Profecias de Nostradamus/ Prophecies of Nostradamus

Best selling author Mario Reading brings together a complete new translation and an original interpretation of all the known quatrains.

The Complete Prophecies of Nostradamus

The amazing predictions of the "Seer of Provence" are collected in this startling book. Learn the strange, cryptic secrets of the mysterious, legendary Michel de Nostredame, who foretold world wars, Napoleon, Hitler, rockets, nuclear power, automobiles, television, the assassination of John F. Kennedy and Martin Luther King, and the coming of the "Antichrist," and all of this HUNDREDS of years before any of these things actually occurred! Did Nostradamus predict the Apocalypse and the end of the world? Read the amazing prophecies and decide for yourself! An all-time classic masterpiece of the unknown!

Prophecies of Nostradamus

The renowned prophet Nostradamus (Michel de Nostradame) was born on December 14, 1503 in St. Remy, Provence, France. Nostradamus came from a long line of Jewish doctors and scholars. His family had converted from Judaism to Christianity in 1502, as a result of persecution on the ascension of Louis the XII. After a classical education he studied medicine, herbalism and astrology. During Nostradamus' lifetime the Black Death (today known as the bubonic plague) wiped out over a quarter of Europe. It is no wonder that a sense of apocalyptic terror fills Nostradamus' quatrains. Nostradamus had the visions which he later recorded in verse while staring into water or flame late at night, sometimes

aided by herbal stimulants, while sitting on a brass tripod. The resulting quatrains (four line verses) are oblique and elliptical, and use puns, anagrams and allegorical imagery. Most of the quatrains are open to multiple interpretations, and some make no sense whatsoever. Some of them are chilling, literal descriptions of events, giving specific or near-specific names, geographic locations, astrological configurations, and sometimes actual dates. It is this quality of both vagueness and specificity which allows each new generation to reinterpret Nostradamus. Nostradamus is said to have predicted his own death. When his assistant wished him goodnight on July 1, 1566, Nostradamus reputedly pronounced, "You will not find me alive at sunrise." He was found dead on July 2, 1566.

The Complete Prophecies of Nostradamus

Nostradamus (Michel de Nostradame) was born on December 14, 1503 in St. Remy, Provence, France. Nostradamus came from a long line of Jewish doctors and scholars. He is considered by many as one of the most famous and important writers of history prophecies. He is famous mainly for his book 'The Prophecies,' consisting of quarantine in rhyme. Supporters of the trustworthiness of these prophecies attribute to Nostradamus the ability to predict an incredible number of events in world history, including the French Revolution, the Atomic bomb, the rise to power of Adolf Hitler and the attacks of 11 September 2001. However, no one has ever proved that Nostradamus's quarters can provide reliable data for the foreseeable future. Nostradamus had the visions which he later recorded in verse while staring into water or flame late at night, sometimes aided by herbal stimulants, while sitting on a brass tripod. The resulting quatrains (four line verses) are oblique and elliptical, and use puns, anagrams and allegorical imagery. Most of the quatrains are open to multiple interpretations, and some make no sense whatsoever. Some of them are chilling, literal descriptions of events, giving specific or near-specific names, geographic locations, astrological configurations, and sometimes actual dates. It is this quality of both vagueness and specificity which allows each new generation to reinterpret Nostradamus.

The Prophecies of Nostradamus

The Prophecies is a collection of prophecies by French physician Nostradamus. The book begins with a preface, in the form of a message to his son César, followed by the Centuries themselves. The predictions do not follow chronological coherence and were written combining French, Greek, Latin and Occitan. It is believed that it contains anagrams, mythological and astrological references, in a subjective language that makes comprehension difficult. Some scholars claim that this was a resource used by Nostradamus to evade the Holy Inquisition, for fear of being persecuted for heresy.

The Complete Prophecies of Nostradamus

On numerous occasions and over a long period of time, Michel Nostradamus, has predicted specific events far in advance, attributing all to the workings of divine power and inspiration, together with other fortunate or unfortunate happenings, foreseen in their full unexpectedness, which have already come to pass in various regions of the earth. As one of the most important prophets, his writings have been famous, intriguing and controversial. For the first time ever, you can purchase the complete writings of Nostradamus including all quatrains and almanacs. This is an important read which will take you into the past and at the same time into the future.

The Prophecies

The amazing prophecies of the "Seer of Provence" are presented here in both the original French and English translations. Covering such amazing topics as the coming of the Antichrist, World War 3, Hitler, Kennedy, terrorism and the final battle of the Apocalypse, Armageddon, these amazing writings have been interpreted by scholars and experts since first they were written down four hundred years ago. Did Nostradamus manage to foresee, through use of his inexplicable occult powers, the end of the world? Did he prophecy the rise of the Nazis, the creation of the atomic bomb, Hiroshima, Nagasaki, cars, airplanes satellite communication and space travel? Read these amazing prophecies and answer those pressing questions for yourself. A frightening look at our possible future world!

Nostradamus

This translation and interpretation re-evaluates Nostradamus's prophecies, providing proof that the seer did in fact date his prophecies using a simple numerical code.

Nostradamus: The Complete Prophecies in English and French

This is the official edition in English of the prophecies of Nostradamus presented to you here without alterations or censorship. The French prophet from the 16th century wrote his secrets for the future of the world in a series of verses and texts, all of which have been collected here. It is hard to ignore the talents of this mysterious prophet when he describes things like a man named "Hister" dominating Germany and turning it into a cage, missing only by two letters. A book full of secrets and warnings for the future of mankind.

Nostradamus

Complete, definitive study: biography, historical background, and parallel texts in English and French of all the prophecies, most of the famous — and infamous — interpretations, and much more.

The Prophecies of Nostradamus

The Prophecies of Nostradamus has remained one of the most read and spoken of the book throughout the history. It was first published in 1555 and became quite popular already during the life of Nostradamus as some of his prophecies came true. Mostly, Nostradamus's predictions were about general types of events, like natural disasters and conflict-related events that tend to occur regularly as time goes on. No wonder people believe that his prophecies have predicted actual events through centuries. From the death of Henry II, the French Revolution, the rise of Napoleon, the rise of Adolf Hitler, to the 9/11 attacks – all these events are believed to be foreseen by Nostradamus.

The Complete Prophecies of Nostradamus

Charles A. Ward is perhaps the best known of the academics who have endeavored to explain the relevance of Nostradamus' prophecies. He marshals an impressive array of linguistic and historical facts to back up his position on these enigmatic predictions. Charles Ward was a believer and once you've read his book you will be too. Since governments, sects, and countries will undergo such sweeping changes, diametrically opposed to what now obtains, that were I to relate events to come, those in power now-- monarchs, leaders of sects and religions-- would find these so different from their own imaginings that they would be led to condemn what later centuries will learn how to see and understand. - Nostradamus

Nostradamus and His Prophecies

Here are the complete prophecies of Nostradamus. Nostradamus is the best known and most accurate mystic and seer of all times. There are those who say that he predicted Napoleon and even the attack on the World Trade Center. Read the prophecies and judge for yourself. Since governments, sects and countries will undergo such sweeping changes, diametrically opposed to what now obtains, that were I to relate events to come, those in power now - monarchs, leaders of sects and religions - would find these so different from their own imaginings that they would be led to condemn what later centuries will learn how to see and understand. - Nostradamus

Les Propheties

Michel de Nostredame (14 December or 21 December 1503 - 2 July 1566), usually Latinised to Nostradamus, was a French apothecary and reputed seer who published collections of prophecies that have since become famous worldwide. He is best known for his book *Les Propheties* ("The Prophecies"), the first edition of which appeared in 1555. Since the publication of this book, which has rarely been out of print since his death, Nostradamus has attracted a following that, along with the popular press, credits him with predicting many major world events. The prophecies have in some cases been assimilated to the results of applying the alleged Bible code, as well as to other purported prophetic works. Most academic sources maintain that the associations made between world events and Nostradamus's quatrains are largely the result of misinterpretations or mistranslations (sometimes deliberate) or else are so tenuous as to render them useless as evidence of any genuine predictive power. Moreover, none of the sources listed offers any evidence that anyone has ever interpreted any of Nostradamus's quatrains specifically enough to allow a clear identification of any event in advance.

Oracles of Nostradamus

Nostradamus. His name has echoed across four centuries forever linked to prophecy. It is believed this medieval French physician wrote more than six thousand prophetic verses in his lifetime, with the most

compelling ones published in his 1555 book, *Les Propheties des Nostradamus*, or *The Prophecies of Nostradamus*. Its 942 verses, or quatrains, speak of world wars and famine, of fires and floods, of tyrants and calamities that he foresaw in his visions-vivid, violent images brought forth by divination; prophetic visions that would surface in the solitude of his study during the dead of night. Today, more than 450 years after his death, one lingering question continues to draw both skeptic and believer to his legendary work in the face of world events: Was he right? This Bayley Street Press edition is a translated republication of *Les Propheties*. It includes two fragmentary centuries commonly linked to the original work and 141 Presages written by Nostradamus and published as almanacs between 1555 and 1567.

The Complete Prophecies of Nostradamus

This modern rendition of the quatrains of Nostradamus is offered after more than three decades of research. This clarification of the enigmatic verse of Nostradamus is the most comprehensive to date that brings forth the first true understanding - a connection and meaning for the verses not heretofore seen. Each of the verses of the quatrains of Nostradamus speaks about the rampant strategies of one of three Antichrists. Two of these Antichrists would dominate the human race culminating spiritual forces into the Third Antichrist - the One who would fully incarnate the supernatural forces of Satan ultimately torturing humanity in the great and final war against God bringing the End of Days and the cataclysmic changes ushering in a new age. The prophecies of Nostradamus have been in print for almost five hundred years - longer than any book except the Holy Bible. His prophecies are biblically sound. In each new generation people in nearly every nation have continued to pour over the verses of Nostradamus seeking higher truth and understanding. Nostradamus wrote poetic prophecy in the form of quatrains, four line stanzas filled with a medley of perplexing symbols and rhetoric. Each original chapter, called Centuries, contained one hundred quatrains. Even as John in Revelation, Nostradamus did not understand in high detail all the future modalities that he envisioned, and the use of symbolism allowed him to portray his visions without the limitation of mere words. In Century III, Verse 94, Nostradamus explained the fate of his work. He stated that for five centuries his verses would be shrouded in mystery. Then, in the twentieth century an interpreter would bring them to light and understanding. The quatrains of Nostradamus relay an important, divine message to humankind and contain highly moralistic, philosophical, and spiritual wisdom which cannot be ignored. Nostradamus was a prophetic messenger of the Divine Plan. The social, economic, political, and spiritual rewards make it evident that the Nostradamus verses are a divine gift in severe servitude to humanity. The primary purpose for Nostradamus' quatrains has always been to shed light upon written prophecies that were offered to the world in an effort to educate mankind in reference to human iniquities and the effects thereof rendered upon the world in which we live. But, even more, the verses were intended to help people reconnect to the Divine seeing that the spiritual world is a reality that we cannot ignore. Nostradamus wrote exclusively and specifically about Three Temporal Kings who would rise to power resulting from political events beginning in about 1700 A.D. These Antichrists would change the course of history and life on earth for beyond three hundred years until the biblical end of the world when the entire cosmic order would change into a new age. This message of the old prophet coincides directly with the messages of the honored biblical prophecies. Not even taking into account the fact of strong evidence that the quatrains are divine and intended to educate humans in reference to a higher evolutionary path, they have remained in print since the sixteenth century, are a vital part of literature today, and more than likely will be around for a very long time.

The Prophecies of Nostradamus

Presents a reprint of the *Oracles of Nostradamus*, which contains his predictions and a brief biography of his life.

The Complete Prophecies of Nostradamus

Carries the sixteenth-century seer's prophecies into the twenty-first century, with a vision of famine, pestilence, and despair that gives way to a millenium of world peace and harmony.

The Prophecies of Nostradamus

Michel de Nostredame (depending on the source, 14 or 21 December 1503- 2 July 1566), usually Latinised as Nostradamus, was a French physician and reputed seer who published collections of prophecies that have since become widely famous. He is best known for his book *Les Propheties*, the

first edition of which appeared in 1555. Since the publication of this book, which has rarely been out of print since his death, Nostradamus has attracted a following that, along with much of the popular press, credits him with predicting many major world events. Most academic sources maintain that the associations made between world events and Nostradamus's quatrains are largely the result of misinterpretations or mistranslations (sometimes deliberate) or else are so tenuous as to render them useless as evidence of any genuine predictive power. In *The Prophecies* Nostradamus compiled his collection of major, long-term predictions. The first installment was published in 1555 and contained 353 quatrains. The third edition, with three hundred new quatrains, was reportedly printed in 1558, but now only survives as part of the omnibus edition that was published after his death in 1568. This version contains one unrhymed and 941 rhymed quatrains, grouped into nine sets of 100 and one of 42, called "Centuries". Given printing practices at the time (which included type-setting from dictation), no two editions turned out to be identical, and it is relatively rare to find even two copies that are exactly the same. Certainly there is no warrant for assuming--as would-be "code-breakers" are prone to do--that either the spellings or the punctuation of any edition are Nostradamus' originals. The Almanacs, by far the most popular of his works, were published annually from 1550 until his death. He often published two or three in a year, entitled either Almanachs (detailed predictions), Prognostications or Presages (more generalised predictions). Nostradamus was not only a diviner, but a professional healer. It is known that he wrote at least two books on medical science. One was an extremely free translation (or rather a paraphrase) of *The Protreptic of Galen* (*Paraphrase de C. GALIEN, sus l'Exhortation de Menodote aux estudes des bonnes Artz, mesmement Medicine*), and in his so-called *Traité des fardemens* (basically a medical cookbook containing, once again, materials borrowed mainly from others) he included a description of the methods he used to treat the plague, including bloodletting, none of which apparently worked. The same book also describes the preparation of cosmetics. A manuscript normally known as the *Orus Apollo* also exists in the Lyon municipal library, where upwards of 2,000 original documents relating to Nostradamus are stored under the aegis of Michel Chomarat. It is a purported translation of an ancient Greek work on Egyptian hieroglyphs based on later Latin versions, all of them unfortunately ignorant of the true meanings of the ancient Egyptian script, which was not correctly deciphered until Champollion in the 19th century. Since his death, only the *Prophecies* have continued to be popular, but in this case they have been quite extraordinarily so. Over two hundred editions of them have appeared in that time, together with over 2,000 commentaries. Their persistence in popular culture seems to be partly because their vagueness and lack of dating make it easy to quote them selectively after every major dramatic event and retrospectively claim them as "hits".

Centuries

It's safe to say that there have been countless prophets and seers throughout history, but only one Nostradamus (1503-1566). Nostradamus has become a pop culture fixture even among those who find nothing of note in his work, and he is a cult figure among those who pore through his prophecies to look for proof that he foresaw major world events centuries ahead of time. Nostradamus spent most of his life as an apothecary at the height of the Renaissance taking hold across Europe, but by 1550 he was heavily involved in the occult and began to stop practicing medicine. That year he published an almanac that was successful enough to encourage him to keep putting out more almanacs annually. In the process he collected thousands of prophecies. In 1555, Nostradamus published his famous *Prophecies*, which was to be 1,000 quatrains that created undated prophecies, writing them in Greek, Italian, Latin, and French in the hopes of making his writing obscure enough to avoid religious persecution. In deed, many considered Nostradamus a fraud or worse, but he found favor among the French Royal family, who found them spiritually inspired, sentiments encouraged by Nostradamus himself naturally. Over time, his other works faded into relative obscurity, but people continued to see what they wanted to see in his *Prophecies*, which Nostradamus had touted as the work of judicial astrology despite the fact professional astrologers of the time considered his work junk science. And while the *Prophecies* became wildly popular across the world and had thousands of different commentaries and editions published, modern scholars closely analyzing his writing have found that it is a mixture of Biblical prophecies, ancient end-of-the-world scenarios, and historically inspired events involving Ancient Romans like Sulla and Nero. Nostradamus took pains to claim that he was not truly a prophet, but his vague style has succeeded in making him a legend of history instantly recognizable by one name.

Three Temporal Kings

It's safe to say that there have been countless prophets and seers throughout history, but only one Nostradamus (1503-1566). Nostradamus has become a pop culture fixture even among those who find nothing of note in his work, and he is a cult figure among those who pore through his prophecies to look for proof that he foresaw major world events centuries ahead of time. Nostradamus spent most of his life as an apothecary at the height of the Renaissance taking hold across Europe, but by 1550 he was heavily involved in the occult and began to stop practicing medicine. Nostradamus took pains to claim that he was not truly a prophet, but his vague style has succeeded in making him a legend of history instantly recognizable by one name.

The Prophecies of Nostradamus

Greetings and happiness to Ce sar Nostradamus my son
Your late arrival, Ce sar Nostredame, my son,
has made me spend much time in constant nightly reflection so that I could communicate with you by letter and leave you this reminder, after my death, for the benefit of all men, of which the divine spirit has vouchsafed me to know by means of astronomy. And since it was the Almighty's will that you were not born here in this region [Provence] and I do not want to talk of years to come but of the months during which you will struggle to grasp and understand the work I shall be compelled to leave you after my death: assuming that it will not be possible for me to leave you such [clearer] writing as may be destroyed through the injustice of the age [1555]. The key to the hidden prediction which you will inherit will be locked inside my heart. Also bear in mind that the events here described have not yet come to pass, and that all is ruled and governed by the power of Almighty God, inspiring us not by bacchic frenzy nor by enchantments but by astronomical assurances: predictions have been made through the inspiration of divine will alone and the spirit of prophecy in particular. On numerous occasions and over a long period of time I have predicted specific events far in advance, attributing all to the workings of divine power and inspiration, together with other fortunate or unfortunate happenings, foreseen in their full unexpectedness, which have already come to pass in various regions of the earth. Yet I have wished to remain silent and abandon my work because of the injustice not only of the present time [the Inquisition] but also for most of the future. I will not commit to writing. Since governments, sects and countries will undergo such sweeping changes, diametrically opposed to what now obtains, that were I to relate events to come, those in power now - monarchs, leaders of sects and religions - would find these so different

Prophecies of Nostradamus

First published in the summer of 1557 - as the protestant martyrs' pyres blazed across England - *Songes and Sonettes*, written by the ryght honorable Lorde Henry Haward late Earle of Surrey, and other (more generally known as *Tottel's Miscellany*) is widely regarded as the first anthology of English poetry responsible for introducing Italianate verse forms to England. Yet those scholars who have paid attention to the book usually dismiss its literary quality and regard its chief accomplishment as paving the way for the Golden Age of Elizabethan verse to come. As Professor Warner makes clear, however, there is much more historical significance to the *Miscellany* than merely being a precursor to Shakespeare and Sidney. Drawing upon a wealth of historical, textual and literary evidence, this new study recasts the *Miscellany* as a peculiar phenomenon of the reign of Mary I. Placing it in the context of its European counterparts and its competition in the London book market, Warner argues that at heart the *Miscellany* was a collaborative project between the printer, Richard Tottel and law students from the Inns of Court, and represented a timely response to the religious, political and social upheavals of the English Reformation and Counter-Reformation. Analysing from both a literary and historical

perspective, this study reconnects the Miscellany with the social, cultural, literary and religious milieu in which it was created. Warner thus reveals not only the distinctiveness of the book's design compared to other English verse works for sale in 1557, but its function as a patriotic retort to Continental collections of verse -including one that put into print a selection of satirical songs and sonnets written by the Spanish caballeros who found themselves reluctant attendants at the court of Mary I.

Nostradamus 2

Greetings and happiness to Cesar Nostradamus my son. Your late arrival, Cesar Nostredame, my son, has made me spend much time in constant nightly reflection so that I could communicate with you by letter and leave you this reminder, after my death, for the benefit of all men, of which the divine spirit has vouchsafed me to know by means of astronomy. And since it was the Almighty's will that you were not born here in this region and I do not want to talk of years to come but of the months during which you will struggle to grasp and understand the work I shall be compelled to leave you after my death: assuming that it will not be possible for me to leave you such writing as may be destroyed through the injustice of the age. The key to the hidden prediction which you will inherit will be locked inside my heart. Also bear in mind that the events here described have not yet come to pass, and that all is ruled and governed by the power of Almighty God, inspiring us not by bacchic frenzy nor by enchantments but by astronomical assurances: predictions have been made through the inspiration of divine will alone and the spirit of prophecy in particular. On numerous occasions and over a long period of time I have predicted specific events far in advance, attributing all to the workings of divine power and inspiration, together with other fortunate or unfortunate happenings, foreseen in their full unexpectedness, which have already come to pass in various regions of the earth. Yet I have wished to remain silent and abandon my work because of the injustice not only of the present time but also for most of the future. I will not commit to writing.

The Complete Works of Nostradamus

The renowned prophet Nostradamus (Michel de Nostredame) is the best known and most accurate mystic and seer of all times. Nostradamus began writing his prophetic verses in the city of Salon in 1554. They are divided into ten sections called Centuries (which refers to the number of verses in each section, not to a unit of 100 years). The Centuries were published in 1555 and 1558, and have been printed continuously since. Nostradamus had the visions that he later recorded in verse while looking into the water or the flame late at night, sometimes helped by herbal stimulants, sitting on a brass tripod. The resulting quatrains (four-line verses) are oblique and elliptical and use puns, anagrams, and allegorical images. Most quatrains are open to multiple interpretations, and some are meaningless. Some of them are frightening, literal descriptions of events, giving specific or quasi-specific names, geographic locations, astrological configurations and sometimes real dates. It is this quality of imprecision and specificity that allows each new generation to reinterpret Nostradamus. The key to dating Nostradamus' always intriguing and popular predictions has now been discovered! Award-winning author Mario Reading finally found the long-searched-for key, and with it, has uncovered the secret connection that links the seer's various quatrains. With this new knowledge, he can interpret these astonishing predictions in formerly unimagined ways...and give us a glimpse of what the future holds. Among the amazing finds: Nostradamus foresaw the Twin Towers disaster, the Iraq War, the devastating tsunamis, and the flooding of New Orleans. But even more, Reading's groundbreaking translations and sharp commentary state precisely what is still to come. His sometimes extraordinary and shocking forecasts include the demise of the British Monarchy, the breakup of the European Union, and Global War.
