No Gluten, No Problem Pizza: 75+ Recipes for Every Craving - from Thin Crust to Deep Dish, New York to Naples (No Gluten, No Problem)

Learn how to make the best gluten-free pizza you've ever had in this definitive guide—from the authors of the forthcoming Kids Cook Gluten-Free For Kelli and Peter Bronski, pizza is a passion. So when Peter was diagnosed with celiac disease, they set out on a mission—to master the art of gluten-free pizza-making themselves. With insights from the best pizzaioli from Naples to New York City and beyond—and more than a decade of gluten-free recipe experience—they tested over one thousand pies in pursuit of the perfect gluten-free pizza. Now, they deliver the spectacular result: Seventy-five recipes with all of the authentic flavor and texture of traditional pizza, but none of the gluten. Every step of the process explained, from making the perfect flour blends to launching your pizza into the oven—and everything in between. Fifteen (!) kinds of dough covering all the major pizza styles, including puffy Neapolitan, traditional New York, crispy Roman, buttery Chicago deep dish, and thick-crust Detroit and Sicilian pies. You'll find: Classic and creative flavor combinations, like Rustic Pepperoni, Thai Chicken, and Wild Mushroom. Grain-free and nutrient-rich pizzas, like Pesto Farinata, Cauliflower and Zucchini Crusts, and Teff and Buckwheat Doughs. Pizzas for every meal, like Chocolate-Hazelnut Dessert Pizza, Lox and Cream Cheese Breakfast Pizza. Fried and filled pizzas, focaccia, and flatbreads, like Montanara Pizza, Calzones, Rosemary Focaccia, and Fig and Prosciutto Flatbread. Everyone deserves great pizza—and with this book, you can finally have it!

An Anthropologist on Mars

As with his previous bestseller, *The Man Who Mistook His Wife for a Hat*, in *An Anthropologist on Mars* Oliver Sacks uses case studies to illustrate the myriad ways in which neurological conditions can affect our sense of self, our experience of the world, and how we relate to those around us. Writing with his trademark blend of scientific rigour and human compassion, he describes patients such as the colour-blind painter or the surgeon with compulsive tics that disappear in the operating theatre;

patients for whom disorientation and alienation – but also adaptation – are inescapable facts of life. 'An inexhaustible tourist at the farther reaches of the mind, Sacks presents, in sparse, unsentimental prose, the stories of seven of his patients. The result is as rich, vivid and compelling as any collection of short fictional stories' – Independent on Sunday

From Crappy to Happy: the Naked Truth about Living with Celiac Disease

Are you frustrated that your body has not completely healed yet? You WILL heal. Are you struggling with the fact that you can never eat gluten again? You WILL come to terms with it. Do you dread going out to eat because of fear? You WILL enjoy meals out again. Do you feel like your life is consumed by this disease? You WILL learn to live with it. They say that life is not about what happens to you, but how you react to what happens to you. That, to me, is the key to adjusting to this insidious disease. You can let it beat you or you can fight it back. This book is all about taking the fight to celiac disease. And winning the battle.

The Color of Our Future

Chideya examines how young adults deal with race and the impact this has on American culture.

Enlightened Racism

The Cosby Show needs little introduction to most people familiar with American popular culture. It is a show with immense and universal appeal. Even so, most debates about the significance of the program have failed to take into account one of the more important elements of its success—its viewers. Through a major study of the audiences of The Cosby Show, the authors treat two issues of great social and political importance—how television, America's most widespread cultural form, influences the way we think, and how our society in the post-Civil Rights era thinks about race, our most widespread cultural problem. This book offers a radical challenge to the conventional wisdom concerning facial stereotyping in the United States and demonstrates how apparently progressive programs like The Cosby Show, despite good intentions, actually help to construct "enlightened" forms of racism. The authors argue that, in the post-Civil Rights era, a new structure of racial beliefs, based on subtle contradictions between attitudes toward race and class, has brought in its wake this new form of racial thought that seems on the surface to exhibit a new tolerance. However, professors Jhally and Lewis find that because Americans cannot think clearly about class, they cannot, after all, think clearly about race. This groundbreaking book is rooted in an empirical analysis of the reactions to The Cosby Show of a range of ordinary Americans, both black and white. Professors Jhally and Lewis discussed with the different audiences their attitudes toward the program and more generally their understanding and perceptions of issues of race and social class. Enlightened Racism is a major intervention into the public debate about race and perceptions of race—a debate, in the 1990s, at the heart of American political and public life. This book is indispensable to understanding that debate.

Men and Feminism

There's no denying that men's involvement and interest in feminism is key to its continuing relevance and importance. Addressing the question of why men should care about feminism in the first place, Men and Feminism lays the foundation for a larger discussion about feminism as a human issue, not simply a women's issue. Men are crucial to the movement—as fathers, brothers, husbands, boyfriends, and friends. From "why" to "how" to "what can men do"

The Lolita Effect

Pop culture—and the advertising that surrounds it—teaches young girls and boys five myths about sex and sexuality: Girls don't choose boys, boys choose girls—but only sexy girls; there's only one kind of sexy—slender, curvy, white beauty; girls should work to be that type of sexy; the younger a girl is, the sexier she is; and sexual violence can be hot. Together, these five myths make up the Lolita Effect, the mass media trends that work to undermine girls' self-confidence, that condone female objectification, and that tacitly foster sex crimes. But identifying these myths and breaking them down can help girls learn to recognize progressive and healthy sexuality and protect themselves from degrading media ideas and sexual vulnerability.

Don't Believe the Hype

"A twentieth-anniversary edition of the classic exposé, revised and updated to debunk the myths and stereotypes about Black America being perpetuated by the media. She once again exposes the persistent reality of media bias against black America, even as new media formats proliferate and diversity rises in newsrooms, on television, and in film. This new edition highlights biased news coverage of black athletes, disaster victims, and police violence, among other subjects, with updated statistical information offering accurate counterpoints"--

Bushwomen

The Bushwomen--women appointed to the inner circle of the president's cabinet and sub-cabinet--are a strange breed. Flanders investigates how they rose to high office, where they might be headed, and whether their power is a victory for women's equality.

Fix Me Up

This collection of essays focuses on two sub-genres of reality television: dating shows, like The Bachelor, Joe Millionaire, and the earlier Love Connection; and makeover reality shows, like The Swan and Are You Hot? The Search for America's Sexiest People. Each author explores a different aspect of one or both of these types of shows, focusing especially on the cultural interaction between the text--dating and makeover shows--and society.

BITCHFEST.

TEN YEARS OF CULTURAL CRITICISM FROM THE PAGES OF BITCH MAGAZINE.

Bushwomen

The Bushwomen--women appointed to the inner circle of the president's cabinet and sub-cabinet--are a strange breed. In this bestseller, Flanders investigates how they rose to high office, where they might be headed, and whether their power is a victory for women's equality.

The Asian Mystique

Few Westerners escape the images, expectations and misperceptions that lead us to see Asia as exotic, sensual, decadent, dangerous, and mysterious. Despite - and because of centuries of East-West interaction, the stereotypes of Western literature, stage, and screen remain pervasive icons: the tea-pouring, submissive, sexually available geisha girl; the steely cold dragon lady dominatrix; as well as the portrayal of the Asian male as effeminate and asexual. These "Oriental" illusions color our relations and relationships in ways even well-respected professional "Asia hands" and scholars don't necessarily see. The Asian Mystique lays out a provocative challenge to see Asia and Asians as they really are, with unclouded, deeroticized eyes. It traces the origins of Western stereotypes in history and in Hollywood, examines the phenomenon of 'yellow fever,' then goes on a reality tour of Asia's go-go bars, middle-class homes, college campuses, business districts, and corridors of power, providing intimate profiles of women's lives and vivid portraits of the human side of an Asia we usually mythologize too well to really understand. It strips away our misconceptions and stereotypes, revealing instead the fully dimensional human beings beyond our usual perceptions. The Asian Mystique is required reading for anyone with interest in or interaction with Asia or Asian-origin people, as well as any serious student or practitioner of East-West relations.
