Her

In many ways, Kristen Elliott is a normal, seventeen-year-old girl. Kristen loves her family. She works hard academically, and tries to please her mother. She takes on the additional responsibility of caring for her twin siblings, Nick and Alison. She idealizes her best friend, Lexus, who not only seems to lead the perfect life, but also catches the attention of John, the boy Kristen secretly loves. However, as is the case with many teenagers, Kristen feels frustrated, isolated, and confused. In other ways, Kristen is not like other kids her age. She knows something is wrong with her. Kristen feels like an utter failure. She is unable to please her abrasive mother, and scared to confront Jack, her abusive stepfather. She is also unable to protect Nick from Jack, making her feel all the more helpless. Adding to her problems, she knows she will never be as beautiful as her best friend Lexus. Kristen finds solace in self-injury, and the company of Mr. Sharp, her imaginary friend who encourages her feelings of self-loathing. After a failed suicide attempt, Kristen is placed in the Bent Creek mental hospital, where she is diagnosed with Borderline Personality Disorder. While in the hospital, she meets a group of peers suffering with their own mental illnesses, and a compassionate staff of doctors and counselors. From there, Kristen begins her journey to survival. She discovers the circumstances that brought her to this breaking point, struggles to understand her mental illness, and fights to be a survivor against her own worst enemy: her self-blame. Kristen's tale of endurance illustrates the complex illness of Borderline Personality Disorder. Readers - including those suffering from BPD and their friends and family - can glean insight into BPD from Kristen's humanity. Her story is an example of how, if we try to push the past away, we are either doomed to repeat it or let it haunt us to our graves.

I'm Compassionate, Are You?

My Mother's Truth

"A captivating tale to savor about a woman whose buried past threatens her picture perfect family life. Felicia is a wonderfully flawed, compelling main character, one who has stayed with me long after I finished the book. A winning novel from a writer to watch." -Benilde Little, bestselling author Felicia Lyons, a stressed out stay-at-home mom, struggles to sprint ahead of the demands of motherhood while her husband spends long days at the office. Felicia taps, utters mantra, and breathes her way through most situations, but on some days, like when the children won't stop screaming her name or arguing over toy trucks and pretzel sticks, she wonders what it would be like to get in her car and drive away. Then one evening the telephone rings, and in a split second the harried mother's innocent fantasy becomes a hellish reality. The call pulls her back into a life she'd rather forget. Felicia hasn't been completely honest about her upbringing, and her deception forces her return to the Philadelphia of her childhood, where she must confront the family demons and long buried secrets she thought she had left behind. From a phenomenal fresh voice in fiction, comes the compelling story of what happens when the dream falls apart. Sadeqa Johnson's Second House from the Corner is an unforgettable tale of love, loss, rediscovery, and the growing pains of marriage.

OK Danny Boy Trilogy

This book is an autobiography of my life with my brother, Don from my early years growing up in Washington, D.C. as my mother Bernice Augusta along with my father, John H. Adams Sr. for part of the period nurtured, sacrificed and cared for us with meager funds. After separation from my father, my mother struggled even more and for several years twice sent us to Tulsa, Ok, where we were nurtured and given the utmost love, and learned to honor Jesus Christ by my maternal Grandmother, Minnie Mae Guess, who we affectionately called Mama Dear. Quintessentially my greatest fortune in my life was meeting and marrying Helen, who I met at Howard University. As I reflect back on our 52 years of marriage, she was the catalyst for any career success I had in the military and later in the U.S Government and for writing this book. She loved & adored her four children and a committed worshiper of Jesus Christ. However after her passing, I was again so fortunate to meet a gracious and lovely lady, named Rolando who has also accepted me with all of my imperfections and have made my life complete. Jack Adams

The Autobiography of Ltc John (Jack) H. Adams from 1931 to 2011

Victim of Love

This is a true story everyone should read. 100+ 4*/5* reviews! A roller coaster ride of mental health issues, travel, relationships, rape, adventures, eating disorder, abuse, drugs, alcohol. Adults only. If I told you I'd been to twenty-four Countries (twenty-one by the time I was twenty-two), that I'd worked in Japan for nine months, toured Australia for six months, enjoyed seven months in Thailand and met and campaigned for the Orangutan in Borneo, you might think that I was pretty lucky. If I told you I'd worked in the hotel industry, for a sexual health department in a hospital and with prisoners in a drug cell block of a male prison, that I'd worked as a recruitment consultant, in so many office jobs I've lost count, as well as having my own company and multiple websites, at age thirty-six, then you might think I've had an interesting life. But if I added to that a mix of child rape, mental health problems, promiscuity, drug taking, alcohol abuse, eating disorders, self-harm, violence, mood swings, obsession, jealousy, loss of self worth, being raised by a mentally ill mother, bankruptcy, thyroid and gastro problems and public masturbation in school at age nine, then I am not sure what you'd think. But this is me; Amanda Green. This is my life, my story; my journey back to me from depression, anxiety, panic attacks, OCD and Borderline Personality Disorder - mental illness which manifested during my life and came out 'to it's peak' in my thirties. I was able to use my collection of mementos, photos, diaries, journals, letters, emails and text messages of my past to finally see who I had become, and more importantly with a combination of therapy, medication and my writing, how I became that alien self and how I found the real me. One of many 5* reviews... "I would thoroughly recommend this book not just to those suffering with mental health issues, but to those who would also like a jolly good read!" The editor (Debz Hobbs-Wyatt) adds... This is the journey of a normal working class girl, trapped in a roller coaster world of disorder and excitement, love and joy, depression and anger - and her fight against stigma. While My Alien Self would be inspiring for any sufferer, their families or medical teams in its honest insights into living with a mental illness, it also has universal appeal. For who, at times, has not felt their life spin into chaos and wondered what is normal? This story effectively and openly highlights just how fine the line is between what is normal, and what is 'mental illness'. And everyone who reads it will be able to relate to it. Contains explicit language and sexual scenes. Emergence had this to say "We very much enjoyed reading this honest and powerful account of Amanda's journey from diagnosis to recovery. We applaud such authentic and candid accounts of the devastation that can be experienced by those living with personality disorder and of the message of hope and recovery that the book conveys." Bon Dobbs (Anything To Stop The Pain and Author of 'When hope is not enough') said 'While there are many borderline personality disorder memoirs out now (including 'The Buddha and the Borderline', 'Loud House of Myself', 'Get Me Out of Here', 'Girl in Need of a Tourniquet' and 'Poisoned Love'), My Alien Self goes a long way to providing hope to the sufferers of BPD. By publishing the steps taken to reframe certain ways thinking, through

CBT worksheets and other exercises, the author has revealed that recovery from BPD is possible. I self published this book and am very proud of that fact, because I was able to write it exactly as I wanted it to be written, with the help from my fabulous editor, Debz Hobbs-Wyatt. Whilst the massive help a publisher and agent gives, they do narrow down what is published, so I took on the journey to publish it and market it myself. There's a sequel out too, called '39'. It's quite different, but it leads on from this one :-)

Teach by Faith

Crossing Over provides a unique view of patients, families, and their caregivers in the face of incurable illness. Twenty richly-detailed narratives bring vividly to life the experiences of dying and bereavement, weaving together emotions, physical symptoms, spiritual concerns, and the stresses of family life, as well as the professional and personal challenges of providing hospice and palliative care. Drawing on a variety of qualitative research methods, including participant-observation, interviews, and journal keeping, the narratives depict the sights, sounds, tastes, and smells of daily life in patients' homes and in the palliative care unit. Crossing Over moves far beyond conventional case reports in medicine, which typically concentrate narrowly on symptoms and treatments, and beyond clichés about "dying with dignity." It provides intimate views of the anger and fear, tenderness and reconciliation, jealousy and love, unexpected courage and unshakable faith, social support and "falling through the cracks," which are all part of facing death in North American society. It provides an extraordinary portrait of the processes of giving and receiving hospice and palliative care in the real world, as opposed to idealized versions in many textbooks. This edition of Crossing Over has been thoroughly revised and updated to reflect changes in hospice and palliative care and in North American society since the first edition in 2000. Chief among these are the expansion of hospice and palliative care as a field, the ravages of the COVID-19 pandemic, the wider availability of medical aid in dying, and a heightened awareness of how structural racism, classism, and other forms of discrimination shape individuals' and families' experiences right up to the close of life.

In *Sing With Me*, Carlisle Jacobson begins a teaching career in Washington, D.C., learning as much as he is teaching. Through personal experiences, he learns most youths don't have the advantages he enjoyed in the horse country of northern Virginia only a day-trip away from Washington but worlds away from its streets plagued by crime and nearly cut off from hope as a child of privilege and wealth, with slave owners of the antebellum south in his ancestry. A hunting enthusiast since he was young, Carlisle still is alarmed to learn firearms are used frequently in D.C. for hunting down other people, including one of his student's and a co-worker. His most frequent teacher in learning he has a lot to learn is Lucia Sanspeur, a black woman with ancestry that extends to Colonial era settlers on the Delaware River, including a man who performed a heroic mission during the Revolutionary War despite the white militia leaders' disdain for his skills and initiative. Lucia's voice captivates Carlisle from their first encounter and her ideas propel him toward understanding that he looks at the world and other people through a sense of white wealth and privilege. When he experiences first-hand the violence and crime that victimize many in the area daily, Carlisle's education moves into advanced studies but also comes to nearly a complete stop.

Grade 9 Up—Johnson begins this exceptional novel in a lightweight fashion but quickly segues into more serious issues that affect the three young women who make up the Bermudez Triangle. It is the summer before their senior year in Saratoga Springs, NY. At first, organized, serious Nina has trouble adjusting to her leadership workshop at Stanford University. Although she desperately misses Avery and Mel, who are waitresses at a restaurant back home, she quickly falls head over heels for eco-warrior Steve, who has grown up in a commune on the West Coast—so different from Nina's secure middle-class experience. When she returns to New York, she immediately senses that Mel and Avery are keeping secrets and soon discovers that they have become lovers. Rocked to the core, Nina wishes them happiness, but feels excluded and lonely, especially as her long-distance relationship begins to deteriorate. As is typical for teens, the girls obsess and nauseate over their romantic relationships. Yet this narrow focus lends authenticity to the narrative, and readers become drawn into the characters' lives as they stumble toward adulthood, fall in and out of love, enlarge their circle of friends, and rethink their values.

Sing with Me

Bea and Awilda have been best friends from the moment Awilda threw her fourteen year-old self across Bea's twin-sized bed as if they had known each other forever. Bubbly, adventurous Awilda taught sheltered, shy Bea how to dress, wear her hair and what to do with boys. She even introduced Bea to her husband, Lonnie, in college, who pledged to take good care of her for the rest of their lives. But philanderer Lonnie breaks that promise over and over again, leaving Bea to wrestle with her self-esteem and long time secret addiction. Recently Lonnie has plopped the family in a New Jersey upper class suburb, which lacks the diversity that Bea craves but has the school district and zip code envy that Lonnie wants. The demands of carrying a third child and fitting into this new environment while pretending that her husband is not cheating on her again, is more than she can handle. And just when she thinks things can't get any worst, the ultimate deception snaps the little thread that was holding her life together and all comes tumbling down. Sadeqa Johnson's *And Then There Was Me* is the story of love and friendship, heartache and betrayal. It's the journey of a woman stripped down to her lowest point and needing to find the will to press on.
