Business Studies 2 Unit, Years 11-12

Indeed, since the end of apartheid in 1994 South Africa has become a major diplomatic player both on the African continent as well as further afield. Despite the size of South Africa's economy, the country currently faces a number of major economic challenges. As of the end of July 2014 the unemployment rate was at 25.5%, according to data from Statistics South Africa, which was among the highest in the world. While the government's long-term development plans are generally highly regarded, delivery and execution has occasionally been problematic. While there are major hurdles that must be cleared, given the country's strong institutions and the rapid pace of economic expansion over the past two decades, South Africa should be able to look forward to 20 more years of peace and steady, sustained economic growth.

A country's attitudinal profile is as much a part of its social reality as are its demographic make-up, its culture and its distinctive social patterns. It helps to provide a nuanced picture of a country's circumstances, its continuities and changes, its democratic health, and how it feels to live there. It also helps to measure the country's progress towards the achievement of its economic, social and political goals, based on the measurement of both 'objective' and 'subjective' realities. South African Social Attitudes: Changing Times, Diverse Voices is a new series aimed at providing an analysis of attitudes and values towards a wide range of social and political issues relevant to life in contemporary South African society. As the series develops, we hope that readers will be able to draw meaningful comparisons with the findings of previous years and thus develop a richer picture and deeper appreciation of changing South African social values. This, the first volume in the series, presents the public's responses during extensive nation-wide interviews conducted by the HSRC in late 2003. The findings are analysed in three thematic sections: the first provides an in-depth examination of race, class and politics; the second gives a critical assessment of the public's perceptions of poverty, inequality and service delivery, and the last explores societal values such as partner violence and moral attitudes. South African Social Attitudes is essential reading for anyone seeking a guide to contemporary social or political issues and debates. It should prove an indispensable tool not only for

government policy-makers, social scientists and students, but also for general readers wishing to gain a better understanding of their fellow citizens and themselves.

"A true classic of world literature . . . A masterpiece that has inspired generations of writers in Nigeria, across Africa, and around the world." —Barack Obama "African literature is incomplete and unthinkable without the works of Chinua Achebe." —Toni Morrison Nominated as one of America's best-loved novels by PBS's The Great American Read *Things Fall Apart* is the first of three novels in Chinua Achebe's critically acclaimed African Trilogy. It is a classic narrative about Africa's cataclysmic encounter with Europe as it establishes a colonial presence on the continent. Told through the fictional experiences of Okonkwo, a wealthy and fearless Igbo warrior of Umuofia in the late 1800s, *Things Fall Apart* explores one man's futile resistance to the devaluing of his Igbo traditions by British political and religious forces and his despair as his community capitulates to the powerful new order. With more than 20 million copies sold and translated into fifty-seven languages, *Things Fall Apart* provides one of the most illuminating and permanent monuments to African experience. Achebe does not only capture life in a pre-colonial African village, he conveys the tragedy of the loss of that world while broadening our understanding of our contemporary realities.

Tsotsi is an angry young gang leader in the South African township of Sophiatown. A man without a past, he exists only to kill and steal. But one night, in a moonlit grove of bluegum trees, a woman he attempts to rape forces a shoebox into his arms. The box contains a baby, and his life is inexorably changed. He begins to remember his childhood, to rediscover himself and his capacity for love. Turned into an Oscar-winning movie in 2006, Tsotsi's raw power and rare humanity show how decency and compassion can survive against the odds.

State of the Nation: South Africa 2007 offers 22 diverse angles on contemporary South Africa in one compelling and comprehensive collection. The politics section focuses on the outcome of the 2006 local government elections and issues of service delivery. The economy section examines the rapidly growing social welfare net, the state of our public health systems, and the topics of water and the environment, heritage and tourism. Violence against women, prison reform, the plight of South Africa's former guerrilla fighters, transformation in South African rugby and the post-apartheid role of the church all come under the spotlight in the society section. The volume concludes with a look at trends in the continuing involvement of South African business on the African continent, South Africa's part in the complex search for peace and stability in the Democratic Republic of Congo, and the life of the vast Zimbabwean exile community in South Africa.

Applied Business Statistics: Methods and Excel-based applications (second edition) is an introductory Statistics text written specifically for Management students who require an understanding of the role of Statistics in analysing business data in fields such as Marketing, Finance, Human Resources, Production and Logistics. The primary focus of this text is to empower management students with statistical decision making skills so that they become active participants rather than passive observers in business situations where statistical findings are reported and discussed as part of a management decision making process. The text is divided into three major sections: „h exploratory data analysis „h statistical inferences, and „h statistical modelling. Each section focuses on a different role of Statistics as a decision support tool. Emphasis is therefore placed on: „h the data requirements for the various techniques and issues of data quality „h indentifying likely application areas through numerous illustrative examples „h noting the limitations of techniques for decision analysis, and the valid management interpretation of statistical findings. A new feature of this edition of Applied Business Statistics is the use of computer software such as Excel to perform statistical analysis. Excel's statistical capabilities are illustrated through numerous worked examples found in the text. Students are given the opportunity to familiarize themselves with Excel's statistical capabilities by applying them to data sets of business problems, which are available on the accompanying CD. Students can monitor their learning with the help of the exercises at the end of every chapter. Each statistical technique is developed through business-related worked examples drawn from the author's diverse work experiences as a statistical consultant. In this way, a student can readily grasp the basic concept of the technique as well as see how it would be applied in practice. This combination of method and application should prove helpful to both student and lecturer. With a working knowledge of Excel, students can become managers who are able to design and conduct their own statistical analysis in the workplace. Applied Business Statistics is therefore accessible to all students, as only a basic level of mathematical ability is required to work through this book.

Economic and Management Sciences, Grade 8

Regile is a zama-zama working illegally in an abandoned mine near Barberton. He has moved up the ranks and is now paid a salary to keep the other child workers in line. Towards the end of a three-month stint underground, a fourteen-year-old boy from Mozambique, Taiba, starts asking questions about their rescue. Taiba constantly reaffirms his belief that they will be saved: by the police, by the private security firms that guard the mines, or maybe even by the mythical Spike Maphosa. Regile knows that such hope is dangerous.

CIM Bulletin

From the ill-fated dot-com bubble to unprecedented merger and acquisition activity to scandal, greed, and, ultimately, recession -- we've learned that widespread and difficult change is no longer the exception. By outlining the process organizations have used to achieve transformational goals and by identifying where and how even top performers derail during the change process, Kotter provides a practical resource for leaders and managers charged with making change initiatives work.

The 5 Key Success Factors

"The Gift of the Magi" is a short story by O. Henry first published in 1905. The story tells of a young husband and wife and how they deal with the challenge of buying secret Christmas gifts for each other with very little money. The main idea of "The Gift of the Magi" is that the value of a gift is in the giver, rather than the gift itself. Jim and Della, out of their love for each other, purchased a gift that required them to sacrifice something that was precious to them.

Study and Master Geography Grade 11 CAPS Study Guide

Companies operating in complex environments require a rigorous understanding of the economic, political, social and conflict dynamics of which they become part. Such insight helps them navigate substantial risks and challenges, grow their business even in unexpected places, work more effectively with local, national and international actors, and make meaningful contributions to stability and development. This book combines expert analysis, company case stories, and reflections from more than 100 business leaders. Drawing on a vast repository of knowledge and experience, it poses essential questions to better understand a particular complex environment and lead the company within it. It concretely demonstrates how leaders can help their companies meet their full range of goals - technical, financial, legal, reputation and social - by addressing the questions set out in this book. It is an invaluable resource for corporate practitioners and others concerned with company operations in complex environments. The book is the result of an intense and fruitful collaboration among the Africa Centre for Dispute Settlement, University of Stellenbosch Business School; the Corporate Engagement and Reflecting on Peace Practice Programs of CDA; the Geneva Peacebuilding Platform; the Institute for Business in the Global Context of The Fletcher School, Tufts University; the IRENE Institute of ESSEC Business School; the International Council of Swedish Industry; and the Stockholm Policy Group. Authors include Dost Bardouille-Crema, Diana Chigas, Brian Ganson, Kathleen Hamill, Paul Hollesen, Benjamin Miller, Cecile Renouard, Nicklas Svensson, and Achim Wennmann.
