Il dono del silenzio

Thich Nhat Hanh è una delle figure più importanti della spiritualità mondiale. Monaco buddhista, poeta, studioso e attivista per la pace, è stato candidato al premio Nobel da Martin Luther King nel 1967. Viviamo alla continua ricerca della felicità, e nella corsa senza sosta per raggiungerla non ci accorgiamo delle straordinarie meraviglie di cui è già ricco il mondo attorno a noi. Ogni giorno, ogni ora, ogni istante la bellezza ci chiama, ma raramente ci poniamo in ascolto. Perché per avvertire la sua voce e poterle rispondere è necessaria una condizione divenuta rara: il silenzio. In questo piccolo libro prezioso, il monaco buddhista Thich Nhat Hanh ci mostra il percorso da intraprendere per superare la gabbia di rumore che ci circonda privandoci della libertà, e ci indica un sentiero di pace tra i luoghi più confusi e caotici della nostra mente. Il dono del silenzio ci permette così di ristabilire, dentro di noi, quell'ordine e quella serenità in grado di farci guardare in profondo ciò che ci circonda, per comprendere chi siamo realmente e cosa davvero vogliamo dalla nostra vita.

Example in this ebook DISCORSO XXXIX. GREGORIO XIII. SISTO V. EPISODIO FRANCESE. Per la solita altalena, a Pio V fu dato successore Ugo Buoncompagni bolognese, che volle chiamarsi Gregorio XIII. Arrendevole e clemente fin a scapito della giustizia, le inclinazioni sue mondane dovette reprimere a fronte della riforma morale, e a fatica potè favorire un proprio figliuolo, niente i nipoti; esatto del resto ai doveri di capo dei fedeli, ad elevare alla mitra i migliori, a diffondere l'istruzione. Secondo i decreti tridentini stabilì una Congregazione della visita, che sopravedesse a quella di tutte le diocesi, e mandava visitatori apostolici che si faceano rendere i conti delle chiese, de' luoghi pii, delle fraternite, per quanto eccitassero scontentezze. Prescrisse che ogni cattedrale avesse un teologo (1573). Spendendo quanto Leon X, per riparare ai guasti cagionati da questo fondò e dotò ben ventitré collegi, tra cui quello di tutte le nazioni, alla apertura del quale si pronunziarono discorsi in venticinque favelle; rifondò il Germanico, palestra di futuri atleti; uno pei Greci, che vi erano allevati al modo e col linguaggio e il rito patrio; uno Ungarico, uno Illirico a Loreto, uno pei Maroniti, uno per gl'Inglesi; rifabbricò il Collegio romano, istituì quello de' Neofiti, poi ne seminò per tutta Germania e Francia, e fin

tre nel Giappone. Spese due milioni di scudi in fare studiare giovani poveri, e un milione in dotare zitelle. A suggerimento di lui, il cardinale Ferdinando Medici aprì stamperia di cinquanta lingue orientali, spedì in Etiopia, ad Alessandria, in Antiochia eruditi viaggiatori, massime Giambattista e Girolamo Vecchietti fiorentini, che ne recarono codici. Gregorio teneva una lista di quante persone fossero acconce al vescovado in tutta la cristianità; e così trovavasi informato all'occorrenza. Deputò il vescovo di Como agli Svizzeri per mantenerli in fede, e impedire s'unissero coi Protestanti: e il vescovo di Cremona Bonomo ad emendarvi il clero, nel che trovò grandi contrasti. Giovanni Delfino il 6 e 26 luglio 1572 scriveva al cardinal di Como Tolomeo Gallio, che a Vienna i diecimila italiani erano pervertiti da apostati, venienti dalla Savoja e dal Veneto; ma per ordine dell'imperatore dovettero partire. Il decantato tipografo Frobenio, venuto a Roma, si finse cattolico, tantochè il papa l'accolse con grandi cortesie, ed esortavallo a rimanere; partendo, ebbe raccomandazioni da prelati, e istituì una tipografia cattolica a Friburgo; speculazione, come fu poi lo stampar tante opere in senso contrario a Basilea: dove il papa diede opera non si pubblicasse il Talmud. Gregorio immortalò il suo pontificato colla riforma del calendario. Giulio Cesare l'avea corretto, fissando l'equinozio di primavera ai 25 marzo, e l'anno di trecensessantacinque giorni e sei ore; lo che è 112 423 più del vero: laonde in ceventinove anni l'equinozio si anticipava d'un giorno. La Chiesa dovette prendersene cura, attesochè la pasqua cade nel plenilunio succedente all'equinozio di primavera. Il concilio Niceno del 325 già s'accorgeva che questo anticipavasi al 23 marzo, ma non si seppe indovinarne la ragione. Nel 1257 la precessione era di undici giorni; e fin d'allora si parlò d'una riforma, spesso tentata, non mai riuscita. La famosa Dieta d'Augusta non volle confessare tale anticipazione dell'equinozio, denunziandola per un lacciuolo della politica romana. Come in tutti i Concilj, così nel Tridentino se ne discorse; poi a tal uopo Gregorio XIII convocò a Roma i personaggi meglio versati, e singolarmente il perugino Ignazio Danti domenicano e il gesuita Claudio di Bamberga, ma la formula vera fu rinvenuta da Luigi Lilio medico calabrese, e compita da suo fratello Antonio. Gli eretici d'Italia Volume 3 (of 3) (Italian Language)

According to conventional wisdom, Italy was not an influential participant in the nationalistic and imperialistic discourses that world's fairs produced in countries such as Great Britain, France, and the United States. In the late nineteenth and early twentieth centuries, however, Italy hosted numerous national and international exhibitions expounding notions of national identity, imperial expansion, technological progress, and capitalist growth. World's Fairs Italian-Style explores world's fairs in Italy at the turn of the twentieth century in comparison to their more famous counterparts in France, England, and the United States. Cristina Della Coletta demonstrates that, because of its social fragmentation and hybrid history, Italy was a site of both hegemony and subordination – an aspiring imperial power whose colonization started from within. She focuses on two best-selling authors, Emilio Salgari and Guido Gozzano, and illustrates how these authors interpreted their age's 'exposition mentality.' Salgari and Gozzano's exposition narratives, Della Coletta argues, reveal Italy's uncertainties about own sense of national identity, and its belated commitment to Western imperialism. Of interest to students and scholars of literature, cultural history, and Italian, World's Fairs Italian-Style provides a fascinating glimpse into a hitherto unexplored area of study, and brings to light a cultural phenomenon that played a significant role in shaping Italy's national identity.

World's Fairs Italian-Style

Aislinn vive con la nonna in una cittadina della provincia americana. La sua vita assomiglia a quella di milioni di ragazze, se non fosse per un aspetto: ha il potere di vedere le fate. Fate malvagie che infestano la città, creature pagane, maliziose e lascive che si presentano in bande a fare dispetti, divertendosi alle spalle degli umani. Aislinn ha imparato a proteggersi da loro facendo finta di non vedere, seguendo i saggi consigli della nonna: non guardare le fate invisibili, non rivolgere loro la parola e, soprattutto, non attirare mai la loro attenzione. Ma quando alcuni esseri fatati cominciano a seguirla da vicino, le regole diventano impossibili da rispettare e lei confessa il suo segreto alla persona più cara che ha: Seth, diciotto anni, piercing e un vecchio vagone di un treno abbandonato come casa, un ragazzo verso cui prova sentimenti profondi che vanno al di là dell'amicizia. Il loro legame sarà messo a dura prova da Keenan, Re dell'Estate e guida del Regno Fatato, che vede in Aislinn la prescelta, destinata a diventare la compagna della sua vita. Per lei diventa sempre più difficile allontanarlo, resistere alla sua bellezza abbagliante, ignorare quella strana e calda alchimia che la scuote in ogni parte. Il cuore di Aislinn è diviso: dovrà fare la sua scelta, in un emozionante conflitto tra amore eterno e amore terreno.

IL LAMPIONAIO (ITALIAN EDITION) AKA THE LAMPLIGHTER BY Maria Susanna Cummins The Lamplighter is a sentimental novel written by Maria Susanna Cummins and published in 1854, and a best-selling novel of its era. Haunted Hearts She became a frequent contributor to The Atlantic Monthly and other magazines. But her sudden popularity left her quite unspoiled. A singular modesty, a childlike simplicity, a deep and beautiful religious faith, were the qualities that endeared her to her friends and that are still evidenced by what was written of her at her death, which occurred in Dorchester October 1, 1866. As her pastor, Rev. Nathaniel Hall, declared in his memorial discourse, She received her success with a simple gladness, less that she was famous than that she might be useful; less that she had gained the public's applause than that she had touched, to issues human and philanthropic, the public's heart, and caused her poor 'lamplighter' to be the means of illuminating other and direr darkness than that of night.

Italian Film

This book presents a semiotic study of the re-elaboration of Christian narratives and values in a corpus of Italian novels published after the Second Vatican Council (1960s). It tackles the complex set of ideas expressed by Italian writers about the biblical narration of human origins and traditional religious language and ritual, the perceived clash between the immanent and transcendent nature and role of the Church, and the problematic notion of sanctity emerging from contemporary narrative.

Italy is more strongly influenced by the experiences of migrants than many other European countries. This includes an historically ongoing internal migration from the south to the north, which is strongly echoed in neo-realism; a mass emigration mainly to western Europe and North and South America that is connected with mafia films, among others, in Italy's collective imaginary; as well as a more recent immigration influx from the southwestern Mediterranean, which is dealt with at a film level...

The Agendaneers I {Italian}

Focusing on the most recent triad of Italian poetic genius—Umberto Saba, Giuseppe Ungaretti, and Eugenio Montale—Joseph Cary not only presents striking biographical portraits as he facilitates our understanding of their poetry; he also guides us through the first few decades of twentieth-century Italy, a most difficult period in its literary and cultural development.

This new volume by Dr. Rhodes consists of forty studies on the printing and bibliography of Italy and Spain published over the years 1981-1991. The Italian material relates largely to printing in the Northern Italian cities in the fifteenth and sixteenth centuries, including Verona, Venice, Brescia, Treviso and Bologna. The Spanish papers deal with Italo-Spanish editions and cross-influences in this period, and the early printing of a number of important Spanish centres.

This is an absorbing account of a dialogue between leading Western scientists and the foremost representative of Buddhism today, the Dalai Lama of Tibet. For modern science, the transitional states of consciousness lie at the forefront of research in many fields. For a Buddhist practitioner these same states present crucial opportunities to explore and transform consciousness itself. This book is the account of a historic dialogue between leading Western scientists and the Dalai Lama of Tibet. Revolving around three key moments of consciousness--sleep, dreams, and death--the conversations recorded here are both engrossing and highly readable. Whether the topic is lucid dreaming, near-death experiences, or the very structure of consciousness itself, the reader is continually surprised and delighted. Narrated by Francisco Varela, an internationally recognized neuroscientist, the book begins with insightful remarks on the notion of personal identity by noted philosopher Charles Taylor, author of the acclaimed *Sources of Self*. This sets the stage for Dr. Jerome Engel, Dr. Joyce MacDougal, and others to engage in extraordinary exchanges with the Dalai Lama on topics ranging from the neurology of sleep to the yoga of dreams. Remarkable convergences between the Western scientific tradition and the Buddhist contemplative sciences are revealed. Dr. Jayne Gackenbach's discussion of lucid dreaming, for example, prompts a detailed and fascinating response from the Dalai Lama on the manipulation of dreams by Buddhist meditators. The conversations also reveal provocative divergences of opinion, as when the Dalai Lama expresses skepticism about "Near-Death Experiences" as presented by Joan Halifax. The conversations are engrossing and highly readable. Any reader interested in psychology, neuroscience, Buddhism, or the alternative worlds of dreams will surely enjoy *Sleeping, Dreaming, and Dying*.

Vernon Lee was the pen name of Violet Paget (1856–1935) – a prolific author best known for her supernatural fiction, her support of the Aesthetic Movement and her radical polemics. She was also an active letter writer whose correspondents include many well-known figures in fin de siècle intellectual circles across Europe. However, until now no attempt has been made to make these letters widely available in their complete form. This multi-volume scholarly edition presents a comprehensive selection of her English, French, Italian, and German correspondence — compiled from more than 30 archives worldwide — that reflect her wide variety of interests and occupations as a Woman of Letters and contributor to scholarship and political activism. Letters written in a language other than English have been expertly translated by scholars Sophie Geoffroy (from the French), Crystal Hall (from the Italian), and Christa Zorn (from the German). The edition focuses on those letters concerning the writing, ideas and aesthetics that influenced Lee's articles, books and stories. Full transcriptions of some 500 letters, covering the years 1856-1935, are arranged in chronological order along with a newly written introduction that explains their context and identifies the recipients, friends and colleagues mentioned. Since scholarship on Lee's critical and creative output is still in the beginning stages, these letters will serve a purpose to students and researchers in a number of academic fields. In this first volume, tracing the years 1856– 1884, the assembled letters cover the beginnings of her career, encompassing her first publication, visits to London and encounters with some of the important artistic figures of the time. As

her career begins to blossom, the letters also reflect the expansion of her subject matter from cultural studies and art history to novels and aesthetic philosophy. Correspondents include Lee's parents, Matilda and Henry Paget; her brother the poet Eugene Lee-Hamilton; English poet Mary Robinson; English authors Henrietta Jenkin and Linda Villari; and Italian writers Enrico Nencioni, Mario Pratesi, and Angelo De Gubernatis, among others.

A Nomenclature English and Italian with an Addition of the Most Usual Verbs, and of Many Common Phrases: a Little Book Very Useful to Those that are Willing to Speak Readily in the Italian Tongue

The Verb Set method is an innovative approach created by the author that promotes learning through speaking. Every set contains six verbs and a practice objective, such as mastering a tense or a theme. The questions aim to develop conversation and to help to generate other ideas and phrases. Through the necessity or curiosity of formulating responses, the student actively searches for information, contrary to most conventional methods which simply deliver information to a passive student. The level of difficulty increases progressively as each section is completed.

Encyclopedia of Italian Literary Studies: A-J

Though studying opera often requires attention to aesthetics, libretti, staging, singers, compositional history, and performance history, the music itself is central. This book examines operatic music by five Italian composers--Rossini, Bellini, Mercadante, Donizetti, and Verdi--and one non-Italian, Meyerbeer, during the period from Rossini's first international successes to Italian unification. Detailed analyses of form, rhythm, melody, and harmony reveal concepts of musical structure different from those usually discussed by music theorists, calling into question the notion of a common practice. Taking an eclectic analytical approach, author William Rothstein uses ideas originating in several centuries, from the sixteenth to the twenty-first, to argue that operatic music can be heard not only as passionate vocality but also in terms of musical forms, pitch structures, and rhythmic patterns--that is, as carefully crafted music worth theoretical attention. Although no single theory accounts for everything, Rothstein's analysis shows how certain recurring principles define a distinctively Italian practice, one that left its mark on the German repertoire more familiar to music theorists.

LM: "Com'è possibile aprirsi ai valori per raggiungere la consapevolezza di ciò che conta per noi veramente?"

SH: "La mente è orientata alla risoluzione dei problemi: la modalità giudicante della nostra mente, ci insegna ad approcciarci alle cose sulla base del giudizio.

Conosco solo 4 modi per raggiungere la consapevolezza di queste qualità e tutti sono accessibili solo dopo aver "messo un freno" agli eccessi della mente orientata al problem-solving, così da aiutarci a trovare quel tipo di consapevolezza che ci permette di osservare, descrivere e apprezzare.

Ad esempio se stasera dovete vedere un bellissimo tramonto, non vi mettereste a dire "Oh, meraviglioso! Ma forse servirebbe un po' più di blu e non così tanto rosa!": questo tipo di processo basato sul giudizio è quello che utilizziamo per definire risultati e obiettivi, e fa sì che viviamo la vita come un problema da risolvere.

quindi ecco i 4 modi per raggiungere la consapevolezza di queste qualità

LM: "Cosa intendi con flessibilità e inflessibilità psicologica nell'ACT?"

SH: "Sì, utilizziamo il termine flessibilità psicologica e ciò a cui questo termine si riferisce è un insieme di abilità che hanno una direzione positiva

L'ACT è parte di un lavoro molto più ampio che mira a sviluppare la flessibilità psicologica nella vita umana e che tenta di creare una disciplina scientifica "annidata" nella scienza evolutiva, una scienza comportamentale che sia funzionale e contestuale e che sia in grado di comprendere come funzionano questi processi, come possono essere appresi e diffusi."
