Day 2

Meat of a Brown Bear

Day Five

Ammunition

I Think It's a Bear We Saw in the Last Hunt Haven't Seen Him for About Seven or Eight Days Know a Little Bit of a Limp to Him I Think Not Very Distinguishable There but I Know When He Did Rocks before He'D Limp Pretty Good Well Here's the the Goatee Bear We Saw Earlier this Morning Cruising through the Snow About 7 : 30 in the Morning Presumably Probably So I Went through There Just Following those Trucks You Might Just Be Using those Other Tracks for Ease of Travel He's Up in the High Country Which Is Hot as It's Been Getting in the Middle of the Days Here the Last Five or Six Days I Guess that's Probably Where I'D Be if I Were Him Too

So There's Really Not Much for Us To Do at this Point because He's Walking Faster than Us so We'Re Just Going To Sit and Watch and Maybe We'LI Get Lucky and See Where He Beds They'LI Kind Of Look and like this Big Old Blond Eared Bruiser He's Been Steadily Working His Way Away from Us from Left to Right like He's GonNa Head over the Pass but They Can Certainly Cover Lots of Country So Maybe He'LI Be Working Back Around Here in the Next Day or Two One Afternoon I Noticed Eagles Hovering above a Distant Knoll Looking below Them I Saw Something White Moving in the Brush

I'Ve Found Hunters Have a Tendency To Shoot High Particularly When the Animal Is in Tall Brush and the Hunters Can't See the Bottom of the Animal in Most Cases I Like My Clients To Aim Very Tight or Even Slightly Forward of the Shoulder Crease of a Broadside Bear When the Hunters Who Have Followed this Protocol Have Shot High They'Ve Always Hit at Least the Spine or Scapula and in those Instances the Bears Have Went Down and We Were Always Able To Quickly Kill the Bear with Follow-Up Shots I Do like a Long Shot in Certain Cases
