A Druid's Herbal of Sacred Tree Medicine

An in-depth look at the history, herbal uses, and spiritual aspects of the sacred trees in the ancient Celtic Ogham Tree Alphabet • Details the 20 trees of the ogham alphabet and their therapeutic and magical virtues • Examines the Forest Druid practices associated with each tree as well as the traditional uses in Native American medicine • Describes the Celtic Fire Festivals and how each tree is featured in these holy days • By the author of A Druid's Herbal for the Sacred Earth Year The Druids used the ancient Ogham Tree Alphabet to work magic and honor the dead, surrounding each letter with medicinal and spiritual lore. Poets and bards created a secret sign language to describe the letters, each of which is named for a tree or a plant. For centuries this language was transmitted only orally in order to protect its secrets. Combining her extensive herbal knowledge and keen poetic insight, Ellen Evert Hopman delves deeply into the historic allusions and associations of each of the 20 letters of the Ogham Tree Alphabet. She also examines Native American healing methods for possible clues to the way ancient Europeans may have used these trees as healing agents. Druidic spiritual practices, herbal healing remedies, and plant lore are included for each tree in the alphabet as well as how each is used in traditional rituals such as the Celtic Fire Festivals and other celebrations. Hopman also includes a pronunciation guide for the oghams and information on the divinatory meanings associated with each tree.

A Druid's Herbal for the Sacred Earth Year

For the ancient Druids, the healing and magical properties of herbs were inseparable from the larger cycles of the seasons, the movements of the planets, and the progression of a human life. A Druid's Herbal shows the reader how to use herbs when creating rituals to celebrate festivals and significant life passages such as births, house blessings, weddings, funerals, and naming ceremonies. Drawing on extensive research and a deep personal experience with Pagan traditions, Ellen Evert Hopman explores the history and folklore surrounding the eight major Celtic festivals: Samhain, Winter Solstice,

Imbolc, Spring Equinox, Beltaine, Summer Solstice, Lughnasad, and Fall Equinox. Included in each discussion are complete instructions on the medicinal and magical uses of the herbs associated with each celebration. Using these Celtic traditions as examples, the author suggests ways to incorporate the symbolic and magical power of herbs into personal rituals that honor all phases of life from childbirth to last rites. Also included are chapters on how to prepare herbal tinctures, salves, and poultices; herbs used by the Druids; herbal alchemy and the planets; and the relationships between herbs and sacred places. Filled with practical information and imaginative suggestions for using herbs for healing, ceremony, and magic, this book is an indispensable and comprehensive guide to age-old herbal practices.

Describes the natural healing benefits of a variety of herbs divided into sections by the seasons in which they grow.

The Druid Isle

For Aífe, the beautiful adopted daughter of Drui healer Ethne and her warrior partner Ruadh, life revolves around the sacred beauty and ancient mystery of the Old Ways. Surrounded by lush, green trees and frolicsome wildlife, the Forest School has been the heart of her Druidic education and her beloved home. But to become a healer and priestess, she must leave behind all that she loves and journey to the Druid Isle . . . Handsome and spirited, Lucius is resolved to seek adventure outside of the Christian monastery where he was raised. Following a daring escape one night, Lucius arrives at a Pagan Gaulish village and discovers their gentle way of life. But a political firestorm is brewing, and Lucius is caught in the middle as the church and the Romans attempt to destroy everything the Druids hold dear. In his desperation to escape ruthless enemies and untold dangers, Lucius finds himself on the Druid Isle, where he will face the biggest decision of his life. Set on a third-century island off the coast of Scotland, this instructional Celtic tale delves deeply into the spiritual mysteries of the Druids, offering glimpses of Druidic daily life, herbal lore, and ancient rituals, along with a fascinating look at the Romans, Gauls, and Britons. Includes a Celtic/Druidic glossary. "One of the best features of the book is the small bits of old lore from the Druids scattered throughout . . . I would definitely recommend this book!"—Rev. Skip Ellison, Archdruid of Ár nDraíocht Féin (ADF) and author of *Ogham: The Secret Language of the Druids*

Priestess of the Forest

In the tradition of Marion Zimmer Bradley's *Mists of Avalon*, Ellen Evert Hopman weaves Druid history and spirituality into an engaging love story. This Bardic teaching tale is set in a fictional third-century Ireland when Christianity is sweeping across the Celtic Isles. During this time of crisis, love blooms between Ethne, a Druid healer, and her patient, a Fennid warrior. Their passionate affair suffers a tragic blow when Ethne is called upon to become the high queen. Told from the Druid perspective, Hopman recreates the daily life, magical practices, politics, and spiritual lives of the ancient Celts during this historic turning point. Druid holy days, rites, rituals, herbal lore, and more are brought to life in this Celtic fantasy--illuminating Druidic teachings and cultural wisdom.

Scottish Herbs and Fairy Lore

Many of the herbal and magical practices of the Scots are echoed in traditional Norwegian folk medicine and magic. This is a valuable resource book not only for the serious folklorist, but also for a wider audience interested in a deeper look at rural Scottish practices. Ms. Hopman has done an amazing amount of research, and her Scottish herbalism section is far more detailed than I've seen elsewhere. A "must have" for the northern European folklorist's library. Jane T. Sibley, Ph.D., author of *The Hammer of the Smith* and *The Divine Thunderbolt: Missile of the Gods*. Through her books, Ellen Evert Hopman lifts the veil between worlds of the present and the past. She guides the reader on a fascinating journey to our ancient Celtic history, simultaneously restoring lost knowledge and entertaining the reader. Be prepared to be educated and delighted. WOW! Ellen Hopman has given us a volume that belongs in Harry Potter's library. This wonderful collection of enchantments, faery lore and herbal potions, is presented by a practicing herbalist and (I suspect) magician. It is a useful manual of magic, an unusual tourist guide to Scotland, certainly a delightful read, and at the very least, a comprehensive and thoroughly footnoted collection of folk lore for humorless librarians and scholars. Matthew Wood MS (Scottish School of Herbal Medicine) Registered Herbalist (American Herbalists Guild) Every now and again, a book emerges from the waves of occult and magical authorship that delves into the deep and ancestral waters of old magic! This book is one of those rare occasions. From the lore of herbs to the blessing of stones; from avioding the elf-blast to healing through Faerie blessing - Ellen guides the reader through ancient groves of oral lore to discover a power and spirit that connects the reader to the oldest of magics, the earth and her elements. I am confident that the Scottish Ancestral Wise Ones, are renewed through this book and the old ways live once again! A Legacy of Druids

A book of conversations with prominent Druids from across Britain, the USA and other countries whose voices describe the basic beliefs, practices and struggles of the emerging Druid faith. Conducted in person and online in the late 20th century, these collected conversations provide a historic window into the movers and shakers of the modern Druid world.

Priestess of the Fire Temple

The Priestess of the Fire Temple follows Princess Aislinn, red-haired wild child of the High King of the Central Kingdom, as she makes her way in a world increasingly hostile to those who are not Christian. Raised in a community that observed both Pagani and Cristaidi mores, Druid-trained Aislinn is married off at age fourteen to a prince from Irardacht, the Northern Kingdom. Escaping her unhappy marriage, Aislinn finds herself engaged in a series of dangerous adventures and fateful encounters on her quest for true love. This uniquely Pagan novel explores the basic beliefs of the Indo-European Celts and the Druid path in an engaging and powerful way.

Secret Medicines from Your Garden

A guided exploration of herbal lore and healing plants found in yards, forests, meadows, and hedgerows

- Draws on traditional knowledge and remedies from around the world, including Native American, Celtic, and Egyptian traditions
- Provides simple recipes to safely make herbal remedies from local plants and honey for first aid, immune support, and treatment of common ailments
- Details the "triangle" formula-making system of William LeSassier
- Explains how to work with plant spirits, herbal astrology, and Animal Spirit Medicine

Weaving together ancient wisdom, mystical folklore, and modern plant research, master herbalist Ellen Evert Hopman explores the many uses of flowers, trees, common weeds, and ornamental plants for food, medicine, spiritual growth, and magical rituals. She reveals the herbal lore surrounding each plant, drawing on traditional knowledge and remedies from around the world, including Native American, Celtic, and Egyptian traditions. She includes recipes throughout so you can make medicines from wild and domesticated plants easily found in yards, forests, meadows, and hedgerows, and she discusses what to plant to ensure you have leaves, berries, and flowers all year. The author reveals how to quickly intuit an unknown plant's properties using the signatures of plants--universal indications and contraindications based on the form, color, and location of a plant. She includes an in-depth section on honey and Bee Medicine, allowing you to appreciate the labors of these plant-dependent insects. Exploring the magical role of herbs in ancient ritual, Hopman provides recipes for Egyptian temple incense and their sacred medicine known as "Kyphi" or "Kaphet," used to purify the body, banish insomnia, and promote vivid dreaming. She explores shamanic Plant Spirit and Animal Spirit Medicine as well as herbal astrology. She also explains the "triangle" formula-making system of her herbal mentor William LeSassier to help you develop custom herbal remedies tailored to a person's unique strengths and weaknesses. Showing how to easily incorporate wild plants into your life to receive their healing benefits throughout the seasons, Hopman reveals the power of the bounty that Mother Nature has provided right at our doorstep.

Healing Plants of the Celtic Druids

Following on from *Healing Power of Celtic Plants*, Angela Paine's latest book covers a new range of Celtic medicinal plants which are native to Britain, as well as a few plants, such as Sage and Rosemary, which were introduced by the Romans. Combining the latest scientific data on the healing properties of the herbs used by the ancient Celts with recent archaeological discoveries, written in a jargon-free, easy to understand narrative style and offering a botanical description of each plant, an outline of their chemical constituents, and advice on ways to grow, harvest, preserve and use each plant, *Healing Plants of the Celtic Druids* is an essential guide.

Being a Pagan

More than 60 pagan leaders and teachers describe in their own words what they believe and what they practice. • Addresses how Pagans view parenting, organized religion, and politics. • Introduces the wide range of possibilities within the neo-Pagan movement. • By Ellen Evert Hopman, author of *A Druid's Herbal for the Sacred Earth Year*; *Walking the World in Wonder: A Children's Herbal*; and *Tree Medicine, Tree Magic*. Who are the pagans and what do they stand for? Why would some of the members of the best educated, most materially comfortable generation of Americans look back to mystical traditions many millennia old? During the last few decades, millions of people have embraced ancient philosophies that honor Earth and the spiritual power of each individual. Ways of worship from sources as diverse as the pre-Christian Celts, ancient Egypt, and Native American traditions are currently helping their followers find meaning in life while living in the Information Age. In this book Pagan leaders and teachers describe in their own words what they believe and what they practice. From Margot Adler, an NPR reporter and author of *Drawing Down the Moon*, to Isaac Bonewits, ArchDruid and founder of a modern neo-Druidic organization, those interviewed in this book express the rich diversity of modern Paganism. Hopman's insightful questions draw on her own experiences as a Pagan and Druid as well as on her extensive research. With coauthor Lawrence Bond, she examines how Pagans address such issues as parenting, organized religion, and politics. The resulting dialogues illuminate the modern Pagan revival.

The Sacred Herbs of Spring

A practical guide to the celebration of Beltaine and the sacred herbs of spring • Explores the identification, harvest, and safe practical and ritual use of more than 90 plants and trees • Details rituals for honoring the traditional Gods and Goddesses of spring, such as the Goddess Chloris, the Goddess Flora, and the Daghdha • Reveals which herbs to use for luck, magic, protection, purification, abundance, fertility, and love as well as the herbs of the Faeries and Elves and herbs for journeying to the Otherworld and for contacting the High Gods and Goddesses The festival of Beltaine, May Day, is a celebration of the return of spring and the promise of summer, a time for love magic and spells for increasing the fertility of the land and the plants that grow upon it. Like Samhain in autumn, Beltaine is also a time when the veil between the physical and spiritual world is at its most transparent and the ancestors and denizens of the Otherworld easily interact with the world of humans. Presenting a practical guide to the celebration of Beltaine, Ellen Evert Hopman examines the plants, customs, foods, drinks, and rituals of May Day across many cultures. Discussing the gods and goddesses of spring, Hopman details the rituals for honoring them as well as traditional poems, prayers, incantations, folk rhymes, and sayings related to this time of year. She explores well dressing, the custom of honoring the source of sacred water by decorating a well. She also looks at Beltaine's association with Walpurgisnacht and Hexennacht, which fall the preceding evening. In the extensive section on the sacred plants of Beltaine, the author explores more than 90 herbs and trees, offering spells, rituals, and recipes alongside their medicinal healing uses. She reveals sacred woods suitable for the Beltaine fires and Beltaine flowers for rituals and spells. She explores herbs for luck, magic, purification, abundance, and love; herbs for protection, such as bindweed, elder, and St. John's wort; herbs of the Faeries and Elves, such as burdock and dandelion; and herbs for journeying to the Otherworld and contacting the high gods and goddesses. She also details the identification, harvest, and preparation of seasonal edible herbs, greens, mushrooms, and flowers. Woven throughout with mystical tales of folk, Faery, and sacred herbs, this guide offers each of us practical and magical ways to connect with Nature, the plant kingdom, and the Spirits that surround us in the season of spring.

It offers equal value to eclectics and solitary practitioners eager to incorporate more Earth-based spirituality into their own belief system.

Druidry Handbook

A practical guide to using the sacred herbs of Samhain for healing, divination, purification, protection, magic, and as tools for contacting the Spirits • Explores the identification, harvest, and safe practical and ritual use of more than 70 plants and trees sacred to the Celtic festival of Samhain, the origin of Halloween • Details the most effective plants for protection from the mischief of Fairies, herbs for releasing the Dead, and visionary plants for divination and shamanic work • Provides instructions and suggestions for a traditional Dumb Supper, offerings to the Land Spirits, Samhain rites, and recipes for the sacred foods of Samhain The ancient Celts separated the year into two halves, the light half and the dark half, summer and winter. The festival of Samhain, from which the modern holiday of Halloween originates, marks the transition from summer to winter, the end of the Celtic year, a time when the barriers between the physical and spiritual world are at their most transparent. The herbs most characteristic of this time have specific magical and healing properties that echo the darker aspect of the year and offer potent opportunities for divination, contact with ancestors and Land Spirits, and journeys in the Otherworld. Presenting a practical guide to the sacred herbs and trees of Samhain, Ellen Evert Hopman details the identification, harvest, and use of more than 70 plants and trees in healing, divination, purification, magic, and as tools for contacting the Spirits wandering the landscape at this liminal time of year. She explores the most effective plants for protection from the mischief of the "Good Neighbors," the Sidhe or Fairies, as well as herbs for releasing the Dead when they are trapped on this plane. Identifying visionary plants used to induce ecstatic trance, Hopman explores how herbs have been used for millennia to aid in psychic travel and shamanic work and shows how one might safely use plants to take a voyage to the Otherworld. Drawing on her knowledge as a master herbalist, she also includes cautions to prevent harm and misidentification, along with advice on basic etiquette and common sense approaches to herb magic. Detailing the history, rites, and traditions of Samhain, Hopman explains how to make an offering to the Land Spirits and provides instructions for the traditional Samhain ritual of the Dumb Supper, complete with recipes for the sacred foods of Samhain, such as Soul Cakes, Colcannon, Boxty bread, and dandelion wine. Woven throughout with mystical tales of folk, Fairy, and sacred herbs, this guide offers each of us practical and magical ways to connect with Nature, the plant kingdom, the Spirits that surround us, and the turning of the year.

The Sacred Formulas of the Cherokees

The Ogham Grove is a system of working with the twenty trees of the Celtic/Druidic Year Wheel. The Ogham Grove can be used as a divination system but it is much more than that - it is a way of creating an individual connection with sacred sites and the spirits of the land... and ultimately a connection to our true selves.

Tree Magic

The Hedge Druid's Craft blends the traditions of Wicca, Witchcraft and Druidry into a spiritual path that uses the techniques of "hedge riding" to travel between the worlds, bringing back wisdom and enchantment into our everyday lives. It is about working with boundaries, with a foot in either world, living around the edges and working with liminal times and places. For those whose paths meander and often overlap, and those who would not be constrained nor confined by labels, yet who seek some definition, this book is for you. If you are interested in Witchcraft, Wicca or Druidry, this book will sing to your soul.

The Ogham Grove

Reveals the origins and history of the New England witch hysteria, its continuing repercussions, and the multilayered practices of today's modern witches • Shares the stories of 13 accused witches from the New England colonies through interviews with their living descendants • Explores the positive role witches played in rural communities until the dawn of the industrial age, despite ongoing persecution • Includes in-depth interviews with 25 modern witchcraft practitioners, interwoven with practical information on the sacred calendar, herb lore, spells, and magical practices New England has long been associated with witches. And while the Salem witch trials happened long ago, the prejudices and fears engendered by the witchcraft hysteria still live on in our culture. What forces were at work that brought the witch hysteria quickly from Europe to the new American colony, a place of religious freedom--and what caused these prejudices to linger centuries after the fact? Weaving together history, sacred lore, modern practice, and the voices of today's witches, Ellen Evert Hopman offers a new, deeper perspective on American witchcraft and its ancient pagan origins. Beginning with the "witch hysteria" that started in Europe and spread to the New World, Hopman explores the witch hunts, persecutions, mass hysteria, and killings, concluding that between forty and sixty thousand women and men were executed as witches. Combining records of known events with moving interviews with their descendants, she shares the stories of 13 New England witches persecuted during the witch trials, including Tituba and Mary Bliss Parsons, the Witch of Northampton. Despite the number of false accusations during the witch hysteria in the New England colonies, Hopman reveals how there were practicing witches during that time and describes the positive role witches played in rural communities until the dawn of the industrial age. Exploring how the perception and practices of witches has evolved and expanded over the centuries, Hopman also includes in-depth interviews with 25 modern-day practitioners from a variety of pagan faiths, including druids, wiccans, Celtic reconstructionists, and practitioners of the fairy faith. Emerging from their insights is a treasure trove of practical information on the sacred calendar, herb lore, spells, and magical practices. Bringing together past and present, Hopman reveals what it really means to be a "witch," redefining the label with dignity and spiritual strength.

• Explains how to work with baneful herbs through rituals and spells, as plant spirit familiars, as potent medicines, and as visionary substances • Details the spiritual, alchemical, astrological, and symbolic associations of each plant, its active alkaloids, how to safely cultivate and harvest it, and rituals and spells suited to its individual nature and powers • Shares plant alchemy methods, magical techniques, and recipes featuring the plants, including a modern witches' flying ointment Part grimoire and part herbal formulary, this guide to the Poison Path of occult herbalism shares history, lore, and information regarding the use of poisonous, consciousness-altering, and magical plants. Author Coby Michael explains how, despite their poisonous nature, baneful herbs can become powerful plant allies, offering potent medicine, magical wisdom, and access to the spirit realm. Detailing the spiritual, alchemical, astrological, and symbolic associations of each plant, the author explores their magical uses in spells and rituals. He focuses primarily on the nightshade family, or Solanaceae, such as mandrake, henbane, and thorn apple, but also explores plants from other families such as wolfsbane, hemlock, and hellebore. He also examines plants in the witch's pharmacopoeia that are safer to work with and just as chemically active, such as wormwood, mugwort, and yarrow. The author shares rituals suited to the individual nature and powers of each plant and explains how to attract and work with plant spirit familiars. He offers plant alchemy methods for crafting spagyric tinctures and magical techniques to facilitate working with these plants as allies and teachers. He shares magical recipes featuring the plants, including a modern witches' flying ointment. He also explores safely cultivating baneful herbs in a poison garden.

The Druid Plant Oracle

Every plant has its own distinct spiritual energy or its own deva. Devas are the radiant light of the Universal Divine that permeates all things. Since the earliest times, people were aware that all of Nature is divine. Great and wondrous myths were told that explained the presence of divine energy as it exists in thunder, in trees, and in sunlight. Some of this lore was the foundation of religions. But the simpler stories, such as those of a plant's energy, explored day-to-day matters like health and love. This understanding of the world has been preserved in folklore through poems, chants, ditties, and spells. From researching the history of folklore from cultures around the world, patterns emerge that enable us to approach the true nature of plants' devas. This compendium presents the lore and the corresponding usage for 330 magickal herbes. Great care was taken only to include folklore that was documented as authentic. You will meet many new herbes in this text and explore fascinating magickal and religi uses, but most of all, you will come to respect the divine that surrounds your everyday life.

Pagan Portals - Herbs of the Sun, Moon and Planets combines herbalism with astrology and explains how the ancient herbalists like Culpeper assigned specific herbs to planetary rulers. Various characteristics were used to decide what planet ruled particular herbs. Mars is the God of War and herbs that have this planet as their ruler display aggressive properties and appearance, such as thorns or red

berries or sap. Dragon trees have red resin known as Dragon's Blood. The book is divided into sections for each group of herbs. So there are seven divisions for herbs of the Sun, Moon, Mars, Venus, Mercury, Jupiter and Saturn, each containing seven herbs. Herbs of the Sun, Moon and Planets will be essential reading for herbalists and gardeners, and will also appeal to those with a general interest in the occult and astrology.

"From New York Times bestselling author Dr. Lissa Rankin comes a groundbreaking guide offering hope for healing when all else has failed"--

Pagan Portals - Herbs of the Sun, Moon and Planets

An illustrated collection of stories and activities to celebrate traditional Pagan festivals and the changing of the seasons • Shares original stories, based on traditional folktales and designed to be read out loud, for each festival, such as Samhain, Yule, Imbolc, Beltaine, Lughnasad, the solstices, and the equinoxes • Includes traditional games, hands-on projects special to each holiday, and seasonal recipes to enjoy the tastes and smells of each feast day • Discusses the sacred symbolism, magical lore, and cultural practices within each story and the healing and magical uses for the trees and flowers featured Once upon a time, when only candles lit the inside of homes and people traveled on foot or by horse, the family would finish their supper, wash and dry the dishes, and sit down before the hearth to hear a tale. These tales were not only entertaining but also passed down both history and tradition to the next generation. And as the wheel of the year turned, these tales also served to teach the children about the holy days and festivals of the Pagan calendar and the Gods and Goddesses who reigned over the changing seasons. In this beautifully illustrated book, Ellen Evert Hopman shares rich stories drawn from traditional folktales, hands-on crafts, and seasonal recipes to help families and classrooms learn about and celebrate the traditional Pagan holy days and festivals of the sacred earth year. Designed to be read out loud, the stories are complemented with pronunciation guides and translations for foreign words. You will learn of the Cailleach, the ancient Goddess of winter; La Befana, the Italian new year's witch; Eostre, the Goddess of spring; Wianki, the Polish feast of wreaths at midsummer; Yule among the Vikings; Garlic Sunday; and many other deities and celebrations. For each story, the author includes traditional games, hands-on projects special to the holiday--from crafting magical wands, runes, and brooms to flower crowns, Brigid's Crosses, and corn dollies--as well as seasonal recipes, allowing families to enjoy the tastes, smells, and sounds associated with the feast days and celebrations.

Sacred Medicine

The Book of Altars and Sacred Spaces shows you how to curate over 50 magical spaces throughout your home that artfully and intentionally observe seasonal celebrations. Anjou Kiernan, creator of the Light of Anjou online witchery shop and apothecary and named "One of the Magical Women on Instagram You Should Be Following" by Refinery 29, shows you how to create altars and sacred spaces based on the Wheel of the Year. Simple rituals and DIY projects give you the tools you need to mindfully reflect upon the seasonal Sabbats and holidays. Whether building a sacred fire pit for Beltane or Feast Table for the Autumn Equinox, learn how to honor the sacred doorways of the year and bring magic into your daily life.

Once Around the Sun

Introduction to specific teacher plants used by shamans in a variety of cultures to facilitate spirit communion, healing, divination and personal discovery.

The Book of Altars and Sacred Spaces

The first and only Druidic book of spells, rituals, and practice. The Druid Magic Handbook is the first manual of magical practice in Druidry, one of the fastest growing branches of the Pagan movement. The book breaks new ground, teaching Druids how to practice ritual magic for practical and spiritual goals within their own tradition. What sets The Druid Magic Handbook apart is that it does not require the reader to use a particular pantheon or set of symbols. Although it presents one drawn from Welsh Druid tradition, it also shows the reader how to adapt rites and other practices to fit the deities and symbols most meaningful to them. This cutting edge system of ritual magic can be used by Druids, Pagans,

Christians, and Thelemites alike! This is the first manual of Druidic magical practice ever, replete with spell work and rituals.

Shamanic Plant Medicine - San Pedro

One of the most fascinating aspects of the Celtic culture was their use of plant medicine, and central to this was the use of herbs. Many of these herbs are still used clinically today to treat a range of conditions. Each of them is covered here in depth, explaining its history, myth and symbolism and also how to grow, preserve, prepare and use them. Uniquely, here, their properties are examined together with the scientific evidence that they work. Learn from the practice of our ancestors to improve your own health and lifestyle.

The Druid Magic Handbook

Druidry is a wonderful, spiritually fulfilling life path. Through the magic that is Druidry, we build deep and abiding relationships with the natural world around us, and through our connection to the natural environment we walk a path of truth, honour and service. We aim to immerse ourselves in the present moment, in the present environment, in order to share in the blessing that is the cycle of life. Throughout the ages, people have withdrawn from the world in order to connect more fully with it. This book is an introductory guide for those who wish to walk the Druid path alone, for however long a time. It is about exploration and connection with the natural world, and finding our place within it. It covers the basics of Druidry and how, when applied to the everyday life, enriches it with a sense of beauty, magic and mystery. This book is for those people who feel called to seek their own path, to use their wit and intelligence, compassion and honour to create their own tradition within Druidry.

The Healing Power of Celtic Plants

This is an in-depth study of the herbal and magical properties of our most common trees. It's a book of considerable caring and expertise - a book to affirm our deeper values more openly and in daily life, with practical herbal remedies and recipes for healthy body, mind and spirit. Tree Medicine, Tree Magic presents both an homage to the deepest mysteries, and a down-to-earth how-to-do-it herbal.

Near One Cattail

In Near One Cattail: Turtles, Logs and Leaping Frogs, vibrant illustrations and rhyming text offer readers a chance to learn about the wetlands and many of the creatures that make their habitat there. Children will gain an appreciation for the world around us through this fun and interesting topic. Anthony Frdericks visits the wetlands inhabited by leaping frogs and zip-zipping dragonflies. Teachers will appreciate the accurate science and great illustrations. Kids will appreciate the humor and cadence of the text, while learning how the wetland creatures interact in their "community." Backmatter includes: Field notes with further information on the animals in this book.

Near One Cattail

Discusses plants and animals found in wetlands and how they interconnect.

Near One Cattail

Describes the creatures and plant life found in a bog, including dragonflies, frogs, cattails, turtles, ducks, and snakes.

The Spirit of Cattail County

A heart-expanding, magical debut from one of the most exciting new voices in the grand tradition of southern literature. "Wrapped in prose as mysterious and lovely as a southern breeze lies a story about loss that haunts, and the ghosts that help us heal. This story is a treasure."—Natalie Lloyd, New York Times bestselling author of *A Snicker of Magic* Sparrow doesn't have many friends. Some kids believe her house near the swamp is haunted. Others think there's something "unusual" about her. But Sparrow's not lonely -- she has a best friend who's always with her. He sits with Sparrow on her porch swing. He makes her smile by playing pranks in church. Yet Sparrow is the only one who can see him . . . because the Boy is a ghost. So when her mama passes away, Sparrow doesn't give up hope. After all, if the Boy can linger after death, then surely Mama can return as well. But the Boy has a secret of his own, one that Sparrow will need to uncover before the ghost will lead her to Mama. To solve the mystery, Sparrow joins forces with some unlikely allies -- Maeve and Johnny, siblings from a family of town outcasts -- and Elena, a visiting child fortune-teller. With its loving depiction of small town life, and characters who feel like old friends, this magical debut will enchant you, dazzle you . . . and make you feel at home.

Nonfiction Reading Power

How can you help students find meaning in informational texts and become independent strategic readers and thinkers? *Nonfiction Reading Power* gives teachers a wealth of effective strategies for helping students think while they read material in all subject areas. Using the best children's books to motivate students, Adrienne Gear shows teachers how help students zoom-in, question and infer; find the main idea, make connections, and transform what's on the printed page. Key introductory concept lessons for each of the five reading powers provide valuable insight into the purpose of each strategy. The book also explores the particular features of nonfiction and offers lists of key books organized around strategies and subject areas.

The Teacher's Handbook

This book _an all-in-one sourcebook of practical ideas and solutions_ provides simple, convenient strategies for every classroom teacher. A creative range of 'inside information' is offered for teachers to dip into and savor for their professional and personal pursuits.

Using Paired Text to Meet the Common Core

Teaching students to make connections across related texts promotes engagement and improves reading comprehension and content learning. This practical guide explains how to select and teach a wide range of picture books as paired text--two books related by topic, theme, or genre--in grades K-8. The author provides mini-lessons across the content areas, along with hundreds of recommendations for paired text, each linked to specific Common Core standards for reading literature and informational texts. In a large-size format for easy photocopying, the book includes 22 reproducible graphic organizers and other useful tools. Purchasers also get access to a Web page where they can download and print the reproducible materials.

Roy Underhill is America's best-known master of traditional woodcraft. Creator of the popular PBS series *The Woodwright's Shop*, Roy has inspired millions--from professional craftsman to armchair woodworker--with his talent, knowledge, and enthusiasm. Roy returns here with his third book. *The Woodwright's Workbook* features step-by-step instructions for a selection of projects from his television series. All projects are illustrated with photographs and measured drawings. Included here are plans for tool chests, workbenches, lathes, and historical reproductions of items for the home: a six-board

chest, rustic chairs with cattail seats, a churn for the kitchen, and the Rittenhouse hygrometer. Roy also explores building barns, forges, boats, and even colonial fortresses. A wonderful feature of this book is Roy's own translation of the humorous fifteenth-century poem *The Debate of the Carpenter's Tools*. He also provides a fascinating and useful 'field guide' to American tool marks that shows how to identify the specific tool used by the marks it left. Whether Roy is an old friend or a new acquaintance, let him be your guide to the world of traditional woodworking.

Spatial, Temporal, and Hydrological Variations in Phosphorus Retention in a Large Cattail Wetland

Introduce kids to the critters that make their home in a decaying old tree with this beautifully illustrated and accessible picture book. Perfect for preschool and kindergarten classrooms and science curriculums for the study of nature, forests, trees, and life cycles. An ancient oak is hit by a lightening strike, and tumbles to the ground! But don't worry—the tree is now home to all kinds of critters. Introduce young readers to termites, salamanders, garter snakes, and more animals and insects that make the rotting tree their home with a lighthearted building rhyme and realistic illustrations. Backmatter includes: Field Notes: information and fun facts about each animal mentioned in the book Activities and Projects: outlines for education projects for classrooms and families such as a day-in-the-life of an animal journal exercise, creating a picture collage of animal cut-outs from magazines, and a photo journal

Studies of Consumptive Use of Water by Phreatophytes and Hydrophytes Near Yuma, Arizona

When 14-year-old Julia realizes she can no longer live with her mother, she moves in with her father and grandmother, who live in a rural Washington town. Julia begins to make friends--but one thing continues to elude her. Who is the girl she sees out in the marshes, the one who is singing? The author combines mystery and romance to create an absorbing and entertaining novel.

The Woodwright's Workbook

All around us there are wild plants good for food, medicine, clothing, and shelter, but most of us don't know how to identify or use them. Delena Tull amply supplies that knowledge in this book, one of the first focused specifically on plants that grow in Texas and surrounding regions of the South and Southwest. Extensively illustrated with black-and-white drawings and color photos, this book includes the following special features: Recipes for foods made from edible wild plants. Wild teas and spices. Wild plant dyes, with instructions for preparing the plants and dyeing wool, cotton, and other materials. Instructions for preparing fibers for use in making baskets, textiles, and paper. Information on wild plants used for making rubber, wax, oil, and soap. Information on medicinal uses of plants. An identification guide to hay fever plants and plants that cause rashes. Instructions for distinguishing edible from poisonous berries. Detailed information on poisonous plants, including poison ivy, oak, and sumac, as well as herbal treatments for their rashes.

Edible and Useful Plants of Texas and the Southwest

Photojournalist Paige Thompson has sworn off love after being caught off guard by a cheating boyfriend and the end of their five-year relationship when she's beckoned home to New Jersey. Her parents have been in a tragic accident, which has left her father lying in the morgue and her mother in an ICU bed.

Once back in Meadowbrook, Paige, one to never let a good intrigue go unsolved, makes it her mission to uncover the unusual circumstances surrounding her father's death. Her meddling, twists and turns, and leads her into more than one dangerous situation, which not only reveals the truth of the accident but the truth behind the disappearance of a fourteen-year-old boy twenty-five years earlier whose body was unearthed during the construction of a reservoir. As Paige's investigation crisscrosses the lines of right and wrong, she exasperates ruggedly good-looking homicide detective Nathan Edgemont, a former childhood friend. As their lost friendship is rekindled and transformed, sparks ignite. Her closed heart is further confused when the confident, handsome attorney Michael Wilson charms her with his attentions. Rumors had circulated for decades about the hauntingly beautiful Cattail Marshlands which surrounded the small town of Meadowbrook near the Jersey Shore. So when Paige learns that a reservoir has been built in the center of the marshlands, she is naturally drawn back to her childhood playground and all the secrets it holds.

Northern Paiute–Bannock Dictionary

High on a remote butte, a young Sioux waits. Though daring in battle, skillful, and strong, he cannot be a man until his spiritual vision comes. When it appears, he must interpret it correctly to know who he is, and he must deserve it, or continue to be called No Name. No Name has his vision, a glowing white mare who walks among the stars. She tells No Name his destiny and how to achieve it. He must pass through hostile camps, storm, and fire, risk his life many times to become Conquering Horse, chief of the Sioux. Conquering Horse is the first of Frederick Manfred's five volume series, the Buckskin Man Tales.

Northwest Anthropological Research Notes

This beautifully illustrated book is soon to be a classic that parents, teachers, and kids will all want! Readers travel the globe following a drop of water on its journey through the water cycle. The seamless blending of science and story make learning fun, and readers will be inspired to appreciate the world around us! Follow a drop of water on its natural voyage around the world, in clouds, as ice and snow, underground, in the sea, piped from a reservoir, in plants and even in an animal. The science of the water cycle and poetic verse come together and leave readers with a sense of connection to all living creatures. Great for anyone looking for books: about the water cycle and clouds for kids. to give as a gift for the kids in their life. as home schooling materials. for use in schools and libraries!

Hunting Whitetail Deer

In the past two centuries, cowbirds have increased in numbers and extended their range across North America, while many of the native songbird species whose nests they parasitize to raise their young have declined. This timely book collects forty essays by most of the principal authorities on the biology and management of cowbirds. The book's goals are to explore the biology of cowbirds, the threats they pose to host species and populations, and the management programs that are being undertaken to minimize these threats. The book is organized into five sections, each with an extended editors' introduction that places the contributions in a broad, up-to-date setting. The sections cover: ? The changing abundance of cowbirds and the ways in which their numbers can be estimated. ? Host choice by cowbirds, the negative effects of cowbirds on particular host species, and the daily patterns of cowbird behavior. ? Behavioral interactions between cowbirds and specific host species. ? Patterns of cowbird abundance and host use across varying landscapes. ? Management programs designed to control cowbirds and protect threatened songbirds. James N. M. Smith teaches at the University of British Columbia in Vancouver. Terry L. Cook works for the Nature Conservancy in Seattle. Stephen I. Rothstein teaches at the University of California, Santa Barbara. Scott K. Robinson holds joint appointments at the Illinois Natural History Survey and the University of Illinois, Champaign. Spencer G. Sealy teaches at the University of Manitoba.

As a youngster, trying to find his place in life, a quirky flying squirrel realizes he is able to adapt with chickens after being plucked from a pickle barrel. Abandoned by his mom and dad, he is taken 'under the wing' of a rooster, eventually striking out in search of his true squirrel identity. He finds himself once again adapting, this time with a family of humans. And so the adventure begins... As mother/daughter team, Norma Mullican and Missy Zivney have written a children's book that everyone is sure to enjoy. Norma and her husband, Mike, live in Montalba, Texas where they own and operate a wedding venue. Together they have two children and six grandchildren. Pets include their puppy dog and "Rooster" the flying squirrel. Missy and her husband, Chris, along with their four children, live in Whitehouse, Texas. Missy has a degree in Deaf Education with an endorsement in early childhood. She is currently the Children's Minister at Pleasant Hill Baptist Church in Tyler, Texas. Together, they have combined their life experiences and love of children into a heartfelt book, filled with difficult decisions to help children understand how to cope with everyday situations they may encounter.

Invasive Plants of the Upper Midwest is an informative, colorful, comprehensive guide to invasive species that are currently endangering native habitats in the region. It will be an essential resource for land managers, nature lovers, property owners, farmers, landscapers, educators, botanists, foresters, and gardeners. Invasive plants are a growing threat to ecosystems everywhere. Often originating in distant climes, they spread to woodlands, wetlands, prairies, roadsides, and backyards that lack the biological controls which kept these plant populations in check in their homelands. Invasive Plants of the Upper Midwest includes more than 250 color photos that will help anyone identify problem trees, shrubs, vines, grasses, sedges, and herbaceous plants (including aquatic invaders). The text offers further details of plant identification; manual, mechanical, biological, and chemical control techniques; information and advice about herbicides; and suggestions for related ecological restoration and community education efforts. Also included are literature references, a glossary, a matrix of existing and potential invasive species in the Upper Midwest, an index with both scientific and common plant names, advice on state agencies to contact with invasive plant questions, and other helpful resources. The information in this book has been carefully reviewed by staffs of the Wisconsin Department of Natural Resources Bureau of Endangered Resources and the University of Wisconsin-Madison Arboretum and other invasive plant experts.

Environment and Subsistence of Chaco Canyon, New Mexico

Drawing on detailed data from their sixteen-year study of red-winged blackbirds in the marshes of Washington's Columbia National Wildlife Refuge, Beletsky and Orians analyze the information red-wings use to make breeding-season decisions and the consequences these decisions have for lifetime reproductive success. Because male and female redwings make different, and often independent, decisions—males focus on territory acquisition and maintenance, while females must choose when and where to nest and how much energy to invest in reproduction—the authors have taken the novel approach of studying the sexes separately. Using analyses of observational data combined with field experiments and game-theoretical models, the authors provide new insights into the complex patterns of reproductive decision-making and breeding behavior in redwings. This book will be of interest to all who study social animals, including behavioral ecologists, evolutionary biologists, and ornithologists.
