## Intro

Draw a small circle as a guide for the dragonfly's head.

Draw an oval under the head as a guide for the dragonfly's midsection or thorax.

The thorax should be almost twice as tall as the head and a bit thinner than the head.

Under the thorax, draw a very long oval-like shape as a guide for the dragonfly's abdomen.

The abdomen should be about three times as tall as the thorax and should be skinnier than the thorax.

Draw a series of lines on the sides of the thorax as guides for the legs.

The first pair of legs are near the top of the thorax pointing up. Bend the lines to indicate the joints.

The second pair of legs are right below the first, and they point to the sides more. They are similar to wide letter V's.

The third and final pair of legs are closer to the bottom of the thorax, and they point downward.

Draw two long oval-like shapes on the sides of the thorax as guides for the first pair of wings.

Draw the guide for the other front wing on the right side the same way.

Draw two more long oval-like shapes below the first set as guides for the second pair of wings.

The length of the two sets of guides should be about the same. Sketch lightly at first to get the shape right.

The guides for the lower set of wings are also lower than the thorax, and their edges don't touch

Draw the eyes inside the original circle.

Draw the mouth parts on the front of the head.

Draw a series of curved lines in between the eyes for the back of the head.

Use the top set of oval-like shapes as guides to draw the front pair of wings.

Follow the basic path of the guide as you darken the line that makes up the wing.

Dip the line a bit near the middle of the wing and make the tip pointier.

Make the right side of the wing pointier to show where it connects to the thorax.

Add a few lines near the top part of the wing as the detail for the veins.

Now tighten the shape of the front wing on the right side the same way.

Darken the line to create the wing as you follow the basic path of the guide.

Add the lines inside the wing too. Remember to try to draw each side the same for a sense of symmetry.

Use the second set of Oval-like shapes as guides to draw the pair of hindwings.

Make the top right end of the wing pointier and connect the point to the thorax.

Follow the basic path of the oval-like shape as you darken the line for the wing. The hindwings should be a bit wider than the forewings.

Add a few lines inside the wing near the top part for the veins.

Draw the hindwing on the right using the same technique.

Use the initial shape as a guide as you darken the lines and remember to make the shape wider.

Draw the veins near the top.

Use the oval under the head as a guide to draw the thorax.

Draw a curved line at the top to connect the thorax to the head. Draw a line down the middle of the thorax for detail.

Add a few shapes down the middle of the thorax as the detail on the segments.

Add more lines on the sides of the oval to finish the detail on the thorax.

Use the lines on the sides of the body as guides to draw the legs.

Follow the path of the lines and make the legs thicker and darker.

Even though the legs are under the wings, they are still visible because the wings are very transparent.

Use the long oval at the bottom as a guide to draw the abdomen.

Darken the outside of the shape and add a line across the middle for detail

optional): You can stop here for a Sketchy look or erase as much as you can of the initial guide lines for a cleaner look.

Don't worry about erasing all of them. It's okay to leave some behind. Re-draw any final sketch lines that you may have accidentally erased.

optional): Add some value throughout your drawing for extra detail.

Vary the pressure on your pencil to get different degrees of tonal value

Try to add the value smoothly for a sleek feel instead of a rough texture.

Don't forget to pause the video to draw at your own pace.

Add some lines and value at the tips of the wings. It's always a good idea to use reference for accuracy when drawing.

Add a few more lines in the wings for more veins. Even though the wings are transparent, you can still add some value as shown in the final drawing.

"Realistic characters, natural dialogue, well-integrated historical detail and a surprise twist ending mark this as superior mystery fare."—Publishers Weekly STARRED review To think of Chicago in the 1930s is to conjure up pictures of the Chicago Outfit and its earlier crime lords like Capone. Even the storied history of the Cubs or of the city's merchant princes and philanthropists can't quite shake the city's gritty image. It's time for a new look. And here it is, a mystery with a warm family of widowed mother and four daughters at its core. Elodie, the Browne family bread-winner, lacks direct experience with crime, but she's full of curiosity, sharply observant, and nobody's fool. ### Tears of the Dragon

Ever since I was a wee little girl, my father would tell me enchanted stories about the world around us generating from stories passed down through family. I have a strong Celtic ancestry. I grew up and became an elementary teacher. I soon realized that many of my students lacked the magical stories. I began to tell them of the dragons, and the magic they possess. Soon I started to illustrate them, and over time this book came into life. This story starts off with a Silver Tongue (an old story teller), passing on a story describing the magic inside the dragon tear. The illustrations are whimsical, not too detailed, mimicking the imagination that occurs when one hears the Silver Tongue's story. This book has been a favorite for my students for years

### Tears of the Dragon

Tears of the Dragon is the story of a small group of GIs and civilians in Vietnam who worked to find a better life for the people of that country. Scattered military Civil Affairs teams, together with usually young U.S. State Department officers, spent their days in remote villages of South Vietnam to improve conditions of life and to begin the process of democratic election of public officials. The war characterized in Tears of the Dragon has received virtually no notice. It was a war of construction of schools and rural medical clinics, digging of wells, and introduction of new agricultural techniques. It was carried out by idealistic GIs and American civilians who often spoke the Vietnamese language and who worked every day with the Vietnamese people.

### Silver Tongue's the Legend of the Dragon Tears

To think of Chicago in the 1930s is to conjure up pictures of the Chicago Outfit and its earlier crime lords like Capone, to envision a gangsters' and bootleggers' haven in the Roaring Twenties and in the Depression that ended them. Even the storied history of the Cubs or of the city's merchant princes and philanthropists can't quite shake the city's gritty image. It's time for a new look. And here it is, a mystery with a warm family of widowed mother and four daughters at its core. Elodie (Elodie - rhymes with "melody"), the Browne family bread - winner, lacks direct experience with crime, but she's full of curiosity, sharply observant, and nobody's fool. So when a man stumbles into a party given by a Chinese importer of jade and antiques where she is working "for a lark - and extra cash" and utters a dying word - mingdow - she doesn't turn aside. Instead she begins to connect the murder with some odd doings in the office building where she works, events that began one night when the elevator door opened on the wrong floor. Elodie's curiosity is up, and quickly bumps into a surprising intrusion of Chinese politics into the heart of Chicago. Her investigation sweeps the whole Browne family into unfamiliar and not very welcome territory but leaves them with a taste for excitement sure to be slaked in future cases drawn by the master hand of author Holly Baxter.
