### A Landscape with Dragons

The Harry Potter series of books and movies are wildly popular. Many Christians see the books as largely if not entirely harmless. Others regard them as dangerous and misleading. In his book *A Landscape with Dragons*, Harry Potter critic Michael O'Brien examines contemporary children's literature and finds it spiritually and morally wanting. His analysis, written before the rise of the popular Potter books and films, anticipates many of the problems Harry Potter critics point to. *A Landscape with Dragons* is a controversial, yet thoughtful study of what millions of young people are reading and the possible impact such reading may have on them. In this study of the pagan invasion of children's culture, O'Brien, the father of six, describes his own coming to terms with the effect it has had on his family and on most families in Western society. His analysis of the degeneration of books, films, and videos for the young is incisive and detailed. Yet his approach is not simply critical, for he suggests a number of remedies, including several tools of discernment for parents and teachers in assessing the moral content and spiritual impact of this insidious revolution. In doing so, he points the way to rediscovery of time-tested sources, and to new developments in Christian culture. If you have ever wondered why a certain children's book or film made you feel uneasy, but you couldn't figure out why, this book is just what you need. This completely revised, much expanded second edition also includes a very substantial recommended reading list of over 1,000 books for kindergarten through highschool.

In the evening when it gets dark, a daddy dragon, a mommy dragon, and dragon children breathe fire into the night. They see who can breathe their fire the farthest and they sing out, "Fire is life, and life is fire!" But one night Mommy has trouble making a flame. As she grows sicker, it's up to Daddy and the dragon children to love and take care of her. And when Mommy's flame goes out completely, Daddy and the dragon children give her one last hug, one last kiss, and find a way to say good-bye. Eventually Daddy and the dragon children decide to try breathing fire into the night again. They do not breathe their flames very far, but something special happens. High in the sky a sparkling star flashes like a flame in the dark. "Mama!" the dragon children cry, and it is so beautiful that Daddy announces, "Mama wins this time." Dragon Fire is a picture book about cancer and what it means for a family. Geert De Kockere's gentle text tells the true story of An Dom and her family, and Tineke Van Hemeldonck's simple paintings allow raw emotion into her illustrations. This is a must-have book for any family dealing with a parent with terminal illness. Sky Pony Press, with our Good Books, Racehorse and Arcade imprints, is proud to publish a broad range of books for young readers—picture books for small children, chapter books, books for middle grade readers, and novels for young adults. Our list includes bestsellers for children who love to play Minecraft; stories told with LEGO bricks; books that teach lessons about tolerance, patience, and the environment, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

## Dragon Fire

This is a fabulous bedtime stories book to read to your child. It is filled with lovely stories that young children can relate to and learn from. It can also be used by early readers to practice their reading skills. These 12 Short Stories explore the fears that many young children experience. The stories focus on Dan the Dragon, so that you and your child can read about his fears and how he overcame them. The little boy in the story often doesn't admit he is scared or that he has made a mistake, instead he blames the dragon. I have written the stories from this point of view because sometimes when parents try to help their child to overcome problems, the child is too close to the situation and cannot rationally identify and solve the problem. This slightly disconnected action where the dragon has the problem...allows young children to focus on solving that problem. The Stories include: "Where's My Mommy?" A New

Baby Brother My Friend the Dragon Throws Tantrums My Friend the Dragon is Scared of the Dark My Friend the Dragon has a Messy Room "It's Not My Fault!" My Friend the Dragon Says Bad Words My Friend the Dragon Won't Eat That! My Friend the Dragon has Accidents My Friend the Dragon is Very Shy My Friend the Dragon Meets a Bully My Friend the Dragon Has Bad Dreams At the end of the book there is a Bonus Section on Strategies for Solving Toddler Fears.

Did you want to go to America? Pop: Sure. I didn't have a choice. My father said I had to go. So I went. Were you sad when you left your village? Pop: Maybe a little . . . well, maybe a lot. Ten-year-old Gim Lew Yep knows that he must leave his home in China and travel to America with the father who is a stranger to him. Gim Lew doesn't want to leave behind everything that he's ever known. But he is even more scared of disappointing his father. He uses his left hand, rather than the "correct" right hand; he stutters; and most of all, he worries about not passing the strict immigration test administered at Angel Island. The Dragon's Child is a touching portrait of a father and son and their unforgettable journey from China to the land of the Golden Mountain. It is based on actual conversations between two-time Newbery Honor author Laurence Yep and his father and on research on his family's immigration history by his niece, Dr. Kathleen S. Yep.

Edith (E.) Nesbit was a master at weaving imagination and real life into timeless fairy tales, with fantastic mythical creatures, princes and princesses, magic, and just the right touch of silliness. This is a collection of nine of her fairy tales with a common theme - Dragons! For children from five to 95, these stories are not to be taken seriously. Let your imagination run wild! The Book of Beasts - A young king finds a magical book once owned by his great-great-great-great-great-grandfather and unwittingly sets a wicked beast loose in his kingdom. Now he must find a way to best the beast and win back the love of his subjects. Uncle James - The island kingdom of Rotundia is normal in every way but one - all the animals are the wrong sizes. And when a purple dragon finds its way to the island and desires the princess as a birthday present, young Tom the gardener's son, along with his lap dog sized elephant Fido, must find a way to save her. The Deliverers of Their Country - "It all started when Effie got something in her eye..." and before the week was out, the country was overrun with dragons of all sizes. Effie and Harry decide something must be done, so they set out to wake St. George. The Ice Dragon - Have you ever wanted to travel to the North Pole? See the Aurora Borealis up close and personal? Well, make sure you catch up to George and Jane, two disobedient children, who on December 11th, set out to do just that, finding adventure and a dragon on the way. The Island of the Nine Whirlpools - When the King and Queen were ready to have a child, the Queen did what all good queens do; she visited the local witch. But she forgot to specify the King wanted a boy child. The Fiery Dragon - Poor Sabrinetta, granddaughter to brave St. George the dragonslayer, has been banished to her dragon-proof tower while her evil cousin rules her kingdom. But when the dragon wakes, Prince Tiresome runs to the safety of her tower, throwing her out to fend off the dragon by herself. Can she and Elfin the pigkeeper save her people before the dragon has his way with them? The Dragon Tamers - John the Blacksmith doesn't know what is at the bottom of the stairs leading down from the dungeon. With any luck, he'll never find out. But one day when he goes into the dungeon to fetch more coal, he comes face to face with the dragon that has risen from the depths. It looks like today John's luck may have run out. Or is it just beginning? Kind Little Edmond - Edmund is not fond of learning but he loves to find out. One day he finds out about the creatures living in the mountain near his village and thinks maybe he doesn't like finding out about things so much after all. But once the creatures have been found, there is nothing to do but find a way to save the village before it's too late. The Last of the Dragons - As tradition holds, on her 16th birthday, the Princess must be tied to a post and left for the dragon. Of course, the Prince has always slain the dragon and saved the Princess. But this Princess is none too confident in the Prince's ability to save her. She's much better at her fencing lessons than

he. So why can't the Prince be tied up and saved by the Princess? And, why must the last dragon in England be slain at all?

### The GOOD Or the BAD Dragon?

Long ago, in a world where dragons were the world's protectors, a beautiful girl dragon named Ellam lived in a cool, misty cave. Although Ellam liked to have fun with her friends, she had a secret. She liked to pull out her scales. Ellam was always careful to cover her body-she didn't want anyone to see that she was missing her scales. That is, until one day when Everwynn, the great king of the dragons, needed someone for a special mission. Someone without scales. Join Ellam on her exciting journey as she discovers that everyone's wounds have purpose, and the storms we travel through are part of a greater plan. Note to parents: Although this book is intended for children struggling with the effects of trichotillomania-compulsive pulling out of one's hair-it is ideal for any child (or adult) who needs to be reminded that our differences do not decrease our value.
