#### Rediscovering Holiness

"There was a time," writes renowned theologian J. I. Packer in this classic book on biblical holiness, "when all Christians laid great emphasis on God's call to holiness. But how different it is today! To listen to our sermons and to read the books we write, and then to watch the zany, worldly, quarrelsome way we behave, you would never imagine that once the highway of holiness was clearly marked out for Bible-believers." In this revised and updated edition of Rediscovering Holiness, the highway is once more clearly marked out for a new generation of readers, pointing to true freedom and joy, both now and in eternity. ### The Romantic Movement

As the powerful vampire Lilith prepares to quench her thirst for destruction by unleashing her fury in battle, a medieval sorcerer, one of the circle of six charged by the goddess Morrigan, must travel through time to stop her.

### Doomed Love

*Heracles* Euripides - Euripides' *Heracles* is an extraordinary play, innovative in its treatment of the myth, bold in its dramatic structure, and filled with effective human pathos. The play tells a tale of horror: Heracles, the greatest hero of the Greeks, is maddened by the gods to murder his wife and children. But this suffering and divine malevolence are leavened by the friendship between Heracles and Theseus, which allows the hero to survive this final and most painful labor. The *Heracles* raises profound questions about the gods and mortal values in a capricious and harsh world.

### The Man who Died

Delving into the Portuguese imperial experience, *'Mooring's'* enriches our understanding of historical and literary imagination during a significant period of Western expansion.

### Morrigan's Cross

This volume honors the Rev. Professor James McEvoy on the occasion of his sixtieth birthday. The theory of friendship, which has been one of McEvoy's major fields of research and publication, used to be at the heart of the philosophical project, and indissociable from it. For Socrates, philosophy was possible only as the pursuit of wisdom, virtue, and beauty in a community of friends engaged in an "erotic" quest for the good. The present volume wants to make a contribution to the recovery of the friendship theme in its central importance to philosophy. It contains eighteen contributions by colleagues and pupils of Professor McEvoy from three different continents, who approach the topics of friendship, love, and charity from a variety of different angles. Several contributions are devoted to the theory of friendship in ancient and medieval thought, including its Christian appropriation. Others analyze friendship in modern and contemporary philosophy, while two contributors introduce cross-cultural perspectives (Hinduism and traditional African thought). This volume will help to throw into higher relief the importance of the philosophy of friendship, as well as stimulating further discussion on this intriguing topic.

### Heracles

People from outside of Brasília often dismiss Brazil's capital as socially divided, boring, corrupt, and emotionally cold. Apparently its founders created not a vibrant capital, but a cultural wasteland. However, as Sophia Beal argues, Brasília's contemporary artists are out to prove the skeptics wrong. These twenty-first-century artists are changing how people think about the city and animating its public spaces. They are recasting Brasília as a vibrant city of the arts in which cultural production affirms a creative right to the city. Various genres—prose, poetry, film, cultural journalism, music, photography, graffiti, street theater, and street dance—play a part. Brasília's initial 1960s art was state-sanctioned, carried out mainly by privileged, white men. In contrast, the capital's contemporary art is marked by its diversity, challenging norms about who has a voice within the Brasília art scene. This art demystifies the capital's inequities and imagines alternative ways of inhabiting the city.

### Mooring's

Women philosophers have not received their due in the discipline's reference works. Kersey's international biographical dictionary of women philosophers from ancient times up until the present redresses that situation. . . . This very capably fills a very evident gap in the philosophy reference corpus. *Wilson Library Bulletin* This work developed from Kersey's discovery that there existed no biographical

dictionaries of women philosophers, and few references to women in textbooks on the history of philosophy. Intended to fill that void, this source book covers more than 170 women born before 1920 who wrote about or pondered questions of Western intellectual life. Using broad criteria, Kersey has included any woman who conducted serious work in the traditional fields of philosophy, including metaphysics, ethics, aesthetics, or logic. Although acknowledging that the field has been dominated by men, the author excluded feminist scholars on the grounds that they have been given serious attention elsewhere, and also omitted women theologians or devotional writers. The volume includes extensive bibliographies of both primary and secondary works about each philosopher. An in-depth introduction establishes the context for the reference, and an appendix provides charts showing women philosophers by century, nationality, and discipline. An index of names completes the source book. This reference will be an important addition to university and public libraries, and a valuable reference for courses in philosophy and women's studies.

#### Amor Amicitiae

Delving into Brazil's baroque past, Peter Robb writes about its history of slavery and the richly multicultural but disturbed society that was left in its wake when the practice was abolished in the late nineteenth century. Even today, Brazil is a nation of almost unimaginable distance between its wealthy and its poor, a place of extraordinary levels of crime and violence. It is also one of the most beautiful and seductive places on earth. Using the art, food and the books of its great nineteenth-century writer, Machado de Assis, Robb takes us on a journey into a world like Conrad's *Nostromo*. A world so absurdly dramatic, like the current president Lula's fight for power, that it could have come from one of the country's immensely popular TV soap operas, a world where resolution is often only provided by death. Like all the best travel writing, *A Death in Brazil* immerses you deep into the heart of a fascinating country.

Publisher Description

## The Compact Edition of the Oxford English Dictionary: Complete Text Reproduced Micrographically: P-Z, Supplement and bibliography

J. C. Ryle's "Holiness " is a lost treasure, written by one of the great Anglican priests and writers of the nineteenth century. Hendrickson reintroduces this classic text, largely unavailable today, on living a Christ-like life. "Holiness " is considered to be one of the most profound books on discipleship in the English language. Christians have recognized anew the critical importance of discipleship and spiritual formation to the life of the individual believer, the local church and to the Kingdom of God. Ryle's "Holiness " ranks among the core library of teachings on being a disciple of Jesus Christ. In this book, Ryle encourages the reader into a life of holiness, drawn completely from the Bible and not from contemporary books or preachers, or from any of the fads that were popular during his lifetime, much as they are today or in any era. He is writing about personal, or private, holiness, the life we live behind closed doors with our families and closest friends. "I have had a deep conviction for many years that practical holiness and entire self-consecration to God are not sufficiently attended by modern Christians in this country. Politics, controversy, or party-spirit, or worldliness, have eaten out the heart of lively piety in too many of us. The subject of personal godliness has fallen sadly into the background." --"J. C. Ryle "

## Harmada

A book by Spain's greatest living writer weaves fiction and fact into a completely original and unforgettable hybrid. Called by its author a "false novel," *Dark Back of Time* begins with the tale of the odd effects of publishing *All Souls*, his witty and sardonic 1989 Oxford novel. *All Souls* is a book Marías swears to be fiction, but which its "characters"—the real-life dons and professors and bookshop owners who have "recognized themselves"—fiercely maintain to be a roman à clef. With the sleepy world of Oxford set into fretful motion by a world that never "existed," *Dark Back of Time* begins an odyssey into the nature of identity and of time. Marías weaves together autobiography, a legendary kingdom, strange ghostly literary figures, halls of mirrors, a one-eyed pilot, a curse in Havana, and a bullet lost in Mexico.

#### The Arthurian Legend in the Literatures of the Spanish Peninsula

The 3G Way is an introduction to the management style developed by three Brazilian entrepreneurs who took over some of the main icons of American capitalism: Anheuser Busch, Heinz and Burger King.

#### The Yoga System of Health and Relief from Tension [Illustrated Edition]

This carefully constructed and thorough collection of theoretical engagements with Augusto Boal's work is the first to look 'beyond Boal' and critically assesses the Theatre of the Opressed (TO) movement in context. *A Boal Companion* looks at the cultural practices which inform TO and explore them within a larger frame of cultural politics and performance theory. The contributors put TO into dialogue with complexity theory – Merleau-Ponty, Emmanuel Levinas, race theory, feminist performance art, Deleuze and Guattari, and liberation psychology – to name just a few, and in doing so, the kinship between Boal's project and multiple fields of social psychology, ethics, biology, comedy, trauma studies and political science is made visible. The ideas generated throughout *A Boal Companion* will: expand readers' understanding of TO as a complex, interdisciplinary, multivocal body of philosophical discourses provide a variety of lenses through which to practice and critique TO make explicit the relationship between TO and other bodies of work. This collection is ideal for TO practitioners and scholars who want to expand their knowledge, but it also provides unfamiliar readers and new students to the discipline with an excellent study resource.

#### Avalovara

This book is a unique storehouse of surprising, thought provoking, fascinating and useful facts about human speech and the written word.

#### Blended Learning in Higher Education

'The seed of madness exists in all of us and with no warning may attack, overpower, crush and bury us ...' Policarpo Quaresma - fastidious civil servant, dedicated patriot, self-styled visionary - is a defender of all things Brazilian, full of schemes to improve his beloved homeland. Yet somehow each of his ventures, whether it is petitioning for Brazil's national language to be changed, buying a farm to prove the richness and fertility of the land, or offering support to government forces as they suppress a military revolt - results in ridicule and disaster. Quixotic and hapless, Quaresma's dreams will eventually be his undoing. Funny, despairing, moving and absurd, Lima Barreto's masterpiece shows a man and a country caught in the violent clash between illusion and reality, hope and decline, sanity and madness.

#### Mad Maria

Welcome to São Paulo, Brazil, in the not too distant future. Water is scarce, garbage clogs the city, movement is restricted, and the System—sinister, omnipotent, secret—rules its subjects' every moment and thought. Here, middle-aged Souza lives a meaningless life in a world where the future is doomed and all memory of the past is forbidden. A classic novel of "dystopia," looking back to Orwell's 1984 and forward to Terry Gilliam's *Brazil*, *And Still the Earth stands* with Loyola Brandão's *Zero* as one of the author's greatest, and darkest, achievements.

#### Dark Back of Time

This book offers a clear and constructive account of the nature and attributes of God. It addresses the doctrine of God from exegetical, historical, and constructive-theological perspectives, bringing the biblical portrayal of God in relationship to the world into dialogue with prominent philosophical and

theological questions. The book engages questions such as: Does God change? Does God have emotions? Does God know the future? Is God entirely good and loving? How can God be one and three? Chapters correspond to the major metaphysical and moral attributes of God.

### The 3G Way

Playing Boal examines the techniques in application of Augusto Boal, creator of Theatre of the Oppressed, Brazilian theatre maker and political activist. This text looks at the use of the Theatre of the Oppressed exercises by a variety of practitioners and scholars working in Europe, North America and Canada. It explores the possibilities of these tools for "active learning and personal empowerment; co-operative education and healing; participatory theatre and community action." This collection is designed to illuminate and invigorate discussion about Augusto Boal's work and the transformative potential of theatre. It includes two interviews with Boal, and two pieces of his own writing.

#### The Guns of John Moses Browning

A “well-researched and very readable new biography” (The Wall Street Journal) of “the Thomas Edison of guns,” a visionary inventor who designed the modern handgun and whose awe-inspiring array of firearms helped ensure victory in numerous American wars and holds a crucial place in world history. Few people are aware that John Moses Browning—a tall, humble, cerebral man born in 1855 and raised as a Mormon in the American West—was the mind behind many of the world-changing firearms that dominated more than a century of conflict. He invented the design used in virtually all modern pistols, created the most popular hunting rifles and shotguns, and conceived the machine guns that proved decisive not just in World Wars I and II but nearly every major military action since. Yet few in America knew his name until he was into his sixties. Now, author Nathan Gorenstein brings firearms inventor John Moses Browning to vivid life in this riveting and revealing biography. Embodying the tradition of self-made, self-educated geniuses (like Lincoln and Edison), Browning was able to think in three dimensions (he never used blueprints) and his gifted mind produced everything from the famous Winchester “30-30” hunting rifle to the awesomely effective machine guns used by every American aircraft and infantry unit in World War II. The British credited Browning’s guns with helping to win the Battle of Britain. His inventions illustrate both the good and bad of weapons. Sweeping, lively, and brilliantly told, this fascinating book that “gun collectors and historians of armaments will cherish” (Kirkus Reviews) introduces a little-known legend whose impact on history ranks with that of the Wright Brothers, Thomas Edison, and Henry Ford.

#### News Circular

'The best American political biography since Obama's *Dreams from My Father*' Guardian NEW YORK TIMES BESTSELLER A mayor's inspirational story of a Midwest city that has become nothing less than a blueprint for the future of American renewal. Once described by the Washington Post as "the most interesting mayor you've never heard of," Pete Buttigieg, the thirty-seven-year-old mayor of South Bend, Indiana, has now emerged as one of America's most visionary politicians. With soaring prose that celebrates a resurgent American Midwest, *Shortest Way Home* narrates the heroic transformation of a "dying city" (Newsweek) into nothing less than a shining model of urban reinvention. Elected at twenty-nine as the nation's youngest mayor, Pete Buttigieg immediately recognized that "great cities, and even great nations, are built through attention to the everyday." As *Shortest Way Home* recalls, the challenges were daunting: whether confronting gun violence, renaming a street in honour of Martin Luther King Jr., or attracting tech companies to a city that had appealed more to junk bond scavengers than serious investors. None of this is underscored more than Buttigieg's audacious campaign to reclaim 1,000 houses, many of them abandoned, in 1,000 days and then, even as a sitting mayor, deploying to serve in Afghanistan as a Navy officer. Yet the most personal challenge still awaited Buttigieg, who came out in a South Bend Tribune editorial, just before being re-elected with 78 percent of the vote, and then finding Chasten Glezman, a middle-school teacher, who would become his partner for life. While Washington reels with scandal, *Shortest Way Home*, with its graceful, often humorous, language, challenges our perception of the typical American politician. In chronicling two once-unthinkable stories, that of an Afghanistan veteran who came out and found love and acceptance, all while in office, and that of a revitalized Rust Belt city no longer regarded as "flyover country" Buttigieg provides a new vision for America's shortest way home.

Published in Open Access with the support of the Swiss National Science Foundation Historical criticism of the Bible emerged in the context of protestant theology and is confronted in every aspect of its study with otherness: the Jewish people and their writings. However, despite some important exceptions, there has been little sustained reflection on the ways in which scholarship has engaged, and continues to engage, its most significant Other. This volume offers reflections on anti-Semitism, philo-Semitism and anti-Judaism in biblical scholarship from the 19th century to the present. The essays in this volume reflect on the past and prepare a pathway for future scholarship that is mindful of its susceptibility to violence and hatred.

#### Shortest Way Home

Working-class white and black women practiced the same Depression survival strategies across race. Archived 1930s interviews with 1,340 Chicago, Cleveland, Philadelphia, and South Bend women, and letters from domestic workers articulate common resourcefulness in employment, housework, and acquisition of relief. Institutionalized racism in employment, housing, and relief, however, assured that Black women worked harder, but fared worse.

Since the publication of Gustavo Gutiérrez's 1973 groundbreaking work, *A Theology of Liberation*, much has been written on liberation theology and its central premise of the preferential option for the poor. Arguably, this has been one of the most important yet controversial theological themes of the twentieth century. As globalization creates greater gaps between the rich and the poor, and as the situation for many of the world's poor worsens, there is an ever greater need to understand the gift and challenge of Christian faith from the context of the poor and marginalized of our society. This volume draws on the thought of leading international scholars and explores how the Christian tradition can help us understand the theological foundations for the option for the poor. The central focus of the book revolves around the question, How can one live a Christian life in a world of destitution? The contributors are concerned not only with a social, economic, or political understanding of poverty but above all with the option for the poor as a theological concept. While these essays are rooted in a solid grounding of our present "reality," they look to the past to understand some of the central truths of Christian faith and to the future as a source of Christian hope. Following Gustavo Gutiérrez's essay on the multidimensionality of poverty, Elsa Tamez, Hugh Page, Jr., Brian Daley, and Jon Sobrino identify a central theological premise: poverty is contrary to the will of God. Drawing on scripture, the writings of the early fathers, the witness of Christian martyrs, and contemporary theological reflection, they argue that poverty represents the greatest challenge to Christian faith and discipleship. David Tracy and J. Matthew Ashley carry their reflection forward by examining the option for the poor in light of apocalyptic thought. Virgilio Elizondo, Patrick Kalilombe, María Pilar Aquino, M. Shawn Copeland, and Mary Catherine Hilkert examine the challenges of poverty with respect to culture, Africa, race, and gender. Casiano Floristán and Luis Maldonado explore the relationship between poverty, sacramentality, and popular religiosity. The final two essays by Aloysius Pieris and Michael Signer consider the option for the poor in relationship to other major world religions, particularly an Asian theology of religions and the meaning of care for the poor within Judaism.
