Lectures on Justice, Police, Revenue and Arms

Georg Wilhelm Friedrich Hegel's 'Introduction to Hegel's Philosophy of Fine Arts' is a compilation of notes from his university lectures on aesthetics. Hegel's definition of "the beautiful ideal" is developed throughout the lectures, examining the concept of the artistic ideal as it actualizes itself in three stages of art: symbolic, classical, and romantic. The lectures document the development of art from symbolic architecture to romantic painting, music, and poetry. While Hegel does not declare art to be "dead," he frequently speaks of its "dissolution," stating that art no longer counts as the highest mode in which truth procures existence for itself. This work is a valuable resource for anyone interested in the history of aesthetics and art philosophy.

Imperial Gazetteer of India ...

Excerpt from The Imperial Gazetteer of India, Vol. 1 The first edition of The Imperial Gazetteer of India was published in nine volumes in 1881. A second edition, augmented to fourteen volumes, was issued in the years 1885-7. A revised form of the article on India, greatly enlarged and with statistics brought up to date, appeared as an independent volume in 1893, under the title of The Indian Empire: Its Peoples, History, and Products. All of these were edited by the late Sir William Wilson Hunter, K. C. S. I., who formed the original plan of the work as far back as 1869, when he was first entrusted with the duty of organizing a statistical survey of the country, and who wrote most of The Indian Empire in its final form with his own hand. His untimely death in 1900 has deprived the present edition of the advantages of his ripe experience and literary skill. The second edition having for some time passed out of print, it was resolved by the Government of India that a new edition should be prepared in connexion with the Census of 1901. The changes, however, that have been introduced, both in the general scheme and in the methods of compilation, may justify its being considered as a new work rather than a new edition. The bulk will be raised from fourteen to twenty-six volumes, including a companion Atlas; and the single volume of 'The Indian Empire' has been expanded into four volumes, entitled respectively 'Descriptive,' 'Historical,' 'Economic,' and 'Administrative.' Narmad parikram - Circumambulation of the Narmad River

Excerpt from The Imperial Gazetteer of India, Vol. 14: Index Since. The earlier volumes of this edition went to press in 1885, important changes have taken place in India, to some of which it is needful here to refer. A new Province, larger than France, has been added to the Indian Empire; the long contemplated railway which will traverse inner India direct from Calcutta to Bombay, has been commenced; the Lusitanian schism, which during two centuries rent the Roman Catholic Church in India, has been closed. Less conspicuous local changes - administrative, legislative, educational, and economic have occurred in every Province. Their bare enumeration would involve a supplement quite beyond the scope of this work. In the Preface to the present edition I put forward the View that, 'so far from representing the stationary stage of civilisation, according to a former school of English economists, India is now one of the most rapidly progressive countries of the earth.' The onward movements in India. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
