Ford Ranger & Bronco II

The Ford Bronco is a sport utility vehicle that was produced from 1966 to 1996, with five distinct generations. The Bronco permanently entered American popular culture on June 17, 1994, when a white 1992 model owned and driven by Al Cowlings with O. J. Simpson, who was wanted for the murders of his ex-wife and her friend, attempted to elude the Los Angeles Police Department in a low-speed chase, which was nationally televised and viewed by millions nationwide. This is complete story from conception through discontinuation in 1996, told by historian (and well-known "Ford guy") Paul McLaughlin utilizing his large collection of photographs, brochures, ads and other promotional material. Follow the Bronco's various incarnations from a small sport utility vehicle of the 1960s and 1970s into the larger full-size Bronco of the 1980s and 1990s, special models like the "Bill Stroppe Edition"

BMW k75 - What can go wrong? A review of a 31 year old bike.

1987 BMW k75 basic model. 740CC, three cylinder petrol engine.

Shaft drive, single plate dry clutch. Brembo front brakes, rear drum brake.

The fork seals wear out but they are easy to change as are the springs and sliding parts Fork oil change is easy too.

The pad gets in the way of putting switches and the SatNav clamp on the handlebars.

The brake warning light wiring runs through the ignition pod.

The fuel filter is in the tank and you have to take the whole cap assembly off to get at it.

The throttle body rubbers split as do the little rubber blanking plugs for the balancing ports. The hoses are not a standard size and it is best to get them from a dealer like Motobins or Motorworks. The engine can flood in very cold weather and you have to clean the plugs to get going again. The ECU has to come out to replace the battery which is a good time to inspect and clean it. The fuel pump and sender share the same wiring loom. It rots in the tank and stops the pump working.

You have to take the frame off the engine to have it powder-coated. Repainting is a good short term solution.
