The Political Classics

This is a lively and accessible introduction to some of the greatest works of political thought. Written by a team of specialist contributors, there are chapters on Plato's Republic, Aristotle's Politics, Augustine's City of God, Machiavelli's Discourses and The Prince, Hobbes's Leviathan, and Locke's Second Treatise on Government. Concentrating on the ideas contained in the texts themselves, the guide also helps readers understand why these classics remain indispensable today.

The Political Classics

Designed to give all students of political ideas a fuller appreciation of the great works which form the foundation of the subject, The Political Classics provides a lively and informed introduction to the last four hundred years of political thinking, covering twelve major figures and their most important texts; from T.H. Green to Ronald Dworkin. Besides giving a full analysis of the contents of each text, The Political Classics also highlights what makes the works of central importance to an understanding of political philosophy. The twelve chapters concentrate on the ideas contained in the texts, rather than on the lives of their writers, and each chapter is supplemented with useful suggestions for further reading. The clear analysis and explanation contained in each essay allow the reader to study the original texts with new understanding and insight.

50 Politics Classics

What if you didn't have to read the 50 most important books on Politics to know the most important ideas? This is the thinking person's guide to the big political texts from across the centuries, from the original pioneers to the contemporary. With insightful commentary for each of the 50 books, key quotes and biographical information on the authors and a guide to further reading, 50 Politics Classics gives a unique overview of the political writings that shaped history and are still shaping minds today. From Abraham Lincoln to Nelson Mandela, and from Aristotle to George Orwell, 50 Politics Classics distils the essence of the books, pamphlets, and speeches of the major leaders and great thinkers that drive real-world change. Spanning 2,500 years, left and right, thinkers and doers, Tom Butler-Bowdon covers activists, war strategists, visionary leaders, economists, philosophers of freedom, feminists, conservatives and environmentalists, right up to contemporary leaders and thought leaders such as Barack Obama, Isobel Wilkerson and Michael Pillsbury. Whether you consider yourself to be conservative, liberal, socialist, or Marxist, this book gives you greater understanding of the key ideas that matter in our politically charged times. The revised edition will: · include 5-6 new contemporary classics from White Fragility to Why Nations Fail and leaders and thought leaders such as Barack Obama, Isobel Wilkerson and Michael Pillsbury. · have a revised introduction to reflect on the seismic political movements that have blown up since the last edition · have some of the less relevant titles removed

Political Classics

This work enables all students of political ideas to gain a fuller appreciation of the great works which form the foundation of the subject. It spans from the turbulent era of the American and French Revolutions through to the calmer waters of the nineteenth century. Seven classic texts have been chosen for analysis. Hamilton's *The Federalist*, Sieyès' *What is the Third Estate?*, Burke's *Reflections on the Revolution in France*, Hegel's *The Philosophy of Right*, de Tocqueville's *Democracy in America*, Marx and Engels' *Communist Manifesto*, and Mill's *On Liberty*. Together, they illustrate and express the main themes of the period. The most prominent of these is the growing distinction between the state and society and the problems that this brings in its train. Other themes embrace the interplay of revolution and reaction, the growth of representative government, and the challenge posed by democracy. The clear analysis and explanation contained in each essay will enable the reader to return to the original texts with a new understanding and insight.

The Political Classics

This anthology collects some of the most significant writings on politics and political science from some of history's greatest minds. In *Classics in Political Science*, editor Joseph S. Roucek guides readers through the ages of political thought and theory with arguments and essays by such groundbreaking theorists as Thomas Hobbes, Nicolai Lenin, Montesquieu, Jean-Jacques Rousseau, and many others. The selections range from ancient philosophers and statesmen, such as Cicero and Aristotle, to major figures of the twentieth century, such as Gandhi and Winston Churchill.

The Political Classics

The fifth edition of Michael L. Morgan's *Classics of Moral and Political Theory* broadens the scope and increases the versatility of this landmark anthology by offering new selections from Aristotle's *Politics*, Aquinas' *Disputed Questions on Virtue and Treatise on Law*, as well as the entirety of Locke's *Letter Concerning Toleration*, Kant's *To Perpetual Peace*, and Nietzsche's *On the Advantage and Disadvantage of History for Life*.

Classics in Political Science

These essays are designed for students of political philosophy who are approaching the great texts of the past for the first time. Intended to help students find their way into the texts and get the most from them, while encouraging further exploration, the essays offer selective interpretation of setting, form, and content in clear, straightforward language. Texts discussed are Plato's *Republic*, Aristotle's *Politics*, Augustine's *City of God*, Machiavelli's *Prince and Discourses*, Hobbes's *Leviathan*, Locke's *Second Treatise of Government*, and Rousseau's *Social Contract*.

Classics of Moral and Political Theory

Editor Joseph S. Roucek compiles the great minds of the study of politics and political science in one compelling volume, *Classics in Political Science*. Roucek guides readers through the ages of political thought and theory with arguments and essays by such groundbreaking theorists as Thomas Hobbes, Nicolai Lenin, Montesquieu, and Jean Jacques Rousseau. Joseph S. Roucek was a political theorist and author. He wrote or co-authored several books on education and politics including *The Czechs and Slovaks in America*, *Behind the Iron Curtain*, *America's Ethnic Politics*, and *Slow Learner*.

A Guide to the Political Classics

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Classics in Political Science

Classics of Modern Political Theory: Machiavelli to Mill brings together the complete texts or substantial selections from many of the masterpieces of modern political theory. The most comprehensive collection of its kind, this volume includes well-known works by Hobbes, Locke, Rousseau, Hegel, and Marx, and significant contributions by Spinoza, Montesquieu, Hume, Adam Smith, Kant, Burke, Bentham, and Tocqueville. A distinctive feature is the inclusion of the Declaration of Independence, the U.S. Constitution, and numerous papers from The Federalist. An extended introduction to each author's writings, provided by a renowned authority on the subject, features biographical data, philosophical commentary, and bibliographical guides. Ideal for courses in political philosophy and intellectual history, as well as surveys of Western Civilization, this enlightening work presents the authors and ideas which were most influential in shaping modern political thought.

The American Political Classics

Among the men and women prominent in the public life of America there are but few whose names are mentioned as often as that of Emma Goldman. Yet the real Emma Goldman is almost quite unknown. The sensational press has surrounded her name with so much misrepresentation and slander, it would seem almost a miracle that, in spite of this web of calumny, the truth breaks through and a better appreciation of this much maligned idealist begins to manifest itself. There is but little consolation in the fact that almost every representative of a new idea has had to struggle and suffer under similar difficulties. Is it of any avail that a former president of a republic pays homage at Osawatimie to the memory of John Brown? Or that the president of another republic participates in the unveiling of a statue in honor of Pierre Proudhon, and holds up his life to the French nation as a model worthy of enthusiastic emulation? Of what avail is all this when, at the same time, the LIVING John Browns and Proudhons are being crucified? The honor and glory of a Mary Wollstonecraft or of a Louise Michel are not enhanced by the City Fathers of London or Paris naming a street after them. The living generation should be concerned with doing justice to the LIVING Mary Wollstonecrafts and Louise Michels. Posterity assigns to men like Wendell Phillips and Lloyd Garrison the proper niche of honor in the temple of human emancipation; but it is the duty of their contemporaries to bring them due recognition and appreciation while they live. The path of the propagandist of social justice is strewn with thorns. The powers of darkness and injustice exert all their might lest a ray of sunshine enter his cheerless life. Nay, even his comrades in the struggle. Indeed, too often his most intimate friends. Show but little understanding for the personality of the pioneer. Envy, sometimes growing to hatred, vanity and jealousy, obstruct his way and fill his heart with sadness. It requires an inflexible will and tremendous enthusiasm not to lose, under such conditions, all faith in the Cause. The representative of a revolutionizing idea stands between two fires: on the one hand, the persecution of the existing powers which hold him responsible for all acts resulting from social conditions; and, on the other, the lack of understanding on the part of his own followers who often judge all his activity from a narrow standpoint. Thus it happens that the agitator stands quite alone in the midst of the multitude surrounding him. Even his most intimate friends rarely understand how solitary and deserted he feels. That is the tragedy of the person prominent in the public eye.

Classics of Modern Political Theory

Oxford Handbooks of Political Science are the essential guide to the state of political science today. With engaging contributions from 51 major international scholars, the Oxford Handbook of Political Theory provides the key point of reference for anyone working in political theory and beyond.

Anarchism and Other Essays

This textbook, now in its second edition, is designed to equip students with a basic 'conceptual toolkit' for the study of political thought: (i) a basic political vocabulary, (ii) a conceptual vocabulary and (iii) an historical vocabulary.

The Oxford Handbook of Political Theory

In *Millions Like Us* Virginia Nicholson tells the story of the women's Second World War, through a host of individual women's experiences. We tend to see the Second World War as a man's war, featuring Spitfire crews and brave deeds on the Normandy beaches. But in conditions of "Total War" millions of women - in the Services and on the Home Front - demonstrated that they were cleverer, more

broad-minded and altogether more complex than anyone had ever guessed. Millions Like Us tells the story of how these women loved, suffered, laughed, grieved and dared; how they re-made their world in peacetime. And how they would never be the same again ...'Vividly entertaining, uplifting and humbling, Millions Like Us deserves to be a bestseller' Bel Mooney, The Daily Mail'Passionate, fascinating, profoundly sympathetic' Artemis Cooper, Evening Standard Virginia Nicholson was born in Newcastle-upon-Tyne and grew up in Yorkshire and Sussex. She studied at Cambridge University and lived abroad in France and Italy, then worked as a documentary researcher for BBC Television. Her books include the acclaimed social history Among the Bohemians - Experiments in Living 1900-1939, and Singled Out - How Two Million Women Survived Without Men after the First World War, both published by Penguin in 2002 and 2007. She is married to a writer, has three children and lives in Sussex.

The American Political Classics

Excerpt from The Decline of Democratic Politics This task confronts political thought with an inescapable dilemma. What of the tradition is perennially true, and what is but the out growth of particular interests and circumstances? And what in the political experience of the contemporary world is the ephemeral product of historic accident, and what is a manifestation of the eternal verities of politics? The history of political thought is the story of the gropings with which successive generations have searched for answers to these questions. They had to beware of two temptations which are indeed the horns of the dilemma: either to smother the contemporary world with obsolescent dogma or else to exchange the wisdom of the ages for the innovations of the age. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Classics in the History of Political Thought, 2nd Edition, Vols. I and II

This concise and accessible introduction to Strauss's thought provides, for wider audience, a bridge to his more complex theoretical work. Editor Pangle has gathered five of Strauss's previously unpublished lectures and five hard-to-find published writings and has arranged them so as to demonstrate the systematic progression of the major themes that underlay Strauss's mature work. "[These essays] display the incomparable insight and remarkable range of knowledge that set Strauss's works apart from any other twentieth-century philosopher's."—Charles R. Kesler, National Review

Theories of the Political System

A Pulitzer Prize-winning historian examines transformational leaders from Moses to Machiavelli to Martin Luther King Jr. in this "impressive book" (The Washington Post). Historian and political scientist James MacGregor Burns has spent much of his career documenting the use and misuse of power by leaders throughout history. In this groundbreaking study, Burns examines the qualities that make certain leaders—in America and elsewhere—succeed as transformative figures. Through insightful anecdotes and historical analysis, Burns scrutinizes the charisma, vision, and persuasive power of individuals able to imbue followers with a common sense of purpose, from the founding fathers to FDR, Gandhi to Napoleon. Since its original publication in 1970, Leadership has set the standard for scholarship in the field.

Introduction to Political Thought

This collection examines the strategic behavior of key players in American politics from the Founding Fathers to the Super PACs, by showing that political actors, though motivated by their own interests, are governed by the Constitution, the law, and institutional rules, as well as influenced by the strategies of others.

Classics in Political Philosophy

Excerpt from An Introduction to Political Parties and Practical Politics One of the most hopeful signs in American politics is the increasing prominence 'which the study of political parties and practical,

as distinguished from theoretical, politics has come to occupy in college and university curricula. If this text-book succeeds in introducing more college men and women to wider knowledge of politics and political parties, both past and present, resulting in greater interest and more intelligent activity in the political life of their own communities, its chief purpose will be accomplished. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

The Decline of Democratic Politics (Classic Reprint)

John Locke's *Second Treatise of Government* (c. 1681) is perhaps the key founding liberal text. A *Letter Concerning Toleration*, written in 1685 (a year when a Catholic monarch came to the throne of England and Louis XVI unleashed a reign of terror against Protestants in France), is a classic defense of religious freedom. Yet many of Locke's other writings--not least the *Constitutions of Carolina*, which he helped draft--are almost defiantly anti-liberal in outlook. This comprehensive collection brings together the main published works (excluding polemical attacks on other people's views) with the most important surviving evidence from among Locke's papers relating to his political philosophy. David Wootton's wide-ranging and scholarly Introduction sets the writings in the context of their time, examines Locke's developing ideas and unorthodox Christianity, and analyzes his main arguments. The result is the first fully rounded picture of Locke's political thought in his own words.

The Rebirth of Classical Political Rationalism

This is a collection of Joyce's non-fictional writing, including newspaper articles, reviews, lectures and essays. It covers 40 years of Joyce's life and maps important changes in his political and literary opinions.

Leadership

Designed to include all of the texts from Presocratics through Machiavelli likely to be read in an undergraduate course on classical political thought, this anthology has at its core generous selections from Plato and Aristotle. Building on this core is a sufficiently diverse and substantial selection of texts from other writers--including Thucydides and the Sophists--to allow for inquiry into the variety of Classical Greek approaches to politics, as well as into Roman, Medieval and Renaissance developments of the classical tradition. Preeminent translations and the editor's own thoughtful introductions further distinguish this unique anthology.

Principles and Practice of American Politics: Classic and Contemporary Readings, 5th Edition

Perspectives on Political Parties is a collection of primary documents that show the changing understandings of partisan politics during the nineteenth century, the first era in which parties played a central role in governing. The texts taken from British, American, German and French publication, speak to today's students and scholars of history and political science by showing the deep roots of still-current debates about representative democracy and mass politics. The reader is designed to fill a hole in contemporary teaching and scholarship by assembling hard to access sources that form the basis of modern debates about parties.

An Introduction to Political Parties and Practical Politics (Classic Reprint)

Excerpt from *Political Man: The Social Bases of Politics* These studies in the sociology of politics are not intended primarily as a collection of essays which happen to be written by the same person. Rather, I tried to select from my various articles those which best illustrate the contribution the sociologist can make to an understanding of democratic political systems. In so doing, it became clear that a book prepared solely from already existing articles would create difficulties for the reader because it would omit many problems and issues which should logically be discussed. I have attempted to remedy this deficiency by writing a number of essays especially for this volume and by extensively rewriting others. By these revisions, I have tried to create an integrated book. About the Publisher Forgotten Books

publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Classics in the History of Political Thought, Vols 1 and 2, 3rd Edition

Political Theory presents a unique blend of selections from both classic and contemporary works in political theory. In two volumes, Political Theory covers key works in the history of political thought from Thucydides to Machiavelli (Volume One) and from Machiavelli to Rawls (Volume Two). Beyond the traditional canon, Political Theory also included works by such theorists as Christine de Pizan, Mary Wollstonecraft, Simone de Beauvoir, and Hannah Arendt. This modular, two-volume format will appeal both to instructors who want their students to read the classics as well as courses centered more on recent commentaries by scholars. The core of each chapter is a primary source selection from a noted theorist, prefaced by a discussion of the theorist's continuing relevance to the study of political science. After each follows a readable scholarly commentary on the argument and ideas presented, as well as the significance of the theorist's ideas to understanding political life. The new edition offers several noteworthy features: * Expanded historical and biographical introductions * New commentaries reflecting the latest scholarship * Helpful summaries of the selections from classic works and contemporary commentaries * Internet resources for students * Suggestions for class discussion and activities

Locke: Political Writings

Excerpt from The Political Theory of Thomas Hill Green Shrouded in mysticism, the idealist political philosophy seems to be as far removed from practical politics as the Einstein formula is from everyday engineering; but far removed as it may seem, it was and yet remains an influence to be reckoned with. It is on this ground that this monograph is justified, and readers, if any, are requested not to regard it as unnecessary exertion in a mental gymnasium. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works."

Oxford Handbook of Classics in Contemporary Political Theory

This is an essay by Benjamin Constant. In this essay, Constant contrasted two views on freedom: one held by "the Ancients," particularly those in Classical Greece, and the other by members of modern societies. He investigates the dangers of attempting to impose ancient liberty in a modern context, as well as the risks associated with each type of liberty. The danger of ancient liberty was that men, preoccupied with securing their share of social power, might place too little value on individual rights and pleasures. The danger of modern liberty is that we will give up our right to participate in political power too easily, absorbed in the enjoyment of our independence and the pursuit of our particular interests." Constant believes that the two types of liberty must eventually be combined.

Occasional, Critical, and Political Writing

Political theorist Michael Walzer's classic guide is a perfect introduction to social activism, including what-to-do advice for deciding which issues to take on, organizing, fundraising, and providing effective leadership Political Action is a how-to book for activists that was written at one of the darkest moments of the Nixon administration and remains no less timely and intelligent and useful today. Michael Walzer draws on his extensive engagement in the civil rights and antiwar movements of the 1960s to lay out the practical steps necessary to keep movement politics alive both in victory and in defeat. What do people need to do when out of outrage or fear of looming disaster they come together to demand change? Should they focus on one or several issues? Should they form coalitions? What can and can't be accomplished through electoral politics? How can movements operate democratically? What is effective leadership? Walzer addresses such questions with clarity, concision, wisdom, and wit in a

book that everywhere insists not only on the centrality of movement politics to the health of democratic societies but on the deep satisfaction that is to be found there. Political Action is both an indispensable resource for activists and a lasting and inspiring summons to arms.

Readings in Classical Political Thought

A selection of speeches by the most inspiring and persuasive orators in American history Penguin presents a series of six portable, accessible, and—above all—essential reads from American political history, selected by leading scholars. Series editor Richard Beeman, author of *The Penguin Guide to the U.S. Constitution*, draws together the great texts of American civic life to create a timely and informative mini-library of perennially vital issues. Whether readers are encountering these classic writings for the first time, or brushing up in anticipation of the 50th anniversary of the Civil Rights Act, these slim volumes will serve as a powerful and illuminating resource for scholars, students, and civic-minded citizens. *American Political Speeches* includes the best American rhetoric from inside and outside the White House. Some of the greatest words spoken in American history have come from men and women who lacked the biggest bully pulpit in the country, but who nevertheless were able to move the nation with words. Frederick Douglass explained the irony of Independence Day from the perspective of a slave. Martin Luther King, Jr. described his dream of an interracial America. William Jennings Bryan gave voice to social discontent with a single phrase, "a cross of gold." Barbara Jordan summoned the nation's outrage during the impeachment hearings against Richard Nixon. And the best presidents, not by coincidence, have tended to be those with an appreciation for the use of language: Lincoln explaining a new birth of freedom at Gettysburg; John Kennedy voicing moral outrage at the Berlin Wall; Franklin D. Roosevelt chatting to a nation gathered in front of radios; Ronald Reagan addressing Congress freshly healed from an assassination attempt.

Perspectives on Political Parties

This book introduces readers to analytical interpretation of seminal writings and thinkers in the history of political thought, including Socrates, Plato, Aristotle, the Bible, Thomas Aquinas, Machiavelli, Bacon, Hobbes, Locke, Montesquieu, Rousseau, Tocqueville, Marx, and Nietzsche. Chronologically arranged, each chapter in the book is devoted to the work of a single thinker. The selected texts together engage with 2000 years of debate on fundamental questions, which include: What is the purpose of political life? What is the good life, for us as individuals, and for us as a political community? What is justice? What is a right? Do human beings have rights? What kinds of human virtues are there and which regimes best promote them? The difficulty of accessing the texts included in this volume is the result not only of their subtlety but also of the dramatic change in everyday life. The authors shed light on the texts' vocabulary and complexities of thought and help students understand and weigh the various interpretations of each philosopher's thought. • Accessible interpretive essays on the greatest texts in the history of political thought, from Plato to Nietzsche. • Includes key passage plus a succinct discussion that glosses the text, examines later-day interpretations, and guides students in forming their own interpretations. • Allows students to learn from, rather than only about, each thinker, and to apply their thought to the present day.

Political Man

From the author of *Eichmann in Jerusalem* and *The Origins of Totalitarianism*, "a book to think with through the political impasses and cultural confusions of our day" (*Harper's Magazine*) Hannah Arendt's insightful observations of the modern world, based on a profound knowledge of the past, constitute an impassioned contribution to political philosophy. In *Between Past and Future* Arendt describes the perplexing crises modern society faces as a result of the loss of meaning of the traditional key words of politics: justice, reason, responsibility, virtue, and glory. Through a series of eight exercises, she shows how we can redistill the vital essence of these concepts and use them to regain a frame of reference for the future. To participate in these exercises is to associate, in action, with one of the most original and fruitful minds of the twentieth century.

The Vampire Lords

By One Whose Strength Seemed Superhuman Determined To Sell His Life As Dearly as He Could He Struggled but It Was in Vain He Was Lifted from His Feet and Hurlled with Enormous Force against the Ground His Enemy Threw Himself upon Him and Kneeling upon His Breast Had Placed His Hands upon His Throat When the Glare of Many Torches Penetrating through the Hole That Gave Light in the Day Disturbed Him He Instantly Rose and Leaving His Prey Rushed through the Door and in a Moment the Crashing of the Branches as He Broke through the Wood Was No Longer Hurt

He Was Lifted from His Feet and Hurlled with Enormous Force against the Ground His Enemy Threw Himself upon Him and Kneeling upon His Breast Had Placed His Hands upon His Throat When the Glare of Many Torches Penetrating through the Hole That Gave Light in the Day Disturbed Him He Instantly Rose and Leaving His Prey Rushed through the Door and in a Moment the Crashing of the Branches as He Broke through the Wood Was No Longer Hurt the Storm Was Now Still an Aubree Incapable of Moving Was Soon Heard by those without They Entered the Light of Their Torches Fell upon the Mud Walls and the Thatch Loaded on every Individual Straw with Heavy Flakes of Suit at the Desire of a Burry They Searched for Her Who Had Attracted Him by Her Cries

About Her Face That Seemed Almost as Attaching as a Life That Once Dwelt There upon Her Neck and Breast Was Blood an upon Her Throat Were the Marks of Teeth Having Opened the Vein to this the Men Pointed Crying Simultaneously Struck with Horror a Vampire of Hire a Litter Was Quickly Formed an Abra Was Laid by the Sight of Her Who Had Lately Been to Him the Object of So Many Bright and Fairy Visions Now Fallen with the Flower of Life That Had Died within Her He Knew Not What His Thoughts Were His Mind Was Been Numbed and Seemed To Shun Reflection and Take Refuge in Vacancy He Held Almost Unconsciously in His Hand a Naked Dagger of a Particular Construction
