The Relationship between John Brown and the Queen

Selected Speeches of Albert

He Is So Good and Gentle and Understanding all I Want and Is a Real Comfort to Me Such a Good Influence with the Others Anything Abdul Karim Wanted He Would Get if He Wants a Nice Room He Is Given the Room He's Given John Brown's Old Room and that Is Noticed She Gives Him His Own Carriage Still Ride Around He Goes around Balmoral He Goes to India on Holiday Can You Tell Us about What the Attitude of the Courtiers Was towards Abdul As Soon as He Started Getting All the Favours the Resentment Started As Well and the Queen Accuses Them All the Time of Racism and She Insists that They Behave Courteously to Him Which They Don't and Then once She Invites It because He Is a Bit Arrogant and a Bit Full of Himself

She Was To Be Holding a Framed Photograph of John Brown and on Her Finger Was the Ring Which He'd Given Her His Mother's Wedding as One Walks past that Mausoleum at Frogmore Which Was Nearly Always Closed It's a Strange Thought To Think of Her Lying There Surrounded by All Her Mementos the Image Is Emblematic of a Queen Who Likes Drama in Life and Now in Death but Sadly the Image Isn't One Her Children Could Tolerate all Traces of the Queen's and Conventional Attachments Were Erased the Month She Was Deported Her Children Tried To Edit Their Mother's Life Destroying a Statues of John Brown Censoring Her Journals Burning Her Letters

And They Are the Business Which Was with these Letters You See Her Unmasked There a Stream of Consciousness Pouring out of Her Two or Three Times a Week to Her Daughter in Germany about Everything under the Sun about the Unsatisfactoriness of Men and of Marriage Oh Marriage Is Such a Lottery the Happiness Is Always in Exchange though It May Be a Very Happy One Still the Poor Woman Is Bodily and Morally the Husband's Slave That Always Sticks in My Throat She Must Have Found Writing in this Way

Tales of War

A powerful collection of historical stories of military endeavour from the Romans to landmarks in American history

Tales of War

From Julius Caesar's victory at the Battle of Zela in 47 BC to the heroics of U.S. marines during the Second World War, Tales of War is a unique tour of the camaraderie, bravery and sacrifice of armed conflict. With a story for every day of the year, discover why the Star Spangled Banner was adopted as the U.S. national anthem, how Joan of Arc relieved the siege of Orleans and the shock of the first use of tanks in warfare at the Battle of the Somme--and much more.

D-Day

'Vivid, graphic and moving' Mail on Sunday Book of the Year 'It has a wonderful immediacy and vitality - living history in every sense' Anthony Horowitz 'Fantastic' Dan Snow 'Compellingly authentic, revelatory and beautifully written. A gripping tour de force' Damien Lewis 'Stirring and unsettling in equal measure, this is history writing at its most powerful' Evening Standard Seventy-five years have passed since D-Day, the day of the greatest seaborne invasion in history. The outcome of the Second World War hung in the balance on that chill June morning. If Allied forces succeeded in gaining a foothold in northern France, the road to victory would be open. But if the Allies could be driven back into the sea, the invasion would be stalled for years, perhaps forever. An epic battle that involved 156,000 men, 7,000 ships and 20,000 armoured vehicles, the desperate struggle that unfolded on 6 June 1944 was, above all, a story of individual heroics - of men who were driven to keep fighting until the German defences were smashed and the precarious beachheads secured. Their authentic human story - Allied, German, French - has never fully been told. Giles Milton's bold new history narrates the day's events through the

tales of survivors from all sides: the teenage Allied conscript, the crack German defender, the French resistance fighter. From the military architects at Supreme Headquarters to the young schoolboy in the Wehrmacht's bunkers, D-Day: The Soldiers' Story lays bare the absolute terror of those trapped in the frontline of Operation Overlord. It also gives voice to those hitherto unheard - the French butcher's daughter, the Panzer Commander's wife, the chauffeur to the General Staff. This vast canvas of human bravado reveals 'the longest day' as never before - less as a masterpiece of strategic planning than a day on which thousands of scared young men found themselves staring death in the face. It is drawn in its entirety from the raw, unvarnished experiences of those who were there.

Strange and Obscure Stories of World War II

Here are overlooked or forgotten tales from the world's greatest conflict. These are stories of courage, daring, and stupidity, some of which would challenge the imaginations of Hollywood scriptwriters. Some of the many true tales that author Donald Aines recounts include: • He would never be cast as a dashing war hero, but a cast member of "The Addams Family" television show volunteered for one of the most dangerous jobs the Army Air Force had to offer. • The US Navy's deadliest submarine claimed an unexpected victim with its last torpedo, and led to one of the war's most harrowing tales of survival. • Bob Hoover's escape from a German stalag would have made a great movie. • British commando "Mad Jack" Churchill earned his nickname, arming himself to fight a 20th century war with a 15th century attitude and weapons. • The Germans and Japanese wasted precious resources developing weapons more dangerous to the users than their enemies. • The GI who stole the voices of his victims, and other Allied and Axis serial killers. Within the pages of Strange and Obscure Stories of World War II, the reality of war trumps fiction.

Remembering D-day: Personal Histories of Everyday Heroes

Seventy years on, D-Day remains the greatest combined military operation of all time. Published in association with the Imperial War Museum, this is a remarkable collection of the stories of those who took part.

On the Front Line

In 1930, the editor of Everyman Magazine requested entries for a new anthology of Great War accounts. The result was a revolutionary book unlike any other of the period; for as Malcolm Brown notes in his introduction 'I believe it might fairly be described as a rediscovered classic'. It was the very first collection to reveal the many dimensions of the war through the eyes of the ordinary soldier and offers heart-stopping renditions of the very first gas attack; aerial dogfights above the trenches; the moment of going over the top. Told chronologically, from the first scrambles of 1914, the drudgery of the war of attrition once the trenches had been dug, to the final joy of Armistice.

100 Days to Victory: How the Great War Was Fought and Won 1914-1918

Saul David's 100 DAYS TO VICTORY is a totally original, utterly engaging account of the Great War - the first book to tell the story of the 'war to end all wars' through the events of one hundred key days between 1914 and 1918. 100 DAYS TO VICTORY is a 360 degree portrait of a global conflict that stretched east from the shores of Britain to the marshes of Iraq, and south from the forests of Russia to the bush of German South East Africa. Throughout his gripping narrative we hear the voices of men and women both eminent and ordinary, some who were spectators on the Home Front, others - including Saul David's own family - who were deeply embroiled in epic battles that changed the world forever. 100 DAYS TO VICTORY is the work of a great historian and supreme story teller. Most importantly, it is also an enthralling tribute to a generation whose sacrifice should never be forgotten.

Heroes of World War I

These are the stories of fourteen men whose lives were changed the day that telegram arrived. In 1914 they were accountants, shopkeepers and labourers. When they were called to arms they became soldiers, sailors and airmen, fighting in the mud of the trenches, navigating the high seas or flying in the very first aerial war. Miles from their homes and families, they were pushed to their very limits and forever changed by what they experienced. Not all of them came back again. In Heroes of World War I Scott Addington tells the long-forgotten stories of fourteen brave men who rallied for their country. The voice of the ordinary soldier is typically overlooked by memories and histories of the First World War, and so this book is a tribute to them.

Forty-Seven Days

The gripping account of the U.S. First Army's astonishing triumph over the Germans in America's bloodiest battle of the First World War—the Battle of the Meuse-Argonne. “Get ready to dig into one of the wildest and deadliest battles in history. The beautifully researched Forty-Seven Days takes you right there and shows you all the minute details, from the pings of a bullet to Pershing's confidence and fears.”—Brad Meltzer, #1 New York Times bestselling author of *The First Conspiracy* The Battle of the Meuse-Argonne stands as the deadliest clash in American history: More than a million untested American soldiers went up against a better-trained and -experienced German army, costing more than twenty-six thousand deaths and leaving nearly a hundred thousand wounded. Yet in forty-seven days of intense combat, those Americans pushed back the enemy and forced the Germans to surrender, bringing the First World War to an end—a feat the British and the French had not achieved after more than three years of fighting. In *Forty-Seven Days*, historian Mitchell Yockelson tells how General John J. “Black Jack” Pershing's exemplary leadership led to the unlikely victory. Also explored is a cast of remarkable individuals, including America's original fighter ace, Eddie Rickenbacker; Corporal Alvin York, a pacifist who nevertheless single-handedly killed more than twenty Germans and captured 132; artillery officer and future president Harry S. Truman; innovative tank commander George S. Patton; and Douglas MacArthur, the Great War's most decorated soldier, who would command the American army in the Pacific War and in Korea. Offering an abundance of new details and insight, *Forty-Seven Days* is the definitive account of the First Army's hard-fought victory in World War I—and the revealing tale of how our military came of age in its most devastating battle. “Mitchell Yockelson expands our understanding not only of how World War I ended, but also of how militaries can change and adapt under conditions of great adversity.”—Max Boot, New York Times bestselling author of *The Road Not Taken*

Best Little Stories from World War II

The untold stories of bravery, triumph, and redemption in the depths of the darkest world war. Behind the great powers, global military conflict, and infamous battles are more than 100 incredible stories that bring to life the Second World War. During the six years of war were countless little-known moments of profound triumph and tragedy, bravery and cowardice, and good and evil. These amazing and unbelievable stories of brotherhood, redemption, escape, and civilian courage shed new light on the war that gripped the entire world. Experience the action through the eyes of people like: Lieutenant Jacob Beser, who was aboard both the *Enola Gay* and *Bock's Car* and felt the force of the shockwave that nearly destroyed the planes after dropping the H-bombs that obliterated Hiroshima and Nagasaki. Professor William Miller, who collapsed during a death march of POWs in Germany and was saved by the same man who had rescued him from what would have been a fatal car wreck in Pennsylvania five years earlier. The brave civilians who answered the British Admiralty's call to help rescue an army from Dunkirk during the height of a dangerous battle and sailed small fishing boats into relentless German fire, ultimately saving 335,000 men from This is the perfect book for any history buff looking for the untold stories of military and civilian daring during World War 2.

Soldiers Tales

"Plodding through mud up to the knees for days on end with a 25lb pack plus weapons and ammunition made me curse the war in no uncertain terms. Then one day I heard a soldier behind me praying, 'Dear God, help me pick up me feet, I'll put the bastards down'." Captain Glenn Davidson, New Guinea, WWII A collection of stories that are entertaining, emotional and humorous, *Soldiers' Tales* is a wonderful tribute to the Aussie Digger. From World War One to the modern day conflict, Australian soldiers share their stories and anecdotes usually saved for Anzac Day or a catch-up with mates over a cup of tea or an icy cold beer. In their own words they provide a fascinating glimpse of the many funny and touching moments that our Diggers often hold tight to their chest. The collection of stories featured in *Soldiers' Tales* vividly provide a taste of what a soldier's life is like in both war and peace. From the pyramids of Egypt where a pint-sized Captain used lateral thinking to gain respect; Anzac day on the porch with Banjo; playing golf in Baghdad or a scorpion in the pants in Vietnam; their stories showcase the sense

of humour and the importance of mateship to the Aussie digger. Soldiers' Tales is a collection of yarns to warm the heart and bring a smile to your face or a tear to the eye. A wonderful collection of stories that will delight readers of all ages and linger on well after the book has been put aside.

Sixty Days in Combat

"The infantryman's war is . . . without the slightest doubt the dirtiest, roughest job of them all." He went in as a military history buff, a virgin, and a teetotaler. He came out with a war bride, a taste for German beer, and intimate knowledge of one of the darkest parts of history. His name is Dean Joy, and this was his war. For two months in 1945, Joy endured and survived the everyday deprivations and dangers of being a frontline infantryman. His amazingly detailed memoir, self-illustrated with numerous scenes Joy remembers from his time in Europe, brings back the sights, sounds, and smells of the experience as few books ever have. Here is the story of a young man who dreamed of flying fighter aircraft and instead was chosen to be cannon fodder in France and Germany . . . who witnessed the brutality of Nazis killing Allied medics by using the cross on their helmets as targets . . . and who narrowly escaped being wounded or killed in several "near miss" episodes, the last of which occurred on his last day of combat. Sixty Days in Combat re-creates all the drama of the "dogface's" fight, a time that changed one young man in a war that changed the world.

The Longest Day

A unique and poignant record of a club created for heroes. There are just a handful of men and women alive today who served and fought with the Special Forces during the Second World War. They are a dwindling bunch of veterans in their twilight years whose tales of heroism and daring-do will soon be lost in time forever - yet they still regularly get together in a gentleman's club, right in the heart of London - The Special Forces Club.

Tales from the Special Forces Club: the Untold Stories of Britain's Elite WWII Warriors

A collection of stories that are entertaining, emotional and humorous, Soldiers' Tale is a wonderful tribute to the Aussie digger. Australian soldiers share their stories and anecdotes from World War One to the modern day conflict, the stories that are usually saved for Anzac Day or a catch-up with mates over a cup of tea or an icy cold beer. In their own words they provide a fascinating glimpse of the many funny and touching moments that our diggers often hold tight to their chest. The collection of stories featured in Soldiers' Tale vividly provide a taste of what a soldiers life is like in both war and peace. From the pyramids of Egypt where a pint-sized captain used lateral thinking to gain respect, Anzac day on the porch with Banjo Patterson or a scorpion in the pants in Vietnam, their stories showcase the laconic sense of humour of the Aussie digger - that wonderful ability to get the job done with a sense of fun and a helping hand for a mate. The stories within Soldiers' Tales will warm the heart, bring a smile to the face or a tear to the eye. Soldiers' Tales

This is Mike Sadler's story, one of five true-life recollections from the Second World War in Tales From The Special Forces Club.

Fighting Rommel: Captain Mike Sadler (Tales from the Special Forces Shorts, Book 1)

On 6 June 1944 Britain woke up to a profound silence. Overnight, 160,000 Allied troops had vanished and an eerie emptiness settled over the country. The majority of those men would never return. This is the story of that extraordinary 24 hours. Using a wealth of first person testimonies, renowned historian Max Arthur recounts a remarkable new oral history of D-Day, beginning with the two years leading up to the silent day which saw the UK transformed by the arrival of thousands of American and Canadian troops. We also hear the views of the American troops, who quickly formed strong views of both the British military and civilian populations. Then, on that June morning, many Britain people woke up to discover that vast areas of the country, which had throbbed with life only the day before, were now empty and silent. Civilian workers found coffee pots still warm on the stove but not a soul to greet them. Many women - and children - felt bewildered and betrayed. Then, throughout that day and the days that followed, the whole population gathered around wireless sets, waiting for news. There are powerful testimonies from families of who lost loved ones on the beaches of Normandy, and dramatic personal accounts from young widows who had never had the chance to say goodbye. THE SILENT DAY is an original and evocative portrait of a key event in world history, and a poignant reminder of the human cost of D-Day.

Stories of real-life bravery and courage-under-fire contribute to a unique and poignant record of a club created for heroes.

Tales from the Special Forces Club

A critically acclaimed historian reveals the heroism and perseverance of a US Army special ops unit during one of the most overlooked campaigns of WWII. In August of 1943, a call went out for American soldiers willing to embark on a "hazardous and dangerous mission" behind enemy lines in Burma. The war department wanted 3,000 volunteers, and it didn't care who they were; they would be expendable, with an expected casualty rate of eighty-five percent. The men who took up the challenge were, in the words of one, "bums and cast-offs" with rap sheets and reputations for trouble. One war reporter described them as "Dead End Kids," but by the end of their five-month mission, those that remained had become the legendary "Merrill's Marauders." From award-winning historian Gavin Mortimer, Merrill's Marauders is the story of the American World War II special forces unit originally codenamed "Galahad," which, in 1944, fought its way through 700 miles of snake-infested Burmese jungle—what Winston Churchill described as "the most forbidding fighting country imaginable." Though their mission to disrupt Japanese supply lines and communications was ultimately successful, paving the way for the Allied conquest of Burma, the Marauders paid a terrible price for their victory. By the time they captured the crucial airfield of Myitkyina in May 1944, only 200 of the original 3,000 men remained; the rest were dead, wounded, or riddled with disease. This is the definitive nonfiction narrative of arguably the most extraordinary, but also unsung, American special forces unit in World War II.

Merrill's Marauders

Excerpt from *Stories of War Told by Soldiers* It was the third day of a sour northeast storm. Colonel Ingham had a great party of nephews and nieces, and of his old correspondents and of their friends, - all young people, - on a crazy, rollicking visit at his country-house at Little Crastis. In pleasant weather they all fared very well, - for they were all out of doors. Many of the boys and girls were none too big to pick berries. None were so small but they could be trusted in the boats, of which there were five, on the ponds, of which there were six, within an hour's walk. For the bigger boys and girls there was a catamaran, in which they could make voyages on the ocean. There were plover and yellow-legs, and thirty-one other varieties of sea-birds for the boys who liked to shoot. Stories of War Told by Soldiers

The companion volume to the groundbreaking TV series, this book tells the story of the physical, emotional and psychological journey of Allied soldiers from the beaches of Normandy to the ruins of Berlin. In their own words these brave men from Britain, the United States, Canada and Russia tell us what it was like to face the bullets, bombs, mortars, mines and artillery shells of Nazi Germany. Interviews with over 80 soldiers who fought in the conflict, totalling 150 hours, provide a new perspective on the experiences of 1944–45. Building on the high-speed, multi-camera filming of World War II weapons and munitions shown in the TV series, this book brings the terrifying reality of the war to life. Technical descriptions and the experiences of the men in the field explain the dramatic power and effect that this weaponry had on the battlefield, from the sinister simplicity of the deadly AP mine through to the immense firepower of the 88mm gun, giving the modern historian a unique insight into the last days of the war for the troops on the frontline. This is not a history of generals, of armies manoeuvring and strategic objectives. It is a book about the ordinary men put into incredible situations, deprived of sleep and food, and in constant fear of death on the long road to victory.

D-Day to Victory

Behind the tangled alliances, feuding royals, and deadly battles are the nearly 100 riveting true stories of the men and women who lived, fought, and survived the first Great War. Based on the writings of soldiers, politicians, kings, nurses, and military leaders, *Best Little Stories from World War I* humanizes their foibles, triumphs, and tragedies—and chronicles how the emergence of fervent national pride led not only to ruthless combat, but a critical turning point in the twentieth century. Fascinating characters come to life, including: Lady Almina, the 5th Countess of Carnarvon, who turned her husband's Highclere Castle into a luxurious military hospital for British officers (and inspired the hit television show *Downton Abbey*). Otto Roosen, the high-flying German reconnaissance pilot, who was shot down not only one but twice—first by the Canadian ace Billy Bishop and then by a fellow German—and survived. Arthur Guy Empey, the American who volunteered for the British Army after the sinking of the *Lusitania*, then wrote a bestselling memoir about life in the muddy trenches of the western front.

Best Little Stories from World War I

Immediately after the armistice was signed in November, 1918, an American journalist asked Paul von Hindenburg who won the war against Germany. He was the chief of the German General Staff, co-architect with Erich Ludendorff of Germany's Eastern Front victories and its nearly war-winning Western Front offensives, and he did not hesitate in his answer. "The American infantry," he said. He made it even more specific, telling the reporter that the final death blow for Germany was delivered by "the American infantry in the Argonne." The British and the French often denigrated the American contribution to the war, but they had begged for US entry into the conflict, and their stake in America's victory was, if anything, even greater than that of the United States itself. But *How America Won WWI* will not litigate the points of view of Britain and France. The book will accept as gospel the assessment of the top German leader whose job it had been to oppose the Americans directly - that the American infantry won the war - and this book will tell how the American infantry did it.

How America Won World War I

Instead of retracing the much-dissected actions of heads of state, Stafford brings to life the preparations for history's most formidable invasion through the eyes of the ground-level participants.

Ten Days to D-Day

This is a short and Untold Stories of the Extraordinary World War II - Courage, Survival, Resistance and Rescue Mission. As a guide to understanding the enormity of the impact of the war, there were more than 16 million Americans who served in World War II. There were 60 other countries also involved in the war. There were about 70 million people killed in the war. This is about one-quarter of all the people on earth at that time. Many of the heroes were not recognized in their lifetimes and some ended in lessened circumstances or torture and death because of their efforts to save lives during the agonies of war. Millions died but millions were saved by thousands of actions by people caught

in a war that seemed like it would never end. Some of the stories are captured here. This is a World War / Military book. Military science, world war two history. The Forgotten Heroes: Untold Stories of the Extraordinary World War II - Courage, Survival, Resistance and Rescue Mission

The extraordinary and compelling story of the 6th of June, 1944, Operation Overlord and the Battle for Normandy is told here through first-hand testimonies from civilians and soldiers on both sides. It features classic accounts by soldiers such as Rommel and Bradley, together with frontline reports by some of the world's finest authors and war correspondents, including Ernest Hemingway and Alan Melville. Highlights of this unique collection include the break-out from Omaha beach as told by the GI who led it, a French housewife's story of what it was like to wake up to the invasion, German soldiers' accounts of finding themselves facing the biggest seaborne invasion in history, a view from the command post by a member of Eisenhower's staff, combat reports, diaries and letters of British veterans of all forces and services, and accounts of the follow-up battle for Normandy, one of the bloodiest struggles of the war. The Allied armada involved over 5,000 craft, which had by the end of 'the longest day' succeeded in landing 156,000 men, and in breaching Hitler's much vaunted defensive wall. Dramatic and historic though the events of D-Day were, they were but the opening shots of a much larger and equally remarkable battle – the battle for Normandy. It took the Allies ten weeks of bloody fighting to get out of Normandy, during which the infantry casualty rate rivalled that of the Western Front in the First World War. This book is the story of that fateful day, the preparations which led up to it, and the ten weeks of fighting in Normandy which followed it, told by the men and women who were there, who witnessed it at first hand. It is compiled from interviews with scores of veterans, from diaries, memoirs and letters. Occasionally, exact chronology has been sacrificed in the interests of communicating better the experience of Normandy, for above all this is a book about how the invasion looked and felt to those who were there. It is often brutally honest, far removed from the comfortable romantic version of D-Day and the battle for Normandy. (For example, there are accounts here of crimes committed against German POWs by Allied soldiers.)

Colonel Rodney Foster, who retired to Hythe in the south of England after a military career in British India, joined the Home Guard in 1940 and kept a diary every day - a highly illegal act at the time - and in it meticulously chronicled his service in the real Dad's Army.

Slum and Guns, Tales of Marines in the Great War. Consisting of several short stories, Slum and Guns describes the life and times of Marines during the Great War, from their training in the United States to the killing fields of France. Most were brave as they advanced into intense artillery and machine-gun fire, suffering heavy casualties. At other times they offered aid to their buddies, French civilians, children, and even a dog. Food was obtained where ever it could be found.

For those who loved Stephen E. Ambrose's *Band of Brothers* and E.B. Sledge's *With the Old Breed*. Drawing on toughness and skills forged in hardscrabble Depression-era North Carolina, Bronze Star recipient and expert B.A.R. rifleman Harold Frank invades Normandy, fights Germans, and endures a grueling stint in a German POW camp where he witnesses the fire-bombing of Dresden. From D-Day to Dresden with a Crack Shot B.A.R. Rifleman D-Day 1944: twenty-year-old PFC Harold Frank had moved as one with his battalion onto the shores of Utah Beach, pushing into France to cut off and blockade the pivotal Nazi-occupied deep-water port of Cherbourg. As a recognized crack shot with WW II's iconic American automatic rifle, Frank fought bravely across the bloody hedgerows of the Cotentin Peninsula. During the most intense fighting, Frank was ambushed and wounded in a deadly, nine-hour firefight with Germans. Taken prisoner and with a bullet lodged under one arm, Frank found himself dumped first in a brutal Nazi POW concentration camp, then shipped to a grueling work camp on the outskirts of Dresden, Germany, where the young PFC was exposed to the vengeance of a crumbling Nazi regime, the menace of a rapidly advancing Russian military—and the danger of thousands of Allied bombers screaming overhead during the firebombing of Dresden. Historian Mark Hager builds on hundreds of hours of interviews with Harold Frank, sharing the intimate and heart-pounding account of Frank's journey as a child of the Great Depression to the bloody shores of the D-Day invasion, into the bowels of Nazi Germany, and back to the U.S. where as a young man Harold would spend years resolutely dealing with the lingering effects of starvation rations while determinedly building a new life—a life always mindful of the legacy of his POW experience and his faithful service in America's hard-fought war against Nazi aggression.

Soldiers' Tales #2 is a unique collection of personal accounts told by soldiers or relatives who have lived with their stories. Spanning the period from World War I through to the conflicts of the modern era, these stories are a mixture of the humorous and the intensely emotional. This collection is unmistakably Australian and is a combination of larrikin yarns and other more serious stories that tell of tragedy and often unspoken pain.

Soldiers' Tales

World War II was the largest and most violent armed conflict in the history of mankind. However, the half century that now separates us from that conflict has exacted its toll on our collective knowledge. While World War II continues to absorb the interest of military scholars and historians, as well as its veterans, a generation of Americans has grown to maturity largely unaware of the political, social, and military implications of a war that, more than any other, united us as people with a common purpose.

World War 2 Soldier Stories Part II

The truth about the sacrifice and suffering on the home front during World War I is rarely discussed. In this book, some of the oldest men and women in the country speak about experiences and events that have remained buried for 85 years. Their testimony shows the same candor and courage we have become accustomed to hearing from veterans of the western front. Those interviewed include a survivor of a Zeppelin raid on Hull in 1915, a Welsh munitions worker recruited as a girl, and a woman rescued from a bombed school after five days. There are also accounts of rural famine, bereavement and the effects on families back home, and even the story of a woman who planned to kill her family to save them further suffering.
