earth is the second installment in James Branch Cabell's *Biography of the Life of Manuel*, set in the imaginary province of Poictesme. Young Manuel is a simple, well-liked swineherd who is often seen continually reshaping a small figure he made from the marsh clay from the pool of Haranton. One day, a stranger appears and tells Manuel of an adventure to save the Count of Arnaye's daughter from a wizard who carried her off to the gray mountain called Vraidex. Manuel accepts this adventure (and many more that follow)—and his life will never be the same. The book was originally published in 1921 and was dedicated to "six most gallant champions," each of whom were real persons who came to Cabell's defense during the legal battle over alleged obscenity in his previous novel, *Jurgen*. This book is part of the Standard Ebooks project, which produces free public domain ebooks.

Conquest of the Useless

We are delighted to publish this classic book as part of our extensive Classic Library collection. Many of the books in our collection have been out of print for decades, and therefore have not been accessible to the general public. The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature, and our view is that this is a significant literary work, which deserves to be brought back into print after many decades. The contents of the vast majority of titles in the Classic Library have been scanned from the original

works. To ensure a high quality product, each title has been meticulously hand curated by our staff. Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work. We hope that you will enjoy this wonderful classic work, and that for you it becomes an enriching experience

Histories of the Devil

Anagram Solver is the essential guide to cracking all types of quiz and crossword featuring anagrams. Containing over 200,000 words and phrases, Anagram Solver includes plural noun forms, palindromes, idioms, first names and all parts of speech. Anagrams are grouped by the number of letters they contain with the letters set out in alphabetical order so that once the letters of an anagram are arranged alphabetically, finding the solution is as easy as locating the word in a dictionary.

Figures of Earth

A celebrated writer pens an irresistible, candid, and eloquent account of her pursuit of worldly pleasure, spiritual devotion, and what she really wanted out of life.

The Book of the Thousand Nights and a Night, Vol 1

Hate is among the most powerful of human emotions. This book brings together experts on the psychology of hate to present their diverse viewpoints in a single volume. It provides concrete suggestions for how to combat hate, and attempts to understand the minds both of those who hate and those who are hated.

Anagram Solver

The Pleiadian Workbook is a direct transmission from the Pleiadian Emissaries of Light--Light beings from the Pleiades--who say it's time now for spiritual growth, ascension, and healing. Through Amarah Quan Yin, we are taught to open our "Ka Channels," which pull energy from our multidimensional, holographic selves into our physical bodies. These galactic healing techniques align us with our divine selves, raise our vibratory rates, and rejuvenate and balance our bodies, while accelerating spiritual evolution and stimulating emotional healing.

Eat Pray Love

Chaitanya's Life And Teachings: From His Contemporary Bengali Biography The Chaitanya-Charit-Amrita Translated Into English By Jadunath Sarkar This book is a result of an effort made by us towards making a contribution to the preservation and repair of original classic literature. In an attempt to preserve, improve and recreate the original content, we have worked towards: 1. Type-setting & Reformatting: The complete work has been re-designed via professional layout, formatting and type-setting tools to re-create the same edition with rich typography, graphics, high quality images, and table elements, giving our readers the feel of holding a 'fresh and newly' reprinted and/or revised edition, as opposed to other scanned & printed (Optical Character Recognition - OCR) reproductions. 2. Correction of imperfections: As the work was re-created from the scratch, therefore, it was vetted to rectify certain conventional norms with regard to typographical mistakes, hyphenations, punctuations, blurred images, missing content/pages, and/or other related subject matters, upon our consideration. Every attempt was made to rectify the imperfections related to omitted constructs in the original edition via other references. However, a few of such imperfections which could not be rectified due to intentional/unintentional omission of content in the original edition, were inherited and preserved from the original work to maintain the authenticity and construct, relevant to the work. We believe that this work holds historical, cultural and/or intellectual importance in the literary works community, therefore despite the oddities, we accounted the work for print as a part of our continuing effort towards preservation of literary work and our contribution towards the development of the society as a whole, driven by our beliefs. We are grateful to our readers for putting their faith in us and accepting our imperfections with regard to preservation of the historical content. HAPPY READING!

The Psychology of Hate

The bestselling classic that redefined our view of the relationship between beauty and female identity . Every day, women around the world are confronted with a dilemma – how to look. In a society embroiled in a cult of female beauty and youthfulness, pressure on women to conform physically is constant and

all-pervading. In this iconic, gripping and frank exposé, Naomi Wolf exposes the tyranny of the beauty myth through the ages and its oppressive function today, in the home and at work, in literature and the media, in relationships between men and women, between women and women. With pertinent and intelligent examples, she confronts the beauty industry and its advertising and uncovers the reasons why women are consumed by this destructive obsession. 'Essential reading' Guardian 'A smart, angry, insightful book, and a clarion call to freedom. Every woman should read it' Gloria Steinem

The Pleiadian Workbook

The story of the rise and fall of smallpox, one of the most savage killers in the history of mankind, and the only disease ever to be successfully exterminated (30 years ago next year) by a public health campaign.

'Up the Country'

The fruit of twenty-seven years of study, it is an attempt to understand and explain the philosophic progression of Bhagavad-gita - how the verses, sections and chapters fit together. Having an overview adds sastric structure to the counseling, managing and teaching that devotees do and thus is relevant for both practical preaching and applying the Gita to our own devotional life.

MIDAMBLE.

This book acts as a battering ram against the distortions, myths and outright lies that have been shoved down our throats by the government, the media, corporations, organized religion, the scientific establishment and others who want to keep the truth from us. A group of researchers - investigative reporters, political dissidents, academics, media watchdogs, scientist-philosophers, social critics and rogue scholars - paints a picture of a world where crucial stories are ignored or actively suppressed and the official version of events has more holes in it than Swiss cheese. A world where real dangers are downplayed and nonexistent dangers are trumpeted. In short, a world where you are being lied to. You'll discover that a human being has already been cloned; Joseph McCarthy was not paranoid; museums refuse to display artifacts that conflict with the theory of evolution; the CIA has admitted to involvement in the drug trade; parents don't affect who their children become; plus further revelations involving Columbine, WWII, textbooks, Al Gore, George W. Bush, Timothy Leary and much more.

Chaitanya's Life And Teachings

The Beauty Myth
